

INTERNAL AND EXTERNAL parasites in swine costs farmers millions of dollars annually in the United States. Dr. Glenn Reed, extension veterinarian at Michigan State University, admonished losco farmers to use prescribed treatments to combat them. He spoke last Wednesday night at the first of a special four-week course being conducted at Whittemore-Prescott Area High School.

# **losco Farmers Get** Feeder Pig Market

Raising feeder pigs is becoming terest in feeder pigs, Davenport the event locations. big business in Northeastern said that several farmers are al-Michigan and, during the next ready planning construction of start at 11:00 a. m. and run most Cubs, boy scouts, explorers, parfive years, annual total income swine houses costing \$8,000 and from Iosco farms is expected to be more.

increased between \$75,000 and The county agent hastened to \$100,000 because of it.

Since 1958, Iosco's swine herd does not require the investment has increased steadily from a for dairy and beef cattle raising. mere 120 sows to 370 at the pres-ent time. It is anticipated that can be easily and economically **Not Hold; Rood** this figure will be tripled in the (See NEW MARKET, page 10.) next three years.

Reason for this interest in raising feeder pigs can be traced to the encouragement given to the Shook Sentenced program by County Agent Marvin Davenport and the farmers, them- to State Prison selves.

# **Union Charge** Against USG is **Dismissed**

5c

NUMBER 7

A complaint entered last fall by the Oil, Chemical and Atomic Workers International Union, AFL-CIO, against United States Gypsum Company has been dismissed in its entirety by the National Labor Relations Board at Washington, D. C.

During a three-day hearing here last November, the union had charged USG with alleged discrimination in failing to recall three maintenance men to active employment on or after August 15 because of their union activities. It was the finding of Owsley Vose, trial examiner who was here November 14, 15 and 16, that USG had not discriminated in regard to hire, tenure or terms of employment to discourage membership in labor organizations, by failing or refusing to recall Earl Bischoff, Patrick Erickson and Stanley Lazuerwicz to active employment

In late July, a work stoppage at USG's East Chicago, Indiana, plant caused the company to lay off 24 employees at its Alabaster plant. After the work stoppage at the East Chicago plant had ended August 15, USG recalled all of the employees except the three above named employees and another man.

The trial examiner concluded that USG's decision not to recall three men was solely attributable to a low volume of cement rock business, decline in marine rock volume and a reduced need for maintenance work, which had resulted from extensive modernization of equipment.

LAKESIDE MOTOR SALES

403 LAKE STREET

**D**VEN in zero weather, a car in good – like kindling in a log fire. It ignites easily L' mechanical condition should start in 3 or 4 seconds.

If it doesn't, could be that your gasoline isn't vaporizing fast enough. Winter can have that effect on gasoline.

Shell scientists take care of this problem by including an ingredient called Butane in Super Shell's 9-ingredient formula.

Butane can hardly wait to vaporize. It will even boil on ice and turn to vapor (see picture above). Fast vaporization, fast starts. It's that simple.

Note: in very cold weather, Super Shell gets an extra dose of Butane.

Quick-starting Butane is only one of Super Shell's cold-weather ingredients. There are three in all. Read how the other two can also help you when winter's doing its worst.

Pentane mix-for fast warm-ups The Pentane mix in Super Shell's winter blend helps speed the "warm-up" process inside your engine. Pentane mix works -gets everything going faster.

### "Anti-icer" fights icing stalls

The third cold-weather ingredient in Super Shell's winter blend is an anti-icer. Its job is to fight carburetor icing. This phenomenon can lead to sudden stalls when you least expect them.

Shell's "anti-icer" coats vital carburetor parts with a very thin chemical film. This film discourages critical ice buildup and cuts your chances of icing stalls.

### How Super Shell's other ingredients help you get top performance

Now you know about three of the nine ingredients in today's Super Shell. Here's how the others help to give your car top performance.

TCP\* additive helps restore the power that combustion deposits can take away. "Cat-cracked" gasoline is for smooth, even power with a purr.

