Christian Science Lesson-Sermon

The meaning for today of Christ Jesus' complete triumph over the flesh will be emphasized this Sunat all Christian Science day churches.

Golden Text: "There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit" (Romans 8:1).

The Bible lesson is entitled "Are Sin, Disease and Death Real?" Related readings include this passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 233): "Every day makes its demands upon us for higher proofs rather than professions of Chris-tian power. These proofs consist solely in the destruction of sin, sickness, and death by the power of Spirit, as Jesus destroyed them."

One versatile, 3 H.P. Toro Power Handle powers snowplow, lawn mower... and more, at a saving

Here's the practical way to lick the two biggest outdoor jobs you have-with one, handy lift-off engine.

Right now, the Toro Power Handle can end the lifting, lugging work of shoveling snow. Then, next spring, it can also mow your lawn-beautifully.

The Power Handle's wintertime partner is the famous Toro Snow Hound. Snapping firmly to the Power Handle in 17 seconds (no tools needed), the Snow Hound shoots snow off sidewalk or drive at the rate of a half ton a minute. Discharges snow in any direction, bites through powdery or drifted snow as deep as 16 inches.

Come spring and the Power Handle turns to cutting grass. It simply lifts off the snowplow, snaps onto a 21-inch Toro rotary mower attachment.

Buy the Power Handle and both implements at once or separately-the combination saves you money. Bought now, ready for snow, the Power Handle and Snow Hound cost only \$199.90. In the spring you can get the rotary mower attachment for only \$89.95 (giving you the kind of Whirlwind 21 mower that would normally cost you \$149.95). Then you're ready to mow, you're ready for snow, you're saving dough all year 'round.

Since 1955, over 150,000 people have bought the Power Handle and various of its implements (others: pump, edger-trimmers, tiller, reel mower). They're proving, year 'round, what a valuable tool this unique lift-off engine is. And they're saving money doing it. Come in today for the full Power Handle story.

TELECTER DKfk YOU Can Save the local community. to provide a future for themselves. By Dr. John E. Thompson

Rural Area Development-sounds too much like a government bureau. No, Rural Area Development is country America's best hope for future prosperity because it puts local resources to work for

The author of this interpretive article on what our rural areas can do to help themselves is an economist in South Dakota. He heads up that state's extension activities in rural development. In brief, according to Dr. Thompson, Rural Area Development requires a combined force of rural and city people working together

If you live in a small town or on a farm, in fact if you live in a city, this article is for YOU! It may help you to solve the economic problems of your community.

who are constantly studying and using new farm management techniques and methods of increasing their profits. Likewise, our fastest growing and most prosperous rural communities, offering the greatest employment opportunities, are those where people are constantly studying and taking action on the basis of new techniques which have been tested, tried and have succeeded.

The leaders in these fast growing communities study the changing conditions in their economy which not only limit but can open up new opportunities. They are aware of the shifts in supply and demand for the kind of products currently being produced.

The markets, both domestic and foreign, are ever changing. The impact of these changes is recognized early. Above all, the most successful farmers, are those having people who have pre- population by the year 2000 along with about

and analyze their human and physical resources. These resources should be evaluated in relation to the changes that are taking place. This enables local people to adjust to change, to take advantage of changes and even to cause changes which can benefit the whole community. It is important to study the causes for past trends and consider to what extent these causes can be expected to continue into the future. Also, to what extent can they be altered if they are undesirable.

The demands of people need to be studied in terms of how the local community can help satisfy such demands. For example, the development of new recreational opportunities is a real potential in many areas when one considers the projections made by the Outdoor Recreation Resources Review Commission on Outdoor Recreation for America. This research rural communities, like the most successful organization projects almost a doubling of

a four-fold increase in disposable consumer income and billions of passenger miles that will be traveled. A shorter work week permitting more time for recreation is also anticipated. All of these changes will put a greater demand on space required for several types of outdoor recreational activities that are possible only in rural communities. To capitalize on such changes, however, will require study, planning and action by people living in the rural areas.

In order to develop many of the rural areas to their fullest potential, prompt action is needed in planning, zoning and development.

Like the leading farmer, local people are going to have to consider the different types of economic activity which will give them the greatest comparative advantage. The farmer and businessman in a community are not only in competition with their close neighbors, competition from outside of their area and region is becoming very keen.

