Wednesday, December 2—Hale Area School, 7:30 p. m.

We are pleased to bring you news of five prospective home economics extension groups, the time and place of their coming meetings. Would you like to join one of them? If so, call me or the hostess and tell us you would like to come. We really would like to have you do so.

Four of the groups will share in this year's holiday meeting on making candles. The fifth group will be exchanging Christmas ideas.

A sixth prospective group wanting afternoon meetings met last week with Mrs. Charles Hughes, 805 Fourth Street, Tawas City, for the candle making lesson. They would like to hear from several more women who would prefer an afternoon meeting.

Huron Shores Homemakers and Tawas Homemakers groups are sponsoring two of these prospective groups—a sort of "big sister" plan to help them learn the in's and out's.

A new group was organized at Whittemore in October with the help of Mrs. August Miller, who has been a group member before. Candle making will be the topic for their next meeting. Mrs. Miller and Mrs. Theodore Bellville are preparing the lesson. Call Mrs. Miller if you would like to join them then.

It's apple season in Michigan. Use Delicious for salads. Northern Spies are wonderful in pie and Meltoash or Jonathan do well in either role.

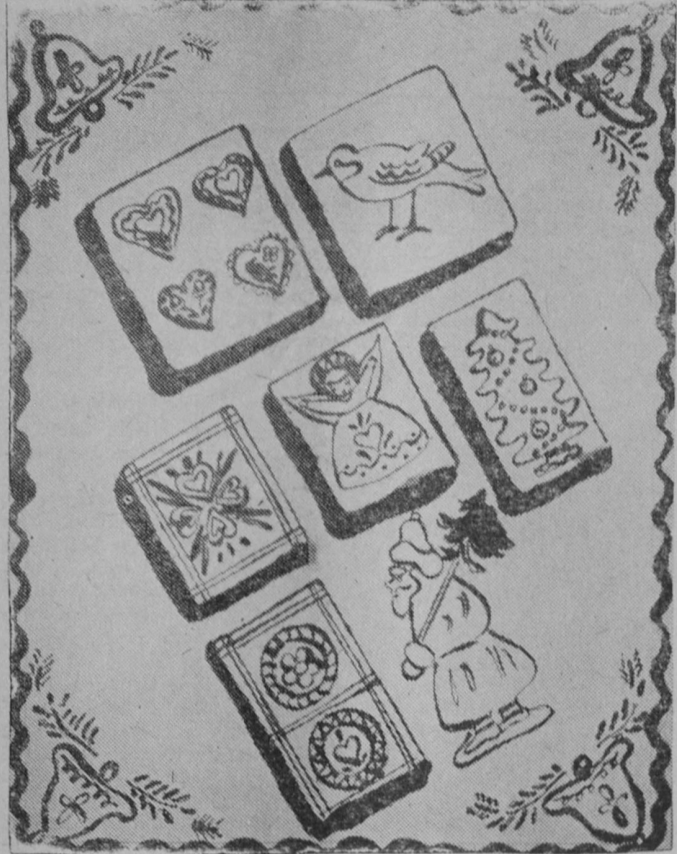

An automatic washer likes to work with soft water. If the water is hard, a softening system is a good purchase to consider. Next best help is a non-precipitating package softener. Such a softener may be called a "water conditioner" or "water normalizer." It is used in the wash water and in the deep rinse waters.

When the recipe calls for one cup of fresh milk you probably reach for homogenized milk in the refrigerator. Have you found the texture and cooking time of some recipes changed by the type of milk you use?

Take sauces, for instance. Those made from homogenized milk are stiffer and show more fat separation than those made from non-homogenized milk.

Homogenized milk in cornstarch pudding produces a more granular texture. You may notice more curdling in soups, gravies, scalloped potatoes, cooked cereals and custards. Baked and soft custards made with homogenized milk take 15 to 20 minutes extra cooking time. It just takes longer for the heat to penetrate homogenized milk.

The Pentagon in Washington, D. C. has more than three times the floor space of the Empire State Building.

Apply Imagination to Cookie Mold for Tiny Works of Art

Cookie baking can be an art—if you have the right equipment, a few good recipes and imagination. In East Tawas, you may find equipment that is in itself an art—hand-carved cookie presses from Bavaria, so beautiful that they may be used for wall plaques. Made from very hard fruit wood, they develop a nice finish from regular use. As decorative pieces only, they may be finished in a variety of ways, such as with printers ink to bring out the pattern, depending on the intricacy of design.

These treasures are to be found at Sammy's Gift Shop, 902 East Bay Street. With the cookie presses, Sammy provides at no cost recipes suitable for use with the presses. The cookies may be decorated with frosting and fruit and vegetable colorings using brushes and palette as would an artist.

