

SEPTEMBER 6 is back-to-school day for students of the area and Mrs. Eunice Higgins, office secretary at Tawas Area High School, circles the date on the school calendar.—Tawas Herald Photo.

Registration Next Week at Tawas Area High

Registration for Tawas Area Junior and Senior High School will be held during the week of August 22-29, Ernest W. Jordan, principal, announced. This year, registration dates for classes will be as follows:

Monday and Tuesday, August 22-23, ninth and 10th grades.
 Wednesday and Thursday, August 24-25, 11th and 12th grades.
 Friday, August 26, and Monday, August 29, seventh and eighth grades.

Students unable to register on the assigned dates should call the office and other arrangements will be made.

Office hours during registration are from 9:00 a. m. until 3:30 p. m. The office will be open during noon hour for those students who are working.

This year, a charge of \$2.50 per student will be collected during registration time. This fee will be used to furnish the consumable materials needed in certain classes during the year.

Book deposits will be discontinued starting this year. The fees still in effect are: Shop fees, \$5; art fees, \$3; breakage tickets, \$1; choir robe deposit, \$2 (refundable); band instrument rental, \$5 per semester; band uniform deposit, \$5; mechanical drawing fee, \$2.

Any new elementary students in the area are urged to call Elementary Principal Clara Bolen at FO 2-3151 immediately.

New junior and senior high students are urged to immediately call Mr. Jordan at FO 2-2381.

Hale Area School Sets Registration August 31-Sept. 1

Hale Area Schools will hold a pre-school registration for all students in grades seven through 12, August 31 and September 1, 9:30 a. m. to 12:00 noon and 1:00 p. m. to 3:00 p. m. All new students in the area who have moved into the school district since school ended should notify the school office as soon as possible to enable the school to send for their records. Elementary students will register during their first day of class.

School will begin Tuesday, September 6, for a half day. The buses will leave at noon to pick up the students and school will begin at 1:00 p. m. There will be no lunch served Tuesday. The buses will leave the school at approximately 3:14 p. m. to deliver students to their homes. Hot lunches will begin Wednesday, September 7.

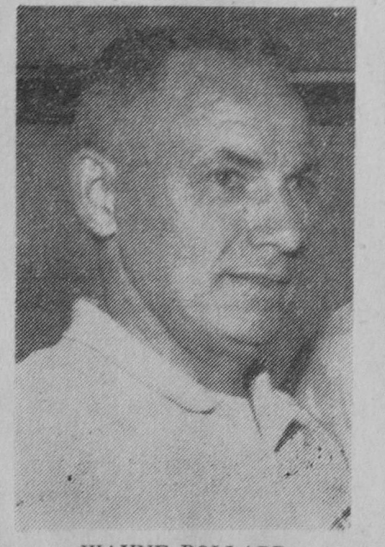

Due to an increase in prices for milk and other food items, as well as cutbacks in government surplus, hot lunch prices will be 30 cents for grades one-six and 35 cents for grades seven-12.

Belleville Men Fined for No Gun Registration

Two Belleville men paid fines of \$25 and costs of \$10 each when arraigned here last week on a charge of possessing an unregistered pistol. Found guilty were Lawrence C. Snitzen, 20, and Ronald K. Fennell, 20.

Wayne Pollard Heads ET Park Commission

Wayne Pollard has been named new chairman of the East Tawas Park Commission, according to

WAYNE POLLARD

action taken at its regular meeting last week. The new chairman is the only member remaining from the original commission following recent resignations.

Named secretary of the commission was Wayne Vaughn, according to a report read at Monday night's meeting of the East Tawas Council.

Improvements to the park were discussed by the park commission and Joseph Badalucco, park manager, explained operation of the facility.

According to the park manager, there have been 3,475 camps since January 1 and the city has received revenue of \$37,904. An increase in revenue over the previous year was indicated by the park manager's report. During July, revenue amounted to \$12,137, as compared to \$9,488 a year ago.

The council approved installation of a six-foot-high cyclone fence from US-23 to the bait shop along Newman Street.

Saginaw Bay Pollution Under Intensive Study

An intensive study of current features and temperature profiles as effecting water pollution is being conducted on Saginaw Bay by a contractor for the United States Department of Interior.

