

Await Legislative Action—

Supervisors Face Reapportionment

A dramatic change is in the offing for Michigan's political subdivisions and an Iosco County man may play a key role in determining the extent of that transformation from the traditional form of local government.

Lloyd S. Little, chairman of the Iosco Board of Supervisors, was one of two representatives from the Michigan Association of Supervisors' Fourth District who met Sunday at Detroit to study reapportionment of county boards of supervisors on a one-man, one-vote basis. Some 24 men attended the session.

The Michigan State Legislature, which opened its session Tuesday, asked the state association to come up with an apportionment plan that would be agreeable to all counties.

This is a big order, as each area has its own ideas on apportionment—but it must be accomplished this year, according to a recent mandate handed down in Kent County Circuit Court.

This reapportionment at the county level is but an offshoot of the rearranging of legislative districts on the state level, according to guidelines set up by the supreme court. Reapportionment of senate and house districts was completed last year in time for the November election.

In Kent County, the circuit court there ordered the state legislature to accomplish this reapportionment within one year, basing its opinion on action of the United States Supreme Court.

Little advocates reapportioning boards of supervisors on a population basis. In Iosco County, this would mean that there would be from five to nine members sitting on the board, each representing approximately 1,600 persons. At present, there are 17 members in that body.

"However, I do not advocate the banding together of several townships, thus destroying our traditional form of government," said Little. "My idea is for each township still to elect a supervisor, who would preside over township board meetings and act as the local assessing officer."

Little felt that members of the new nine-member body should be called commissioners, with responsibility to direct county governmental affairs.

"These court decisions have shaken the very foundation of what we have been doing for years, but we are going to have to live with what the state legislature finally enacts," said Little. "It will be far better for us to come up with some concrete plan which will meet the direction as set forth by the supreme court and still have one which will be agreeable to all."

While in smaller counties, the present form of electing supervisors seems to be workable, Little said that boards of supervisors in some of the larger counties were very unwieldy. He cited one downstate county which has a board composed of 100 members, many of whom are appointive.

Little said the one-man, one-vote idea seemed proper. "It only stands to reason, even right here in Iosco County. For instance, I represent a little more than 400 persons in Grant Township and have one vote, while others represent 2,000 or more persons and still have only the one vote on county affairs."

Little's voice in drafting a workable solution for study of the legislature will be an important

one as he served as district president of the supervisors association last year and is well known throughout the state as a former member of the Michigan Legislature.

Briefs Due on Fishing Hassle; Hearing Friday

Briefs were due today (Wednesday) in Iosco Circuit Court on a question of language used in a 1929 Michigan law, with subsequent amendments, in regard to state regulations on commercial fishing.

The briefs were to be filed following a show-case hearing last Wednesday, at which the Michigan Department of Conservation apparently won the first round of its battle to enforce present commercial fishing regulations.

An oral hearing is to be held before Judge Allan C. Miller on Friday. Although stating that the major question appeared to be wording of the act, Judge Miller said that other points on the plaintiff's petition could be argued.

Last Wednesday, Judge Miller ruled that the present minimum length of 8½ inches for gill net-caught perch was enforceable, also, that the minimum weight for a perch fillet was 1½ ounces.

He denied a petition seeking a restraining order against the conservation department.

The lawsuit originated here two weeks ago when Sam Aikens, Alabaster commercial fisherman, petitioned the court for a temporary restraining order which would have stopped enforcement of the fish laws pertaining to the length of perch.

Abba I. Friedman, Detroit attorney retained by Aikens and acting on behalf of all commercial perch fishermen in Iosco County, contended that wording and punctuation of the act was such that it should be construed so as to have a dual meaning.

His interpretation of the act was that legal perch were those with a minimum length of 8½ inches and those which may be filleted to an ounce and three-quarters each. He contended that a fish less than 8½ inches in length could still be legal if it filleted to 1½ ounces.

Gill net fishermen of Saginaw Bay contend that physiognomy of the perch has changed in that they develop in girth rather than in length. Friedman said that because of this change, eight-inch perch caught in legal nets often produce fillets of two ounces.

Myron A. McMillan, assistant attorney general, in asking that the (See HEARING, page 8.)

Classrooms Bulging With Pupils at Tawas

Classrooms of Tawas Area Schools are bulging at the seams, according to a report Monday night by Supt. Reynold Mick.

