## Hale Scout Patrol Won Large Klondike Trophy

One hundred fifty boy scouts from large and Northland Districts of the Paul Bunyan Council held their annual Klondike Derby Saturday at Silver Valley.

Theme of this year's derby was "Gold Rush" with patrols from the nine troops participating involved in a hunt for gold nuggets. They received the gold nuggets for successfully completing a problem given them at each one of six stations. Events included a first aid problem, a cliff rescue while blindfolded to simulate darkness, pitching a tent without the use of regular tent poles, preparing drinkable water from snow, estimating heights and distances without ac-

### Ski Area Open Starting Saturday

Ski areas of the Silver Valley Winter Sports Park will be opened on a temporary basis starting this Saturday, according to an announcement from the Tawas Chamber of Commerce.

James Campbell, committee chairman, said that two tows would be in operation from 8:00 a. m. to 5:00 p. m.

A federal and state inspection of equipment and facilities is to be made later this week before the area goes into operation.

Closed "permanently" last spring when the chamber relinquished its contract for operation with the forest service, it is hoped that temporary operation this winter will enable the sponsoring organization to recoup its finances to pay off several outstanding bills.

### Business Building Being Removed

A building formerly owned by the late H. E. Friedman in Tawas City is now being demolished for expansion of parking facilities at Lansky's Standard Service.

The building once housed a barbershop operated by the late Hosea Bigelow. It also contained an office for Mr. Friedman when he was justice of the peace.

At one time, part of the frame structure was located on a lot between Tawas Industries, Incorporated, and Brugger's Foodland. The building was moved to its present site by Mr. Friedman.

Work on removing the building is being contracted by Larry Rowe of East Tawas.

### Damage Suit Being Heard by Isosco Jury

A \$45,000 damage suit opened in Isosco Circuit Court before Judge Allan C. Miller Tuesday morning with impaneling of a jury composed of six men and six women.

Damages are being sought by William Morrison of Oscoda against James Foster, a garage operator in that community.

Morrison sustained injuries September 2, 1963, when a pail filled with gasoline exploded in the garage. The gasoline had been used to clean auto parts.

Representing Morrison is F. Duane Ross, former East Tawas attorney. The defendant's attorney is Michael N. Freel of East Tawas.

BOILING WATER at Silver Valley Saturday were these Roscommon boy scouts. This was part of the contest to decide a winner in the Klondike Derby. ## Advisory Group Studies Vocational Training Plan

First meeting of a citizens advisory committee named to study needs of a proposed regional vocational training center for the Bay-Arenac-Iosco area was held Monday night at Standish.

Chairmaned by William Tracy, Iosco Intermediate School superintendent, first order of business of the new group was to name Sam Misesin, Standish-Sterling Central Board of Education president, as its general chairman.

Russell A. Rollin, retired county school superintendent of Iosco, was named vice chairman.

The citizens advisory committee, composed of 53 interested citizens from the three-county area, will have the responsibility of assisting school superintendents of Bay-Arenac-Iosco in conducting a study of immediate and long

## Airman's Wife Dies; 8 Injured in Crash South of Au Gres

Linda Schaf, 22, wife of an airman stationed at Wurtsmith, was killed Sunday night in a two-car crash at the south limits of Au Gres.

Eight other persons were injured in the crash and were treated at Standish Hospital and the base dispensary at Wurtsmith.

Investigating state police from East Tawas said that a car driven by Julianna Taylor, Ann Arbor, tried to overtake and pass another southbound vehicle. She was unable to pull back into her own lane and crashed head-on into the car driven by Mrs. Schaf.

Injured in the car driven by the deceased were Gene Schaf, 26; Tracy Schaf, age three; Judith Mathis, 22; Thomas Mathis, age four; Angeline Mathis, age three; Lawrence Ward, 22. Police said that two other Schaf children were admitted to the hospital but names were not available.

A passenger in Mrs. Taylor's car was Adam Taylor, 1 1/2 years of age, who was also injured. The accident is still under investigation.

range vocational requirements of schools.

Bay, Arenac and Iosco Counties through Study Director George Stickle will provide the committee consultant service from the University of Michigan. The study director will make available services of members of his staff in the collection and organization of data the committee desires.