The "Telson Queen," a 98-foot research vessel originally built for the navy and now owned by Great Lakes Survey Corporation, docked last week at the Michigan Waterways Commission Dock, East Tawas.

James Lorier, skipper of the ship, said Thursday that the government survey is being conducted during the present navigation season and would be completed within the next two weeks. The vessel, which has a seven-man

crew and lists Sturgeon Bay, Wisconsin, as its home port, will be operating out of Tawas Bay and the Saginaw River.

On board the Telson is Richard Winkhofer, Cleveland, Ohio, senior assistant sanitary engineer for the Federal Water Pollution Control Commission, Department of the Interior.

Using special equipment aboard the ship, it will be Winkhofer's job to direct a scientific study of the lake which is hoped will offer some answers to the problems of water pollution in the Great Lakes.

This problem—finding a means to check the daily advance of pollution into the nation's largest body of fresh water—has become recognized as one of the most important conservation measures facing local, state and federal governments.

Work of the Telson is being concentrated in Saginaw Bay, believed to be one of the worst areas for pollution on the lakes. It is involved in a comprehensive program to study the general circulation pattern for predicting the effects of pollutants discharged into the lake.

A series of 26 recording stations have been set in the mouth of Saginaw Bay and another 18 stations are located in the bay's southern end.

There floating stations, attached to large 750-pound doughnut-shaped buoys, are anchored at various locations. The closest one to Tawas is situated about two miles offshore from Whitestone Point.

Extending 15 to 20 feet below each anchored buoy are lines from which scientific recording equipment is attached. Depending upon the type of station, they are checked at six-day, 30-day and five-month intervals.

Battery-operated oceanographic devices register the speed and temperature of waves and water currents, along with obtaining meteorological data. Equipment also measures dissolved oxygen content of the water at various levels and samples are taken to measure the amount of chemicals, bacteria, marine and microbe life contained in the water.

This is the first such scientific survey ever made on the Great Lakes and much of the equipment had to be designed especially for the job. The Telson is equipped with an underwater scanning device, along with the usual assortment of marine radar and gyrocompass equipment.

Measuring devices are removed periodically by scuba divers of the Telson crew and are transferred to the public health service's laboratory at Bay City. Photographic film and magnetic tape used to automatically record data is removed from the instruments, which are then repacked and returned to underwater stations.

After processing, the films and tapes are sent to New York University, where a preliminary analysis will be made of data.

Winkhofer said that it probably would require a year or more before a complete report could be compiled on this phase of the water pollution investigation.

Using scientific information obtained by the Telson Queen and other research vessels on the Great Lakes, the federal government is to work through state and local governments, along with industries situated in the Great Lakes basin, in an effort to set up standards for the discharge of wastes.

Iosco Probate Court juvenile authorities were close at hand Tuesday to investigate vandalism caused by three small boys. The children, oldest of whom was 10 years of age, started a fire in a restroom at the Iosco County Building—the probate court office is a few steps down the hall.

The boys started a fire in some paper towels on the restroom floor, which was extinguished a short time later when smoke poured into the lobby. When the trio stopped at the county clerk's office to "report" the fire some minutes later, they were turned over to the sheriff's department and then released to parents by juvenile authorities.

Fawn Caused Excitement Along US-23 Friday

A spotted fawn disrupted the flow of busy US-23 tourist traffic through Tawas City for several minutes last Friday evening.

Residents first saw the fawn as it was swimming in the Tawas River. It was frightened out of the water by two surprised youngsters playing behind Tawas Lanes. The fawn crossed the railroad tracks at the trestle, found its escape route blocked by a fence, leaped from the bridge back into the river and then headed for US-23.

Automobile tires squealed as the fawn headed south on US-23, cut behind the Iosco Hotel, crossed Mathews Street and ran as far as Vic and Zel's Restaurant, where it crossed the highway again and headed for the lake. It swam to a point opposite McComb's Marina Cabins, found shelter in some reeds and apparently made a successful escape back across US-23 later that night to reach a wooded area along Ninth Avenue.

TC Council Committee to Check 1st Ward Streets

Tawas City Council's street committee is to inspect streets in the First Ward in anticipation of starting a road improvement program this fall.