\*Trademark for Shell's unique gasoline additive. G containing TCP is covered by U.S. Patent 2889212.

Alkylate helps control "high-speed knock." Gum preventive helps keep carburetors clean inside.

Anti-knock mix gives extra resistance to knock.

Platformate is for extra mileage.

P.S. When you drive in for a tankful of Super Shell, ask your Shell dealer to check your anti-freeze. It's a small precaution, but it could save you a lot of trouble.

NATIONAL

ELECTRICAL

WEEK

FEB. 11-17, 1962

This week is National Electrical Week. It's

a good time to ask yourself whether you

are able to take full advantage of the bene-

fits of today's wonderful electrical living.

Have new developments in home appli-

ing outmoded the wiring in your home? Is

old-fashioned wiring keeping you from en-

joying the comfort, convenience and safety of modern electrical living? If the answer to

either of these questions is "yes," or even "maybe," ask your wiring contractor what

can be done. He'll be glad to explain how

easy it is to live better . . . electrically with

full HOUSEPOWER.

ances, lighting, heating and air condition-

ing for a new fortable home with an attached income.

# **W-P** Cardinals **Drop** Braves 64-52, Friday

Whittemore - Prescott Cardinals gained complete revenge for their loss to Tawas Area on the gridiron last fall by taking their second basketball game of the season from the Braves last Friday night.

Leading the Cards to a 64-52 win, their sixth of the season, was Center Ray Pagel, who meshed 33 points on 13 and seven.

This was the Cards' third consecutive win on the hardwood against Tawas Area. The Braves won their home game last year.

Except for the second quarter, Tawas Area played on even terms with the winners and were still going strong at the final whistle. The big difference, however, was the sharpshooting of Pagel and Forward Ron Armstead for the Cards. The latter was second highscorer of the night with 17 points.

Tawas Area jumped to an early lead in the first quarter and the two teams exchanged basket for basket until Pagel dropped in a two-pointer to put Whittemore-Prescott ahead, 15-13, at the end of the first period.

With a 22-8 scoring advantage in the second quarter, the Cards put the game out of reach and were never seriously threatened the rest of the way.

Showing plenty of hustle in spite of a 37-21 deficit at intermission, Tawas Area was only one point off the 17-point pace set by the Cards in the third quarter. The Braves then battled back to outscore Whittemore-Prescott, 15-10, in the final stanza.

Tawas Area's press defense started to wear the fine edge off the Cards in the last stages of the game, but it came too late to make any difference. Tawas had one more field goal that the winner, but the Cards meshed 18 free throws to the Braves' four.

Although the six-foot, five-inch Pagel twins, Ray and Roy, had things much their own way on the backboards, Chuck Anschuetz, sophomore center for the Braves who moved up only last week from the junior varsity, turned in a creditable performance for the Tawasians.

Leading the Braves' scoring at tack were Guard Herm Rollin and Forward Jim Mick with 16 and 14 points, respectively.

Tawas Area Junior Varsity rang up its 11th straight win of the season, but it took some doing as the Cardinal JV held an 18-12 lead at the end of the first quarter. The Junior Braves went on to win 75-61 but Cardinal center. Roger Rasbury, stole the show

with 38 points. Tawas held a 35-32 lead at intermission and then outscored the home team, 21-8, in the third quarter. The Cardinal JV held a 21-19 advantage in the final.

Youngs family.

# W-P Area Run Up Lower 55-36 Score Against Hemlock

Whittemore - Prescott Area Cardinals trounced winless Arenac Eastern, 55-36, last Tuesday night. chard. Although the Cards had only one Pagel playing, they still controlled the boards with the smaller Eastern lads thoroughly out-classed

and out-played all the way. Ron Armstead had his best night of the year with 12 field goals and five charity tosses for 29 points. Ray Pagel also scored in double figures with 15 on seven they visited Mr. and Mrs. Ray Si-

# Whittemore Indies Down Oscoda, 98-66 Wednesday Night

Whittemore Independents rolled to a 98-66 win over Oscoda Wednesday on the latter's home floor.