The competitive position of a community or an area depends on the advantages which the local people can develop and show. Some of the desirable aspects of a rural community have to be planted, nourished and cared for. Others already exist, such as beauty, space, contentment and close family ties. Still other conditions of Rural America considered of real value in times past, such as the very localized community functions, can be expected to give way in the future as the number of farms decrease and transportation facilities continue to improve.

If a community is to compete with other communities, changes will also have to occur in local institutions such as rural schools, churches and recreational facilities. Many of these services were designed for a different type of social and economic environment than what exists today. Without change in these institutions people will desire to move out of an area to other localities more adequately meeting their present and future needs. The decisions of people to stay or move into a community do not depend solely on the job opportunities. Such decisions are also based on other community services and advantages. The adequacy and quality of educational training, recreation, church facilities, shopping services, the general appearance of the town and country, along with the general attitude of local people about the future are some of the important aspects taken into account in deciding where individuals want to live.

The need for a community with many job * opportunities and a wide variety of goods and services is recognized by almost everyone. What often is not adequately understood are the various methods used in creating such areas. Success in causing economic development is usually not easy. It is challenging in rural areas because of the continual decline in farm population and the effect of this on the area. The problem in most of Rural America is not the inability to produce. The problem is a loss in the local markets of consumer buying of what is produced. The continual out-migration of people tends to reduce in rural areas the demands for many types of goods and services. Ultimately this restricts investments and job opportunities in those farm areas.

In most rural areas the trend of fewer and fewer farms can be expected to continue. This trend may be slowed down somewhat by irrigation development, increase in fertilization, increase in cattle feeding, dairying, truck gardening, etc. However, the underlying forces causing this unwelcome trend — the adoption of new farming technology and improved production practices - are anticipated to continue. Therefore, it appears that the greatest chance for employment opportunities in the rural farm areas are in non-farming types of work. Where farming is the major economic activity, expanding employment in agriculturally related industries should be closely investigated.

A very brief review of some essential ele-ments required for community growth which have been successfully used in rural areas

should be considered. These requirements for economic growth and development could be referred to as the five P's of economic progress. They stand for (1) Priority of Time and Ef-fort, (2) A Plan, (3) Project Selection, (4) Persistence and (5) Patience.

1. Priority of Time and Effort - One of the first decisions to be made by people of a community interested in economic development is whether they are willing to give the time and effort required to make the program succeed. If employment opportunities are to be created the time required for study and action in a development program has to be given a higher priority than the time involved in participating in some other types of activities. A host of organizations are constantly com-peting for everyone's time. The cost of failing to give the necessary time for economic de-velopment compared with the disadvantages of not participating in some other function should be seriously considered.

2. A Plan - A second essential for economic growth and development is for local people to follow a logical plan in moving through the steps of progress. While there is more than one plan or procedure that can be followed in economic development, the steps usually include: (a) stimulating local interest in development (this can be done by pointing out problems and possible opportunities), (b) organizing a steering or action committee, (c) inventorying the human and physical re-sources in order to better recognize the limita-tions and opportunities that exist, (d) choosing a course of action, (e) evaluation of the action

taken, (f) consideration of other actions that might be taken. Technical assistance in ways of stimulating interest, in organization, in the ways of inventorying, analyzing and evaluating the resources, and in helping the organization function can make the difference between success and failure. Technical assistance is often available from agricultural agencies and organizations, Department of Commerce agencies, Chambers of Commerce, service organizations, educational leaders, church groups, leagues, etc.

3. Project Selection-A committee has to have a project to work on if interest is to be maintained and the necessary effort is to be given. As an analysis of the economy is being made various ideas for group projects will arise. It is important that local people be given the opportunity to study the feasibility of various projects as they germinate in this environment of human thinking and cross-fertilization of ideas. In virtually every area there are opportunities for many people of many different interests to participate. They can study the possibilities of several economic ventures that might improve their community.

4. *Persistence*—The importance of persistence and grim determination on the part of local people in developing a better community in which to live cannot be over-emphasized. In order to have this element of progress convincing, evidence is frequently needed suggesting opportunities. The members of a steering committee or some other community leaders should be ever ready to instill hope and encourage continuous study and action when signs of inactivity, complacency and stagnation become evident.

5. Patience-In most cases economic development does not occur rapidly. It is a time consuming process that usually demands a good deal of patience. Enthusiasm frequently wanes when projects are discovered to be "not feasible". The chance of making mistakes in the process of economic development is high. However, it is important to learn from these mistakes and not be easily discouraged. Much time often has to be spent in discovering what the real opportunities and limitations of a community are. There is a continuing need for planning, and these plans are only the beginning. At best they serve as no more than a promise for progress. The carrying out of the plan is usually more difficult and time consuming than preparing it. This phase requires a generous supply of persistence and patience.

