Pre-Trial Set on Damage Suit Against Gypsum Co.

Pre-trial on nearly 2½-million dollars worth of damage claims against National Gypsum Company will be heard Friday, December 1, before Iosco Circuit Judge Allan C. Miller.

Asking for judgment on claims for damages are Dr. Malvern F. Obrecht, the Rev. Fr. Robert Neuman and Arthur L. Johnson.

The three seek judgments for damages allegedly caused to their property by lake freighters which anchor at National Gypsum's "Port Gypsum" installation, 1¼ miles south of Tawas City.

It is understood here that several property owners have also filed damage claim suits in Bay City Federal Court. National Gypsum is a Delaware corporation, with main offices at Buffalo, New York.

The company obtains gypsum rock inland and conveys it over the shallow waters of Saginaw Bay to reach ore ships of deep draft.

Plaintiffs in the suit claim that lake freighters cause water of Lake Huron to become muddy and roily; that water in front of their property is contaminated with unsanitary substances, particularly silt and fly ash from the ships, and from a stockpile of material on the west side of US-23.

They allege that they have been unable to use the waters in front of their property for boating and bathing, that the turning basin and dock structure have caused a change in the littoral drift and beaches have become eroded.

They also claim that they have (See DAMAGES, page 12.)

SV Winter Sports Committee Seeks More Members

Silver Valley Winter Sports Committee is looking for new members, according to Chairman L. G. (Ladd) McKay. Anyone interested in taking part in the winter sports promotion here is urged to attend the December 4 meeting at the Tawas Chamber of Commerce office.

Nearly everything is in readiness for the opening of the winter sports park. All that is needed now is snow, something which was scarce last year.

A work bee is to be held Sunday, December 3, to repair steps leading to the top of the toboggan hill.

New 'Book Nook' Opens at Oscoda

Grand opening of a new book store at Oscoda, The Book Nook, on Thursday, Friday and Saturday of this week, is announced by Douglas Tsipalou, owner.

The new store, located one block north of the Oscoda Bank will have free orchids for ladies, books for men, balloons for kids, coffee and cookies for all.

The firm's announcement is printed on page 8 of this newspaper.

10 Candidates File for Next Monday's Senatorial Race

A field of 10 candidates, seven Republicans and three Democrats, have filed for the special primary election next Monday, November 20, to fill the state senate vacancy caused by the death of Charles T. Prescott.

A runoff is to be held December 11 between the two party nominees for the 28th District seat, which had been held by Prescott since 1946.

Republican candidates are: Miller H. Durham of Hersey, a soft-drink bottler; George W. Myles, Tawas City insurance agent; Herbert J. Smith Jr., operator of an abstract business at Houghton Lake and former Roscommon County clerk and register of deeds.

Also, O. J. MacMurray, Gladwin insurance salesman; Lewis T. Hubbs, Gladwin auto and hardware dealer; Harold J. Hughes, lawyer and former Clare city attorney; and John DeGroot of Oscoda, past president of the Michigan Table Top Congress and former member of the Macomb County Board of Supervisors.

Democrats are: Martin J. Blumenthal, West Branch clothier; Duane E. Streeter, East Tawas, a furniture salesman at Oscoda, and Herbert C. Evans of Gladwin, technician employed by Dow Chemical Company at Midland.

Iosco and Gladwin, each with three persons filing, have more candidates than any of the other eight counties—Alcona, Arenac, Clare, Crawford, Ogemaw, Osceola, Roscommon and Oscoda.

Two of Iosco's candidates are listed on the Republican slate and one is a Democrat, the same is true for Gladwin.

Biographical sketches furnished to this newspaper by candidates are as follows:

HUGHES, former prosecutor of Clare County, has served as Republican County chairman as well as 10th Congressional District GOP chairman and a member of the State Central Committee. The fields of his activity have included education, government, church and fraternal societies as well as politics.

In school work, Mr. Hughes taught for 12 years in Michigan before beginning the practice of law at Clare in 1945.

EVANS was born and raised in Beaverton Township, Gladwin County. Graduated from Beaverton Rural Agricultural High School, he has taken correspondence courses from the University of Michigan and night courses from Central Michigan University.

He worked in the construction field for two years, served with the army's combat engineers in Africa and Europe and was parts manager for an auto dealer before joining Dow Chemical Company at Midland.

MACMURRAY, who was born in Tawas City in 1923, is Gladwin treasurer for the Republican party, is a member of the Gladwin City Council, served as county chairman for the American Red Cross for nine years. He graduated from St. Joseph's High School

in Tawas City and then spent three years with the aviation engineers in the Burma theater of operations during World War II. Upon his graduation, he was employed by McKay Sales Company, Tawas City, for four years and took courses in business administration from the University of Michigan Extension Service. He was an automobile dealer at Gladwin before entering the insurance business.

MYLES, a graduate of Tawas City High School, served eight years as superintendent of public

works and seven years as mayor of Tawas City. He also served six years on the board of education and on the board of supervisors. In 1960, he was supervisor of census for the 10th Congressional District. He was a candidate for the 28th Senatorial District seat for the state constitutional convention. He has been an insurance agent here for 15 years.

HUBBS, who presently represents the district as delegate to the constitutional convention, opposed Senator Prescott for the Republican nomination in 1960.

Action Taken Against Schoolboys Who Skip

Disciplinary action will be taken against those schoolboy (or girl) hunters who fail to go through the formality of obtaining

permission to be absent from school this week.

At Monday night's meeting, the Tawas Area Board of Education ordered the school administration to make an example of those students who failed to apply for permission and then skipped school for reasons of hunting.

Such disciplinary action would be in the form of lower marks for offenders. Skipping school would be treated as the usual unexcused absence and the student would receive zero for the day, or five Es.

This would mean that a C-average student who missed three days without a permit would possibly receive a D at the end of the six weeks. A D-average student would have failing grades. There would be no allowance to make up work.

Last year, the board of education closed school on the first day of deer hunting season. However, a large number of schoolboy hunters failed to show up for classes during the remainder of the week.

At the start of the current school year, the board adopted a policy of no time off for hunting. It then modified this action by setting up certain standards under which a student could take off from school to go hunting.

Those students who wished to be absent from school during the first week of hunting made application at the principal's office. A hunting permit, to be signed by

New Farm-Home Section This Week

Included with this week's issue, The Tawas Herald presents the first of its new monthly farm and home sections.

Printed by the rotogravure process, this sprightly new section will have many features of interest to homeowners.

Particular emphasis is placed in the November issue on foods for Thanksgiving. It includes many interesting recipes for holiday eating.

Higher Deer Kill Expected; Fewer Hunters in Woods

The slight trickle of cars bringing downstate hunters to the north country over the week-end had expanded more than tenfold by Tuesday morning as nimrods were getting ready for the opening of Michigan's deer season Wednesday morning.

It was expected by state police that traffic on US-23 north of Bay City would be crawling at a snail's pace after the main body of hunters hit the highways.

Conservation officials predict a larger kill of white tails this year than that bagged during the 1960 season.

Pointing to a mild winter last year, Conservation Officer Arthur G. Leitz said that the deer herd came through the cold weather in very good condition and there was a large fawn crop in the spring.

As many as 400,000 hunters are expected to take part in the 15-day 1961 deer season, although a smaller than usual turnout is anticipated on opening day because it is in midweek instead of on a week-end.

The state deer herd is estimated at about 700,000, split about equally between the Upper and Lower Peninsula.

This season will be the first since 1955 that doe and fawn have not been protected in most areas.

Last year, 47,000 bucks were killed. The state conservation department estimates this year's kill will exceed 50,000. A reduction in the sale of deer hunting licenses from 450,000 to 350,000 is forecast.

SIX OF THE NINE-MEMBER Tawas City Planning Commission are shown here following election of officers Monday night. Standing from left are Paul Chevis, John St. James and Bruce Myles. Seated from left are Nelson Thornton, Hugo J. Keiser Jr. and Arthur Wendt. Other members are Steven Ezo, James Dillon and Cecil Lamb.—Tawas Herald Photo.

HERALD TO PUBLISH EARLY NEXT WEEK

Due to the Thanksgiving Day holiday, The Tawas Herald will publish one day earlier than usual next week, and the publishers ask that all news and advertising copy be turned in as early as possible.

Crack Down on 'Charity Bingo' in Iosco County

Iosco County Sheriff Ivan O'Farrell warns this week that operation of so-called "charity bingo games" is strictly illegal, according to state law, and will be dealt with accordingly.

Prosecuting Attorney William McCready has authorized the issuance of warrants against any person or organization conducting bingo games.

Although Michigan voters turned down a referendum some years ago which would make bingo legal for charitable organizations, some law enforcement agencies, including the sheriff's department, turned their heads "the other way" when bingo games were sponsored by churches and other organizations.

"Bingo games have been a thorn in the side of the law for a long time," said O'Farrell. "It has been illegal as long as I can remember."

Action on closing down all bingo games came to a head last (See NO BINGO, page 12.)

BAND BOOSTERS TO MEET

The Tawas Area Band Boosters will conduct a meeting following the Tawas Area Parent-Teacher Association meeting November 20.

Hugo Keiser Heads New TC Planning Commission

Hugo J. Keiser Jr. was named chairman of Tawas City's planning commission at its first meeting Monday night. The new body was officially established by the Tawas City Council last week through passage of an ordinance.

Other officers of the commission elected Monday night were Paul Chevis, vice chairman, and Nelson Thornton, secretary.

The new organization, whose main purpose will be to prepare a master plan for adoption by the city, is to hold meetings the first Thursday of every month. It is expected that meetings will be held more often than this during its early organization.

In addition to Keiser, Chevis and Thornton, other members attending this week's meeting were Arthur Wendt, John St. James and Bruce Myles. Unable to attend the initial meeting were Steven Ezo, James Dillon and Cecil Lamb.

The meeting was officially opened by Mayor George Tuttle, who stated that the commission has a very important function. He said that usually it takes about two years to develop a master plan.

The commission is to meet soon with a planning consultant as the first step toward bringing about a master plan for the physical development of Tawas City.

Among other duties of the new body will be to sit as the city's zoning commission. This job had been performed by the city council, which will now act as the zoning appeal board.

As soon as the master plan is adopted, the commission will also take on the added responsibility of acting as the city plan board, which would have charge of accepting or rejecting new subdivisions.

Harris Barkman Devotes Full Time to New Business

Harris Barkman, long-time Tawas City businessman, announced Tuesday that he is moving to Oscoda to devote full time to his vending operation. Barkman became involved in this business a few years ago and has added to the operation in full-time vending.

In conjunction, a complete coffee and soft drink vending service was purchased this past week from the Select-A-Drink Company that has been located at Oscoda.

He also purchased the Iosco Amusement Company, in association with Ray French of Alpena, who operates the Northeastern Music Company, a similar service that has been in business for more than 20 years.

