week and contracts are to be let at the next meeting March 9.

#### **Iosco Fair Board Discusses** 1964 Plans

Plans for the 1964 Iosco County Fair, to be held July 29, 30, 31 and August 1, were discussed at a fair board meeting last week.

A carnival has been contracted for this year's fair. In addition to harness racing, the board is studying the possibility of staging a horse pulling contest.

The board authorized purchase of 14 new chicken pens and is looking for additional display cases. Two halters and large ribbons have been purchased for grand champions.

## **Fire Destroyed Home** in Baldwin Tuesday

Fire destroyed the home of Mr. and Mrs. Fred Russler on Monument Road Tuesday morning. There was no one home when the blaze started.

The fire was noticed shortly before 9 o'clock by Mr. and Mrs. Jack Prough of Indian Lake, who were passing by in their automobile. Prough said that the doors of the frame building were locked.

East Tawas Fire Department was called to the scene but the fire was beyond control. Although walls of the structure were still standing, nothing was salvaged from the interior.

Tawas City, Michigan 27 February 1964

Dear Editor:

Grand Rapids, Michigan, was one of the first cities in the Unit-States to experiment with luoridation. Its drinking water has been fluoridated since 1945. The fluoridation propagandists love to point to Grand Rapids as a shining example of the "benefits of fluoridation" that they want to bring to the entire world.

These same propagandists are very quiet, however, when it comes to discussing what more than 15 years of fluoridation have done to the general health of that city. They try to laugh off the question. They have made studies, they claim, that prove fluoridation has no effect on general health. Somehow, they never get around to telling you what those studies were or what statistical facts they revealed.

Here is an honest, open study we have just made, which any body can confirm. The figures are official, from a Michigan Department of Health publication, Michigan Health Statistics 1960. There has been no loading. All we did was take the population of Grand

closest in size to Grand Rapids but with its water not fluoridat ed. It turned out to be Flint, with

What our comparison shows is that fluoridation is killing people Guy Ferrister has returned from in Grand Rapids.

Death from all causes in 1960 in Flint were 1,715. In Grand Rapids, Joseph Pearlman of Hale is at in the same year, there were 2,-627 less people than Flint, yet

would rather receive personal presents than something that is just like everything else they see in the stores. Of course, they appreciate the work you put into it. Not, really, that you put in a lot of workit just looks that way. And for you, the giver, it's always more economical to make a gift than to buy one.

A PERSONAL PRESENT

When you give a gift you

#### EMBROIDERY IS IMPRESSIVE The selection we are featuring today can be done by everyone — beginners and more advanced needle-

crafters. It is very, very easy to make. All you need is some tracing paper to trace the design (which is prepared for tracing on our free leaflet) and then you embroider the design on a baby's dress. Now, really, nothing could be simpler than that. And it makes a valued present (people are always so impressed by hand embroidery). Of course, if you have any babies of your own, these designs are fun to make and very practical for any mother. For the free leaflet giving directions and the design for this dress just send a stamped, self-addressed envelope and your request for Leaflet No. PE 9556 to the Needlework Editor of this newspaper.

IT'S SO EASY ... to make this attractive fashion hood that you'll be able to finish it in one sitting. It's knitted in the simple stockinette stitch - one color for the border and a contrasting color for the rest of the hat. Little ties to hold it in place are finished with tiny tassles at their ends. One size fits all. Free directions for the Hood are available from the Needlework Editor of this newspaper. Include a stamped, self-addressed envelope with your request for Leaflet PK 1675.

## W-P Wins; In **Two Way Tie** For 2nd Place

#### By DORNACE BELLVILLE

Whittemore-Prescott Cardinals made the best of their last chance to get back a share of the lead in the NEM by trouncing Houghton Lake, 74-68, but Beaverton fell short in its bid to upset Roscommon for the second time and lost, 70-60. The win by the Bucks gave them the championship with an eight and two record. Whittemore-Prescott and Houghton Lake ended in a second place tie with seven and three records.

The Cards started off slowly and trailed most of the first quarter with Paul Cherry tying it up midway in the second quarter at 23 all on two charity tosses. The teams traded buckets and the lead a couple of times with Cherry scoring on a fast break to put the Cards in front, 27-26. Roger Rasbury scored another fielder to add to the lead, but Hess cut it down to one point with his fielder. Two buckets by Rasbury and one by Chip Drengberg, while Mike Soderman was making one for the Cats, gave W-P a 30-30 led at inter-

**People in Michigan Receive SS Checks** More than 791,800 people in Michigan are now receiving monthly social security benefits as survivors of deceased workers, according to Paul M. Ellifritz. Bay City social security district manager. These beneficiarieswidows, children and aged de pendent parents of deceased workers-receive a total of \$57,884,000 each month, or almost 700 million dollars per year.

"The average American worker can count social security's survivor benefit protection as one of his most valuable economic assets,' said Mr. Ellifritz. "It can mean as much as \$50,000 in benefits to his family in the event of his death." Mr. Ellifritz said that with 91, 000,000 workers insured under social security, nine out of every 10 young children and their mothers would qualify for monthly benefits if the family breadwinner died. Family benefits range from \$60 to \$254 monthly depending on the worker's average earnings under social security.

More Than 791,800