While enrollment in elementary grades has shown a slight decrease, in spite of the influx of pupils from parochial schools, already overcrowded conditions at the high school became even more serious last week.

According to the superintendent's report to the board of education, enrollment in the high school last Friday was 555 students. Coupled with 156 eighth graders in the building, there is a total enrollment of 711 in a building designed for 625 students.

The board's architect is now in the process of preparing plans for constructing five new classrooms at the high school as part of the building program adopted by voters in 1961.

Even with the additional classrooms, facilities would still be overcrowded when the seventh grade is moved to the M-55 building, warned Mick.

All elementary grades but the first showed slight decreases and projected enrollment figures indicate that the trend will continue. Additional first grade pupils were received from St. Joseph and Immaculate Heart of Mary, which were unable to obtain the services of teachers this year.

A grade-by-grade breakdown of enrollment was as follows: Kindergarten, 145 pupils as compared to 169 last year; first grade, 166 pupils as compared to 123 in 1964-65; second grade, 106, or 12 less than last year; third grade, 112, two more than last year; fourth grade, 109, as compared to 113 last year; fifth grade, 108, as compared to 123 in 1964-65; sixth grade, 120, one less than the previous year. Total elementary enrollment is 866, as compared to 877 for 1964-65.

A real problem exists in junior high, which has a total enrollment this year of 285, as compared to 232 in 1964-65. Total number of seventh graders is 129, as compared to 109 last year. There are 156 eighth graders, an increase of 33 students. Most of the latter increases came from the two Catholic schools.

High school enrollment on Friday saw 149 freshmen, as compared to 135 last year; 141 sophomores, four less than the previous year; 143 11th graders, as compared to 126 in 1964-65; 122 seniors, two less than last year. Total high school enrollment is 555, as compared to 530 the previous year.

It is expected that all grades will show slight increases by the fourth Friday count.

Board President Leonard Sarki reported on a meeting with the architects two weeks ago. He said that plans were being developed for constructing classrooms at the high school, along with development of a master plan for better utilization of all property.

Walter Niles and Waldo Curry, veteran members of the board, were appointed to act on a panel to discuss proposed building plans at the October 18 meeting of the board of education.

Tawas City Highway Reinstated; Included in State Bid Opening

A highway construction project, which was previously canceled from a September 1 bid opening, has been included in a September 27 opening at Lansing.

The state highway department announced Friday that the US-23 project here was included among six highway jobs in five counties that would cost an estimated \$12,870,000.

Tawas City's project includes construction of 2.24 miles of curb and gutter, concrete base course and variable width surfacing (bituminous concrete) from the south city limits northeast to M-55.

The project also calls for 44 miles of surfacing with bituminous concrete on US-23 from M-55 northeast to the east city limits.

Estimated cost of the project is \$300,000 with a completion date of November 1966.

Included is a parking lane extending some 700 feet from a point east of Rainbow Service to the east end of the city park. This latter work is being financed by the city.

This project was to have been included in 1964 highway construction here, but was canceled when the Tawas City Council objected to certain phases of the engineering. Through the delay, the city council gained several changes in the planning which it feels will greatly benefit the community.

One of those changes was the parking lane. Other changes included use of highway right-of-way for parking purposes by a number of business firms.

Theodore Bellville, veteran Burleigh Twp. Supervisor, resigned his post.

An era in Burleigh Township politics came to an end September 7 with the resignation of veteran township supervisor, Theodore Bellville. Failing health caused the end of his long tenure in office.

"Mr. Republican" had held the office for 28 years, since 1937. He was chairman of the Iosco County Board of Supervisors at two different times. Until two months ago, he had never missed a meeting of the board of supervisors.

One well remembered accomplishment during his chairmanship was laying the cornerstone for the new county building. The Iosco County Jail was also built during his time in office. He was a long-time member of the Iosco, Ogemaw, Alcona district health council.