John Baynes, formerly associated with Iosco Amusement Company, will remain with the present management.

The building that will be occupied by these new businesses will be the former location of Voll Drug Store at Oscoda. It will house machines, products and offices for the management. Future plans are for further expansion in this field.

Mr. Barkman has been associated with Barkman Outfitting Company, Tawas City, since it was first established here in 1925. Barkman and his brother, Julius, started the business and built a store on the present location of Tawas Industries. This building was destroyed by fire in 1946 and was moved to the former Masonic Temple on US-23.

"I have greatly appreciated the patronage and many friendships made during this long business association in Tawas City," said Mr. Barkman.

Milton Barkman, who has been associated with the outfitting company for many years, will continue in the furniture business.

TC Kroger Store Observes Anniversary

Third anniversary of the Tawas City Kroger Store will be observed this week with special values, announces Gordon Dunham, manager.

In addition, 50,000 Top Value Stamps will be given away to customers who visit the store.

Retention of NEM Loop Announced by C Schools

Retention of the name, Northeastern Michigan Conference, as an organization to provide athletic competition among area class C schools, was announced Monday by Aaron Manwaring, principal of Whittemore-PreScott Area Schools.

At a meeting last Friday night, representatives of the class C schools reorganized the conference with Clarence Metzger of Beaverton as president and Earl Haight, Roscommon, as secretary-treasurer.

Last summer, class B schools of the NEM announced they were dropping out in order to form a new league, effective in the fall of 1962. The new league consists

of Standish-Sterling, West Branch, Gladwin, Pinconning, Tawas Area and Oscoda.

The reorganized NEM Conference will commence a full schedule next fall. Member schools will include Whittemore-PreScott Area, Arenac Eastern, Alpena, Beaverton, Roscommon and possibly Houghton Lake, which has been given until April 15, 1962, to decide on whether or not it will resume athletic competition.

There is a possibility that a seventh school, Meridian of Sanford, will join the conference.

One representative of each school is to meet at Whittemore-PreScott Area December 14, 6:00 p. m., to revise the league's constitution.

THIS AREA'S prep football season ended with a flourish last Friday night. The Oscoda Owls defeated the Tawas Area Braves, 18-7, in an exciting contest. This picture was snapped during halftime of that game. It shows Edward Rima, band director at Tawas Area, directing the combined Tawas and Oscoda Area bands in an impressive final salute to the gridiron heroes. One of the largest

crowds ever to witness a football clash in this area was on hand at the Oscoda field. (Tawas even took along its portable bleachers to help seat the crowd.) For action pictures of the Tawas-Oscoda game, please turn to page 9. A photo montage showing members of the all-Northeastern Michigan Conference team is printed on page 2.—Tawas Herald Photo.

Editorial . . . Myles Endorsed

Publishers of The Tawas Herald today announce their endorsement of George W. Myles, a Republican candidate for 28th District state senator in the special primary election called for November 20, to fill the seat vacated by the death of the late Charles T. Prescott.

Although it is quite natural for a newspaper to support a native son, we believe Mr. Myles' work in every phase of public life in his community, county and Northeastern Michigan area for many years makes him well qualified for the office.

Myles has served 25 years as mayor, superintendent of public works, secretary of the board of education and county supervisor. He was supervisor of census for the 10th Congressional District in 1960 and became well acquainted with the area and its problems.

In addition, he has promoted small industries to locate in the area to provide jobs and ease the tax on property owners. He has promoted recreational facilities in the area by development of public parks and water frontage for public use.

We believe that Myles would serve the entire district as a whole and is conscientiously dedicated to preserve strong local government.

There is little need to outline these qualifications of Mr. Myles, for he is well known here. But, there is a great need to stress the importance of this election to local voters.

Next Monday's primary election will see a full field of candidates in the 28th District. Each candidate will be seeking the full support of his home area. The eventual winning candidate will undoubtedly be determined on the strength of his "home vote."

This newspaper earnestly urges you to support George W. Myles for 28th District state senator. There have been many important elections in the past and there will be many in the future, but next Monday's primary election will be of prime importance to Iosco County and the Northeastern Michigan area.

BE SURE TO VOTE—MONDAY, NOVEMBER 20. POLLS OPEN AT 7:00 A. M. AND CLOSE AT 8:00 P. M.

21 Boys Received Varsity Awards at Hale Area School

Twenty-one boys received varsity awards at Hale Area High School's football bust held last Wednesday night at Northern Grill.

In addition, Coach Bill Morris presented several special awards and co-captains for next year were announced.

Receiving varsity letters were Darwin Wagner, Gary French, Ray Bannister, Charles Lilly, Bill Holzheuer, Allen Clements, Ron Brinkman, Dale Bielby, all seniors; Lynn Ellsworth, John Heilman, Richard Huess, Tom Kwant, juniors; Paul Kyser, Calvin Bell, Barton Caverly, Gene Adams, sophomores; David Bernard, Steve Dorsey, David Wood, Dan Ellsworth, Robert Hames, freshmen.

Wagner and Bell were named as all-conference end and tackle of the North Star League. Bielby was on the second string all-conference team while Holzheuer and Heilman received honorable mention.

The defensive award went to Wagner while Bielby was named most valuable player. Holzheuer won the oil can award.

Named co-captains for next year were Bell and Heilman.

Donald Dowling was master of ceremonies and Head Coach Herb Escott of Tawas Area High School was principal speaker.

Also honored was Dr. William Williams of Rose City, who has been team physician for the past two years.

Redman-DeWyse Top Vote Getters

Halfback Doug Redman, Gladwin senior, and Guard Randy DeWyse, Tawas Area junior, were top vote getters in last Tuesday night's all Northeastern Michigan Conference selections by coaches. Names were announced following the annual fall meeting held at Lixey's Restaurant, East Tawas.

Both Redman and DeWyse received seven votes from coaches. Next in line of voting was Tackle Larry Gerrow, Beaverton senior, who received six votes.

Other voting saw Al Charboneau, Pinconning senior, and Jim Newman, Beaverton senior, receiving four votes for backfield positions, while Pat O'Keefe, Standish-Sterling junior and Ed Collier, Tawas Area junior, each received three votes.

Tom LaClair, Standish-Sterling senior, and Shultz, Gladwin senior, each received five votes at the ends. Gil Badger, Beaverton senior, and Larry Wice, Gladwin senior, each received three votes for tackle slots. The other guard named was DeVilo Greenacre, Beaverton senior, who received two votes. Barry Leosh, Gladwin sophomore, was choice at center with two votes.

Receiving honorable mention were: Backs—Herriman, Tawas Area; Lewis, Pinconning; Offenbacher, Beaverton; Ouliet, Beaverton; Card, Gladwin; Schaffer, Standish-Sterling; Armstead, Whittemore; Line—Good, West Branch; Werth, Tawas Area; Jessup, Pinconning; Mason, Standish-Sterling; Heska, Standish-Sterling; Myers, Whittemore-Prescott; Keith, West Branch; Prescott, Whittemore-Prescott; Weishuhn, Standish-Sterling.

Secretary Henry Uhlmann of Pinconning has been authorized by the league to purchase medals for the all-conference team. Final standings found Gladwin on top with a 5-0 record. In second place was Tawas Area, 4-1; Beaverton, 3-2; Standish-Sterling, 3-2; Whittemore-Prescott, 2-3; West Branch, 1-3-1; Pinconning, 1-4; Roscommon, 0-5.

The 1961 season marks the final year for the Northeastern Michigan Conference. Class B schools of the conference have formed a new loop which will start its schedule next fall.

Needlecraft News by Nancy Baxter

Elegance is a sophisticated word—most definitely geared to the adult world. A great actress has elegance. A formal dining-hall has elegance. Brocade is elegant. Court manners of the 18th Century were elegant. But let's face it—whoever heard of an elegant baby?

That is—UP TILL NOW. Certainly, I've used some pretty standard descriptions for the most babies: cute, cuddly, happy, and little, big, bouncing, quiet. Not stylish—and not elegant. A glance at today's pattern, however, makes me add this description to the vocabulary. Look at the loop fringe, for instance—like diminutive fur, setting off collar, cuffs, bonnet and booties. (Maybe one reason this particularly impressed me is that our designer did the entire outfit in white wool with . . . lavender looping! What could look richer?) Pattern consists of double crochet over single crochet—then vice-versa—with a simple ribbing stitch for binding. Cord for bonnet and booties is done in chain stitch, knotted at the ends. Use a No. C crochet hook for all the items. And try Coats & Clark's Red Heart Baby Wool for a really fine texture. It's so soft baby will feel like he (or she) is being wrapped in luxury.

ALL THREE ITEMS ARE in one printed pattern—and it's free. While an offer—for your own expected arrival—or for a newcomer who belongs to friends of yours! This is the perfect thing: easy to crochet! And elegant to wear! Get the free directions now! Send your stamped and self-addressed envelope and ask for Leaflet No. C-330.

JUST X-IN THE SQUARES of gingham check for this sleek cat embroidered in cross-stitch. He's poised and content on this serving apron of J. P. Stevens gingham. But try him on skirts and loose over-blouses, too. Send now for the easy directions that will start you on a whole new world of cross-stitch fun! A stamped and self-addressed envelope will get you free Leaflet No. PE-1744.

Outstanding Students to be Honored at Program Nov. 20

A program honoring outstanding students by notifying them of election into the National Honor Society will be held Monday, November 20, 7:30-8:00 p. m., at Tawas Area High School cafeteria. This program is to precede the monthly meeting of the Tawas Area Parent-Teacher Association. Parents are invited to attend. In the past, selection of honor society students had been held during the annual awards night program. It was changed this year in order that more parents might attend. Guest speaker during the regular meeting will be Mrs. Gayle Dale, registered nurse of the Flint Foundation of Educational Services for Family Living. Her subject will be "Sex from Infancy Through the Teens." Members are asked to bring bulletins from the October meeting in order to vote on the proposed budget and revised bylaws.

Named State Librarian By Board of Libraries

Miss Genevieve Casey of Detroit has been named state librarian by the Michigan State Board of Libraries, Harvey Sherwood, board chairman from Kalamazoo, announced recently. Miss Casey, presently chief of the extension division of the Detroit public library, fills the post left vacant since the retirement of Mrs. Loleta Fyan last April. Prior to her present position with the Detroit public library which she has held since 1948, Miss Casey was an army librarian in Europe during 1946-1947. She previously spent nine years in various administrative positions with the Detroit public library. Miss Casey will assume her new duties January 2, 1962.

Participates in Honors Program at Arizona U

Jon Scott Bailey of Oscoda, one of 60 students representing nine departments in Arizona State University's College of Liberal Arts, is now participating in the honors program. The aim of the program is to ensure that specially capable students are given every opportunity to realize their full potential. They are given access to honors sections of large courses, honors colloquia and independent study. Bailey is majoring in psychology.