Committee members are to study the present physical conditions of the vocational facilities in the three counties, adequacy of the present curriculum for vocational training in the schools and a feasibility study for possible creation of a special vocational facility to provide opportunities of vocational training on an area basis.

Members attending Monday night's first session were separated into three study committees: 1. Business and industry; 2. High school seniors, high school graduates and parents of 10th grade students; 3. Nongraduates, farmers and related industries.

Included in the study will be a questionnaire to be distributed to business and industry of the three-county area. Chairmanship of this group for Iosco will be Robert Fullerton, Oscoda insurance agent.

Through use of confidential information gained through this survey, opinions from business and industrial employers will be used to expand, extend and develop new programs for employment-bound youth, for retraining displaced workers and for extending the technical proficiency of employed persons in the three-county area.

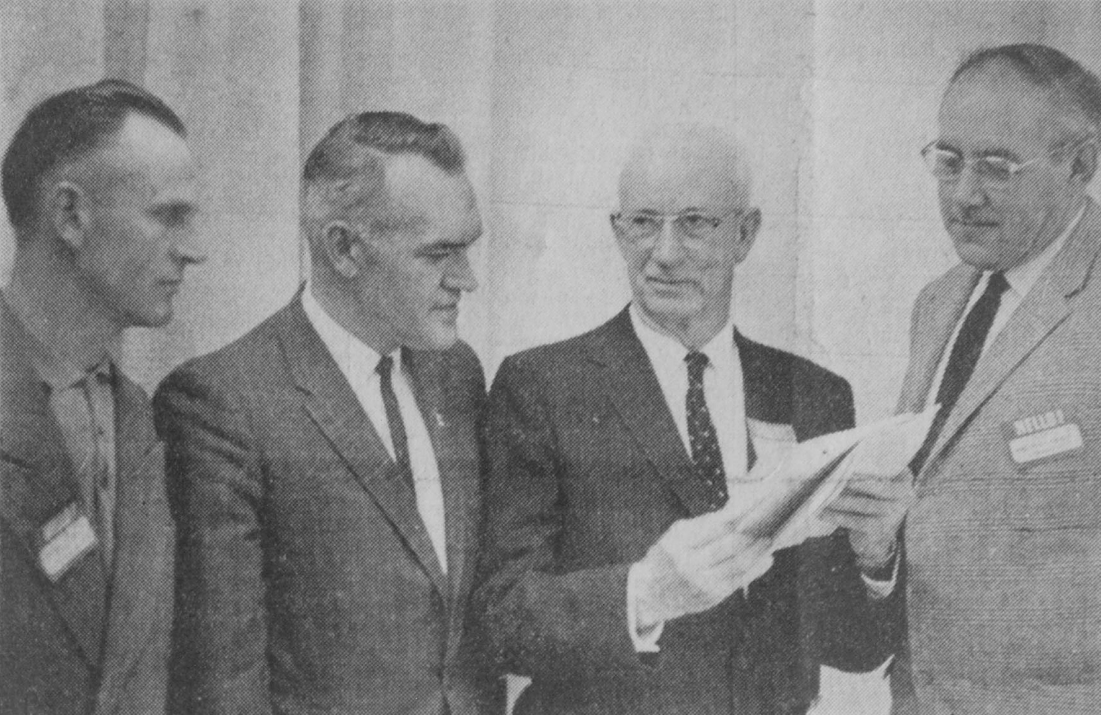

Principal aims of the vocational training needs study will include investigation of occupational training needs so that appropriate programs may be developed; to determine where occupational preparation programs are now located and how better coordination could be achieved in the operation; where additional programs should be located and which schools can conveniently cooperate to provide these programs.

The committee would obtain data about the number of high school students, graduates, non-high school graduates and persons displaced by new processes or automation that could be serviced by expanded or new vocational training facilities.

It would obtain data which would enable selection of courses that would best serve the occupational training needs of the people and to determine if needs of the area can be met through expansion or alteration of present facilities, or whether the construction of one or more new facilities, designed especially to serve needs as brought out by this survey, are desirable.

A meeting of the business and industry committee is to be held next Monday night at Tawas Area High School.

