SAILBOAT DEMASTED ON BAY

A STIFF BREEZE Sunday morning snapped the mast on this catamaran sailboat and left David Wentworth, 22, of Birmingham and Gary Hoffman, 21, East Lansing, stranded on Tawas Bay. The United States Coast Guard from Tawas

Point came to the rescue and towed the craft to the mouth of Tawas River. Wentworth and Hoffman are shown paddling the craft into the river.—Tawas Herald Photo.

## The Door to Easier, Better Living is

#### HOUSEPOWER WIRING

In any home, new or old, Housepower wiring opens the door to a wonderful new world. A world of convenience, ease and better living, provided by electric appliances. To benefit you, these appliances must have electricity. Electricity must flow through wires. If wires are too small, or too old, the flow is restricted the door is closed. Fuses blow, lights dim and blink, appliances are sluggish, slow. How does Housepower wiring prevent these ailments? Simply by supplying large enough entrance wiring, enough wiring circuits, and enough plug-in outlets to smooth the flow of electricity. Now, during National Home Week, would be a good time to give your home a Housepower checkup. Make sure the door to better living - electrical living - is open wide!

Is The Telephone Company Fair to Retired Employees When It Deducts Half Their Social Security Benefits From Retirement Fund Checks?

after it is completely repaid.

The Bell System uses its pension plan as an incentive to recruit good employees. They are promised a pension of 1% of their average earnings over a five-year period, multiplied by the number of years they have worked.

Employees who have devoted years of their lives to faithful service in the telephone company are entitled to receive this pension when the company asks them to retire.

Instead, the Bell System deducts one-half the amount they receive from Social Security. This sum is taken away from their earned pensions each month. This would not be fair even if the company stopped de-

ducting when it had recovered the amount originally paid toward that employee's Social Security benefits. It is even more unfair that the company continues to deduct

In many cases, the Telephone Company has recovered its Social Security contributions several times over. Social Security benefits were intended to help retired people meet the expenses of old age and increased living costs in a changing economy. They were not intended to provide giant corporations a means of making a profit at the expense of retired employees. But there seems to be no legal recourse against this injustice.

Employees of the Bell System do not believe that the thousands of stockholders in American Telephone and Telegraph are aware of this company practice. They hope that this attempt to inform the public will lead to action by stockholders, resulting in full pension payments to the employees who make it possible for the company to pay dividends.

## **New Class B** Conference Ready to Go

By ED PERLBERG **NBC** Reporter

It will be dog-eat-dog in the Northern B Conference this year as six Northern Michigan Class B powers square off for the first season of their newly-formed league.

Pinconning, Gladwin, West Branch, Tawas Area and Standish-Sterling left the Northeastern Michigan Conference, which they had called home for 24 years at the end of the 1961-62 school year and have been joined by Oscoda to form the new

Tawas Area, runner-up to Gladwin in last year's race, has been pegged as the team to beat as the Braves will be fielding practically the same team again this year.

Pegged as they are as favorites, no one in the Northern B is conceding anything. Conference coaches point to a Standish-Sterling eleven, winner of five straight last year after a young team of sophomores and juniors jelled, and newcomer Oscoda as being at the top of the list with Tawas. Gladwin, the perennial power, and West Branch, if it can overcome early practice injuries, will also be pushing the leaders all the way. Only Pinconning, facing a big rebuilding job, is not figured in the title race but the Spartans, too, may be tough later in the season.

All six conference teams open out-of-conference Friday night. then play five straight league contests in a round-robin schedule and finish off the season with a pair of non-conference teams.

Area football fans think this will be one of the roughest conferences in the state. The league is loaded with arch rivals, the teams have added some big class B and small class A schools, non-conference opponents and will be well matched within the league as the schools range from 450 to 650 in size.

Tawas Area, with a complete team of offensive veterans on hand, has the horses to go all the way. Even with four top veterans missing, including the league's leading linebacker last year, Don Humphrey, Coach Herb Escott has reason to smile when he surveys his talent.

Randy DeWyse, an all-conference guard last year, was rated as the team's strongest offensive and best defensive player a year ago.

The backfield is loaded with talent, including Jim Herriman, last year's leading scorer who has good speed and great power. Also returning is Fullback Ed Coller, another all-conference selection, two more halfbacks in Ernie Lixey and Brian Helmer and a big, rugged boy in Bill Western, who

excels as a blocker. Coach Escott freely admits his

DETROIT — Boom and bust "ghost towns" are as much a part of Michigan's heritage as are its primeval northern woods, abundant waterways and industrial enterprises.

Recent research at Detroit's Wayne State University by Prof. Sidney Glazer, a Michigan historian, indicates that although lumber ghost towns are by far the most numerous, many other kinds of settlements boomed out of Michigan's wilderness, only to be later swallowed by the forests, the unrelenting dunes and by larger communities.

WRECKAGE pictured above represents one of the worst auto crashes to occur on an losco highway in recent years. John H. Hallwood and his wife, Marie, of Flint, both 59 years old, received fatal injuries in the car at left. Geraldine Hart, 19, of Mikado, received fatal injuries in the car at right. Four other persons were injured. Police are still at a loss to explain the cause of this ac-

cident, which happened at the M-65-M-55 intersection August 31. The intersection is clearly marked and is equipped with a stop light facing M-55 and caution light on M-65. Officers said the Hallwood vehicle rolled through the M-55 stop and was struck broadside by a car driven by William J. Mann.-State Police Photos.

- 2 cups sifted all purpose flour
  1 tablespoon sugar
  ½ teaspoon salt
  3 tablespoons soft shortening
  1 beaten egg (save 1 tablespoon for topping)
  1 pkg. special active dry yeast
  (or 1 cake compressed yeast)
  ¼ cup warm water (110°-115°)
  ¼ cup scalded milk

Measure all dry ingredients and shortening together and blend. Add yeast to warm water; let stand a few minutes. Scald milk, pour into bowl. Cool to lukewarm, then add the egg, yeast mixture and half the flour mixture. Beat until smooth.

Add the remaining ingredients, mixing until well blended. Scrape down dough from sides of bowl. Cover and let rise in warm place (for a cozy rising place, put bowl or pan on a rack over a bowl half full of water; keep water hot), 20 to 30 minutes, or until doubled.

Meanwhile grease two cookie sheets. Have topping ready: 1 tablespoon beaten egg, 1 table-

spoon soft butter, sesame, poppy or celery seeds.

Punch down raised dough. Toss onto lightlyfloured cloth-covered board. Turn over several

Take strips by ends and twist several times. Leave straight or curve as they are placed on the cookie sheets. Brush with the egg and sprinkle with seeds. Let rise in warm place 15 minutes. Preheat oven to 425°. Bake twists 10 to 15 minutes, or until golden brown. Cool on rack a few minutes before serving. Makes 1½ dozen twists.

Time will go up in fun when your children become acquainted with the foil "daisy" cups you may request for cupcake baking. They are really "child's play" to make. In fact, most grade-schoolers have made "snowflakes" which are folded for cutting like these daisies. Begin with 6 or 7-inch squares of the state of t foil; fold opposite corners together once and then fold the next opposite corners together. Then fold once more, and cut a petal shape from the outside foil.