WELFARE CHAIRMAN SPEAKS AT EXTENSION MEETING

Benefits the county would derive by meeting its need for a medical care facility were explained by Clarence Everett, chairman of the Iosco County Board of Supervisors' welfare committee, at the November 8 Tawas Home-makers Extension Group meeting. Also on the agenda was a Christmas workshop held at the home of Mrs. William Wickert. Among the projects were creative aluminum etchings, inexpensive gift wrappings and tree decorations. Mrs. Ronald Hackborn assisted Mrs. Wickert as co-hostess. Mrs. Marshall Speaker was welcomed as the group's third new member this year. An exchange of gifts will lend a holiday air to the Christmas party December 13 at the home of Mrs. Joseph Palumbo.

HOUSEHOLD ARTISTS LEARN ABOUT LIQUID EMBROIDERY

Liquid embroidery was the lesson given by Mrs. James Gould at the November 8 meeting of Westside Household Artists. Mrs. Gould presented the eight members attending with a stamped doily during the lesson at her home. Plans were made for a special

Read John 4:21-30

"Come, see a man who told all that I ever did. Can this Christ?" (John 4:29. RSV.)

During a campaign of evangelism for youth in Sweden, a boy visited one of his friends of the same age to witness for the first time in his belief in Christ. Afterward, he gave this testimony: "I have been a confessed Christian for four years but now for the first time I realize what it really means."

We do not discover how wonderful it is to be a Christian until we begin to share our faith with others. Then our eyes are opened to God's riches which are in Christ. All the time His riches were there to be possessed, but we did not realize it. When we begin to tell others of our faith, Christ becomes more important to us than ever before, for He adds faith to our faith when we share it.

Yes, great blessings are to be found in sharing our faith in Christ with others. Thus, we spread the good news to those who need to hear the Gospel.

PRAYER

O Lord, help me this day not to put my lamp under a bushel, but cheerfully to profess Thy name and spread the Gospel. For the sake of Christ, who loves all mankind, and taught us to pray, "Our Father who art in heaven . . . Amen."

THOUGHT FOR THE DAY

The more you share the Gospel with others the more you receive for yourself and others. Karl Erik Hellberg, Sweden.

NEWEST ENTRY IN THE LOW PRICE FIELD THE NEW LEAN BREED OF DODGE

Here now is a full-size Dodge that will out-seat, out-save just about anything running on gasoline. And it's priced down the line with Ford and Chevrolet.

Dodge Dart! An Action-Economy car that will accelerate 7 percent quicker than last year's comparable model and do it on 5 percent less gas. We don't think you've ever driven anything like it! Handles neat and easy. Rides level and smooth on torsion-bar suspension. The brakes adjust themselves. The fully unitized body is rust-proofed. You go 32,000 miles between grease jobs. You can't beat it. Come in and drive it. The new lean breed of Dodge.

HERE'S HOW DODGE PRICES STACK UP AGAINST THE LOWEST PRICE MODELS OF OTHER FULL-SIZE CARS

DODGE DART	\$2315 ⁴⁰
CHEVY BISCAINE	\$2324 ⁰⁰
FORD GALAXIE	\$2453 ⁰⁰

Comparison based on manufacturer's suggested retail price of lowest priced full-size model including heater-defroster. Only white-walls, wheel covers and other optional equipment, state and local taxes, if any, and destination charge are extra.

TC Garden Club Hears of Need for New Facility

Clarence Everett, chairman of the Iosco County Board of Supervisors' welfare committee, addressed the 27 members and one guest in attendance at the November 7 meeting of the Tawas City Garden Club. He explained the need for a medical care facility for the aged. The members endorsed the project which will be voted upon December 11.

Marvin Davenport, county agricultural director, spoke to the group on shrubs and lawns around the homes. He told how to make and keep soil fertile so that better lawns and landscapes will follow.

"Now Is The Time" by Mrs. P. N. Thornton, concerned projects to do now in flower and vegetable gardens.

"Christmas in the Making," a workshop, will be conducted December 5, 9:30 a. m., at the home of Mrs. George Liske. A pot-luck luncheon with a business meeting will follow at 2:30 p. m.

Student Librarians Attend Regional Library Workshop

Sixty-five student librarians from elementary schools in Iosco and Arenac Counties attended the Iosco-Arenac Regional Library's annual workshop November 8. These boys and girls have the responsibility of the book collections placed in their schoolrooms by the regional library. Collections are changed once a month and the junior librarians attend a day of classes each fall to learn correct library procedures.

The workshop was held in the all-purpose room of Emanuel Lutheran School, Tawas City, and classes were conducted by Miss Leonora Hass, director of the regional library; Mrs. Marye Sproule, Mrs. Annette White and Mrs. Dorine McMullen, staff members.

Children were guests of the library for lunch after which they visited radio station WIOS. Teri Buttrick, Standish; Brenda Brugger, Tawas Area; Terry Hewitt, Whittemore; Lawrence Raymond, Standish; Cynthia Hemphill, Tawas Area, and Caroline Bissonette, Worth, were awarded records for clever station-break bylines.

USCG Chief Goes To New Post at Eniwetok Atoll

Kenneth W. Cater, chief boatswain's mate, United States Coast Guard, son of Mr. and Mrs. Harry C. Cater of East Tawas and husband of the former Miss Dorothy Dumouchel of Detroit, will celebrate Christmas this year on the Pacific Atoll of Eniwetok. Stationed at the United States Coast Guard Loran Transmitting Station, Cater is the second senior officer and works with the commanding officer to insure that the facility functions in an efficient manner and provides ships and aircraft with reliable Loran signals. Loran (long range aid to navigation) is one of the Coast Guard's most important electronic aids and it serves essential wartime and peacetime needs.

The operation of a shore station such as the Eniwetok Loran Station is not foreign to Cater, as throughout his 15 years of service

in the Coast Guard he has had many varied assignments, including a tour of duty as officer in charge of Pentwater Moorings, at Pentwater.

Cater, who entered the Coast Guard on August 25, 1946, reported to Eniwetok from the United States Coast Guard Academy at New London, Connecticut, where he made several cruises on the 295-foot sailing ship, the barque Eagle.

Although it will not be a white Michigan Christmas, Cater says it will still be a merry one.

Saving That Deer for Dinner

Good cleaning and rapid cooling are two "musts" in preparing a freshly-killed deer for the tenderest, tastiest results. Let's suppose you've just bagged your first whitetail. What now? Assuming your deer is dead, first put your rifle back on "SAFE" and attach the metal seal. Cut open the entire body cavity, moving from between the hind legs almost to the base of the neck (1). Insert the knife with the cutting edge UP and use your first and second fingers to hold the skin and muscles UP away from the innards. Next, remove the innards, working down from the neck to the tail. Turn the deer belly down and let it drain. Afterwards, tie the fore legs between the antlers or beside the head (2) so it will be easier to drag the deer to camp. In camp, prop the carcass open (3) and protect it from sun, rain, and flies in warm weather. If the weather is warmish (above 55 degrees), head for a locker plant or your home freezer. For the trip home, carry the carcass atop your car or across the trunk (4). Many a venison dinner has been overheated and spoiled on the front fender of a car.

HALFBACK JIM HERRIMAN is shown in the top photo cutting toward the sidelines on a good gainer. Other Tawas players are End Lewis Werth (82) and Guard Randy DeWyse (71). Guard Walt Hecklik (60) of Oscoda is at right. In the bottom photo, Halfback Ernie Lixey is shown sweeping right end on a pitch. DeWyse is starting to throw a block on Guard John Kunkel (62).

HALFBACK JERRY KAHN (41), Oscoda scatted, is shown being brought down on a beautiful tackle by Defensive Quarterback Don Humphrey of the Braves. Center Chuck Miller (51) and Guard Randy DeWyse are moving up to help. The Braves' defense stopped the Owls' great running attack but could not stop the Owls' passing game.—Tawas Herald Photos.

FULLBACK ED COLLER lost the ball on this play. He is being brought down by Guard Ron Brown (74) of the Owls. Moving up at right are Guard Walt Hecklik (60) and Tackle Phil Leach (71). Throwing a nice block on Fullback John Kopp (32) is Guard Don Evans. The picture at bottom left shows End Tony Richardson snaring a pass which went for Oscoda's final TD. At right, Halfback Reggie Marshall is being brought down by a tremendous tackle by Randy DeWyse.

Owls Down Braves, 18-7 to Close 1961 Grid Season

Led by the brilliant quarterbacking of Ken Rose and great pass receiving of End Tony Richardson, the Oscoda Owls rolled to an 18-7 decision over the Tawas Area Braves Friday night to put the wraps on an undefeated season.

ALTHOUGH the Braves came out on the short end of the final score, Coaches Herb Escott and Steve Sventko can take great pride in the play of their charges. The Braves outgained the Owls on the ground and stopped the Owls' running attack.

But for some costly fumbles and key passes which were intercepted, Tawas might have pulled off one of the biggest upsets of the season.

AS IT WAS, the game was not over until the last few minutes of the fourth period and the two schools staged an exciting football extravaganza before the largest crowd in local gridiron history. Even the weatherman cooperated, furnishing not-too-nippy weather and a dry field at Oscoda.

The deciding factor in the game came in the passing department. Whereas Tawas could complete but three of 14 aerials for 20 yards, Oscoda connected on seven out of 14 passes for 168 yards and three of them counted for touchdowns.

Richardson was the big gun in Oscoda's passing attack. The Owls' junior end was able to slip behind Tawas defenders to haul in aerials from Rose. He made "impossible" catches on two passes, jumping high in the air to gather in the ball while being guarded by two Tawas defenders.

On two occasions during the night, Richardson was all alone in Tawas' territory when he caught a pass and he raced 43 yards for touchdowns.

THE BRAVES threatened to break the game wide open in the first quarter when Fullback Ed Coller recovered an Owl fumble on the Oscoda 35. From there, the Braves rolled to the Oscoda eight-yard line where the Owls' defense tightened and Tawas lost the ball on downs.

The Braves' defense, which out-gained Oscoda's line most of the first half, contained the running of Halfback Reggie Marshall and Oscoda was forced to punt.

Tawas took over the ball on the Oscoda 45, but immediately lost possession when an end-around pass play by Lewis Werth went amiss. The ball was intercepted by Tackle Jim Vergotte, who then rolled to the Tawas 37.

Taking advantage of this golden opportunity, the Owls moved to the Tawas seven, the last play going 19 yards on a beautiful reception by Richardson. After being penalized five yards for off-sides, Oscoda's quarterback then hit Marshall in the end zone for the first score of the game. Richardson's placement was wide and Oscoda held a 6-0 lead.