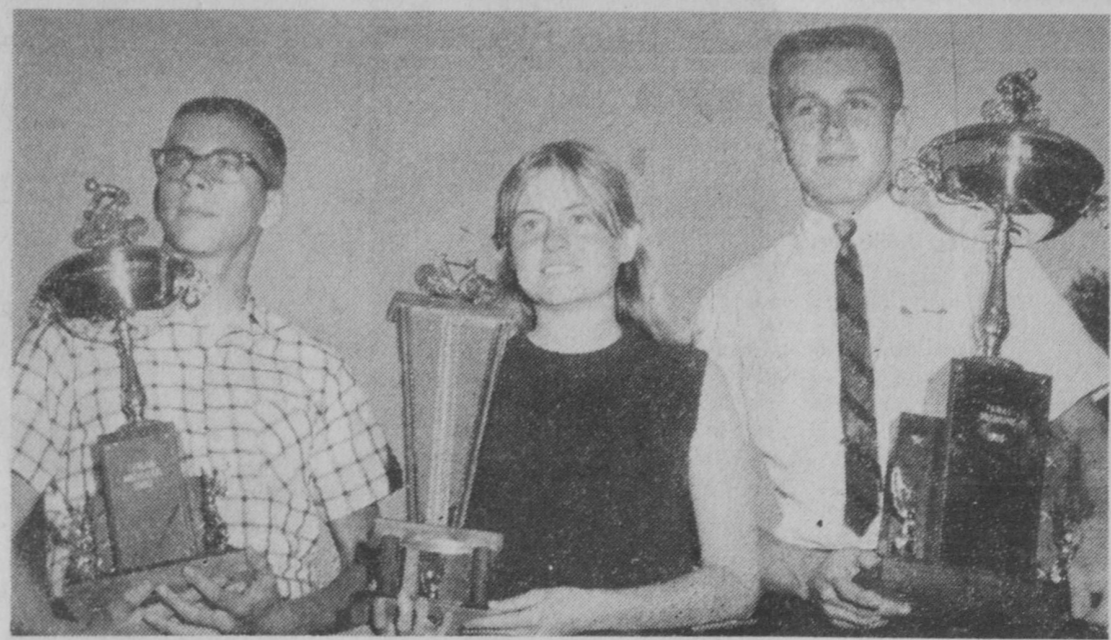

Mr. Bellville, 83, also served the township as clerk for 16 years, from 1913 to 1924 and again from 1932 until he replaced Elmer Britt as supervisor in 1937. He also served many years on the Whittemore School Board.

Aubrey F. Belson was named Burleigh Township supervisor to succeed Mr. Bellville at the township board meeting last Tuesday. Mr. Belson is a retired farm elevator operator and farmer. He has not previously held any major township office.

East Tawas Man Receives US Patent

A "germ" of an idea which began in the thinking stage about three years ago, is now patented and only waiting for some industrial promoter to come along and put it to practical application.

Russell G. Vance, 51, 114 East Tawas Lake Road, recently received a certificate from the United States Patent Office on his roller belt and differential pulley transmission.

Vance's invention achieves the same result as the transmission of an auto—allowing a vehicle to gain or lose speed while turning a corner without interfering with power on the drive shaft—only is less complicated and can be adapted to riding lawn mowers, golf carts or other small vehicles.

After getting the original idea while making repairs to equipment, Vance decided he should protect it and obtained the services of a patent attorney. A search of records revealed the idea had not been utilized before and was patentable. Then followed a long wait while the idea was put on paper in the proper form, subject to final approval by the federal office.

Practicality of the invention will now depend on whether or not he can sell it. "If not, I can always frame the document—it looks pretty impressive," said Vance, a general mechanic at Ottawa Equipment Company.

Moetus Tops Big Field in Lumbermen's Tour

Olaf Moetus sprinted into the lead a few blocks before reaching the finish line Sunday to win the third annual Tour of Lumbermen's Monument Road Race sponsored by the Tawas Chamber of Commerce.

It was a big victory for the Indianapolis, Indiana, cyclist. He topped a field of 42 class A senior racers, which included seven of the top cyclists in the world.

Following about a length behind was Joe Jones, who presently lists his home as Toronto, Canada. Jones, a native of England, battled all the way for first place and led at one time during the 62½-mile race. He is listed as the fourth best racer in the world in cycling circles.

During the first 12 miles of the race, the top runners stayed in about the middle of the pack as racers spun around a four-block area of East Tawas. Moetus and Jones made their move up front shortly after leaving here on the

Tawas City Said to be Eligible for UR Funds

Indications are that Tawas City could be eligible for federal assistance under an Urban Renewal Administration project to redevelop its business district.