Four property owners appeared before the council Monday night and complained that dust from the streets was becoming a problem.

Hugo Wojahn, spokesman for the group, said that traffic was very heavy on Maple, Beech, German, Oak and Cedar Streets and believed the city should take steps to make improvements.

The city's dust control contractor is to treat streets this week.

The street committee is to investigate a street widening program with gravel surface.

In other business, the city received information from State Sen. Robert Richardson concerning procedures for making application to the Michigan Waterways Commission for possible participation in

improvements to the Tawas River mouth.

The council voted to pay two \$3,000 notes due at Peoples State Bank and renew another note for the same amount. One of the notes to be paid was for street construction and the other was for the general fund.

The council gave informal approval to the sheriff's department to install an antenna on the water tower and to locate transmitter equipment in the basement of the city hall for a proposed radio network to serve the sheriff's department.

On recommendation of Cemetery Board Chairman Russell A. Rollin, warning tags are to be fastened to water faucets at the cemetery stating that water is unfit for human consumption. The chairman reported that much progress had been made on improvements to the cemetery. The committee held eight meetings during July.

As a result of recent meetings with council representatives of East Tawas and Tawas City, along with officials of Wilber and Tawas Townships, further study is to be made on a proposed area sanitation district for joint operation of a disposal ground. It was stated that Baldwin Township had also expressed interest in the study.

Work was to start Tuesday by Central Paving Company, West Branch, on applying plant mix blacktop to First and Mathews Streets between US-23 and the railroad tracks. The city hall parking lot is also to be blacktopped.

JAMES LORIER, Sturgeon Bay, Wisconsin, skipper of the Telson Queen, is pictured here at his charts on the ship's bridge. He has spent most of his career as a seafarer on the world's oceans.

6 Area B&E's Under Police Investigation

Six area break-ins are under investigation by state police and city authorities. It is not known if there is any connection between the different cases.

State police are investigating break-ins at C and D Service, Card's Equipment Company and Baums Shell Service, all of Tawas, on August 11. Also under investigation are break-ins at Glenie Hardware and Nuffer's Grocery, also of Glennie, on August 8.

East Tawas Police Department is investigating a break-in at Kubiak's Bay Service, North US-23, which took place some time Saturday night. Cash in the amount of \$15 was stolen, along with a quantity of merchandise.

Businessmen Collect \$1,145 for Decorations

Tawas City Businessmen's Association's Christmas decoration fund has now reached \$1,145, according to an announcement Thursday by Co-Chairmen Hugo Keiser and Cecil Cabbie. Anyone desiring to contribute may contact the campaign chairman.

"The more donations received, the more displays we can purchase for a colorful Christmas season," said Cabbie. Displays, which were received recently, are weather-proof and will last several years.

In other association matters, the group will hold its annual businessmen's fishing trip Thursday, August 18. Cruisers will leave from the Tawas City Park dock at 4:30 p. m. Anyone interested should call 362-3551 immediately.

Finn Class Sailors Here Next Week in Four-Day Meet

Reservations are continuing to come in for the international Finn class regatta to be held on Tawas Bay August 23-26.

L. G. Ladd McKay, race chairman for the sponsoring Tawas Bay Yacht Club, said that four boats were now registered from Puerto Rico, 10 or 15 from Canada, three from California. Other states to be represented included South Carolina, New York, New Jersey, Massachusetts, Rhode Island, as well as midwestern states.

Two races are to be held each day Tuesday through Friday for the Olympic class boats.

Applications

Applications to do business under the new state residential maintenance contract law are now available at the Iosco County clerk's office. All residential contractors are to be licensed and bonded under provisions of the act effective September 1.

During Busy Summer—

Garbage Litter a Big Problem

Curtalement of the use of some recreational facilities in the area has been the direct result of misuse of private and public property.

The AuSable River between Cooke and Foote Dams is off limits to campers, according to signs posted by Consumers Power Company, which owns property on both sides of the river.

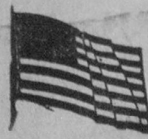

Removal of unauthorized camping was directed by the company last week after an inspection disclosed that the area was being littered with garbage and other refuse.

The company leases Old Orchard Park to Iosco County and other

property along the river to Alcona County for camping purposes. These supervised parks are not affected by the order as both have sanitation facilities and are equipped to handle garbage disposal.