These are only some of the ingredients required in proing rural opportunities and economic grow not always readily available in every community. However, where there are people the potential for development exists. Continuing to strive for a better community is the best insurance against community stagnation. Rural opportunities are produced by hard work by many people. They grow out of cooperation, wide scale participation, grim determination, sacrifice, planning, study and action. There is no more safety for a community in waiting for a favorable change than there is for a farmer who attempts to play it safe by planting nothing. The Rural Areas Development Program can be the scientific machine used to produce rural opportunities. It must be operated by determined local people in a manner adapted to area conditions. This program can be a valuable educational device leading to economic growth and development because it provides an opportunity for everyone to be a leader and a teacher. This is the most basic element for progress in a free society. The Rural Areas Development Program is a real challenge and opportunity. It is the best hope for greater opportunities in Rural America.

MARMALADE TWIST Winner, 11th Grand National Bake-Off by Mrs. Marie C. O'Brien, Long Beach, Californ

Mrs. Man.
Ya cup sugar
Ya cup shortening
1 teaspoon salt
Ya cup hot scalded milk
1 slightly beaten egg
1 cake compressed yeast, crumbled (or substitute 1 pkg. active dry yeast softened in Ya cup warm water; decrease milk to Ya cup)
1 teaspoon vanilla
Grated rind of 1 orange (1 or 2 tablespoons)
2½ to 2¼ cups sifted all purpose flour
¼ cup orange marmalade

Combine sugar, shortening, salt and milk in large mixing bowl. Cool to lukewarm. Stir in egg, yeast, vanilla and orange rind. Gradually add flour to form a stiff dough, beating well after each addition. Cover. Let rise in warm place until light and doubled in size—1 to 1½ hours. Orange-Cream Filling: Beat ½ cup (3-oz. pkg.) cream cheese with 2 tablespoons orange mar-malade until light and fluffy. Add ½ cup chopped nuts, 1 tablespoon grated orange rind and ¼ teaspoon nutmeg; blend thoroughly.

Roll out dough on floured surface to 14x12-inch rectangle. Spread with Filling. Roll up, starting with 14-inch side. With a sharp knife, split roll in half lengthwise. Keeping the cut-side up, twist the two strips together. Seal ends. Place on greased foil, on a cookie sheet. Cover. Let rise until light and doubled, 30-45 minutes. Bake at 350° for 30-40 minutes. Remove from sheet. While warm, brush with ¼ cup orange marmalade.

In a saucepan, combine sugar and cornstarch. Add morsels, milk, water and beaten egg yolk. Stirring constantly, cook over moderate heat until mixture thickens. Remove from heat. Stir in coconut and butter. Chill. Fills and frosts your favorite 8 or 9-inch layer cake.

JIFFY CALIFORNIA BARS

- 1/2 cup softened butter or margarine

 3 tablespoons powdered sugar

 1 cup sifted all purpose flour

 2 eggs

 2 tablespoons all purpose flour

 1 teaspoon baking powder

 1/4 teaspoon salt

 1 cup (4-oz. can) chopped California walnuts

 1/2 cup quick-cooking oats

 1/2 cup brown sugar, firmly packed

 1/2 teaspoon vanilla

Cream butter until fluffy; blend in sugar. Add flour, a little at a time, mixing until smooth after each addition. Pat into a 9-inch square pan. Bake at 375° for 15 minutes.

Meanwhile beat eggs lightly. Sift in the 2 table-spoons flour, baking powder and salt. Stir in wal-nuts, oats, coconut, brown sugar and vanilla. Spoon over shortbread. Reduce heat to 325°. Bake 20-30 minutes. Cut into 1x3-inch bars. Makes about 2 dozen.

SPRING FOOD FESTIVAL

For goodness' sake

You know how it is. Sometimes you bake just for the joy of it. Not for a reason, but just for the sake of a new goodness from the oven. Well, here are recipes for that kind of feeling . . . for foods as warm and friendly as your best intentions.

Tropical Butterscotch Frosting (left) turns white cake into an occasion!

Fluffy Apricot Butter Cake (lower left) is delicately flavored, mysteriously good.

- Jiffy California Bars (right) are a breeze to make - just pat the dough into a pan.
- Marmalade Twist (lower right) is the sunniestflavored coffeecake this spring!

