Now you see it. Now you don't. When a Chevy II does that kind of disappearing act you know without looking twice: It's a '64 with a V8 engine.

That's right. A full-grown 195-hp Turbo-Fire V8.\* It's available for the first time this year along with a choice of three other engines—the standard 4 (in 100 Series sedans), the standard 6 and a new 155hp 6.\* (And all of them maintain their high spirits on modest amounts of regular gasoline.) But the changes aren't confined to what

design and trim accents, for instance. And the larger self-adjusting brakes that further reduce upkeep on a car that already has a reputation of coming about as close to perpetual motion as anything on four wheels can get.

The place to get the full details on the '64 is your Chevrolet dealer's. And after you've got them, we hope you'll attend to one further detail yourself. Drive it.

## Same Winners on Top in Bridge Tourney

Winners in Tawas Duplicate Bridge tourney at the Holland Hotel, East Tawas, Thursday night were the same but the order was reversed. First with 50 points was the Wurtsmith team of Mavis Schoolcraft and Jerry Reid, second with 43 was the Betty Miller-Helen Coller duo and close behind in third with 421/2 were Glenn and Johanna McLeod. Gordon and Monica Huck also won fractional points for fourth place with 391/2.

Board 11 was all tied. All teams bid and made five hearts. The device of playing a minor in no trump worked by the Wurtsmith team on board 20. They bid game in no trump and took five, whereas the other teams tried five clubs and went off. On board 22, this strategy backfired when teams bidding four spades made their vulnerable contract for 620, edging out those who bid and made three no trump for 600.

The first Thursday in December will be the last master point night for the year. Winners automatically receive national rating. This competition is open to all.

Making The Most of Deer Hides

their deer hides away each year, according to Lansing taxidermist Robert Robbins pictured here. He points out that it takes little time and effort to save a hide. In skinning a deer, a not-too-sharp knife should be used to avoid cutting the hide. Once started, the hide can usually be stripped off by peeling downward with strong tugs. After it's removed, the biggest globs of fat and flesh should be cut away. Next, spread a couple of pounds of table salt or course salt over the flesh side to draw juice out of the skin. With the salt still inside, roll the hide loosely and tie it. It's then ready to take to a taxidermist and the sooner, the better. Robbins shows (lower right) what can happen to a deer hide if you wait too long. One hide will make about three pairs of gloves. A jacket requires three to five hides.

SIXTH GRADE AWARDED P-TA PICTURE AT NOV. MEET

The November meeting of the Whittemore Elementary P-TA featured an open house in the sixth grade room. National Education Week was depicted by literature displayed throughout the school.

Approximately \$60 was made on the auction sale presented under the direction of the finance committee. Superintendent Ray Kesler acted as the auctioneer, assisted by Edward Dudo.

The picture award, "Blue Boy," was won by the sixth grade. A short business meeting was held with Mrs. Wayne Survant, president, in charge.