It was noted at Monday night's meeting of the Tawas City Council that many of Iosco's roadside picnic tables had been removed this summer. It was stated that users had strewn garbage to such an extent in these areas that normal maintenance was impossible.

Earlier this summer, considerable vandalism was caused to camping facilities and directional signs in Huron National Forest.

I pledge allegiance to the flag of the United States of America and to the republic for which it stands; one nation, under God, indivisible, with liberty and justice for all.

Vacation Bible School To Begin August 22

Vacation Bible school at East Tawas Assembly of God Church will begin Monday, August 22, and end Friday, August 26. Commencement will be Sunday evening, August 28. Evening hours are from 7 to 9 o'clock. All youngsters aged three through 14 are invited.

Through education in various means of communication, children are oriented to the space age and take its wonders in stride. Past the point of no return in probing of outer space, there is no turning back now but though children speak the language of spacemen and scientists and know not God, it profiteth them nothing.

For this reason, the theme for this year's Bible school is "Living for God in the Space Age." The importance of knowing God who created this vast universe and the wonder of His Love for everyone will be emphasized, states the Rev. George Krish, pastor. He extends an invitation to interested individuals to attend.

THE BIBLE
SPEAKS
TO YOU

"Great is our Lord, and of great power: his understanding is infinite." This well-known verse from Psalm 147 is the Golden Text for this week's Bible lesson-sermon on "Mind" to be read in all Christian Science churches on Sunday.

Included among the explanatory reading from the denominational textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will be these lines: "Nothing is new to Spirit. Nothing can be novel to eternal Mind, the author of all things, who from all eternity knoweth His own ideas. Deity was satisfied with His work. How could He be otherwise, since the spiritual creation was the outgrowth, the emanation, of His infinite self-contained and immortal wisdom?"

PLEASE DON'T HURT MY KIDS!

Dear Driver,

THIS WEEK OUR DAUGHTER, who is six years old, started to school for the first time. Her brother will be with her, but he's only nine himself, and he still looks pretty little to me. Their little dachshund, whose name is "Schnapps," sat on the front porch and whined his canine belief in the folly of education as they waved "goodbye" and started off to the halls of learning.

LAST NIGHT WE TALKED ABOUT SCHOOL... my daughter and I. She wondered what the teacher would be like... she hoped she would sit beside Mary (the little girl next door). She said her letters for me... just to be sure she knew them. Oh, we talked about lots of things. Then she tried on her new dress to show me... and then to bed.

SHE LOOKED SO HELPLESS... Sound asleep, with "Sally" (that's her doll) cuddled in her right arm. You see I'm her Daddy. When her dolly is broken or her finger is cut, or her hand gets banged, I can fix it... but when she and her brother start to school, when they walk across the street, then they're in YOUR hands.

THEY'RE NICE KIDS, both of them. They like to fish, swim and go for walks with me on Sunday afternoon. But I can't be with them all the time. I have to work to pay for their clothes and education. So please help me to look out for them. Please drive slowly past the schools and intersections... and please remember that children do run out from behind parked cars.

ET Trampled Hale, 12-4, in Season Final

East Tawas trampled over Hale Sunday, 12-4, to close out summer action for the two teams in North-eastern Michigan League competition.

The Bears jumped on Bud Johnson, Hale pitcher, for nine hits and 10 runs in the first inning and Bob Erickson, winning pitcher, coasted the rest of the way for East Tawas on a four-hitter.

East Tawas scored single runs in the sixth and seventh innings and Hale came up with a four-run rally in the seventh inning.

Vick and Sventko were top hitters of the day for East Tawas with three singles apiece. John Erickson's eighth inning double was the only extra base hit of the day.

Retires After 23-Year USG Service

ALEX KLISH

Alex Klish, 65, an employee of United States Gypsum Company since December 6, 1943, retired last week after nearly 23 years of service.

Born July 10, 1901, in Tawas Township, Klish worked for USG in 1924-1925 in the plaster warehouse at Alabaster and then moved to Chicago, Illinois, to work in construction. He became an electrician while working for United States Steel Company and later for the Youngstown Sheet

and Tube Company, East Chicago, Indiana.