The Western Iosco five jumped to a 14-6 lead in the first period and held a commanding 42-16 margin at intermission. Oscoda bounced back in the third quarter to outscore Whittemore, 30-25, but the winners countered with a 31-20 stint in the final.

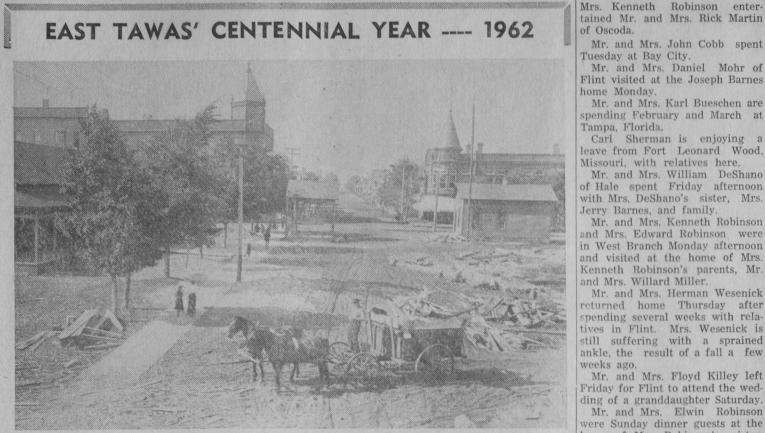

Whittemore had five players in double figures. Leading the pack was Dave Goupil with 28 points. He was followed by Jim Samec, 25; Roger Hall, 20; Jack Graham, 10, and Bud Johnson, 10.

Oscoda's Louis Alverson was high scorer of the night with 32 points. Dick Miller had 20 and Johnson, 14.

# Fort Donelson **Captured by North**

### Confederate Casualties Severe; 15,000 Are Taken Prisoner

FORT DONELSON, Tenn.—Feb. 16—After three days of absorbing Union gunfire—an onslaught that left some 2,000 killed or wounded— Confederate forces today surrendered this Cumberland River installation.

Unofficial casualty figures in-dicated the battle was one of the bloodiest so far in the war be-tween Union and Confederacy. In addition to their 2,000 casualties, the Confederates gave up almost 15,000 men as prisoners-of-

At least 500 Union attackers fell dead in the prolonged assault. An-other 2,100 were wounded.

IT WAS the second decisive vic-tory in two weeks for the Union's Brig. Gen. U. S. Grant, who led his troops ten days ago against nearby Fort Henry. He captured that bestion and routed the corri that bastion and routed the garri-

> Cumberland River. Upon landing these men, Grant would have about 27,000

**GEN. FORREST** 

Three chiefs of brigade—Simon B. Buckner, John B. Floyd and Gideon J. Pillow—were assigned by Johnston to keep Fort Donelseasoned soldiers ready to go. The riverboats-ironclads com-

son strong. Floyd, ranking officer, is the former Secretary of War for the Union, having served under Presi-indictment by a Washington grand jury for juggling federal funds. He riverboats—Ironciads com-The riverboats—Ironciads com-Floyd, ranking officer, is the shot and the fortress reeled. An-swering Confederate gunfire dam-aged the majestic warships, but couldn't stop them. Foote was wounded in the

Foote was wounded in the foot.

IN CHARGE of cavalry for Don-elson's defenders was Lt. Col. Nathan Bedford Forrest. Forrest alone emerged with a trace of victory; he led his horsemen out of the beleaguered fort in a suc-Union units under Brig. Gen. John A. McClernand and Brig. Gen. Lew Wallace fought to turn back the Confederate forces retreating from the fort. Forrest's cavalry was the only cessful retreat before the Rebel unit to make a clean break, escap-ing through the lightly falling snow into the swamps. capitulation. The assault has earned the

stood to have numbered some 20,000 troops. Grant's 15,000-man (Copyright, 1962, Hegewisch New syndicate, Chicago 33, Ill. Photo: New tional Archives.)