William Lorenz, area coordinator for the Housing and Home Finance Administration, and William Shortall, HHA planning division, told local businessmen Thursday that they were satisfied that the area was eligible for federal funds.

The basic project under consideration is a property acquisition and clearance project in the present business district from a point west of Mathews Street east of Whittemore Street.

Shortall said that one of the basic problems of the above district was the shallowness of property off US-23. He said that the area was too confining for business because of the bay on one side and the river on the other.

"Eligibility is based on physical condition of the area and, in our eyes, the project would be eligible for UR assistance," said Shortall. "If the project is adopted, the city would be eligible to receive approximately three-quarters of the cost from the federal government. Initial application for a planning study is now being considered."

First place in the junior division went to Doug Grosen, Dayton, Ohio, and Maude Prall, Utica, won the senior women's division.

Accompanying Jones here were his Toronto teammates, Bruce Smith and Allen Hicken. Other riders were present from Detroit, Indiana, Iowa, Ohio, New York and Canada.

The team of Moetus, Dave Blase and Karl Napper won team events Saturday. The week-end event began with sprint racing Friday night. Novice riders from the local area took over the limelight Saturday night, followed by a sprint race among the senior division competitors. Prizes were awarded to winners of Sunday morning's tourist bike race for families.

Other senior division winners in the men's 62½-mile race, behind Moetus and Jones, were Blase, third; Jack Hartman, Dayton, Ohio, fourth; Napper, fifth; Guernino Scatolola, sixth; and Angelo Berardo, seventh, both of Hamilton, Ontario, Canada.

The races were sanctioned by ABLA and promoted by the Wolverine Sports Club of Detroit.

Novice winners Saturday night were: Darrell Abbott, boy's tricycle; Jane Mooney, girl's tricycle; Tom Mooney and Nancy Prall, boys and girls seven and under; Michael Mooney and Debbie Mooney, boys and girls, eight through 10 years of age; Lyle Klingler, boys, 11-13 years; Tim Horning, boys 14 and over.

Leonard Calabrese, who chaired the race for the chamber of commerce, said he was well pleased with the large field and commented that racers were much impressed with facilities, the course and handling of this year's events.

Appraisal Crew Busy in County

Seven-man appraisal crew of Gem Surveys is presently at work obtaining information to be used on property file cards in the Townships of AuSable and Reno.

Project Coordinator Edward Dusenberry said last week that the survey had been conducted on both sides of US-23 between East Tawas and Oscoda in an effort to obtain information on summer cabins owned by out-of-town residents.

This survey, to cost Iosco County in excess of \$90,000 over the next two years, was authorized earlier this year by the board of supervisors. When completed, the evaluation will provide information for supervisors to use in assessing real estate for tax purposes on a county-wide basis.

Working directly from property descriptions furnished by individual supervisors, members of the Gem Survey crew are to measure and list all buildings in the county on special file cards. A sketch of the property showing existing physical improvements will be shown on each card.

"In order to make a good appraisal, it is necessary for the survey men to inspect the interior of each building," said Dusenberry. "They will check the number of rooms, type of walls, interior finish, plumbing and heating."

He said that the firm would appreciate any cooperation from tenants or property owners. "An accurate appraisal is most important to the property owner, as the information obtained will be used for tax purposes."

If refused entry to a building, the survey men are to make an estimate from outside the building. This is not too accurate and it is to the property owner's advantage to have the interior inspected.

The average house requires about 15 minutes for the survey.

GEM SURVEY APPRAISERS working in Iosco County are, from left, Project Coordinator Edward Dusenberry, Oscar Poland, Gay Cunningham, Gene Reed, Donald Arnold, Roger Lumley and Daniel Smith. The St. Clair firm has been retained by the Iosco County Board of Supervisors to conduct the survey over the next two years.—Tawas Herald Photo.

THE BIBLE SPEAKS TO YOU

"Lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal" (Matthew 6:20).

This passage from the Bible will be the Golden text for all Christian Science churches on Sunday. The subject of the lesson-sermon is "Matter" and it will feature the story of Job.

Quotations to be read from the Christian Science textbook include the following: "Job said: 'I have heard of Thee by the hearing of the ear; but now mine eye seeth Thee.' Mortals will echo Job's thought, when the supposed pain and pleasure of matter cease to predominate. They will then drop the false estimate of life and happiness, of joy and sorrow, and attain the bliss of loving unselfishly, working patiently, and conquering all that is unlike God" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 262).