Klish returned to USG during World War II and had been in electrical work there until about three years ago. He finished his employment in general maintenance.

During his service, Klish trained young electricians at the Alabaster plant. He was still climbing power poles at the age of 60.

He and his wife, Lorena, own a 120-acre farm on Meadow Road in Tawas Township and he plans to continue to do a little farming and raise a few beef cattle during retirement. The couple has two children, James and Barbara.

HARRY W. SHERBINE

The Rev. Joseph Dibley and the Rev. Donald Turbin officiated at funeral services for Harry W. Sherbine of East Tawas Monday, August 15, at Moffatt Funeral Home, East Tawas. The body was taken to Flint Memorial Crematory, Mr. Sherbine died August 12 at Tawas Hospital after a lingering illness.

A retired electrical engineer who moved to East Tawas from Detroit, Mr. Sherbine was born February 14, 1892, at Millsbury, Pennsylvania. He was a member of Trinity Chapter 502, F&AM.

Surviving is his wife, the former Esther Baugh.

Seed Now for Better Lawn Next Spring

By MARVIN DAVENPORT
County Extension Agent

The quality of lawn you have next spring could well depend on the kind of seeding you do the last two weeks of August.

Research has shown that August 15 to September 1 is the best time to establish a lawn. But the following steps, as outlined by James Beard, Michigan State University turfgrass researcher, and Paul Rieke, MSU soil scientist, should be taken to insure good lawn establishments:

1. Test the soil for fertilizer and lime requirements. County Cooperative Extension Service offices have information on where soil testing services are available.

2. Till the soil and prepare the final contour. Do a good job now, since corrections are difficult to make after the grass has been established.

3. Remove stones and other debris.

4. Apply fertilizer according to recommendations based on the soil test. Work into the upper two or three inches of a seedbed. A general recommendation of two pounds of nitrogen, phosphoric acid and potash per 1,000 square feet is adequate for many new lawns. This is equivalent to 20 pounds of 10-10-10 or 10 pounds of 20-20-20.

5. Prepare final seedbed by raking smooth, then rolling.

6. Seed. Divide the seed into two equal amounts and apply in opposite directions across the area to insure uniform applications.

7. Rake seed lightly into the upper one-quarter inch of the seedbed. Don't "bury" the seed.

8. Mulch to insure seed germination and establishment. Use 75-100 pounds of straw per 1,000 square feet.

9. Roll again to firm the seedbed and hold the straw in place.

10. Keep watered for three weeks. This last step is probably the most important of all. Irrigate at least once a day, preferably at noon. Where a mulch is not applied, you may need to water more often to keep the soil surface moist.

When the grass is approximately one to one and one-half inches high, remove half of the straw mulch. When the grass reaches a height of two inches apply a light dressing of from one-quarter to one-half pound of actual nitrogen (one-half to one pound of urea) per 1,000 feet.

Start mowing when the grass is two inches high. Set mower height at one and one-half inches.

Broadleaf weed control may be necessary but should be delayed until the seedlings are well established, preferably at least 30 days after grass emerges.

Reno News

Young Couple in Peace Corps Service Thank Schools for Uniform Donations

A young couple working with the Peace Corps in Africa extends thanks to athletic departments of Tawas Area High School and West Branch High School for sending old basketball uniforms to them for use in their school program.

In a letter to Mrs. Joyce Hughey of West Branch, Mr. and Mrs. Ray Moore said the youngsters of Champir, Malawi, Africa, were really proud of the uniforms "as they have never seen anything so nice before."

The Moores, former Tawas residents, said the entire school appreciates their new soccer uniforms and other clothing sent to them through arrangements made by Mrs. Hughey.

The Moores report they attended a party at Mzimba, about 70 miles north of the village where they are teaching. They met the Malawi ambassador to the United States.

"On the way home, we saw a leopard—this sort of makes us feel like we are in Africa," they commented.

To the Voters of Wilber Township—

I wish to express my appreciation for the support given me in the August 2nd Primary and hope for continued support in the November 8 election.