DEFENSIVE units of both teams played great football during the remainder of the first period and the second, the ball exchanging hands five times. The Braves threatened again before the half when, after two successive pass completions from Quarterback Jim Mick to Werth and the hard running of Halfback Ernie Lixey and Coller, Tawas had a first down on the Oscoda 20.

Moving the ball to the 18 on the first play, Marshall intercepted a pass intended for Lixey on the Oscoda five. Tawas' defense again held and the Owls had to punt. The Braves again started to move. Mick tried two passes from the Oscoda 26, the first going incomplete in the end zone. The second was intercepted by Guard Walt Hecklik when the Tawas line gave

way and Mick was hit hard. This play ended the first half.

Following a brilliant halftime show by the combined Tawas and Oscoda bands, Coller returned the opening kickoff 37 yards to the Tawas 42. After picking up 10 yards on the first play from scrimmage, Coller fumbled and the Owls recovered on their own 43.

This play set the stage for another Oscoda score. Moving the ball to the Tawas 36, Fullback John Kopp picked up two yards and Oscoda was penalized five yards on the next play. Rose tried to pass and was dropped for an eight-yard loss. On the next play, Rose found Richardson in the open and hit him with an aerial which went for 43 yards and a touchdown. Richardson's kick from placement was wide and Oscoda held a 12-0 lead.

Tawas took the kickoff and could get nowhere. Coller punted to the Oscoda one-yard line and Marshall returned the ball to the 35. The Owls were penalized 15 yards for clipping on the punt return to their own 19. From there, Oscoda was contained by the Tawas defense and, when Hecklik attempted to punt out of trouble, Guard Randy DeWyse broke through to block the kick and Tackle Bob Erickson covered the ball in the Oscoda end zone for a Tawas touchdown. Erickson converted the placement and the score took on a new light as Oscoda held a 12-7 edge.

With Rose uncorking two first down passes to Richardson, Oscoda reached Tawas Area's 46. On second down, Tawas had a costly penalty for roughing the passer and Oscoda had the ball on the Braves' 29. Halfback Jim LeViere then made a great pass interception in Oscoda's end zone and Tawas took over the ball on its own 20.

At the start of the fourth quarter, Oscoda played its best ball of the night, although Tawas was able to gain one first down. On the second play from scrimmage, Coller was injured when blocking for Halfback Dick Zaharias and Erickson finally had to punt out of trouble with a 24-yarder.

With the aid of a 15-yard penalty, Oscoda moved to the Tawas 40, but on second down Defensive Quarterback Don Humphrey, who, with DeWyse were the defensive standouts of the game for Tawas, recovered an Oscoda fumble. This break was short-lived, however, as Oscoda recovered a Tawas fumble to set up the next score.

Although the situation called for another pass and Tawas' defense was on the alert, Richardson was able to shake himself loose and he caught an aerial from Rose to score the final TD of the night. The placement was missed.

According to statistics, Tawas had 10 first downs while Oscoda had eight. The Braves picked up 118 yards rushing, 20 yards passing and 114 on returns for a 252-yard total. Oscoda had 73 yards rushing, 168 yards passing and 28

and eight players who move up from junior varsity competition. "At this early date, no one has a starting position assured and there are about eight boys with equal ability," said McIntosh. "It should prove to be an interesting season."

Returnees are Ken Murphy, Herm Rollin, Jerry Brown, Jim Mick, Lewis Werth, Dick Doak, Chuck Miller, Don Humphrey and Jim Brigham.

Moving up to seek varsity slots are Randy DeWyse, Steve Ferguson, Jim Boldt, Bill Wilson, George Colvin, Ervin Durant, Ernie Lixey and Jim LeViere.

Tawas will open its varsity schedule December 8 when the Braves play host to Beaverton. Coaching the junior varsity this year will be Athletic Director Ron Wiltse. Robert McDonald will handle eighth and ninth grade teams.

Prep Basketball Soon to Take Over Limelight

With the close of fall football schedules last Friday night, prep sports activities now turn to basketball. First practice was started Monday at Tawas Area High School under the direction of Head Basketball Coach Bill McIntosh.

A pre-season peek at candidates has Tawas Area looking as though it will have one of its strongest teams in years.

Coach McIntosh will carry 12 players this year and battling for these positions will be nine returning letterman from last year.

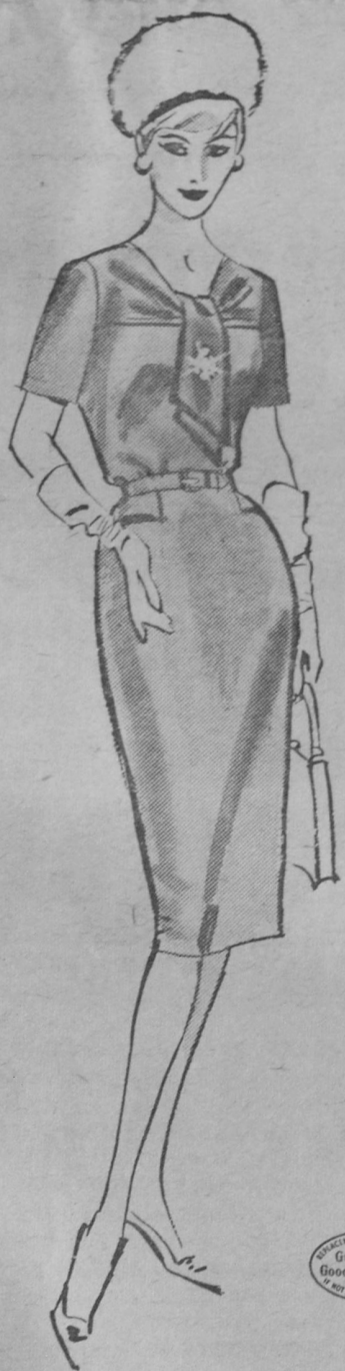

Phys. Ed. Students Make Three-Week Study of Bowling

Physical education department of Tawas Area High School, in cooperation with Tawas City Recreation, is currently conducting a three-week unit study on bowling.

Purpose of the activity is to give each boy in the seventh, eighth and ninth grades, who participates in the physical education program, the opportunity to familiarize himself with the sport of bowling.

About 135 boys are participating in the classes, under the direction of Coach Bill McIntosh and H. R. "Jim" Hilbert, owner of the recreation.

Such instruction has been strongly supported by health, education and physical education directors of the state.

NOMINATE LEWIS T. HUBBS

FOR STATE SENATOR

28TH DISTRICT ON THE REPUBLICAN TICKET

AT THE PRIMARY ELECTION Monday, November 20

HUBBS KNOWS THE DISTRICT --

LEWIS T. HUBBS has become well acquainted with the 28th District, having campaigned vigorously during the 1960 campaign for the office of State Senator, and again in 1961 for Delegate to the State Constitutional Convention.

He knows the people — he knows the problems of the district, and is best qualified to see that this district is properly represented in the State Senate. He seeks to serve, and has pledged that, if elected, all people of the district will find him available to discuss with them their ideas and problems.

NOT SEEKING RETIREMENT --

LEWIS T. HUBBS is a young man, 38 years of age. Vigorous and active. He is not seeking this office as a retirement post, but as an opportunity to serve the people of this district. This district needs strong active representation in the State Senate. HUBBS can provide this kind of representation.

SEES NEED FOR ECONOMY --

HUBBS has repeatedly stated that he believes that Michigan government must practice practical economy — that money should not be expended for state services of questionable need — that before new and higher taxes are resorted to, that every effort must be made to eliminate waste, and unnecessary services.

HUBBS for SENATOR COMMITTEE

This Adv. paid for by people who believe LEWIS T. HUBBS is the best candidate to serve the 28th District in the State Senate.

Eight Persons Hurt in Two Area Crashes Tuesday Night

Two automobile crashes in this area last night (Tuesday) sent eight persons to Tawas Hospital.

A three-car crash on US-23 near Emory Street in East Tawas at 6:35 o'clock hospitalized four persons.

Treated at Tawas Hospital were William DeGrow, East Tawas business man, lacerations to the head; Mrs. Gloria DeRosia, Coastguardville, face and head bruises; Debra DeRosia, 11, chin laceration; Donna Schaaf, 11, face laceration.

Officer George Duff of the East Tawas Police Department said that a pick-up truck driven by Allen E. Herrick, 49, Carsonville, apparently made a left-hand turn in front of a north-bound pick-up truck driven by DeGrow. The vehicle driven by DeGrow was clipped in the front end and spun around in the path of a south-bound car driven by Mrs. DeRosia.

An accident at 6:55 o'clock on M-55 sent four persons to the hospital. Injured were Mrs. Dora Miller, wife of Tawas Township Clerk Walter Miller; their son, Ronnie, nine years old; Marie Mason, driver of the other car, and Joseph Wolbert, a passenger. Details of this accident

Retired Real Estate Dealer Died Last Week at TC Home

Funeral services for Arthur F. Cowan, 80, were held Monday from Moffatt Funeral Home, East Tawas. He died suddenly at his home in Tawas City Friday, November 10.

A real estate dealer in this area for many years, Mr. Cowan came from Carsonville to East Tawas in 1919. He operated the Sand Lake Hotel for several years, returning here in 1931 where he re-entered the real estate business. He retired in 1953.

Born April 13, 1881, at Carsonville, he married Eva Pearl Cline June 3, 1903, in Carsonville and she survives.

Other survivors are a daughter, Elmina Applin, East Tawas; one son, W. Edward Cowan, Tawas City; two grandchildren, and five great grandchildren.

Officiating at funeral services was the Rev. Paul Sutton of Flint, former rector of Christ Episcopal Church, East Tawas. Burial was in Greenwood Cemetery.

parents, was sent home with each youngster.

This application included information as to the number of days the student had been absent from school this year and indicated whether or not he had passing grades.

The board felt that those students who had passing grades or better were eligible to be absent from school, provided they had the permission of parents. It was the board's opinion that parents would not allow students who were doing failing work to take time off.

As of Monday, some 125 students had returned permits signed by parents. An additional 50 students are expected to ignore the formality of applying for the permit. Disciplinary action will be taken against the latter group.

Those students who are ineligible to be absent because of failing grades will also receive an unexcused absence, regardless of whether or not parents signed a hunting permit.

Oscoda Schools Set Open House Next Monday Night

Oscoda Area Junior and Senior High School will hold its annual open house Monday, November 20, in conjunction with the regular meeting of the parent-teacher association.

Parents of students in grades seven through 12 are urged to attend. Personal invitations will be given by students to their parents for this open house.

Purpose of the open house will be to better acquaint parents and teachers and to give parents first-hand information as to what their children are being taught in their daily classes.

Parents will have a copy of their child's daily school schedule which they will follow just as if they, instead of their child, were in school. Eight-minute class periods will be held with three minutes passing time allowed between each class. Student council members will be on duty to direct parents to classes.