Members of the study committee from Iosco include: C. Boeder, D. Dowling, A. Koehler, O. Maas, all of Hale; Fullerton, W. Garrett, W. Kahn, G. Walters, Oscoda; N. Miller, W. N. Thornton, R. Harris, W. Niles and Rollin, Tawas; W. Britt, C. Dahn, L. Osborne and S. Osinski, Whittemore-Preseott.

DISCUSSING PLANS for a vocational needs study to be conducted in Iosco County as part of a three-county program are these four members of a citizens advisory committee which met Monday night at Standish. Standing second from right is Russell A. Rollin Sr., former county school superintendent, who was named vice chairman of the committee. ## Was it a Bear---or a Dog---On the Ice?

Several Tawas City residents are not quite sure if their eyes were playing tricks on them last Friday. Sightings were made at various points along the shore of what is believed to have been a black bear running on the ice of Tawas Bay.

The animal was first noticed running along the ice about halfway between the tip of Tawas Point and the shore about on line with the city park. Several persons observed the animal and watched through high-powered binoculars and a telescope as it disappeared beyond the bay's entrance.

The United States Coast Guard at Tawas Point reports it received a sighting from one Tawas City resident concerning a large black dog stranded on the ice.

## Meet Jan. 31 to Finalize Iosco Action Committee

A meeting is called to complete the organization of Iosco County's Community Action Committee.

"This is necessary in order that Iosco County may avail itself of the Economic Opportunity Act of 1964," Marvin Davenport, county extension director and temporary chairman, said.

The meeting scheduled for the Cooperative Extension Service Office, Federal Building, East Tawas, on Monday, January 31, 7:00 to 9:00 p. m. is for the purpose of electing a county committee and delegates. "This is not a closed meeting, anyone interested is welcome to attend," Davenport said.

## Chamber Sets \$9,140 Budget for New Year

A 1966 budget of \$9,140 has been adopted by Tawas Chamber of Commerce board of directors and the organization hopes to finance this expansion through 100 percent participation by the community.

Membership Campaign Chairman Vernon Pugh states that a total of \$2,372 has been paid through January 25 by 50 members who have responded to early statements.

"This response has been gratifying and it has enabled the chamber to start its 1966 program in high gear," said the campaign chairman.

This year's theme is "Dynamic Dollars for Community Progress." A breakdown of the budget shows \$5,860 for office expense, which includes \$2,860 for wages, \$2,200 for operating expenses and \$800 for circulars.

Other expenses are as follows: Fireworks, \$100; chamber sign, \$780; building and grounds, \$150; new office machine, \$300.

Promotional expense includes: Perchville, \$250; canoe race, \$250; Michigan Tourist Festival, \$250; Tawas Bay Arts and Crafts Exhibit and Sale, \$100; bike races, \$400; hiking and riding trail, \$150.

Other expenses include operating loan of \$400 and a miscellaneous fund of \$150.

## Alabaster House Damaged by Fire

A house owned by United States Gypsum Company at Alabaster is being razed following a fire last Tuesday night.

Occupied by Mr. and Mrs. Calvin Brown, the fire was discovered about 10:00 p. m.

Tawas City Fire Chief James Lansky said that apparently an attempt had been made during the day to thaw frozen pipes through the use of an electric welder.

It was thought that paper wrapped around the pipes had ignited and smoldered for several hours before breaking out in flames.

Mr. Brown was attending a business machine service school and Mrs. Brown noticed smoke in the house. After calling neighbors, the fire department was notified.

Fire was found in the crawl space under the building and in the walls. Extensive damage was caused by water and smoke. Firemen battled the blaze for about 2 1/2 hours.

## STAG DINNER

Jesse C. Hodder Post, American Legion, will hold its annual stag dinner Monday, January 31, 6:30 p. m., at the Legion Hall, Tawas City. Chili is to be served. The public is invited.

DESPITE THE COLD WEATHER, Tawas Point State Park is a very active place as preparations are being made to receive the park's first camper sometime next spring. Ray Colvin, assistant park supervisor, is shown sanding tops of new picnic tables. ## Tawas Citizens Study Future School Plans

First meeting of a citizens committee invited to aid in formulating future plans for Tawas Area Schools will be held tonight (Wednesday), 7:30 o'clock, at the multipurpose room of East Tawas Elementary Unit.

