# **Americans Win** 4-1, in Sunday **All-Star Game**

A three-run splurge in the late innings saw the Americans de-feating the Nationals, 4-1, in Sunday night's Pony League all-star game at Tawas Area Athletic Field.

Battling to the sixth inning in an 1-1 tie, Manager Lyle Berry's squad scored two runs when Mike Gilfix singled, took second on a passed ball and Herb Humphrey walked. Both runners scored on passed balls, one being an attempted squeeze play.

The Nationals, under Manager Edward Sieloff, took an one-run lead in the second inning when Dale Harten walked, Campbell bunted the runner along to second. Busch was safe on a fielder's choice, Harten scoring.

A single by Darrell Welch and a double by Gilfix in the third inning accounted for the first run scored by the Americans. Final run of the game came on a triple by Dave Wojahn and an error.

Starting on the mound for the Nationals was Bob Sieloff. He allowed three hits, struck out seven and walked one batter in his four-inning stint. He was relieved in the fourth by Harten, who was nicked for three hits, fanned four and walked one.

Winning pitcher in the game was Chuck Anschuetz, who took over for Jim Riley in the fourth inning. Riley allowed only two hits, struck out seven and walked four during his tenure, while Anschuetz allowed but one hit, struck out three and walked three during his three innings on the mound.

At the alarm. toss a life ring, preserver or buoyant cushion in the general direction of the person in the water. This will assist him or her to float and will help more readily locate their approximate loca tion.

The helm should be put hard over the speed maintained so that the boat will circle and return to the point of pickup in less time than by stopping and reversing.

Yertainly no one will dispute the fact that the machine age L has brought with it a great many advantages. Its most important offshoots-mass production methods-have made it possible to produce a variety of hitherto unobtainable luxuries at greatly lowered prices, thus making them available to families with the most modest budgets. But-mass production has had its disadvantages too. When thing's are made by machines and sold in great lots to department stores, it's often difficult to find something that's really unique-really your own. Things just aren't characterized by the same stamp of individuality you found in our ancestors' time. Yet-this individuality is just what each of us actually wants most of all for ourselves and for our

needles say them for you. As every needleworker knows, when it comes to expressing the idea of individuality, they're really quite fluent.

INDIVIDUALITY

You can devote either full or spare time to these needlecraft projects. Either way, the results will be lovely personal effects for both your wardrobe and your household.

### SUMMER PROJECTS

This week we've chosen two methods of highlighting and individualizing your bedroom accessories. One's an edging for a pillow case and the other's a filet monogram for a sheet. Both are crocheted and both are guaranteed to make elegant creations out of any set of ordinary linens. Aside from the beauty of the finished products, I think you'll find another kind of beauty in the making of these two. Since they're light and easily por-table, they make wonderful projects for the warm summer months when you don't want to begin any big undertakings. Instructions for both the sheet and pillowcase edging are included on the same leaflet-No. S-527. It's yours free of charge. Just drop a line to the Needlework Editor of this newspapar and enclose a stamped, self-addressed envelope with your request.

I'm gazing through my crystal ball and I see a trip in your not-too-far-distant future. It might be an extended voyage, or, only an overnight sojourn. Maybe to a faraway place, or perhaps just to a nearby town. Actually though, it doesn't mat-ter which of these roads *you're* destined to travel. As long as it's one of these and as long as you'll be taking a suitcase with you, my prediction is that you'll be interested in today's design.

It's a lovely hat, appropriately titled, "Sparkling Cloche." It's stunning—as

one look will show youbut, as in all truly beautiful things, its beauty is more than skin deep. Look beneath the surface and you'll find its other qualities—namely a felt lining that makes the hat foldable, packable, and readily wearable as soon as you take it from your suitcase.

#### FASHION RIGHT-TRAVEL WISE

Designers of other fashions haven't been wholly insensitive to the demands of today's travellers. In fact, they've developed a

variety of synthetic fabrics that enable dresses to maintain their fresh, neat appearances without the aid of an iron. Millinery designers, however, have been a little slower to respond to their pleas. And, because of this, travellers have been unable to make their "away" outfits exactly "fashion right." Why? Because packing a hat-the accessory that lends a "put together" look to almost every outfitwas virtually impossible. Now, however, that predicament's be-

and co-operation in helping us make MYSTERY RIDGE the most popular tourist attraction in Eastern Michigan. Through your help and good will this has been possible.

We have sold MYSTERY RIDGE and the new owners are: Mrs. Cathryn Weiler, Miss Fay Price and Mrs. Weiler's son, Vincient, Jr. The new owners are from Saginaw and for some time have had a summer home at Whitestone Point, and are known to many of you here.

We are sure that they will operate MYSTERY RIDGE in a way that it will continue to be an outstanding attraction for this area.

Yours Sincerely,

Doug. and Helen Ferguson Steve, Tom and John.
