MICHIGAN IS EVERYTHING FOR INDUSTRY

The people of Michigan are proud of their state's industrial accomplishments. Its manufacturing plants produce everything from automobiles to xylophones. One reason is that Michigan has so much of what industry needs.

Michigan has abundant sources of both raw and semi-finished materials. Michigan possesses unmatched production know-how in both management and labor. Michigan has great market advantages. Michigan has livability! Water? Michigan is rightly named the Water Wonderland.

This is the first in a series of advertisements to be printed as a public service by this newspaper, each advertisement to describe one of Michigan's advantages for industry. The series will show the attractions our state offers, what it personifies for industry; in reality, what MICHIGAN IS.

Help carry Michigan's message to the nation. Clip these ads and mail them to people in other states with your own comment. Let's talk up Michigan and its advantages for industry. Together, we can assure a greater future for all of us.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

BEST OF THE HERALD DURING 1960-The four pictures above are considered to be among the best photographs published by the Herald during the past year. Subjects ranged from graduation, to a Tawas City woman who received a birthday message from Mrs. Dwight D. Eisenhower, a visit by a porcupine and

adoption of the 50-star American flag. During 1960, the Herald published a total of 756 local pictures, which averages out to slightly more than 14 per issue. All plates were produced by the Herald's own photoengraving department; -Tawas Herald Photos

New March of Dimes Enlists Millions In Battle to Prevent Crippling Diseases

Beginning Jan. 2 and throughout the month, millions of Americans will enlist in the annual offensive to prevent crippling diseases by joining the 1961 New March of Dimes.

In thousands of communities -crossroads, hamlets, towns, great cities—special ceremonies will mark the start of The National Foundation's campaign for dimes and dollars to combat birth defects, arthritis and polio; to pursue research into these and allied medical problems, and to train health workers.

Climaxing the 1961 New March of Dimes will be the Mothers' March, held on the evening of Tuesday, Jan. 31 in most areas, during which more than a million women and other volunteers will make home-tohome calls asking support to help prevent crippling diseases. Participants in the Mothers' March will wear a lapel identification badge and they will leave in every home an educa-tional pamphlet of "Do's and Don'ts" relating to birth defects and expectant mothers, and another dealing with warn-ing signs and symptoms of arthritis.

The goal of the 1961 New March of Dimes, to cover need-ful expenditures in research, patient aid and professional education, is \$45 millions. As education, is \$45 millions. As always, a heavy financial bur-den on The National Founda-tion and its 3,100 chapters is the cost of old polio cases. (In 1960, patient-aid outlays to some 40,000 victims totaled ap-proximately \$13,250,000.) Most communities in January will stare a "kickoff" ceremony

The National Foundation's Teen Age Program (TAP), is up will stage a "kickoff" ceremony in which local dignitaries and to her pretty chin in New March of Dimes balloons, to be other personalities will partic- sold throughout January.

other personalities will partic-ipate. Chief purpose of these events will be to call attention again to the magnitude of the expanded program of The Na-tional Foundation and to re-emphasize that one of every 16 infants in the U.S. is born with a significant birth defect; that fully 11 million in the nation are afflicted with some form of heumatism including arthritis; rd that the staggering costs i bolio will continue in 1961. Sold throughout January. Members of TAP (Teen Age Program) and other young people across the country will be active in their local areas in January in organizing colorful special events. Among these will be coffee parties, airlifts, sales of March of Dimes rain-bow crutches and balloons and bowling and other sports events. They will also help address the 38 million New March of Dimes