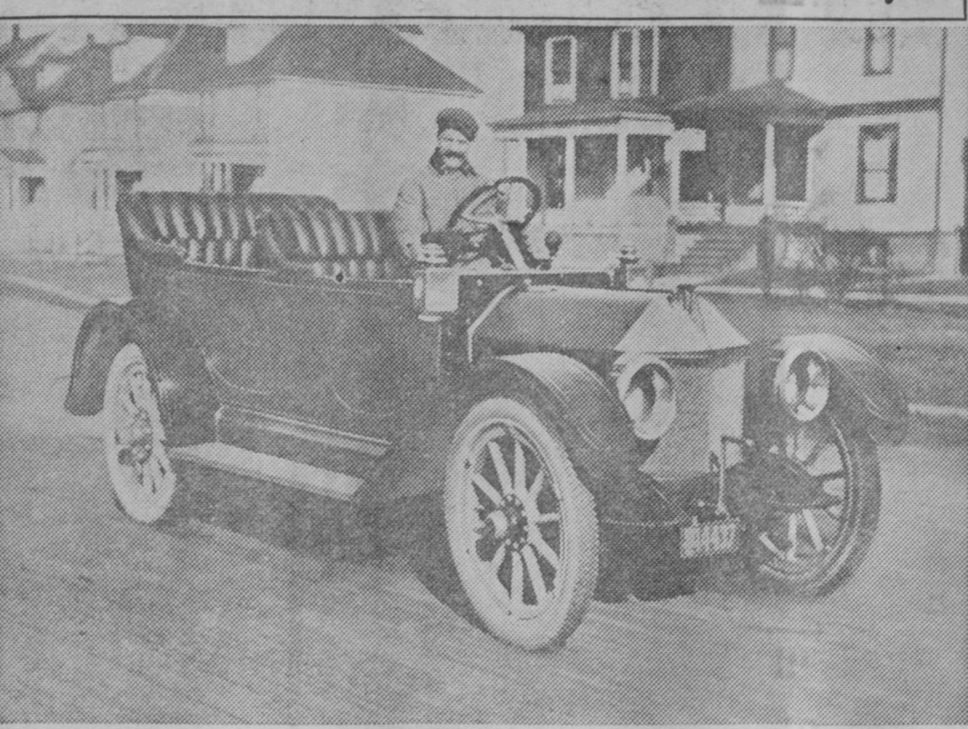

In each class, study hall or activity, the teacher will discuss the aims and objectives of the particular class or activity being taught. Three or four-minute question and answer periods will be held to answer parents' questions regarding the class. Examples of class accomplishments will be on display for parents to see.

Upon completion of the "school day," refreshments will be served in the commons area for parents and teachers.

School administrators and faculty members hope that at least one parent from each family will take this opportunity to become better acquainted with the Oscoda Area Junior and Senior High School. Everyone interested in the Oscoda Area Schools is cordially invited to attend the open house.

The regular P-T-A meeting will be held from 7:30 to 7:50 p. m. Supt. Robert D. Richardson will welcome parents and Principal Donald J. Wagner will discuss pertinent school policies and problems and the need for home-school cooperation.

WALTER RUDOLPH ZELMER

Walter Rudolph Zeller of East Tawas, who was born January 26, 1883, at Waterville, Minnesota, died Tuesday, November 14, at McComiskey's Nursing Home.

Mr. Zeller and his wife, Martha, who died February 2, 1960, had resided at East Tawas since 1953.

Survivors include a son, Nelmar of Tawas City; a daughter, Mrs. Joan Beschnet of Higginsville, Montana; two grandchildren; three great grandchildren; a brother, Arthur of Minnesota, and a sister, Mrs. Jack Kerr of Medford, Oregon.

Funeral services will be conducted at Emanuel Lutheran Church, Tawas City, Friday, 2:30 p. m., with the Rev. Leonard Newman officiating. Burial will be in the church cemetery.

Federal Pupils Show Decrease at Tawas Area

The number of federally-connected students attending Tawas Area School this term is lower than it has been over the past two years, according to a report by Supt. Reynold Mick.

At Monday night's meeting of the board of education, Mick said that approximately 145 students, whose parents work for the federal government or are military personnel, are attending school here.

This figure is 19 less than in 1959-60 and 51 lower than 1960-61. This would mean a reduction in the assistance granted by the federal government for compacted areas.

Last year, the school received \$17,000 for these students, at a rate of \$185 per student living on-base and one-half of that amount living off-base.

In other business Monday night, the board authorized construction of additional bicycle racks at the East Tawas unit. It also authorized purchase of three electric typewriters for instructional purposes.

MRS. ROBERTS EXPLAINS AUXILIARY CANCER PROGRAM

Mrs. Flora Roberts explained to VFW Auxiliary No. 5678 members Monday evening the cancer program of the organization, the cancer insurance of the auxiliary members and cancer grants auxiliary members can receive from the VFW cancer aid and research fund. She also pointed out that members who fail to pay their 1962 dues by December 31 will have their cancer insurance canceled.

Mrs. Fannie Walstead will go to the VFW National Home Saturday.

The public is invited to a chicken dinner sponsored by the auxiliary Saturday, November 18, 5:00 to 8:00 p. m., at the post home.

Mrs. Rose Hill, youth activity chairman, reported that 22 children attended the Halloween party at the post home and the children's Christmas party is scheduled for December 17, 2 until 5 o'clock.

Mrs. Ruth Hill, community service chairman, reported on the auxiliary cook book project. Proceeds will be used to buy fans for Tawas Hospital. Books may be purchased from any auxiliary member. Mrs. Hill also has quilts to be tied some time this week by members.

A joint meeting of the post and auxiliary members will be November 24, 8:00 p. m. Henry Oates, Clarence Everett and Edward Burgeson will discuss the medical care facility and social welfare.

HOW TO TURN MORE REPLACEMENTS INTO PROFITABLE EGG PRODUCERS

Do this: coordinate proper feeding with protective medication through every stage—from baby chicks to laying hens.

You've selected your replacement chicks for bred-in characteristics that should bring you more eggs over a longer period at less cost.

How can you be more certain that these chicks will live up to their potential and make your egg-producing operation an economic success?

By following good management and sanitation practices. By taking every precaution to see that disease is kept out of your flocks all the way through... from chick to laying hen.

Disease, visible or invisible, is the biggest handicap to making more egg money. The Cyanamid Feed-

Health Program—described step-by-step here—shows you *what* to do to lick disease, *when* to do it and *how* to do it. It's a proved program—practical, sound, easy to follow.

Talk to your feed man. Ask him for your free folder which describes, in detail, the Cyanamid Feed-Health Program for layers and breeders. If he cannot supply you, write direct to: American Cyanamid Company, Agricultural Division, Princeton, N. J. *AUREOMYCIN is American Cyanamid Company's trademark for chlortetracycline.

1. Give them health in the drinking water. First immediate step for replacement chicks is AUREOMYCIN® Soluble in the drinking water for first 48 hours. This assures adequate early intake of AUREOMYCIN to guard against CRD, synovitis and blue comb.

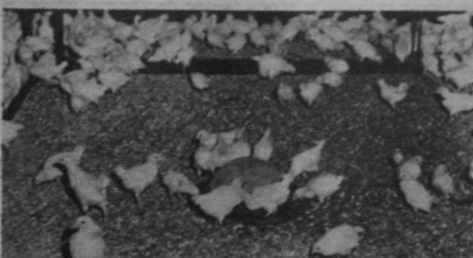

2. Feed potentiated starter feed with Aureomycin. A PF starter containing 200 grams of AUREOMYCIN per ton, fed for 3 to 4 weeks, protects against CRD, synovitis, blue comb and coccidiosis—guards against vaccination reactions.

3. Dust away Newcastle disease and bronchitis. Control Newcastle disease and infectious bronchitis simultaneously. Use Cyanamid Dust BIOLAFOR®, or AQUAVAC® in the drinking water, at 1 to 7 days of age. Repeat at 3 to 4 weeks and 12 to 16 weeks of age.

4. Keep growing chicks healthy. At 4 weeks of age, change to grower feed with 0.02% Nitrophenide. Feed up to 12 weeks to control coccidiosis. If an outbreak occurs after 12 weeks, treat with SULMET® drinking water solution.

5. Don't risk disease setbacks later. Use a potentiated treatment feed containing 200 grams of AUREOMYCIN per ton at any time trouble shows up, including coccidiosis outbreaks. AUREOMYCIN effectively controls CRD, synovitis, blue comb as well as coccidiosis.

6. House more top-performing hens. When you follow this program, you put more healthy pullets in the laying house. At the first sign of trouble—drop in feed consumption or slump in egg production—use a feed containing AUREOMYCIN.

The label instructions on Cyanamid products, and on products containing Cyanamid ingredients, are the result of years of research and have been accepted by Federal and/or State Governments. Always read the labels and carefully follow directions for use.

CYANAMID SERVES THE MAN WHO MAKES A BUSINESS OF AGRICULTURE

Whitney custom hires the harvesting of his crops. Otherwise he would have to hire highly skilled labor to operate the machines. His time and attention is consumed in looking after the storage operations.

Robert Whitney makes easy work of feeding 100 steers with his glass lined silo filled with soft shelled corn and hopper bins for supplements. The auger system mixes supplements with the corn and distributes the mixed feed along a bunk in the feeding yard.

Natural air drying fan in 3,500 bushel crib lets Whitney start picking as soon as corn is down to 30 percent moisture. Corn with 22-24 percent moisture is stored in cribs not equipped for forced air drying.

Corn harvesting, storage and utilization is taking on a new look. How corn is utilized on the farm usually determines the way corn is harvested. Although most of the corn is still harvested as mature ears, there is a decided increase in the harvest of high moisture shelled corn. Here's how one such advocate of this practice handles his corn: He is Robert Whitney, Magnolia, Illinois. Whitney farms 535 acres of highly productive crop land of which 370 to 390 acres is normally planted to corn. This year he cut back to 225 acres in compliance with the feed grain program. Corn and soybeans are Whitney's crops.

"On the side" Whitney feeds 100 to 120 head of steers. He has no hogs. Cattle consume around 6,000 bushels of the normal 35,000 bushel corn crop. Whitney stores grain for his cattle in a glass-lined silo as high moisture shelled corn. This he feeds without grinding. Pelleted alfalfa and protein supplement are stored beside the silo in steel hopper bins. A system of augers mixes supplement with shelled corn and distributes the mixed feed along a bunk in the feeding yard. "When you are set up for high moisture grain storage, you are committed to feeding," Whitney points out. Otherwise, he might not put in any cattle when feeders are high or the market outlook is dim.