Christian Science Speaker to Give Sunday Lecture

HOWARD H. IRWIN
Christian Science Lecturer

Howard H. Irwin of The Christian Science Board of Lectureship will be speaker in a one-hour public lecture, "Christian Science and the Healing Prayer of Faith." The program, under sponsorship of The Christian Science Society of East Tawas, will be held Sunday, September 19, 3:00 p. m., at Tawas Area High School.

In an after-dinner talk, Pastor Gieschen will point out the many mission opportunities. At no other time in the history of this synod have so many requests been received to establish congregations, as in the past few years.
Visitors are invited to attend both the services and the dinner.

Methodist MYF to Organize This Sunday

The Methodist Youth Fellowship group will organize Sunday, September 19. Meetings are held from 6:00-7:00 p. m. at the East Tawas Methodist Church and the same system will be used as last year. The group includes all interested youths from the ninth through 12th grades.

Serving as president is Howard Carpenter; Ronald Doak, vice president; and Gayle Killey, secretary-treasurer.

A picnic meeting is to be staged Sunday, September 26, and regular sessions will begin October 5. Lesson periods are conducted by adult counselors with youths participating in devotions and business.

Marriage Vows Exchanged at Whittemore Methodist Church

Mr. and Mrs. Nelson James Lavelly

Pink and white gladioli decorated the altar of Whittemore Methodist Church Saturday, September 11, for the double ring ceremony in which Nelson James Lavelly of Detroit claimed Marcella Helen Freel of Whittemore as his bride. The Rev. Arthur R. Parkin read the 7:30 p. m. rites.

Parents of the couple are Mrs. Elvaley Freel of Whittemore and Mr. and Mrs. Wilbert F. Lavelly of Twinning.

Given in marriage by her uncle, Burton Freel of Tawas City, the bride descended the aisle in a silk organza, floor length gown featuring fitted lace bodice, wristpoint sleeves and sequin accents. The full skirt fell into a chapel length train. Her crown of pearls and crystals held a silk illusion veil. She carried a cascade bouquet of white chrysanthemums, stephanotis and ivy.

Wearing yellow and petal pink dresses, respectively, were Mrs. Allan Sauer of Lynn, Massachusetts, sister of the bride, matron of honor; Miss Lois Freel of Tawas City, cousin of the bride, and Mrs. Jack Slosser of Hale, sister of the bride, bridesmaids. Their flowers were white chrysanthemums with accents of color to match their gowns.

Serving as flower girls were Linda Kay Switzer of Flint and Carla Jean Edwards of Sterling, nieces of the bride. They were identically attired in rose satin

gowns and carried white baskets containing miniature pink and white chrysanthemums.

Mr. Lavelly chose Allan Sauer of Lynn as his best man with Donald R. Freel of Whittemore and Jack Slosser, attendants. Thomas Edwards of Sterling and Edward Freel of East Tawas seated the guests.

For the wedding and reception following in the church parish house for 200 guests, Mrs. Freel selected a beige crepe dress with satin accents, matching color accessories and complemented with a corsage of pink rosebuds.

Following a northern trip, the newlyweds are residing at Utica.

The bride is a 1964 graduate of Whittemore-Prescott Area High School. Her husband is a graduate of Arenac Eastern High School, Twining.

Durant-Holt Wedding Vows Solemnized at Flint Church

Mrs. Irvin L. Durant

Miss Catherine E. Holt of Flint, in evening rites Saturday, August 14, at Covenant Baptist Church, Flint. Arrangements of white gladioli, yellow and white daisies decorated the altar.

The Rev. Malcolm Stewart read the double ring ceremony for the daughter of Mr. and Mrs. Lowell E. Holt of Flint and the son of Mr. and Mrs. Alton Durant of Tawas City. A reception followed at Flint Scots House.

Escorted to the altar by her father, the bride wore a silk linen, floor length dress fashioned with scoop neckline, wristpoint sleeves and Empire waist. The A-line skirt featured a detachable Watteau train. A sequin and crystal pillbox secured her veil and she carried three orchids interspersed with pearls.

Miss Ruby Durant of Flint, cousin of the bridegroom, maid of honor, selected a pale yellow, floor length gown. She carried a fireside basket of yellow daisies. Misses Linda Holaly and Jean Sewell of Flint wore dresses identical to the honor attendant for their role of bridesmaids. Their flowers were white daisies in fireside baskets.

