WORK CONTINUES during the winter months on the new 21/2 million dollar Oscoda Area High School on River Road. Edward Davison Sr. of Davison and Son Builders, Incorporated, Tawas City, general contractor, said Monday that dollar-wise, the school is about 65 percent completed. Between 40 and 50 men, including crews for the general, electrical and heating contractor, are at work on the building. It is scheduled for completion in late August. A national winner for architectural design, a unique gunite facia follows the roof line of the structure as pictured above on the south wing of the building. Davisop said it was the largest school building under construction anywhere in the state at the present time.—Tawas Herald Photos.

## Assigned to Army Aggressor Force at Fort Riley, Kansas

PFC Haldon G. Charters, son of Mr. and Mrs. James H. Charters, 809 Towerline Road, Whittemore, is currently assigned to The Aggressor Center, Fort Riley, Kansas, and has the distinction of being a member of an army organization unique in the military service today.

The Aggressor Center was established in 1946 to train army personnel to act the part of a realistic enemy force known as 'Aggressor" during field training exercises. The aggressor concept of training was evolved as the result of a need to provide more adequate intelligence training and to instill an awareness that any future enemy would differ from our own forces. To achieve the required realism, aggressor forces wear distinctive uniforms, employ different tactics and use a special language known as Esperanto.

Charters, assigned to the center's headquarters company, tered the army in December 1959 and was last stationed at Fort Leonard Wood, Missouri.

The 23-year-old soldier was graduated from Whittemore High School in 1954 and attended Michproblems of disunity and in igan College of Mining and Technology, Houghton.

Herodotus, the Greek historian, said it in the 5th century, B.C., and you'll find it today inscribed on the main post office in New York City: "Neither snow, nor rain, nor heat, nor gloom of night stays these couriers from the swift completion of their appointed rounds." With the Christmas rush not far behind us, it's a good time to pay tribute to those who day in, day out, in fair weather or foul, see that the mail gets through. Your postman deserves a pat on the back, but he'll settle for a smile ... Incidentally, the motor truck plays a vital part in the distribution of the mail, serving the length and breadth of Michigan, from the most densely populated cities to the most remote rural areas.