There is crib space on this farm for about 14,000 bushels plus bin space for 10,000 bushels of shelled corn or soybeans. One 3,500 bushel crib is equipped for forced air drying with natural air. It permits starting corn harvest as soon as the grain moisture falls to 30 percent. As the season advances and moisture drops to 22 or 24 percent, Whitney can safely store corn in cribs not equipped for forced air drying. Drying with natural forced air in cribs costs only about one-third as much as batch drying shelled corn with heat, according to Whitney's figures. This calculation is based on the cost

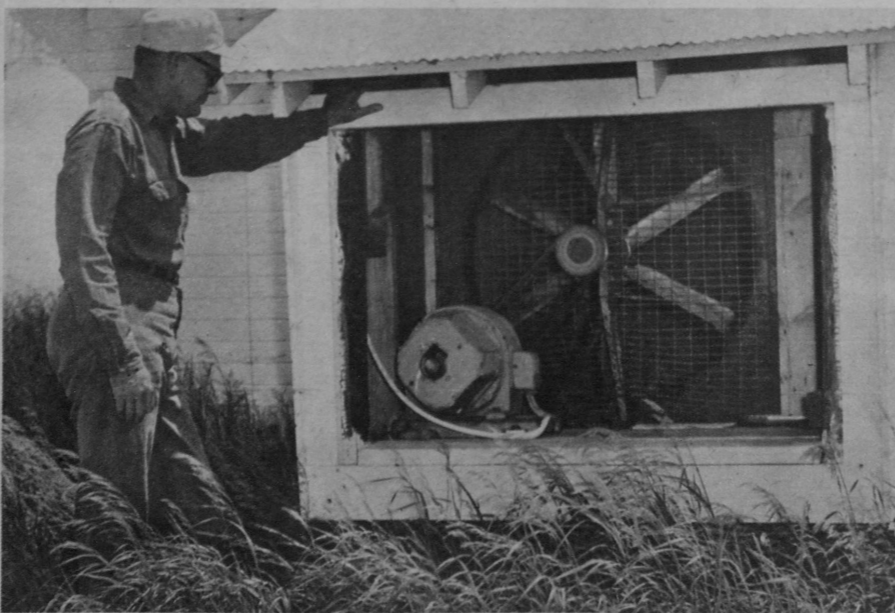

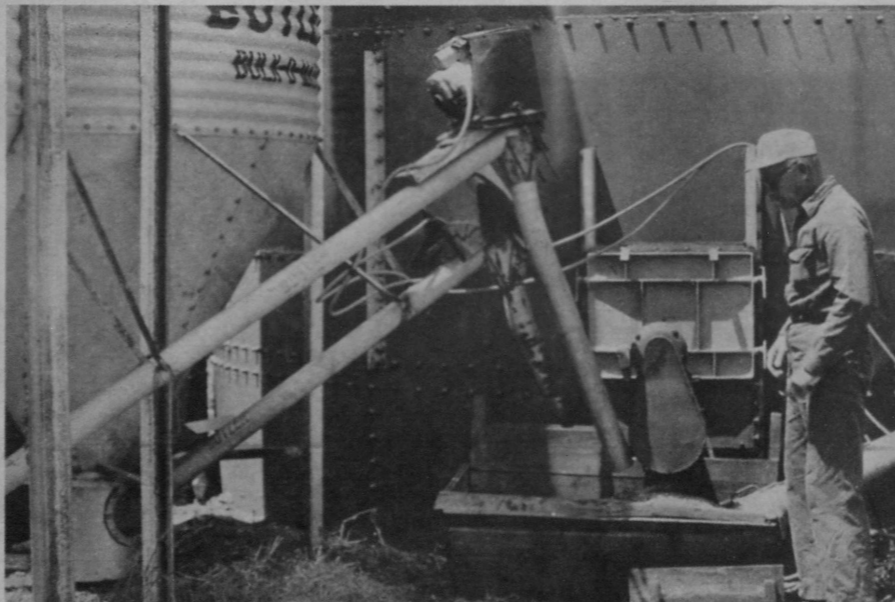

of fuel and power to operate the dryers.

With his cut-back in corn this year, storage is no pressing problem for Whitney. But in the future if he needs additional storage, he will erect one or more bin dryers in all probability. From what he has seen of this newest method of drying field shelled corn in storage, he considers it the coming way to handle corn.

For the long pull, he expects to see field shelling with the grain combine gradually replace the ear corn picker. All pickers waste some corn by shelling at the snapping rolls in Whitney's observation. The combine takes in the ears without loss. But there may be some loss from combine harvesting if shelling is not completed before cob pieces get onto the straw racks.

Whitney tests soils and fertilizes accordingly. For most of his land a regular procedure is to broadcast 0-0-60 once every four or five years according to recommendations of the soil test laboratory. Then he applies 150 lbs. of 11-48-0 through his modern corn planter which puts fertilizer to one side and below the seed. After corn is up he side-dresses corn which follows a corn crop with 80 to 100 lbs. of actual nitrogen in the form of anhydrous ammonia. Bean ground picks up some nitrogen from the leguminous crop, so corn following beans gets 70 lbs. of actual nitrogen as a sidedress. This year for the first time Whitney applied anhydrous ammonia on some fields ahead of planting rather than after the crop was up. He budgets \$15 an acre for fertilizer applied to corn.

Whitney hill drops corn at the rate of 18,000 to 20,000 kernels to the acre, figuring to come up to harvest time with at least 16,000 ear-bearing stalks to the acre. To spread out the harvest season, he starts off the plantings with some early maturing hybrids, then follows with two different maturities of later corn.

FREE FLASHER SAFETY LAMP

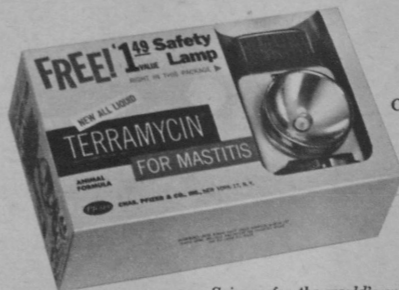

with the purchase of this special 12-tube carton

You'll like this 2-way safety lamp. Its large searchlight beam and red blinker flasher make it a handy companion for evening chores, repair jobs or car trips. And, right now you can get it FREE with the purchase of this special 12-tube carton of Terramycin for Mastitis... the largest selling brand by far. For good reason, too.

Terramycin helps take the worry out of fighting mastitis. There are no antibiotic residues in the milk when used as directed. And, it contains no penicillin. It's the only commercially available preparation in an all-liquid form. This means Terramycin goes to work fast, blends completely with the milk throughout the udder to hit even deep-seated infections, then milks out clean and completely.

See your animal health supplier soon.

Warning: Milk taken from dairy animals within 72 hours after the last treatment for mastitis must not be used for food.

Thanksgiving is first and foremost a time for giving thanks but it is also an American festival celebrating the end of the harvest season. Therefore it's appropriate to include in this festive meal an abundance of good things to eat, just as our ancestors did.

Naturally turkey becomes a specialty around the holidays, but it is elevated to an epicurean level when **BUTTER BAKED** and you can do this by rubbing it well with softened butter after it is all prepared for baking; then cover with cheesecloth which has been dipped in melted butter and bake, basting occasionally with melted butter.

Stuffings vary from year to year and region to region as do the various side dishes which constitute the "trimmings" for our turkey. For a new taste sensation, stuff Tom Turkey with unique carrot-caraway dressing, or an olive corn stuffing is different. Again you might like a sausage and apple stuffing or cornbread stuffing.

Cranberries are almost as much a part of the Thanksgiving meal as the turkey itself but because of their versatility we can use them in exciting ways from start to finish. Some folks start their feast with cranberry mint cocktail. Many serve jellied cranberry slices, cut into fancy shapes with a cookie cutter, as a garnish for their bird. Everyone loves cranberry bread . . . and there's nothing more effective than a salad utilizing the tart berries. Still others crown their banquet board with a cranberry dessert which may take the form of cranberry ice cream pie or again it might prove to be a delicious steamed pudding.

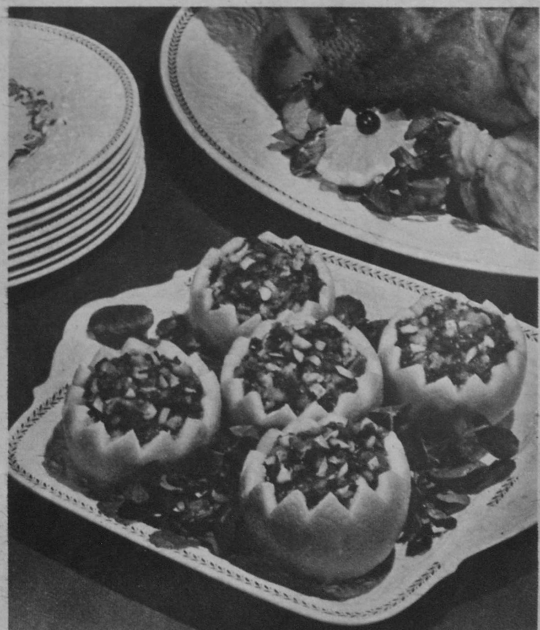

Squash is another favorite—why not try acorn squash with spiced Brazil nut filling? As long as sweet potatoes are traditional it would be fun to make sweet potato balls or have fancy fruit "fixings" using oranges and honey for the sweet potatoes. And pumpkin pie is a **must**, so why not make it a pumpkin chiffon pie and plan a steamed pudding as well so that you can offer a choice of desserts?

Take the old favorites, give them a new twist and please your family on this very special day of Thanksgiving!

Gold Ribbon Winner at
 Illinois State Fair gives
 you her recipe for

Roanoke Rolls

"This recipe has been a favorite of mine for years," says Miss Olivia Kempf of Roanoke, Illinois. "And I've made changes in it over the years, too . . . all for the better I think, because my latest version won me the Gold Ribbon for the best yeast baking at Illinois' State Fair. I hope you'll try my recipe soon. And be sure to use Fleischmann's Active Dry Yeast. It's such a dependable yeast — always fast rising. I know you'll have good luck with Fleischmann's too."

Roanoke Rolls Makes about 5 dozen rolls

- 1 cup milk
- ½ cup sugar
- 1 tablespoon salt
- 6 tablespoons Fleischmann's Margarine
- 1 cup very warm water
- 2 packages or cakes Fleischmann's Yeast, active dry or compressed
- 3 eggs, beaten
- 9 cups sifted flour (about)

Scald milk; stir in sugar, salt, and Fleischmann's Margarine. Cool to lukewarm. Measure very warm water into large bowl. Sprinkle or crumble in Fleischmann's Yeast; stir until dissolved. Add lukewarm milk mixture, beaten eggs, and half the flour; stir until blended. Beat until smooth. Add remaining flour until dough cleans sides of bowl.