FLUFFY APRICOT BUTTER CAKE Junior Winner, 13th Grand National Bake-Off by Patty Cannon, Bloomingburg, Ohio

- by Fony Cannon, biodmingburg, Onio
 1 can (1 lb.) apricot halves
 234 cups sifted all purpose flour
 3 teaspoons double-acting baking powder
 1/2 teaspoon salt
 34 cup butter
 134 cups sugar
 3 unbeaten eggs
 1/2 cup water
 Coconut

- Preheat oven to 375°. Drain apricots; reserve

juice. Mash apricots to make ½ cup. Sift flour with baking powder and salt. Cream

butter; gradually add sugar, creaming well. Add eggs; beat well after each. Combine water with mashed apricots and ½ cup apricot juice. Add alternately with dry ingredients to creamed mixture, beginning and ending with dry ingredients. Blend well after each addition. Turn into two 9inch round layer pans, well greased and lightly floured on the bottom.

Bake at 375° for 35-40 minutes, until cake springs back when touched lightly in center. Cool; frost. Sprinkle with coconut. Fluffy Apricot Frosting: Combine in top of

double boiler ¼ cup sugar, 2 egg whites, ¼ cup light corn syrup, 2 tablespoons apricot juice, 2 teaspoons lemon juice, ¼ teaspoon cream of tartar and ¼ teaspoon salt. Cook over rapidly boiling water, beating with mixer until mixture stands in peaks. Remove from heat. Add 1 teaspoon vanilla; beat until of spreading consistency.

DAISY CAKE

(Pictured on the cover): Cut one layer of Apricot Butter Cake into eight equal wedges, like a pie. Cut the corners off the outside edge of each wedge to get the Daisy petal shape. Frost top and sides with a thin butter-cream frosting, so cake texture shows through.

Creamy Frosting: Cream 3-oz. pkg. cream cheese with 1 tablespoon milk. Sift and beat in 2 cups powdered sugar. Add more sifted sugar until smooth and stiff. Then gradually thin with milk until frosting will slowly pour off a knife. Add food coloring if desired. Place cake "petal" or spatha over year paper. Pour frosting from on spatula, over wax paper. Pour frosting from knife over top and sides of cake. Arrange in Daisy pattern. Let stand 2-4 hours to set.

Add a touch of newness!

Take the traditional meal of meat and potatoes. all the trimmings—add the important differences in these recipes. Surprise! Everything from meat to potatoes to trim has a new imaginative taste. Try one or all your next big dinner!

JUICY GLAZED HAM

Select whole, smoked ham. Wrap in aluminum foil, using double folds to completely seal edges. Bake in 400° oven for 30-35 minutes per pound. If you use a meat thermometer, insert it through the foil wrapping. Ham is done when temperature reads 160°

About one half-hour before baking time is completed, remove ham from oven. Open foil and press down around meat. With knife, make diagonal cuts %-inch deep and about %-inches apart, across entire fat surface of meat. Stud with cloves. Spread with one of the glazes; return to oven; bake 30 minutes longer, until ham is done and glaze is brown. If desired, glaze may be applied about every 10 minutes during rest of baking time, but don't baste ham with glaze and drippings; it dulls luster of glaze. Garnish with "tulips" made of cut hard-boiled

egg white and pimiento.

Honey-Orange Glaze: Mix % cup honey with 1 cup brown sugar and ½ cup orange juice.

Marmalade Glaze: Mix 1 cup honey with % cup orange marmalade and dash of Tabasco.

Apricot-Pineapple Glaze: Combine 1 cup brown sugar, ½ cup canned apricot nectar, ½ cup pineapple juice; cook until thickened.

Cranberry Glaze: Mix ½ cup light corn syrup with 1 cup canned cranberry sauce.

SAVORY BAKED POTATO TOPPINGS Allow one big white potato per serving. Scrub, and oil with bacon drippings or salad oil, if you like a soft crust. Bake 1 hour at 400°. (Prick potatoes with fork to avoid oven explosions.)

Butter Toppings: Melted butter with onions, parsley or chives chopped into it.

Sauce Toppings: Hollandaise or cream sauce, mixed with crumbled bacon, cubed cheese. Cheese sauce, from a can of cheese soup, all by itself.

Sour Cream Toppings: Coolly mixed ahead with chives, chopped onion or crumbled bacon.

SPRING GREEN BEANS

2 slices bacon or salt pork, diced 2 teaspoons sugar 4 family-size can cut green beans

Fry bacon or salt pork until crisp. Drain all but a few tablespoons fat off. Add green beans after removing a few tablespoons liquid from can. Add sugar, stirring as beans heat. Serve topped with pat of butter, salt and pepper.