Tenn.

tion we received was so overwhelming in terms of requests for instruction leaflets, that we changed our plans for this week's feature. This enabled us to bring back-for an encore-the types of patterns so enthusias-

tically received by our knitting audience. APPEALING

ENDEAVOR It's not difficult to imagine why the ideas of making little items for baby is such an appealing one. For one thing, Christmas is just around the corner and these little outfits can be made just in time to give to Santa to slip under the tree. Somehow, too, babies fall into the class of very special people, and, on this - a very special holiday, parents and friends love to show how glad they are that baby has joined them in time for the joyous

season

I'm sure that as soon as you see these designs you won't wait to start knitting for the newcomer in your family or in your circle of friends. A combination of the stockinette stitch (the simplest one of all) and stripes of open, lacy work is responsible for the lovely effect. The raised trim around the edges of bonnet, mittens, and bootees is created in the garter stitch. Add the finishing touches with matching or contrasting ribbon trim. Instructions are free. Just send a stamped, self-addressed envelope to the Needlework Department of this newspaper and request Leaflet No. B-103.

BABY'S CONTENTED LOOK shows she's pleased as punch with her new three-piece knitted outfit-sacque, bonnet, and booteesall to match. The stockinette stitch on the yoke and sleeves gives way to a lacy patterned effect along the border and through the body. The same technique scores a hit again in the matching hat and bootees. Free directions are yours for a stamped, self-

Pot

By Susan Lowe

Call it a soup or a stew — as you please — but now and again enjoy one of those wonderful, fragrant meal-in-a-pot dishes. Most of them have ancient roots in a foreign land, but have long since been naturalized and become cherished citizens of the American cuisine.

Scandinavia abounded in fish and dairy products and it's very possible that fish chowder developed there. New England took the delectable dish to its bosom and now claims it for her own.

Our British ancestors acquired a taste for curry through foreign service in India and out of it came Mulligatawny Soup to be passed along to us. One of our favorite versions is a rich curried lamb soup.

Chicken Soup L'Espagnol is Spanish, of course, and the Spanish way of making it is to blend many dominant flavors like saffron, olives and tomatoes and come up with a dish in which none of the flavors can be singled out. This soup with crackers and a simple salad makes a hearty meal.

Hearty Hungarian Soup is Hungary's best loved contribution to the American table, but whether it's soup or stew or chowder it makes a meal in one. Try one soon!

2 medium onions, chopped 2 medium onions, chopped 2 tablespoons butter 2 lbs. beef (chuck or round) cut into 1-inch cubes 1/2 lb. beef liver, cubed 2/2 teaspoons salt 1/2 teaspoons paprika 2 green peppers, sliced 2 tomatoes, sliced 1 carrot diced 1 sprig parsley, chopped 6 cups water 2 potatoes, pared and diced

Brown onions in melted butter in heavy soup kettle. Add beef and liver. Saute until well browned. Add salt, paprika, peppers, tomatoes, carrot, parsley and water. Cover and cook slowly until meat is tender (about 1 hr.). Add diced potatoes and cook another 25 minutes, or until potatoes are tender. Serve very hot with crisp, flaky saltine crackers. Serves 6.

New BAB-O disinfects as it cleans-with Diaphene. Only new BAB-O w

this 2-way action: (1) Its chlorine bleach removes stains, makes sinks sparkling white with no hard scrubbing, and just one rinsing. (2) Its Diaphene, world's most advanced household germ fighter, combats household germs . . . from cleaning to cleaning.

New HEP sprays ovens clean. Ovens look like new in minutes . . . with amazingly mild new HEP! No messy pastes or brushes, no hours of scouring. Just spray on HEP- and let it set. HEP's fast-acting spray cuts under burnt-on food and grease so they loosen and disappear with a wipe of your damp cloth. Save your pep-get BAB-O and HEP. B.T. BABBITT INC.