Turn out onto lightly floured board. Knead until smooth and elastic, about 10 minutes. Place in greased bowl, turning to grease all sides. Cover. Let rise in warm place, free

from draft, until doubled in bulk, about 1 hour 15 minutes.

Divide dough in half. Roll out each half about ¼-inch thick. Cut into rounds with 2½-inch biscuit cutter. Crease heavily through center with dull edge of knife; brush lightly with melted margarine. Fold over so edges just meet; seal. Place close together with rolls touching in-greased shallow pans.

Cover. Let rise in warm place, free from draft, until doubled in bulk, about 1 hour. Bake in moderate oven (350°F.) about 20 to 25 minutes until golden brown. Remove from oven. Brush tops with melted margarine immediately.

"FROST-ON-THE-PUMPKIN" PIE

Festive Cream Filling

1 cup whipping cream ½ teaspoon cinnamon
1¼ cups powdered sugar ½ teaspoon vanilla

Whip cream just until it stands in peaks. (Don't over-beat.) Add powdered sugar, cinnamon, and vanilla, and stir or mix gently until mixture is stiff. Let stand in refrigerator until needed.

Pumpkin Chiffon

1 envelope plain gelatin ¼ teaspoon ginger
¼ cup cold water ½ teaspoon allspice
3 eggs, separated ½ teaspoon salt
½ cup granulated sugar 1-¼ cups canned pumpkin
1 teaspoon cinnamon ½ cup milk
¼ teaspoon nutmeg ¼ cup powdered sugar

Add gelatin to cold water; set aside. Beat egg yolks; beat in sugar mixed with spices and salt. Add pumpkin and milk. Cook over moderate heat, stirring, until it reaches boiling point, then boil, stirring, 2 minutes. Remove from heat, add softened gelatin, and stir until dissolved. Cool until partially thickened.

Beat egg whites almost stiff; gradually beat in powdered sugar, making a stiff meringue. Without washing beater, beat cooled pumpkin mixture until smooth and fluffy, then gradually fold into meringue. Working quickly, spread about half this mixture in pie shell. Next spread about half the Festive Cream Filling over the pumpkin, making a layer about ¼ inch thick. Spoon rest of pumpkin mixture over the cream filling. Chill for 2 hours or longer. Before serving, top with the rest of the Festive Cream Filling.

Fun to shape and extra delicious—made and flavored with KARO® Syrup!

KARO Syrup has exactly the right sweetness for making these cute Popcorn Novelties taste as special as the Holiday Season itself. And KARO has the texture it takes to turn them out perfectly, every time!

Easy way to candy popcorn... Mix together ¾ cup KARO Syrup (Red or Blue Label), ½ cup sugar and

½ teaspoon salt in heavy saucepan. Cook over moderate heat for 2 minutes or until sugar is dissolved, stirring constantly. (Do not double recipe.) Pour over 2 quarts of popped corn in deep kettle and stir over medium heat 3 to 5 minutes or until corn is evenly and completely coated with mixture. Remove from heat. Use to prepare any of the following:

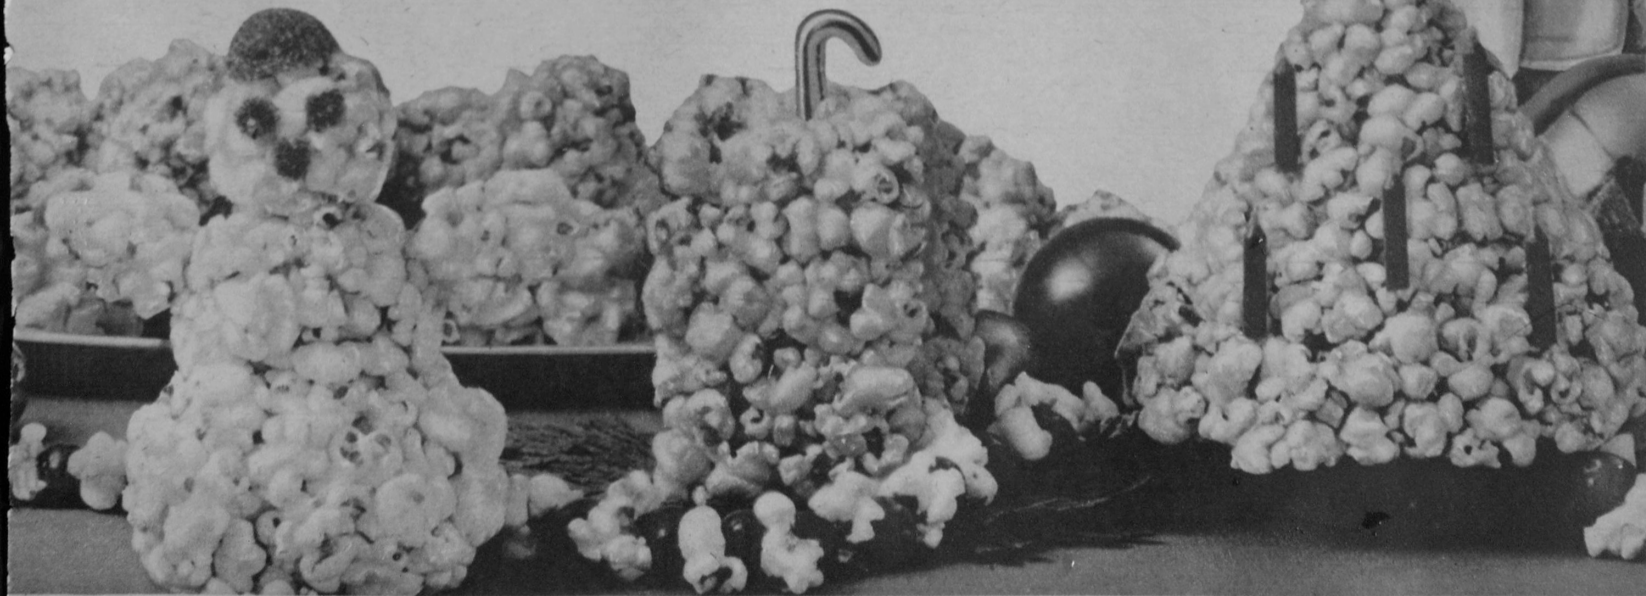

Snowman... Use KARO Syrup, Red Label. Form 3 popcorn balls—one large for base, one medium for body, one small for head. Press together to form snowman. Press two small balls into place for arms. Use a large gumdrop for hat, cinnamon candies for eyes and nose.

Candle... Use KARO Syrup, Blue Label. Press popcorn mixture into lightly greased empty cream carton. Unmold. Insert small candy cane in top for wick.

Garland... On heavy thread, string white popcorn and whole raw cranberries or gumdrops.

Popcorn Balls... Use KARO Syrup, Blue Label, for Caramel balls. For pastel colors, use KARO Syrup, Red Label, and tint syrup mixture with red or green food coloring. Add wintergreen flavor to pink mixture, peppermint flavor to green mixture. Shape cooled popcorn into balls.

Christmas Tree... Use KARO Syrup, Red Label; tint syrup mixture with green food color and flavor it with peppermint. Press the candied popcorn into a lightly oiled funnel to give it the Christmas Tree shape. Unmold; stand upright on a large gumdrop for a base. Add candles.

Make Way For The Christmas

STOLLEN

1 package yeast, compressed or active dry	1 egg
1/4 cup water (lukewarm for compressed yeast, warm for dry)	1/2 teaspoon grated lemon rind (if desired)
1/2 cup milk	1/2 cup raisins
1/4 cup sugar	1/4 cup chopped candied cherries
1 teaspoon salt	1/4 cup chopped candied ginger
2 tablespoons shortening	2 tablespoons melted butter
3 cups flour (about)	confectioner's sugar icing
	1/2 cup chopped nuts

Sprinkle or crumble yeast in water. Stir until dissolved. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add flour to make a thick batter. Mix well. Add softened yeast, egg and lemon rind. Beat well. Add enough more flour to make a soft dough. Turn out on lightly floured board or pastry cloth and knead until smooth and satiny. Place in greased bowl, cover and let rise in warm place until doubled (about 1 1/2 hours). When light, add raisins, cherries, and ginger and knead them in. Divide dough into 2 equal portions and shape into 2 balls. Cover and let rest 10 minutes. Flatten each ball of dough into an oval sheet, about 3/4 inch thick. Brush one half of each sheet with melted butter. Fold unbuttered half over buttered half, like large Parkerhouse roll. Place on ungreased baking sheets. Let rise until doubled. Bake in moderate oven (375°F.) 25 to 30 minutes. Brush with confectioner's sugar icing and sprinkle with chopped nuts. Makes 2 Stollen. May be kept in freezer until the holidays.

CHRISTMAS PUDDING

1/4 cup butter	1/2 teaspoon nutmeg
1/2 cup sugar	1/2 teaspoon baking powder
3 eggs, separated	1/2 teaspoon salt
1/4 pound ground suet	2 cups pitted plumped* prunes
1/2 cup milk	1/2 pound seedless raisins
2 1/2 cups all-purpose flour	1 8-ounce jar candied fruit and peels
1/2 teaspoon cinnamon	1/4 cup prune juice
1/4 teaspoon ground cloves	

Cream together butter and sugar. Add egg yolks; beat well. Add suet and milk. Sift together flour, cinnamon, cloves, nutmeg, baking powder and salt; add. Mix well. Chop prunes; add with raisins and candied fruits. Add prune juice; mix well. Beat egg whites stiff; fold in. Pour into well greased pudding mold. Cover; place in water-filled pan; cover that and steam 3 hours. Serve hot with hard sauce. Garnish platter with whole prunes filled with hard sauce topped by pieces of green citron. Makes 12-15 servings.

* "plumped" prunes are dried prunes that have been soaked overnight in cold water.

Parade

Who can remember a Christmas without a house full of tempting holiday foods—Stollen, fruit cake, plum puddings, with cookies and candies galore? But in order to have all these we have to begin our efforts well in advance or we'd never get all the foods baked that we want and we'd never have enough goodies to last. Then too many of the items in our Christmas baking must be made well ahead of time and stored away to "ripen". This is true of fruit cake, puddings, Short Bread. Even Stollen can be stowed away in the freezer as can many fancy holiday pies and desserts.

We can take a basic recipe for coffee cake or for cookies and vary it so that we have a number of entirely different appearing foods to serve—for instance we can take a basic recipe for Sweet Dough and from it make both Butter-Nut Bread and a Kuchen Wreath. Or we can take the recipe for Linzer Cookies and make four wonderful kinds of cookies from this: we can make filled cookies for one thing and also make cut-outs by using a variety of fancy cookie cutters and decorating to suit our fancy. Again we can use part of the same dough, coloring some of it green and leaving part uncolored. From the colored dough we can make Cherry Balls and from the uncolored we can make both Date Balls and Almond Crescents. And this is just the beginning, for from other recipes we can do any number of equally interesting things.