Many Exhibits Planned for 1931 Isoco County Fair

35 Years Ago— August 28, 1931—The Isoco County Fair will be held Wednesday, Thursday, Friday and Saturday. A fine program of free acts, races, baseball games, fireworks, airplane stunting, midway features and band concerts has been arranged by officers and directors under Supt. Charles Curry. A. W. Colby, secretary of the Isoco County Agricultural Society, says that many farmers have planned exhibits.

Hiram Pierce of Hiram's Inn, Tawas City, has opened a restaurant in the new building just completed by L. H. Klenow at East Tawas. The new restaurant is modernly equipped and furnished to give the very best of service to its patrons. Both the restaurant and Hiram's Inn will be under the capable management of Mr. Pierce.

Local golfers will be pleased to learn that plans are being formulated for a handicap match-play elimination tournament to be held at Tawas Golf Course. A committee composed of Arthur Dillon, James Ruckman and H. J. Keiser are working out details.

All persons who ride bicycles on the sidewalk along Lake Street will be prosecuted in accordance with city ordinance, according to Tawas City Marshal Frank Mueller.

A number of Sherman Township residents picked blackberries over the week-end at Onaway, Frederic and other northern towns, but on account of the dry weather, the berries are of a poor quality.

According to the census report, not quite all of the younger children of Isoco County have been attending school regularly, but the percentage is high. Of the youngsters from seven to 13 years of age inclusive, 98.2 percent have been attending school, the report shows, and that is 1,177 out of a possible 1,199. After 15 years of age, the record drops off rapidly, however, and for the 18 to 20-year class, only 23.6 percent were attending school, or 95 from a possible 402.

Drought this year has decimated the wild duck population of the North American continent. House-keeping arrangements of water fowl have been sadly disarranged by the drying up of sloughs and marshes.

The world's first rocket air-drome was recently opened near Berlin, Germany. It is on a tract a mile and a half square and is equipped with laboratories and workshops. At present, it is being used as an experimental station and engineers are experimenting with a means of flight which will make possible the shooting of mail to America in six hours.

25 Years Ago—

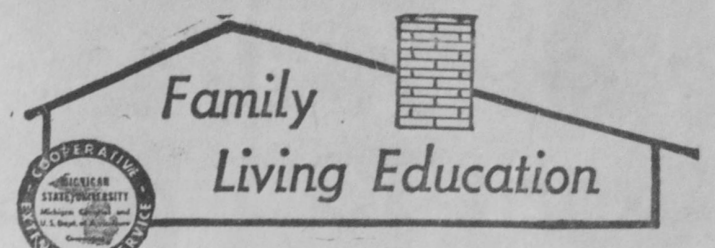

August 22, 1941—William J. Pinkerton, son of Mr. and Mrs. C. A. Pinkerton, East Tawas, was one of the 159 candidates who successfully passed the June bar examination held at Ann Arbor. A graduate of Albion College, he resides at Detroit and prepared for the state bar examination by night class-work at the Detroit College of Law while employed at the Chrysler Corporation.

High scores at the Tawas City Recreation from Saturday until Wednesday night included games of 201 and 204 rolled by Grant Shattuck.

Marvin Mallon, nine-year veteran of the Tawas City Independent baseball team, will be honored Sunday during ceremonies preceding the game with Alabaster. He began playing in the 1932 season as a high school freshman and, in his first time at bat, hit a three-run homer against Harrisville.

A slight shower of rain was the only thing to mar the dedication of Lake Street Wednesday afternoon. A dedication ceremony and banquet following were sponsored by chambers of commerce of the two communities. The event began with a group of East Tawas citizens and the high school band parading from the Holland Hotel corner and a like group of Tawas City citizens and high school band parading from the Mathews Street corner and meeting at the Midway Roadside Park. A ribbon was cut by Highway Commissioner G. Donald Kennedy, assisted by Mayors Ernest Burtzloff of Tawas City and E. A. Leaf of East Tawas. Michael Coyle, president of the chamber of commerce, was toastmaster.

A Beauty

Almost unheard of in our Northern Michigan markets just a few short years ago, the nectarine has become a familiar addition to the fruit counters from June through August.

The glossy skin in red and gold colors and the exquisite flavor of the juice-filled fruit make it a beautiful and very special treat on our dinner table. Though there is a four times increase in harvest in the past 12 years, this fruit is not really new. It was known 2,000 years ago in China.