#### FISH CHOWDER

- 4 slices bacon 2 small onions, chopped ½ green pepper, chopped 3 tablespoons butter 2 cans frozen cream of potato soup soup 2 soup cans milk 1 pound frozen haddock fillet, cut into 1½" cubes 2 teaspoons salt ½ teaspoon pepper ½ teaspoon oregano

Fry bacon until crisp and drain on paper towel. Add chopped onions and green pepper to drippings and cook until tender. Add butter, cream of potato soup, milk, fish, salt, pepper and oregano. Simmer (do not boil) 20 minutes or until fish is tender. Put saltine crackers into soup bowls, ladle chowder over crackers. Serve with more saltine crackers. Serves 8.

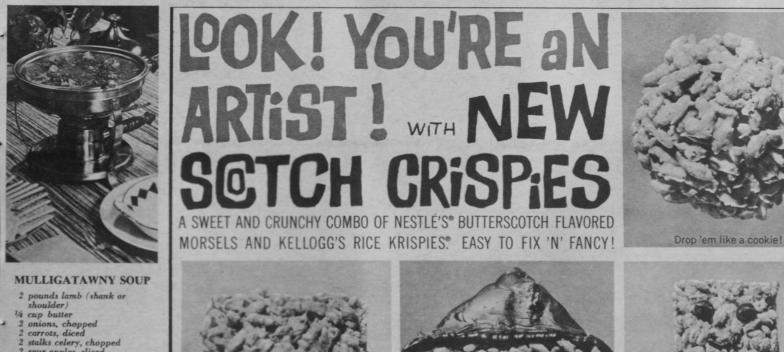

### CHICKEN SOUP L'ESPAGNOL

3-pound chicken, cut up and boned (½ cup flour, 1 teaspoon salt, and ½ teaspoon pepper, in paper bag) ¼ cup butter 2 medium onions, sliced 1 cup green olives, pitted and chopped

green pepper, chopped Small pinch saffron 3 cups water pkg. frozen peas cup canned tomatoes 3 teaspoons salt

Put chicken pieces in paper bag with flour mixture; shake until well coated. Heat butter in large kettle; add chicken and brown well. Remove chicken and add the sliced onions, olives, green pepper and saffron. (Saffron is very potent — be conservative.) Cook for 10 minutes. Return chicken to kettle and add 3 cups water, or enough to cover. Cover tightly and simmer 1½ hours or until chicken is tender. Add peas, tomatoes, and salt. Cover and cook 20 minutes. Have plenty of full-flavored wafers to pass, and serve to 10.

tablespoon curry powder (or more, to taste)
 quarts cold water
 large bay leaf
 teaspoon thyme
 tablespoons chopped parsley
 teaspoon whole black pepper
 teaspoons salt
 tablespoons lemon juice
 Cut lomb in shout 1 linch

sour apples, sliced tablespoons flour

2-

Cut lamb in about 1-inch cubes. Brown in melted butter in large, heavy kettle. Add vegetables and apples. Saute over medium heat, stirring frequently, until vegetables are lightly browned. Stir in four and browned. Stir in flour and curry powder. Slowly add cold water, stirring con-stantly. Add bay leaf, thyme, parsley, whole black pepper and salt. Cover and simmer over low heat about simmer over low heat about 2 hours. Remove meat. 2 hours. Remove meat. Strain soup through sieve, pressing vegetable pulp through with spoon. Return to kettle. Add meat and heat to boiling. Add lemon juice and serve very hot with rich-flavored wafers, and a cool dessert—salad of mixed fresh fruits. Serves 6.

# THE FARM SITUATION N '62

FARMERS across the Midwest have just closed their books on a generally good income year. Drouth was a problem in the Dakotas but moisture conditions are now better. Some Corn Belt farmers raised a big crop and then had trouble harvesting it. However, for the country as a whole, net farm income for 1961 was up 9% to 10% from the previous year; our part of the nation shared in this improvement.

Your prospective income picture for 1962 looks very similar to this past year. While no increase in income is expected, holding even with this past year is not bad. The drouth area of the Dakotas and Minnesota, with better moisture in 1962, can look for some improvement in income.