Bridge clubs have come up with a novel idea—each member makes a double or triple sized batch of her favorite Christmas cookies and takes them to club on a night before the holidays. Then the girls all pool their resources and each one goes home with some six or more kinds of cookies to add variety to her own Christmas cookie supply.

GALA FRUIT CAKE

- | | |
|--|-----------------------------------|
| 1½ cups light or dark raisins | 1 cup sugar |
| 1 cup seeded raisins | 5 eggs |
| ½ cup syrup from canned pineapple | 2 cups sifted cake flour |
| 2 tablespoons Sherry wine or fruit juice | 1½ teaspoons baking powder |
| 1 cup dried apricots | 1 teaspoon salt |
| 1½ cups prunes | 2 cups roasted blanched almonds |
| 2 cups sugar for fruit | ¾ cup finely cut canned pineapple |
| 1 cup water | 1 pound candied cherries |
| 1 cup butter | 1 cup broken walnuts |

Rinse and drain raisins. Combine with pineapple syrup and Sherry, cover closely and let stand overnight to plump fruit. Rinse apricots and prunes, cover with boiling water and cook 15 minutes. Drain. Heat 2 cups sugar with 1 cup water to boiling. Add apricots and cook slowly 20 minutes. Remove apricots to wire rack to drain, reserving syrup. Remove pits from prunes, and cook in same syrup for 10 minutes. Drain on wire rack. Cream shortening and remaining 1 cup sugar together thoroughly. Beat in eggs one at a time. Reserve ¾ cup flour for fruits. Sift remaining flour with baking powder and salt. Blend into creamed mixture. Stir in plumped raisins. Chop almonds, apricots and prunes; combine with pineapple, halved cherries and walnuts. Mix reserved flour with fruit - nut mixture, pour batter over it and blend well. Turn into 8-inch tube pan and small loaf pan (about 8½ x 4½ x 2½ inches) which have been lined with 2 thicknesses of greased brown paper. Bake in slow oven (300 degrees F.) with shallow pan of hot water on floor of oven for 3½ to 4 hours. Remove cakes to wire rack to cool, but do not remove paper. Remove baking paper before wrapping in wine soaked cloth and then in waxed paper or foil. Weighs about 6 pounds.

1 Wonderful Recipe

4 Wonderful Kinds of Cookies

Here they are—all the cookie varieties you can get from one basic recipe—Linzer Variety Cookie shown at the right. How festive they look! All these cookies make a mighty impressive appearance and no one will guess that they come from one kind of dough. Festive Filled Cookies, Christmas Cut-Outs, Cherry Balls, Date Balls, and Almond Crescents.

The Christmas Cut-Outs can be decorated before baking or later with icing, if you prefer. Decorate before baking with silver shot and decorettes, etc., and with miniature cookies cut from colored dough as well. Note the one-inch strips of paper straws piercing the top of the cookies on the baking sheet. Leave them there during the baking and remove immediately when done. Later thread bright ribbon through the holes after decorating and presto! You have gay ornaments for your tree. (These cookies must be baked on a lightly greased cookie sheet in a 400° oven for 8-10 minutes.) Decorate the cookies with icing as illustrated.

Make an icing of confectioners' sugar, a dash of salt, 1 teaspoon vanilla and thin with milk to suit. Leave about half the icing white and color the remainder green and red. A little melted chocolate may be added to some if desired. Apply this icing to the cookies in any designs you wish—Jolly Santas, festive Christmas trees and gay ornaments. Use a knife, spatula, toothpick or whatever you find helpful. Cinnamon candies, multi-colored decorettes, chocolate morsels, etc., can be used in the designs.

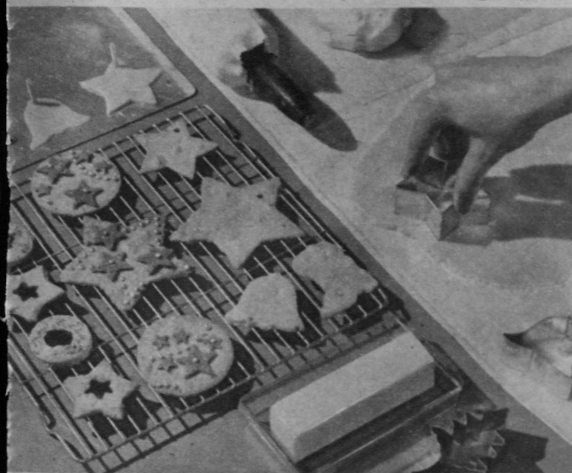

CHERRY BALLS, DATE BALLS, AND ALMOND CRESCENTS

Before chilling divide dough in half and color one half green.

Cherry Balls: Use green dough and roll into $\frac{1}{2}$ inch balls. Place on lightly greased cookie sheet. Top each ball with $\frac{1}{2}$ candied cherry which has been dipped in the white of egg. Bake in a preheated 375° oven for 15-18 minutes. Sprinkle with powdered sugar.

Date Balls: Use one half the uncolored dough. Roll up a $\frac{1}{2}$ inch piece of date in a portion of dough to form $\frac{1}{2}$ inch balls. Place on a lightly greased cookie sheet. Bake in a preheated 375° oven for 12-15 minutes. While warm roll in powdered sugar.

Almond Crescents: Use one half the uncolored dough. Shape a small portion of dough around a whole blanched almond, keeping the shape of the almond for the cookie. Place on lightly greased cookie sheet. Bake in a preheated 375° oven for 12-15 minutes. While warm roll in powdered sugar.

LINZER VARIETY COOKY

1 cup butter
1 cup sugar
2 egg yolks
1 teaspoon grated lemon rind
2 1/4 cups flour
3/4 teaspoon cinnamon
1/2 teaspoon cloves
1 cup finely chopped blanched almonds

Cream butter and sugar until light and fluffy. Beat in egg yolk and lemon rind. Add dry ingredients, gradually mixing well after each addition. Stir in almonds. Chill dough for several hours. Use chilled dough for any of the following baked cookies.

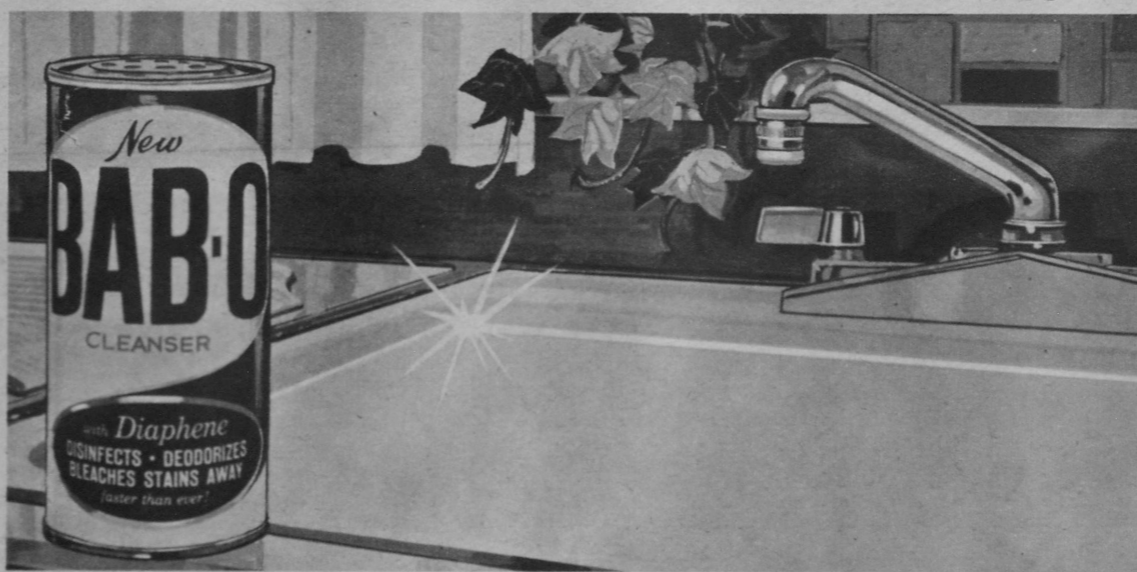

FILLED COOKIES

Roll dough out on a lightly floured board to $\frac{1}{8}$ inch thickness. Cut half of dough with 1 1/2-2" round star or bell cookie cutters. Place on lightly greased cookie sheets. Spread about $\frac{1}{2}$ teaspoon of strawberry preserves in the center of each cookie. Cut the remaining half of the dough with the same cutters. Use similarly shaped $\frac{1}{2}$ inch cutters to remove center of each cookie. Place on top of filled cookie so that preserves show through the center. Bake in a preheated 400° oven for 10-12 minutes. 3 Dozen cookies.

CUT-OUT COOKIES

Roll dough out on lightly floured board to $\frac{1}{8}$ inch thickness. Cut with a variety of cookie cutters. Make icing of confectioners' sugar thinned with milk to suit. Leave about half the icing white and color other with green or red. A little melted chocolate may be added to some. Decorate with confectioners' sugar icing; green and red sugar; silver shot and red hot candies. Bake in a preheated 400° oven for 8-10 minutes.

America's most talked-about spreader has a new **BIG BROTHER**

FIRST FLAIL SPREADER

A year ago, New IDEA introduced the first flail spreader. Capacity: 130 bushels. Today, farmers everywhere are talking about this new kind of spreader.

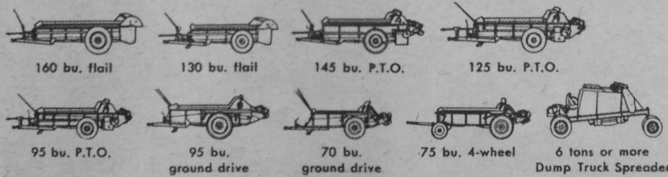

NEW IDEA NOW OFFERS A FLAIL SPREADER — 160 BUSHELS BIG!

Only **NEW IDEA** offers a choice of flail or paddle spreader — so only **NEW IDEA** can give you the type you want in the size you need.

It didn't take farmers long to make up their minds about the flail spreader, even though it is a dramatic new concept in spreading. Now the new 160-bushel model offers the ideal spreader to owners of large livestock operations and big dairy herds. Both sizes let you spread in any weather.

Size is important, too. Picking the right spreader is as important as getting the right tractor. Buy a spreader that's too big, and you're over-invested. Too small, and you spend extra hours getting the job done. To help you make the right choice, **NEW IDEA** offers the world's most complete line of spreaders.

NEW IDEA gives you a choice of 9 models and 2 types—the famous **NEW IDEA** paddle type or new flail type. So, only your **NEW IDEA** dealer can give you the type you want in the size you need. Visit him today. Look over his fine selection of the world's most complete line of spreaders — each backed by a full year written guarantee.