Hale Defeats Crump in Championship Play-Off

Hale defeated Crump for the second time in two weeks in a play-off for the Northeastern Michigan League championship. Sunday's win was the only one which counted, however, as Crump won a protest after the first encounter and league officials ordered the game replayed.

The western Isoco team used an ineligible player in that first game and the win was nullified. In Sunday's replay, Hale downed Crump, 8-0, behind the five-hit pitching of Grant Mousseau.

Mousseau was never better during the season as Crump was not able to get more than one hit in an inning. He fanned 14 batters and walked only one batter.

Hale jumped on Fegan, losing pitcher, for one run in the first inning, scored one more in the fourth and then bombed the Crump team with six big runs in the eighth.

Mousseau belted a lead-off homer in the fourth inning. Top slugger of the day was Bud Johnson, who had a pair of doubles.

The championship will be up for grabs this Sunday when Hale meets Standish at the latter's home field. The Arenac County team trounced Hale, 5-2, in a meeting two weeks ago to determine the NEM's representative in a baseball tournament.

Braves Open Here Friday Night

Tawas Area Braves open the 1965 football season Friday night against Bangor with a "green" but healthy squad. This is the first of two nonconference tilts before action starts in the Northern B Conference schedule.

In spite of the fact that Tawas has eight returning letter-winners from last year's squad, Coach Ernie Mousseau said Saturday that the Braves probably will take their bumps this year in NBC competition.

The Braves have some good power in the backfield, but only fair speed. Main difficulty will be in the line, where inexperience is causing headaches for the new mentor and his assistant, Steve Svntko.

Big holes were caused in the line when several of last year's starters chose not to don the red

and white of Tawas in this season's gridiron battles. As a result, a number of key positions will be filled by willing, but inexperienced sophomores and juniors.

Mousseau is building his first Tawas squad around five of the more experienced players. Included are Dick Grebe, who saw most of the action last season at quarterback; Ed Cain, hard-running halfback; and Ray Powers, who saw some action last season at fullback and is being moved to a halfback slot.

Mainstays in the line are Clyde Hughes, a senior center, who is nursing an aggravated knee injury from last year, and Jack Bruggier, tackle, who hit hard last season as a substitute and is being counted on to produce in his senior year. Tim Duff, junior, was brought up late in last year's

schedule and is being counted on heavily to make his mark this year.

Other backfield men include Jim LaBlance, senior, offensive and defensive halfback; Randy Roach, senior, fullback; Dan Phillips, junior, end and fullback; Gene Kushion, sophomore, quarterback. Linemen include Kim Simons, junior, guard; Allen Lickfelt, sophomore, tackle; Howard Rollin, sophomore, end; Dave Thunberg, junior, end; Bob Albosta, senior, tackle or guard; Clyde Ward, senior, guard; Ben Schanbeck, senior, center; Hugh Freel, senior, guard; Bob Rogers, junior, tackle; Pete LaBlance, junior, end; Bill Lixey, junior, end; Bruce Davenport, junior, guard.

Using a basic multiple offensive working from a "T" formation, split "T" or single wing, Mousseau is looking for a good job from his

entire backfield.

"The kids are in pretty good shape after last Friday night's scrimmage with Alcona," said Mousseau. "We have not pulled up with any major injuries, but I'm knocking on wood—we just can not afford any with such a small squad."

Physical conditioning has been stressed during the past two weeks as most of the starters will be seeing double duty.

"With three sophomores on the varsity, it is pretty obvious we are looking ahead for a couple of years," said Mousseau.

Dick Fairless, head junior varsity coach, and his two assistants, Roger Spencer and John Breese, have a squad of about 30 youngsters.

Friday night's game here will see the first use of a new fence in-

stalled earlier this summer. The school hopes to turn some of the "walk-in" spectators into paying customers.

Convert your home or business to economical Natural Gas heat today and pay nothing until July 1, 1966.

Convert now to Gas heat and Michigan Consolidated Gas Company will buy your unused oil or coal—even remove your oil tank—all at no cost to you. What's more, whether you convert your present furnace, or even install a new Gas furnace, we'll pay the bill. And all you pay us, between now and next July, is for the Gas you'll use to make this your most comfortable winter ever. Here's how this special limited-time offer works:

1. If you're now heating with oil, we'll buy what's left in your storage tank—at the price you paid for it. What's more, we'll remove your tank from your home or business and even haul it away if you want. All at no cost to you.