#### **Beef and Dairy Outlook**

Total cattle numbers moved up by well over a million head in 1961 and an even greater increase is likely in 1962. This is the result of general optimism among beef cattle producers last year, which caused them to hold back breeding stock. While interest in expanding cow herds will dwindle a little during this year, the 1962 beef calf crop will be 500,000 more than last year as a result of the large breeding herd already on hand. Milk cow numbers are holding very stable; the decline last year was only 1%.

Cattle feeders are a hardy lot, and they may need to be during the next few months. Marketings of finished steers are expected to increase, causing weaker prices. Costs of feeders last fall were high, relative to the fat cattle market. Feed grain costs this winter are somewhat higher, too. By summer the surplus of beef should be worked off and markets will improve into the early fall. However, summer feed grain costs will be higher than for some time.

Owners of beef cow herds sold their feeders for a very profitable price this past fall. There is not likely to be the usual price rise from fall to spring. While last summer there was a rising feeder market after July, for 1962 a more normal seasonal price pattern is expected. A drop of at least \$2 is in sight from spring to fall. This would put most Midwest feeder cattle markets more than \$2 lower than in the 1961 fall buying season. There still should be profit for the cow-calf man. Dairy farmers have generally made fair profits over the past couple of years and will show a good net income in 1962. However, clouds are beginning to gather on the horizon. Milk production is increasing, while at the same time the consumption per person is dropping off. CCC purchases of butter and cheese have been sharply higher and, if the present support rate is held, government buying next summer may be the highest in several years.

There is a push on to cut the costs of government price support programs. With heavy dairy expenditures in sight, there is more talk of some sort of production quotas for dairy farmers. Congress and USDA officials will be giving quite a bit of attention to this problem in coming weeks. In the meantime, support prices will probably be held at present levels through this year and dairy products will not sell much lower than in 1961. Grain costs will be higher but soybean meal supplements should be plentiful.

#### Sheep and Lambs

Lamb prices have been dropping lower and lower over the past three years. Many western producers have been forced out of business. Slaughter of sheep and lamb has been heavy this past year and numbers have been reduced somewhat. The 1962 lamb crop will be down some from last year.

As we move into the future, the sheep situation should right itself and profits will again be made. However, some of the production may shift from the range areas to

Box 220, Randolph, Wis. They will not only send you this tomato seed but also a packet of the glorious Giant Hybrid Zinnias and a copy of their 55th catalog, America's most colorful 1962 seed catalog.

BETTER VALUES

are

the Midwest and the South where farm flocks are carried without much cash cost.

## why a wayne pullet program is good for your pullets...and you, too!

Laying house failure can often be traced back to a poor pullet. Only good pullets can pay off in the laying house. The Wayne Pullet Program sets the stage by producing pullets with a minimum of fat, at the correct stage of sexual maturity, ready to lay at a high rate of efficiency.

The Wayne Pullet Program brings birds into the laying house ready to take full advantage of their bred-in potential. It's easy to follow, too.

Start with Wayne Pullet Starter from 0 to 8 weeks. Then from 8 to 22 weeks you take full advantage of controlled energy intake to fit your particular require-ments with any of these specific feeds:

and American chin

• 14% PULLET DEVELOPER—A complete, medium-low energy feed fortified for growing vigorous pullets.

• 17% UNIVERSAL GROWER—May be your choice for controlling energy intake. It should be limit fed—or if full fed, diluted by feeding some oats.

•22% PULLET GROWER-Only a small amount needed along with either limited or full fed grain

Wayne Concentrates are also available for mixing with local grain to duplicate any one of the above programs.

See your Wayne Dealer for the pullet program de-signed for you. Your egg check this fall will prove you were right with Wayne this spring.

#### **Small Grains**

Barley is included in the 1962 feed grain program and this will cause a sizeable cut in acreage. However, the crop in the central U. S. may be almost as large as last year when drouth cut Dakota output sharply. The price of the 1962 crop will be about the same as for 1961 barley.

