To Help Methodist Church in Hale with Building Project

The Rev. Charles R. Swofford of the division of national missions of the board of missions of the Methodist Church will be in Hale from April 20-May 4 to conduct the stewardship financial crusade for the First Methodist Church building project.

On November 11, 1964, the mortgage on the new educational fellowship unit was burned and the building was dedicated free of debt. It is the desire of the people to complete the church building now with the final phase of construction being a sanctuary seating 200 and four additional classrooms.

The Rev. Arthur R. Parkin, pastor, says, "with real prayer and an active participation of all persons interested in the church, May 4 will be a day of real victory for God as we witness to our faith in His work in our area."

Congo Missionary to Speak at Alpena Association Meeting

Dr. Ben W. Armstrong, former American Baptist missionary secretary to the Congo, will speak at the annual meeting of the Alpena Baptist Association, Greeley Baptist Church, Lachine, May 2, 3:30 p. m.

Dr. Armstrong remained in Leopoldville during the uncertain days following the independence of Congo in July 1960. From then until his retirement in August 1961, he was a member of the teaching staff of Ecole de Pasteurs et D'Instituteurs at Kimpese.

In 1923, Dr. Armstrong and his wife went to the Congo to do evangelistic and educational work at Sona Bata. When the Kikongo station was opened in 1930, Dr. and Mrs. Armstrong devoted themselves to the task of developing that field. In 1946, Dr. Armstrong became the American Baptist mission secretary to the Congo. It was necessary for the Armstrongs to return to the United States in 1958 due to the illness of Mrs. Armstrong. She died on Christmas Eve day of the same year.

Dr. Armstrong is a native of Iowa and at present is speaking at the Michigan Baptist's Association meetings scheduled throughout the state.

Interesting Program Presented at Circle Meet

Mrs. Gerald Rapp and Mrs. Alfred Hewitt presented a program entitled "The Darkness and The Light" at the East Tawas Methodist WSCS Charity Circle meeting Thursday. This was an adaptation of an early fourth century service traditionally sung during Holy Week. Each member participated with lighted candles, which were gradually extinguished, symbolizing the flight of the disciples. At the end, one candle was left burning representing the fulfillment of the cross.

Mrs. Louis Awalt was elected as new chairman and Mrs. Peter VanHouten, secretary, during the business session. Work was started on favors for the May 4 mother-daughter banquet.

Mrs. Russell Vance's home was the scene for this session. Mrs. Harold French was co-hostess. They served refreshments to members and two guests, Mrs. Rudy Bielby and Mrs. Stanley Swanson.

Set Date for Annual Emanuel Ladies Aid Tea

June 8 was tentatively set as the date for the annual Emanuel Lutheran Ladies Aid tea at the Thursday evening meeting of the organization held at the school. Devotions were led by the Rev. James Rockhoff.

Also discussed during the business session were plans for touring the Michigan Lutheran Seminary, Saginaw, May 13. Interested members are to contact Mrs. Donald Sebald. The president expressed thanks to those who housed choir members during March.

Serving on the hostess committee were Mrs. Arthur Roper, chairman; Mrs. Howard Look, Mrs. Sebald, Mrs. Elsie Roach, Mrs. William Grotf Sr. and Mrs. Otto Kobs. Ice cream and cookies were served.

The spiritual requirements for release from guilt and suffering will be examined at Christian Science church services this Sunday. Subject of the Bible lesson is "Everlasting Punishment." Included in the Scriptural passages to be presented are these verses from Ezekiel: "Make you a new heart and a new spirit... For I have no pleasure in the death of him that dieth, saith the Lord God: wherefore turn yourselves, and live ye."

These related passages will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The way to escape the misery of sin is to cease sinning... The belief in sin and death is destroyed by the law of God, which is the law of Life instead of death, of harmony instead of discord, of Spirit instead of the flesh" (pp. 327, 253).