Most of the 47 varieties of nectarines are clingstones, but three of the big nine varieties are free-stones. It is a valuable source of vitamin A, providing about a third of the recommended daily allowance. One fruit also provides a fifth of the day's vitamin C needs and is low in calories.

Most nectarines are eaten out-of-hand, but are good in ambrosia with other fresh fruits, in pie or in frozen desserts.

Freeze Dried Coffee
Freeze dried coffee, a new type product to make coffee instantly, is selling so fast in its test area in the East that the manufacturer cannot get it out of the test market and onto the regular retail market. So—we will wait a bit longer for it here.

Made from freshly brewed percolated coffee, the coffee is frozen, then dried. The process leaves tiny granules of coffee, larger than instant coffee powder. Only hot water is needed to make coffee.

Those who have used it from samples or have bought in the test markets of the East say it is almost as good as freshly brewed coffee and only a wee bit more expensive than instant varieties.

Cosmetic Laws
Do not take for granted more protection than you actually have. The Federal Food, Drug and Cosmetic Act does not require a cosmetic manufacturer to prove the

ingredients safe, except colors and "new drug" ingredients, before marketing. Cosmetic labels do not have to state ingredients, except cosmetic drugs. And another point we often take for granted that our law does not cover on cosmetics is that products made and sold within our state do not come under this law and regulation.

So read the labels, try, experiment and if a real problem, ask the Food and Drug Administration if it has or would test the product you question.

Bell Telephone Co. Announces Transfers

According to an announcement by Jerry Reiter, plant chief at Michigan Bell Telephone Company's local installation, the following personnel changes became effective August 1:

William Lyon of East Tawas, exchange repair foreman, was transferred to Oscoda. Arriving from Saginaw to fill Mr. Lyon's vacancy is Thomas Reinhold. Mr. and Mrs. Reinhold are parents of three children and expect to reside in the area soon.

Woman Recovering After Snake Bite Sunday at Oscoda

A 42-year-old Mt. Clemens woman was in a Saginaw hospital Monday recovering from the bite of a three-foot rattlesnake.

Patsy Shrake was struck by the snake Sunday afternoon as she walked in a wooded area near Oscoda. Administered first aid at the scene, police officers made an incision around the bite and removed much of the venom before transporting her to Tawas Hospital, later to Saginaw.

A state police relay brought an antidote from a Flint hospital to use in her treatment to counteract the venom.

OSCODA TOWNSHIP'S new \$150,000 hall was completed recently and is now in use. New quarters of the Iosco-Arenac Regional Library branch are located in the wing at left. The township police department moved into its offices two weeks ago and the fire department is to make its transfer this week. The building occupies the former township hall site on US-23.—Tawas Herald Photo.

Will Represent Tawas Area in State Fair Queen Contest

Wendy Deibaugh, 17, Tawas Area High School senior, will represent the Tawas area in the beauty queen contest to be held during the Michigan State Fair.

Preliminaries for the contest are to be held at Detroit August 31. Miss Deibaugh reigned over the recent tourist festival sponsored by the Tawas Chamber of Commerce.

Accompanying her to Detroit will be Mrs. Alvin Bruder, Wurtsmith Air Force Base, who was one of the judges for the local contest and was the 1958 Romeo peach queen, and Mrs. Lottie O'Loughlin, office manager for the chamber of commerce.

Funeral Services Held August 11 for William Dockler

Funeral services were held August 11 at Arlington Funeral Chapel, Largo, Florida, for William F. Dockler, 55, who died August 9 at a Largo hospital. He had been in poor health several years and had been hospitalized for the past five weeks.

Born November 12, 1911, at Windsor, Ontario, Canada, he was married to the former Marcella Westrich at Grand Rapids in 1931.

At one time, he was a building contractor in Tawas City. Mrs. Dockler operated a beauty salon here and he constructed a building for her shop between the Tawas City post office and Tawas Lanes.

He is survived by his wife; one son, William Dockler Jr. of St. Petersburg, Florida; one granddaughter; his mother, Mrs. David L. Blair of Tawas City; one brother, George Killmaster of Midland. Episcopal funeral services were read Thursday at the home of Mrs. Blair by the Rev. Robert E. Morrison of Christ Episcopal Church. Local friends and neighbors attended this service.