SPRINGERLE COOKIES

- 2 eggs
1 cup sugar
2 to 2½ cups flour
1 teaspoon baking powder
¼ teaspoon salt
2 tablespoons butter
½ teaspoon grated lemon peel
2 teaspoons anise seed

Beat eggs until very thick. Add sugar gradually, beating until completely dissolved. Sift flour, measure two cups, then sift with baking powder and salt into egg mixture. Add butter, kneaded until flexible (not soft). Mix well. Stir in lemon peel, more flour if needed to make stiff dough. Cover, chill several hours. On

a lightly floured board, roll cookie dough one-fourth inch thick. Press out the dough with floured wooden molds. Make cuts between the cookies and place them on a greased cookie sheet, sprinkled with anise seed. Cover with a clean cloth and let stand at room temperature for about 24 hours, to set the design. Bake in a moderate oven (350 degrees) for 15 minutes or until very slightly browned at edges.

Let cookies cool, cover with a cloth and leave until softened (probably a week or 10 days) then store in a covered container. Makes about two dozen medium sized cookies.

ORNAMENTAL FROSTING

- 1 egg white
1¼ cups sifted powdered sugar
¼ teaspoon vanilla

Beat egg white until stiff but not dry; add sugar and vanilla and blend well. Stir in a few drops of water if needed to make the frosting the right consistency for spreading or painting. For colored frosting: To small amounts of white frosting, add a few drops of food coloring. Add more sugar if needed.

Man With Many Jobs
Preventing violations and enforcing Michigan's game laws are the primary duties of conservation officers such as Douglas Webb who is staked out for poachers who have hidden deer nearby. However, each officer maintains a busy pace performing other services. Through personal contacts and group meetings he works to keep citizens in his district abreast of the why's and whereof's of these laws. A great deal of his time and effort is directed at teaching students the rules of safety, sportsmanship and conservation. He is often called upon to search for lost persons or to deliver emergency messages. A written test will be held November 21 for young men interested in this man-sized career. The Conservation Department hopes to fill 25-30 vacancies late next spring.

School Athletic Activities at Tawas Turn to Basketball

With the 1959 grid season now past history, athletic activities at Tawas Area High School turn to basketball as Varsity Coach Bill McIntosh gets his Braves squad ready for the season opener here December 4 against West Branch.

Tawas Area again faces another big rebuilding job as only one member from the starting five of last year's co-championship team returns this year. The situation, however, is "normal" as Tawas Area has had to rebuild nearly complete teams for the past two seasons.

McIntosh will have to replace such players as Ray Moore, all-conference sharp-shooting guard who was named to the all-state second string. Others who departed via graduation were Bill Mick play-maker who received all-conference honorable mention honors; Bob Watts, another all-conference honorable mention recipient, and Gary Brackenbury, speed merchant of last year's starting five. Also graduating were Bob Foco and Chuck Fairfield.

Only starter returning from

last year is Dwayne Ulman, senior guard, who is expected to become one of the better shots in the conference this year. Tawas also has three letter winners returning who saw limited service last year. They are Center Larry "Doc" Anschuetz, Forward Arnie Stump and Forward Pete Bolen. The lone sophomore on the first five will be Guard Herman Rollin.

Although other spots on the 12-man squad are still "up for grabs," McIntosh expects that three places will be filled by Duane Sanders, Terry Priebe and Ken Pitts. Other varsity candidates include Jim LeViere, Don Humphrey, Al Moore, John Sass and Lowell Long.

Although Tawas Area had plenty of speed last year, its offense depended mainly on the shooting accuracy of Moore, Mick and Ulman from the outside and Watts from under the basket.

This year, Tawas will have more height than last year with Anschuetz, Stump and Bolen all measuring over six feet tall.

Speed will be furnished by Ulman and Rollin.

Tawas' bench will also have a considerable amount of height with both Priebe and Pitts standing over six feet tall.

Coach McIntosh said that the success of the Braves this year will depend greatly on the play of Anschuetz and Stump. "They are both inexperienced but, if they come through, we should have as good a team this year as last."

Only time will tell and the Braves have two weeks of practice remaining before the season opener. A practice scrimmage will be held against Alpena Catholic Central this Friday afternoon.

'Not a Serious Problem'

Railroads tell the public a story about "featherbedding" and the Interstate Commerce Commission another. That's apparent from testimony given last year by former Chairman Howard G. Freas of the ICC at a Senate committee hearing.

Freas told the senators that in a rate investigation conducted by the ICC, at which many railroad officials testified, they "gave the definite impression that so-called featherbedding was not a serious problem on their lines."

ONE RAIL PRESIDENT WHO TOLD THE TRUTH

"In my opinion, the so-called featherbedding of railroad wages has been greatly exaggerated by railroad executives. There is very little so-called featherbedding."