TODAY'S Meditation from The World's Most Widely Used Devotional Guide

Read Romans 6:12-23

This is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent.—John 17:3

We all like to live. Not only that, we like to live longer. People use all kinds of pills, vitamin tablets and most modern medicines in order to prolong their lives here on earth. But in spite of all, our earthly lives remain transitory, and sooner or later, they are bound to come to an end.

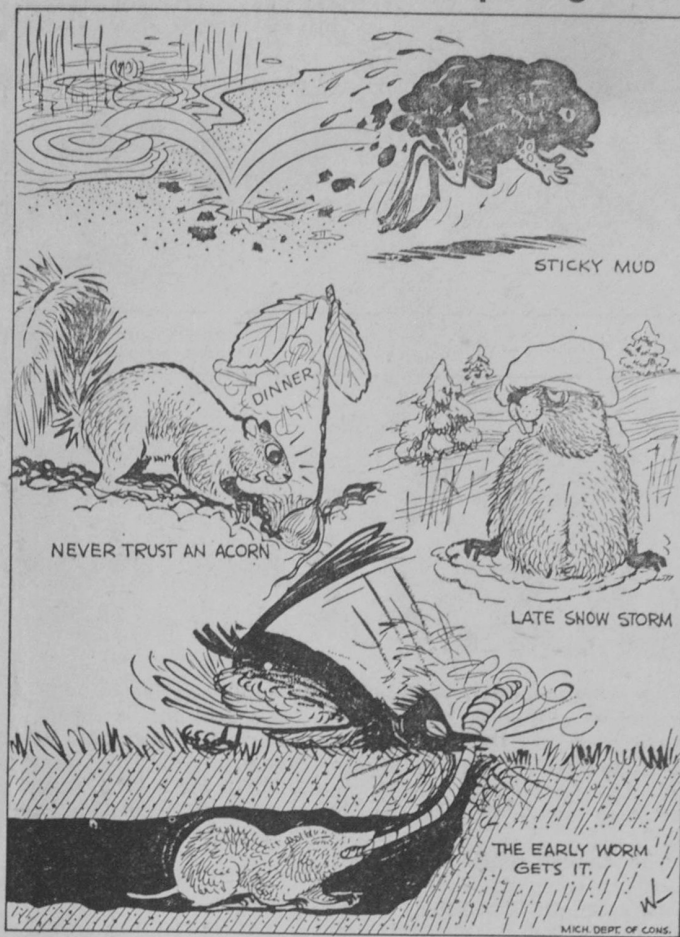

After the life on earth, there is another one which lasts forever, the life eternal. This we cannot earn, nor can we buy it. We will receive it as a free gift. Jesus Christ will give it to us. The only thing expected of us is to listen to Him and open our hearts to make room for Him. He is the giver of life; yes, the very life itself—the life eternal. Wherever He is, there is life; and whosoever receives Him receives life.

Sin has caused us to drift away from God. Sin has, indeed, brought spiritual death to us, cut us off from eternal life. But God sent Jesus Christ from heaven to seek us and to save us, to give us life. Through Him we receive new life, the life eternal.

PRAYER O Savior, redeem our lives from sin and destruction. Come into our hearts, and give us life. Grant that we may live with Thee for ever and ever. In Thy name we plead, Amen.

THOUGHT FOR THE DAY One whose faith is in Christ has eternal life.—M. M. Tudu, Santhali Edition (India).

Zing into spring! Chevrolet Impala

Chevrolet Impala Super Sport Coupe—one of two bucket-seated beauties for '65.

People who buy other big expensive-looking cars get one thing you won't (big expensive-looking payments)

It looks like a big car. And is—by almost any standard you want to apply.

Width? Nobody builds a car as much as one inch wider. Length? It grew three inches this year. Roominess? Every closed model's got three inches more shoulder room, front and rear, and more leg and foot room up front too. Luzzury? Nice little touches like the look of mellow walnut across the Impala's instrument panel. And big touches. Like the fineness of the same Body by Fisher workmanship that makes some of America's most

expensive cars look so expensive. How about the ride? Chevrolet engineers took the Jet-smooth one and smoothed it out even more this year. Also made it more stable by widening the wheel stance. Price? That's where Chevrolets fall way short of the other big expensive-looking cars. But we wouldn't have it any other way. Would you?