HERB 'N SPICE BUNS

- 2½ cups sifted all purpose flour 2 tablespoons sugar 34 teaspoon salt 34 teaspoon powdered or crumbled leaf sage 1½ teaspoon powdered or crumbled leaf sage 1½ teaspoon salt 34 teaspoon salt 34 teaspoon soft shortening 24 tablespoons soft shortening 1 egg, room temperature 1 pkg. dry yeast (or compressed yeast) 34 cup warm water, 110°-115°, for dry yeast, 1 lukewarm water for compressed

Measure first six ingredients together and blend. Scald the milk. Pour into a bowl with the shortening. Cool to lukewarm; stir in egg. Pour yeast on warm water. Let stand a few minutes. Stir; add to milk mixture with half the dry ingredients. Beat until smooth, about 50 strokes. Add remaining ingredients and beat again, 50 more strokes. Scrape batter from sides of bowl. Cover; let rise in warm place about 30 minutes, or until doubled.

Meanwhile, grease 12 large or 18 medium-sized muffin cups.

Brighter meals ahead !

With the arrival of that first seed catalog, how quickly we tire of winter and hope for spring! Even the hearty meals that nourished coldweather appetites are no longer satisfying—we crave a sunny touch of spring. When this "spring fever" hits your home, try one of these recipes.

COMPANY-BAKED FRANKS

- ^{1/2} cup sharp processed cheese spread 2 tablespoons finely chopped onion 2 tablespoons finely chopped green pepper ^{1/2} teaspoon Worcestershire sauce Dash cayenne

- Vs teaspoon dry mustard 8 frankfurters 8 strips bacon (thinly sliced)
- COMPANY BAKED BEANS:

 - MTANI, BAKED BEANS: ¹/₄ cup dark molasses ¹/₅ cup brown sugar ¹/₂ teaspoon monosodium glutamate ² teaspoons prepared mustard ² cans pork and beans

 - 1 large onion, cut in quarters

Preheat oven to 400°. Combine cheese, onion, green pepper and seasonings; blend thoroughly. Split franks lengthwise almost all the way through. Spread centers with cheese mixture; fold edges together. Wrap each frank in a bacon strip; fasten with toothpicks.

Combine molasses, brown sugar, monosodium glutamate and mustard; stir into beans. Place in four buttered individual casserole dishes. (Make them from doubled foil, shaped over a dish). Tuck an onion quarter into each. Place franks on top of beans in each dish. Bake 30 minutes or until bacon is crisp. Serves four.

PORK AND BEANS WITH BBQ FRANKS

2 cans (1 lb. 15 oz.) pork and beans 2 lbs. franks or wieners BBQ SAUCE:

1 cup tomato catsup 2 cups water

Foretell a summery picnic with franks (wrapped in cheese and bacon) and beans-"company baked" with lots of seasoning.

Bright idea with Canadian bacon: bake it like ham, a bright-flavored glaze. Serve for breakfast or weekend suppers!

Let mugs of hot soup take care of winter; promise spring with Standing Bean Salads. They're so peppy and green peppery!

Old favorite, new flavor! Here's company-good spaghetti made (meatless) with shrimp. And it's a casserole — no last-minute work.

SPRING FOOD FESTIVAL

live high off the ham!

Here's to ham, the economy buy, the versatile meat, the special taste of spring! Now buy ham by the double-portion — use what's left over from ham dinner for meals (like these) that can never be called "leftovers."

Here's how: take the cooked ham - steak it or strip it, dice, cube or mince it . . . and follow one of these recipes for a brand new second meal.

Now ham, potatoes and eggs turn into an extravaganza, Planked Ham Puff. Lightly mix, sprinkle with cheese. Bake! Top with buttered mushrooms and beans for a wonderful one-dish meal.

CRANBERRY HAM ROLLS

1/4 cup minced onion 14 cup minced onion
14 cup minced celery
14 cup butter or margarine
2 cups cooked rice
14 teaspoon salt
16 teaspoon pepper
8 thin slices leftover ham
1 can whole cranberry sauce
12 cup brown sugar, firmly packed
2 tablespoons lemon juice

Sauté onion and celery in butter until tender. Add rice, salt and pepper; blend. Spread mixture over ham slices; roll up and fasten with tooth-picks. Place ham roll in center of double-thick square of aluminum foil. Shape foil around roll to make a challow heat. Place on hoking chest to make a shallow boat. Place on baking sheet. In bowl, mash cranberry sauce with fork; add brown sugar, lemon juice; blend. Spoon mixture over ham rolls in boats. Bake 20 minutes in 350°

Makes four servings. Good "go-with's" -whipped sweet potatoes, mixed peas and onions, tangy lemon pie.