Burial was at the Serenity Gardens Cemetery, Largo.

Services Held Aug. 16 for William M. Smith
Funeral services for William M. Smith of Tawas City were conducted Tuesday, August 16, at Hillman Episcopal Church. The Rev. K. G. Docksey officiated and burial was in Avery Cemetery, Atlanta. James Ruckie officiated at prayer service Monday evening, August 15, at Moffatt Funeral Home, East Tawas.

Airman Bound Over To Circuit Court on Larceny Count

William H. Dummeyer III, Wurtsmith Air Force Base, waived preliminary examination August 12 and was bound over to circuit court on charges of larceny from an auto. Bond was set at \$400.

The complainant, David Thompson, Wilber Township, told state police that on August 11 he had a flat tire on old US-23. He had no spare tire with him and parked his car along the road. When he returned, he found that the engine of his car had been stripped of parts.

Dummeyer was apprehended later with a tire and wheel allegedly taken from the auto.

C of C Opens Special Campaign to Wind Up '66 Memberships

Tawas Chamber of Commerce opened a special campaign Monday to wind up the 1966 drive for memberships. The group seeks to meet a goal of 200 members for the year.

According to a report at last week's regular meeting of the board of directors, the organization presently has a membership of 144, who have paid dues of \$6.093.

The chamber is \$3,000 short of its 1966 budget and with high cost of promotion hopes to secure enough new members to underwrite its program.

Lifelong Arenac County Farmer Died August 11

The first white child born in Arenac County after it was organized as a county, Edward Bergeron of Sterling, died Thursday, August 11, at Tolfree Hospital, West Branch. Born April 15, 1883, he lived his entire life on a farm in Clayton Township and was a charter member of Arenac County Farm Bureau.

Among the survivors are two sons, Roy of Tawas City and Milton of Sterling; two daughters, Mrs. Lulu Christie of Pontiac and Mrs. Fay Federsteel of Clarkston; eight grandchildren; nine great grandchildren; two sisters; one brother.

Funeral services were held Saturday, August 13, at Forsee Funeral Home, Prescott. Burial was in Clayton Cemetery.

were granted to the following: S. H. Stasik, 118 Tawas Street, sign, \$75; J. Richard Ernst, 401 West State, garage, \$700; Raymond Klinger, 122 Newman Street, addition, \$1,500; Vernon Chamberlin, 329 Lakewood Drive, addition, \$500; A. P. Brandemuehl, 612 Main, concrete block garage addition, \$500.

Dr. Harold D. Jones, 114 West Bay, remodel office, \$450; Eljio Remington, Provoast Street, garage, \$800; Hubert Hadley, 415 Alice Street, fence, \$150; David Remster, Tawas Lake Road, addition, \$2,500; Mrs. James L. Smith, 323 Bridge Street, addition, \$700; Richard B. Moss, 503 West Bay, porch steps, \$20.

ANNA B. CORNETT
Funeral services for Anna B. Cornett of Tawas City were conducted Thursday, August 11, at Jacques Funeral Home, Tawas City. The Rev. Donald Turbin officiated and burial was in Greenwood Cemetery, East Tawas. She died August 9 at Tolfree Memorial Hospital, West Branch.

Mrs. Cornett was born January 28, 1896, at Glennie. She and Charles Cornett were married in 1920. He preceded her in death in 1947.

She is survived by two sisters, Miss Nettie Bissonnette of Glennie, Mrs. Maurice Bell of Jackson; one brother, John M. Bissonnette of Saginaw; several nieces, and nephews.

Injured in US-23 Accident Sunday

James A. Katterman, 19, Tawas City, was taken to Tawas Hospital early Sunday morning following an automobile accident on US-23 in Sims Township.

Katterman, traveling north, ran off the right shoulder of the road, crossed to the other side and ran into some concrete pipes along the ditch which are being used in

construction of the Saginaw-Midland water line.

Officers said he apparently fell asleep at the wheel.

MRS. EMMA DETTMER
Mrs. Emma Dettmer of Tawas City died Tuesday, August 16, shortly after admittance to Tawas Hospital. Funeral service will be Thursday, 1 o'clock, at Jacques Funeral Home. The body will be taken to Detroit for burial service Saturday.