One last question: How soon can you make a good spring buy on a Chevrolet? One last answer: Just as soon as you can get down to your Chevrolet dealer's.

YOUNG AND FRESH AND A FASHIONABLE FILLIP TO A BRIGHT SPORTS WARDROBE . . . is this fringed, wildly striped poncho! Just about any teenager can make her own, since this gay cover-up is simply crocheted in two straight pieces which are then sewn together.

The color range in the worsted used is so great, your choice is wide and you can match just about anything in the way of sweaters or slim pants.

SENSATIONAL STRIPES

The more striking the color combination the better! I'm sure any young girl would love getting this poncho as a gift or you might start her on the way to learning to crochet by helping her . . . but just a little, since it is so easy. Knitting worsted is used for today's design and I do think that for the blonde young fashion plate on your list, a combination of Atomic Pink, Bittersweet and Olive Green might be the most flattering thing in her sports collection. As for dark haired beauties, why not use Skipper Blue, Paddy Green and Emerald.

SWINGING FRINGE

The edges are fringed in one of the colors you select for the stripes as a very "extra" something. Free instructions are available by sending a stamped, self-addressed envelope to the Needlework Editor of this newspaper along with your request for Leaflet PC 1870.

ASC to Assist Farmers in Repairing Damage Done by Tornados

The Agricultural Stabilization and Conservation Service has put livestock feed programs into action and is ready to give farmers cost-sharing assistance to repair damage to farm lands and facilities by tornados, reports Frank Light, Michigan ASC committee chairman.

In areas which the president declares major disaster areas, the secretary of agriculture can donate Commodity Credit Corporation-owned feed grain on a short term basis for livestock that is stranded or commingled and on a long-term basis if the disasters in major disaster areas have placed farmers in such circumstances that they cannot buy feed for their livestock.

All tornado-stricken farmers who need grain will be able to obtain it by contacting their county ASCS office for information on all available programs.

GEORGE ROMNEY
GOVERNOR

EDWARD J. BROWN
MICHIGAN DEPARTMENT OF AGRICULTURE
1205 CASI BUILDING
LANSING, MICHIGAN 48201

TO THE OFFICIALS AND PATRONS OF THE FAIR

Once again it is my privilege to extend to you an official welcome to the 1965 Fair.

Michigan has been endowed by our creator with an unmatched combination of natural resources, climate, and people that has made this state a leader in agriculture, in industry, and as an unexcelled place to live, work, and play.

Michigan has really been on the move. Our industrial prosperity continues to soar to new heights; our agriculture provides us with an ever greater abundance of an amazing variety of food at a lower real cost than ever before in the history of mankind; our Water-Wonders and continues to attract an ever greater number of visitors each year.

Fairs such as this provide us an opportunity to proudly display the fruits of our labor and enterprise—to show others how Michigan agriculture and industry go hand in hand to make ours the most dynamic, the most progressive state in the nation.

Sincerely,
George Romney
George Romney

TO MICHIGAN FARMERS AND PATRONS:

We are all well acquainted with the industrial advances made in our nation in recent years. We have been awed by tremendous scientific achievements, and thrilled at our ability to send a man into orbit around the earth.

Yet, as outstanding as these accomplishments are, when man's history is written, the greatest achievement in our time may well be the breakthrough in our ability to produce an abundance of food—breakthrough which has freed us from the soil and from want, and has allowed us to develop industry and science to its awe-inspiring heights.

Fairs such as the one you are attending today have played no small part in making our agricultural productivity the way of the world. A Fair is more than an opportunity to compete for prizes and ribbons; more than a place to have a good time; it is one of the oldest and most effective means of demonstrating and extending advanced agricultural methods.

As you visit the many fine displays of our farm products, look beyond, for you are seeing the real product of a modern attitude and a basic reason why Americans today enjoy the highest standard of living ever known—an abundance of food for all, at prices all can afford.

Sincerely,
Ed J. Brown