2. If you're now heating with coal, we'll take what coal you have on hand, off your hands. And pay you whatever it cost you originally.

3. Whether you convert your present furnace, or even install a new Gas furnace, we'll pay for it and its installation by a qualified heating contractor, and it won't cost you a penny until next July. You can pay for the unit and its installation on July 1, 1966 with no carrying charge whatsoever. Or if you prefer you can

make equal monthly payments including carrying charges on your Gas bill over a period of up to three years after July 1, 1966. Either way, there are no carrying charges between now and next July, and you need make no payments between now and next July. If you live in the areas we serve in the counties listed below, you're entitled to take advantage of this special limited-time offer. So act now. Call your heating contractor or Michigan Consolidated Gas Company office today for details. Your local Michigan Consolidated office number is 362-4458 in Tawas.

May Hire Speech Correction Teacher For Isoco Schools

Tawas Area School is to study possibility of hiring a speech correction teacher, according to action taken at Monday night's meeting of the board of education.

Supt. Reynold Mick reported that such a specialist was available and 75 percent of the salary would be reimbursable from the state.

Discussions are being held on the possibility of the correctionist to serve Tawas Area, Whittemore-Prescott Area and Hale.

Miss Clara Bolen, elementary principal, estimated that there were 30 pupils here with speech defects who could be assisted if such a program was adopted.

In other business, the board unanimously rejected a request from one teacher to have money withheld from his salary and paid for a tax sheltered annuity. It was felt this would result in too much bookkeeping for school secretaries.

The board authorized purchase of a four-wheel drive vehicle from Ingile Ford Sales at a cost of \$2,679.20, with plow. It is to be used for clearing snow from school parking lots this winter and will also be used for general maintenance work.

The board authorized hiring of a crossing guard at the East Tawas Elementary Unit and is now seeking applications.

Mrs. Walter Becker has been hired to work in the lunch room at the Tawas City Elementary Unit and will also serve in the library. She had been formerly employed by the Isoco-Arenac Regional Library.

Students participating in the expanded physical education program in elementary grades and the high school are being required to obtain a physical examination before being allowed to take part. Arrangements are being made with local physicians to conduct the examinations at \$1 each, the cost to be paid by each student.

Parents may also make their own arrangements with family doctors, but are required to furnish a letter from the physician stating that a physical examination of the child has been made.

of checking property descriptions on a county-wide basis from its St. Clair office. Work is now under way on appraising farms in Rena Township and it is hoped that all farm land may be inspected before cold weather.

"These men are not studying values now, but are obtaining the necessary information so an accurate appraisal may be made at a later date," said Dusenbery. "Before setting the actual value, a township-by-township and city-by-city study must be conducted in order to determine recent sales and market prices."

All counties of the state are required to have an equalization department in operation within the next two years. Once the survey is made, individual supervisors are to keep information up to date through inspection of property and by studying building applications.

The survey has already been completed in Tawas City and in-

formation was used for property evaluation earlier in the spring.

temporary restraining order be denied, asserted that the conservation department's enforcement of fishing regulation was proper and not subject to injunction.

He contended that temporary relief granted the plaintiff by the court would be "tantamount to enjoining the statutory authority of the conservation department."

Violations by commercial fishermen on shipping undersized perch are presently pending in magistrate courts here. The conservation department confiscated a large shipment of illegal perch last week in Western Michigan which were caught in Saginaw Bay.

One of the earlier defendants is Aikens, who was apprehended a month ago with more than 3,500 pounds of fish in his possession, undersized according to the conservation department's interpretation of the law.

Supreme Court Justice Convention Speaker

Supreme Court Justice Theodore Souris was principal speaker at the convention of Michigan court reporters at Shanty Creek Lodge, Bellaire, September 10 and 11.

Justice Souris commended the certification program inaugurated by the reporters association by which applicants meeting the specified standards become certified shorthand reporters. When this program is in full operation, it will serve as a notification to the judiciary, members of the legal profession and the public that Michigan CSR award holders are competent reporters.

Miss Bessie Brown, local court reporter, was in attendance at the convention.