Combine remaining meat, chunks and molasses additional 10 minutes. Makes 6 to 8 good serv-ings. Serve with cheese-flavored rolls or corn-bread, relish plate, tossed slaw.

 cup mashed potatoes Salt, pepper
 egg yolks, beaten
 egg whites, stiffly beaten
 cup grated American cheese
 12-oz. pkg. frozen French-style green beans or 1 family-size can green beans
 tablespoons butter
 4-oz. can mushrooms, sliced

Combine ham, mashed potatoes, salt, pepper. Blend well. Add egg yolks; fold in beaten egg whites. Completely cover large meat platter or four dinner plates with foil. Make a ring of the ham mixture on the meat platter, or make individual puffs on dinner plates; sprinkle with grated cheese. Bake 30 minutes at 325°.

Cook green beans as directed. Sauté mushrooms in butter. Pile beans in center of ring; garnish with sautéed mushrooms. Makes four portions, to serve at once.

This one-dish meal needs little accompaniment. If desired, add French bread, a tossed salad; serve fresh fruit and cheese for dessert.

MOLASSES HAM SKILLET

1 tablespoon cornstarch 1 can (12 oz.) apricot nectar 14 cup light molasses Juice and grated rind of one orange 14 teaspoon nutmeg 14 cooked ham slices, ½ to 1-inch thick

Using a large skillet, slowly add apricot nectar to cornstarch, stirring until smooth. Add molasses, juice and rind, nutmeg. Cook over medium heat, stirring constantly, until mixture thickens and clears. Add ham to skillet just to heat through. Serve with potatoes au gratin, boiled cabbage, biscuits. Four servings.

Wrap ham slices around seasoned rice; top with cranberry sauce. Bake Cranberry Ham Rolls!

PINEAPPLE BEAN BAKE

2 cans (1 lb. 5 oz. each) pork and beans 1/3 cup cooked ham, cubed 1 cap cooked ham, cubed 1 can (1 lb.) pineapple chunks 1/4 cup molasses 1 tablespoon prepared mustard

.

Mix together the pork and beans, onion and half the meat. Drain pineapple; add half the chunks to the bean mixture. Blend molasses and mustard well: add half this mixture to the beans. Turn into greased baking dish; bake, uncovered, at 400° for 30 minutes.

Pineapple Bean Bake combines three great "tastes": pineapple-and ham-and pork 'n beans.

February is the month in which we make **I** ebruary is the month in which we make the widest use of cherries for we always feel we want to celebrate Washington's birthday with cherry dishes. Yet though we associate cherries with George Washington because of the tree he chopped down with his little hatchet, actually this fruit has a far longer history than this as cherries are known to date back at least this as cherries are known to date back at least to the time of the earliest Romans and the very earliest cook books describe their use. This acid fruit which stimulates the appetite affords a wealth of variety in the dishes we can prepare with it.

.

At this time of the year we depend upon canned or frozen cherries to meet our baking needs but who knows what will come out of a jar or can of cherries or a package of frozen ones? It could be *Cherry Pan Dowdy* or *Cherry Turnovers*; again we might prefer *Cherry Tarts* although the men in our families will vote for Cherry Pie every time, but even here we can find many interesting versions to choose among.

Cherry Puffs are fun and a bit different and a Plantation Cherry Cake would do for any affair. An easy dish is a quick Cherry Cobbler which you can make by thickening the juice with corn starch and adding surger pour cherries and

starch and adding sugar, pour cherries and thickened juice into a baking dish and lace pastry strips across the top of your deep dish. Or for topping you could use a biscuit mix preparation, adding a bit more shortening to the mix in order to make it richer. Serve while slightly warm

Individual Schaum Tortes are delightful when heaped with a cherry filling. The frozen cherries are particularly attractive for this purpose

because they retain their vivid red color. But the use of cherries is not confined to des-sert alone — you will love to use them in color-ful molded salads. And cherries can even be ful molded satads. And chernes can even be used as topping for individual meat loaves. As can be seen, there is no end to the ways in which to use cherries not only in celebrating George Washington's birthday but throughout the year.