—President H. W. Von Willer of the Erie Railroad, testifying at an Interstate Commerce Commission hearing, Kansas City, Missouri.

JOHN ARMSTRONG
John Armstrong of Detroit, one time Tawas City business-man, died October 15. Funeral services were held October 17 at Redeemer Presbyterian Church. The Rev. Edwin Lineburger conducted the services. Interment was in Grandlawn Cemetery with last rites by Friendship Lodge, F and AM.

Mr. Armstrong was born March 30, 1873, at Edinburgh, Scotland. For a number of years, he operated a furniture store at Tawas City. The store was in what is now known as the Slaven building at the intersection of Mathews and Lake Streets. Leaving here in 1912, he established an undertaking business at Detroit.

Surviving are his son, Robert Armstrong, and daughter, Mrs. John Rasmussen.

Michigan Posed by Water Problems

Although it boasts the most plentiful supply of fresh water in the United States, Michigan is faced with water problems. Many of these problems are created by conflicting multiple uses and reuses for domestic, industrial and agricultural supply, waste disposal, power generation, navigation and recreation. Increased water needs for irrigation and industry pose a major hurdle. Complex demands from an ever-expanding population will exert increased pressure on the Water Wonderland in the years ahead.

Dear Editor:

Reference is made to your editorial in the November 11 issue. We have appreciated your fairness in editing our labor dispute and would like to present our viewpoint on the issues which you have outlined.

In regard to your feeling that the union's business is also everyone's business, you bring up a problem that we always have to contend with. We have come to expect, for instance, that the company knows about issues, persons, opinions and votes cast within 10 minutes of the time that a membership meeting is adjourned. Now in order for you to understand our feeling about this, let me ask you this question—"What would happen to the person involved if the company discovered that the union was getting accurate accounts of what was discussed in meetings of company officials?"

Now in regard to this special meeting. Since previous reports on this meeting have already been published locally, we would like to clear up one glaring misrepresentation. The vote taken was in connection with a change of policy for our negotiating committee. The vote was heavily in favor of carrying on the policies under which we have been operating and was very gratifying to us.

The next issue you brought up was that the strike issues have become clouded to the people of the community. Well, here they are again, in a nut shell:

1. Our wages are on an incentive plan which depends upon efficient production;
2. The company has failed to provide the proper coordination and supervision to insure efficient production after promising to do so.

In this regard, I have talked with Mr. Guest personally and recently he indicated to me that there is some evidence to support our claims of production difficulties in the plant. I can only hope that this feeling on Mr. Guest's part will be translated into more business-like production methods and a milder attitude toward negotiating with the working force.

The last paragraph in your editorial brought up the issue of "head-banging." In reply to this, I would simply like to recall for you what happened in our last try at negotiation, in a meeting held with the company on October 27. At that time, the union presented three separate proposals to the company. All three proposals suggested lower wage adjustments than our original proposal to the company. The company's reaction to all three proposals can be summed up in two words—no comment.

If any head-banging has been going on, we submit to you that it has not been intentional on our part. Thank you again for your straightforward presentation of our labor dispute situation.

Maggie 'Comes' to Town!

"Maggie," a chubby little lass, came to town Tuesday, accompanied by members of the Bay City Kiwanis Club. She will remain here until next Monday when she leaves for Harrison, the next stop on her state-wide tour.

promote inter-club activities among Michigan Kiwanis Clubs. A special proclamation accompanied the porker, signed by Kiwanis Governor Sidney Main. By official decree, each club must keep Maggie until she has gained at least six ounces, then four or more members are to take her to the next community.

Would Put Chamber Dues on 'Pay in Advance' Basis

As a means of giving the Tawas Chamber of Commerce an accurate working figure when setting up a budget for seasonal promotions, a suggestion was made at last week's meeting of the board of directors which would put its membership on a pay in advance basis.

Although the idea is to be brought up again for further study, it was suggested that members who have paid 1959 dues receive a certificate for 1960 with a notation that regular payment of the 1960 dues would entitle a member to all privileges and area advertising through 1961.

After that time, all payment of regular dues would show a continuing membership through the following year or, in other words, dues would be paid one year in advance.

This system has always been in effect with the exception of the advanced membership certificate, as all members are considered in good standing through the greater part of the current season. In addition, to allow for an accurate working figure when setting up the budget, it was thought that such a plan would be advantageous in that a membership drive could be made after September of each year with better results.

Arguments against the suggestion were that some members would not consider payment in 1960, having already received a certificate. However, if this happened and members waited until 1961 to pay their dues, they would not be eligible for a 1961 certificate and listings which would be mailed to all members having paid dues in 1960.

This suggestion is to be brought up again at the next meeting before presenting it to the new board.