Oats are a crop that is losing favor with most Corn Belt farmers who are operating on high-priced land. They are finding other ways to establish legumes or they are buying commercial nitrogen to replace some legumes. Oat acreage will probably be down some again this year, but prices won't be much different. In most recent years it has paid to sell any surplus oats at harvest rather than hold for a price rise.

#### **Farm Costs**

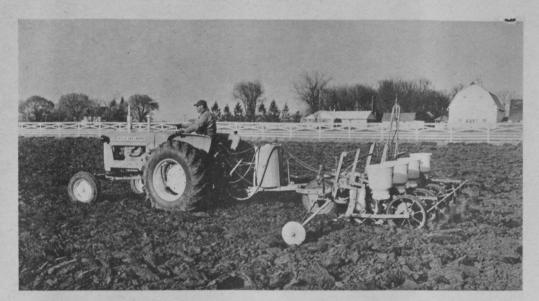

Most farm costs will creep upward in 1962, maybe more than last year. Fertilizer prices should not change much; agricultural chemicals may be a little cheaper as supplies of certain kinds increase. Machinery list prices will generally be no higher than last year; however, trades may be a little closer.

Farm labor costs and property taxes are slated to show the most increase among various farm costs. There is a chance of some special relief on income taxes for those buying new equipment. Interest on production loans will be very nearly the same as last spring. Mortgage loan rates will probably move up before the end of the year.

Land prices turned the corner during 1961 and are now showing some strength. This is likely to continue into 1962 in most localities. Where there is quite a bit of land in the Soil Bank, the fact that much of it is coming out from under a five-year contract this year will increase available land. Prices will advance less in those instances.

2 -----

Corn planted this spring will again be restricted by the amount of acres put into the feed grain program. The government will purposely continue heavy selling of CCC stocks until after the crop is planted, in order to encourage a heavy signup. Incidentally, this farmer is using one of the new wheel track planters that are used with minimum tillage.

About a million acres of land are used each year for superhighways, factory sites, airports, subdivisions and other non-farm uses. This is one of the underlying factors in land price strength. In the near term, improved farm income in the past year or so has increased farmer interest in land buying. Some city people want land as a hedge against inflation. Some further land price rise is in sight for 1962.

# Terramycin<sup>®</sup> Fights Early Mortality ONLY TERRAMYCIN GIVES YOU ALL THESE ADVANTAGES:

Broad range—to fight the many kinds of germs—which hit chicks—that are susceptible to Terramycin. No other antibiotic or drug is effective against more disease organisms than Terramycin.

<u>Complete solubility</u>—to give chicks all the medication you put in the water . . . even at high concentrations through automatic medication systems.

Greater stability—to get its disease-fighting activity into chicks at high levels. Terramycin is the only broad-range antibiotic for farm use with the potencyprotected molecule. <u>Greater absorption</u>—to get broad-range antibiotic carried by the blood to the site of infections.

Kills drinking water germs with Anti-Germ 77. Germ-killing action on organisms that cause paratyphoid, pullorum, fowl cholera, infectious diarrhea and enteritis. Only Terramycin gives you the broad-range solubility, stability and absorption you need.

Don't risk losing chicks when nothing else has all the advantages of Terramycin. See your animal health supplier today. Chas. Pfizer & Co., Inc., New York 17, N.Y.

# BUTTER SAUCES of international fame

ALTHOUGH most butter sauces and blends are used internationally they are in general of French origin. Many a celebrated chef has built and maintained his fame through the clever way in which he uses butter. It may be as a butter blend or as a sauce-Meuniere (with lemon juice and chopped parsley added) . . . Polonaise (which makes a delightful butter when toasted bread crumbs are added to Meuniere) . . . Nut Butter . . . Deviled Butter . . . Maitre D'Hotel Butter are but a few delightful ways in which to add a distinguishing note. And best of all is the fact that we can use butter ourselves in the same tasteful and fascinating manner.

Gold Ribbon cook at Indiana State Fair tells you her recipe for

# Honey Hive Coffeecake

"People are always asking me how I make my Honey Hive Coffeecake," says Mrs. Charles Fisse of Greensburg, Indiana. "So I thought you might like the recipe, particularly since it won me a Gold Ribbon for the best yeast baking at the Indiana State Fair. I got the idea for the shape and topping from a women's magazine, but the basic dough is my own recipe. I enjoy making it—and I'm sure that you will, too. It's so easy with Fleischmann's Active Dry Yeast. Fleischmann's is so fresh and fastrising that you can depend on delicious results every time."

#### **CRISP BREAD WITH ROBUST BUTTERS**

3 loaves of French bread (ready to be baked) or 3 loaves brown-and-serve French Bread

Cheese-Garlic Butter Chili-Olive Butter Chivy Butter

Brush tops of each loaf with one of the Robust Butters; then bake according to package directions. Slice bread and let guests select desired butter for spreading.

#### **CHEESE-GARLIC BUTTER**

Yield: approx. ½ cup ½ cup (1 stick) butter, softened ¼ teaspoon garlic powder ¼ teaspoon garlic powder ¼ cup grated Parmesan cheese Blend together butter, garlic powder and Parmesan cheese until well mixed.

#### **CHILI-OLIVE BUTTER**

Yield: approx. <sup>1</sup>/<sub>2</sub> cup <sup>1</sup>/<sub>2</sub> cup (1 stick) butter, 2 tablespoons finely softened chopped ripe olives <sup>1</sup>/<sub>4</sub> teaspoon chili powder Blend together butter, chili powder and olives until well mixed.

### CHIVY BUTTER

Yield: approx. ½ cup ½ cup (1 stick) butter, 2 teaspoons Worcestersoftened shire sauce 1 tablespoon minced chives

Blend together butter, chives and Worcestershire sauce until well mixed.

#### **DEVILED BUTTER**

Cream together ½ cup (1 stick) butter, 2 sieved, hardcooked eggs, 1½ tablespoons white vinegar, 1 teaspoon each lemon juice and prepared mustard. Season to taste with cayenne pepper. For fish and vegetables.

### HONEY HIVE COFFEECAKE Makes 3 Cakes

- ½ cup sugar
  3 tablespoons shortening
  2 teaspoons salt
  1½ cups boiling water
  ½ cup very warm water
  2 packages or cakes Fleischmann's Yeast, active dry or compressed
  - 2 eggs, beaten 7½ cups sifted flour (about) 1 cup confectioners' sugar ¼ cup (½ stick) Fleischmann's Margarine ¼ cup honey Yeast, 1 egg white ½ teaspoon ground cardamom ½ cup chopped pecans

Dissolve sugar, shortening and salt in boiling water, cool to lukewarm. Measure very warm water into bowl. Sprinkle or crumble in Fleischmann's Yeast. Add lukewarm milk mixture and eggs. Gradually add enough flour to make a soft dough. Turn dough out onto a lightly floured board. Knead until smooth and elastic, about 5 minutes. Place dough in greased bowl, turning to grease all over. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour. Meanwhile, combine sugar, Fleischmann's Margarine, honey, egg white and cardamom. Mix well. Divide dough in 3 equal parts. Cut one part in half and roll each half into a strip 24 inches long. Twist one strip and wind into a coil in center of greased 9-inch round cake pan. Twist second strip and coil around first strip to complete the coffeecake. Make second and third coffeecakes the same way, in separate pans. Spread each with  $\frac{1}{3}$  of the honey topping. Sprinkle with chopped nuts. Bake in moderate oven ( $325^{\circ}$  F.) for 30 to 40 minutes.

ANOTHER FINE PRODUCT OF STANDARD BRANDS INCORPORATED

#### TROUT AMANDINE

1/3 cup butter 1/3 cup slivered almonds 1/4 teaspoon salt 2 tablespoons fresh lemon juice Fried trout or other broiled or fried fish

Melt butter, add almonds and sauté slowly until almonds are golden brown. Add salt and lemon juice and heat a minute longer. Serve hot over cooked trout or other fish. Makes about % oup sauce.