At the request of the board of education, Tawas Area Parent-Teacher Association formed the 24-member committee with representation for the entire school system.

The group is to consider needs of the school after completion of the five-room addition to the high school. Bids are to be accepted on this next month and is being financed as the last phase of a five-year construction program.

The board of education has been considering construction of a shop building in order that present quarters being utilized for this teaching could be used for classrooms. The committee will also consider other educational needs of the district.

Supt. Reynold Mick is to outline projected future enrollment of the schools and how money was spent on the previous construction program. Neil Luedtke, P.T.A. president, is to serve as chairman for opening the session.

"This group is to act in an advisory capacity and for a limited time. Recommendations will influence direction of Tawas Area Schools for the next few years and will have an impact on the entire future of the area," said Luedtke.

I pledge allegiance to the flag of the United States of America and to the republic for which it stands; one nation, under God, indivisible, with liberty and justice for all.

**Vets Receiving Compensation to Get Questionnaire**

Veterans and dependents of veterans on Veterans Administration compensation and pension rolls who have school age children will receive a special questionnaire with their January checks due about February 1.

Robert M. FitzGerald, manager of the VA regional office in Detroit, said today that the VA needs additional information from parents in order to authorize benefits provided in a recent law. Not only have higher rates and additional payments for school children been allowed but the maximum age limit has been increased from 21 to 23.

The questionnaire also asks for the payee's zip code number in keeping with current postal regulations intended to speed up the delivery of both checks and correspondence.

A space is also provided for the payee's social security number, if available, so that identification files may be kept up to date. This is particularly important to a veteran if he requires VA hospitalization since all admissions are now filed by social security number.

Mr. FitzGerald urged that the questionnaire card not be mutilated or folded and that the veterans answer all questions before signing. A special addressed envelope for the return of the questionnaire is provided.

THE BIBLE SPEAKS TO YOU

"Father-Mother is the name for Deity, which indicates His tender relationship to His spiritual creation," says Mary Baker Eddy, discoverer and founder of Christian Science, in her book, "Science and Health with Key to the Scriptures." The passage will be included in all Christian Science services this Sunday as part of the lesson on "Love."

Several Bible stories will be read, among them the conversion of Cornelius and the parable of the Good Samaritan. A correlative reading from Science and Health includes these words: "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good."

Peter's statement—"Of a truth I perceive that God is no respecter of persons: But in every nation he that feareth him, and worketh righteousness, is accepted with him"—finds a parallel in this line from Science and Health: "Love is impartial and universal in its adaptation and bestowals."

You're entitled to feel smug as well as comfortable if you heat with gas. That's why, where gas is available, practically everyone gets it. In the areas we serve, some 700,000 families heat with gas. And thousands more are being added.

Gas forced air heat is filtered heat, free of dust and pollen. It's circulated uniformly through your home. You're free of that stuffy "vacuum bottle" feeling. Smoke and odors slip away. And gas is healthfully humid, not bone-dry.

Gas is easy on your budget. It costs only about a fourth as much as you'd pay for electric heat. And you have even comfort throughout your home—even in the basement.

Gas is reliable. It comes to you in underground pipes. You can't run out of it. Maintenance? You can practically forget it. The silent blue flame of a gas burner just can't wear out.

Pity about "the Joneses," isn't it? But they can have gas heat, too. It only takes about four hours to convert most heating systems. If you convert to gas heat now, we'll pay for the installation and you make no regular payments till June, 1966.

Virtually every new home built has gas heat and about the only thing that beats it is a gas heating/air-conditioning system. It means year-round comfort. Year-round economy, too. Because there's a special low rate for heating/cooling customers.

Get with it, "Joneses." Heat and cool with one fuel... gas. For more information contact your heating/cooling contractor, visit the Gas Company office at 106 W. Westover, East Tawas, or call 362-4458.

# Braves Take Twin Bill From Essexville

Tawas Area High School basketball teams took both ends of a twin bill with Essexville Garber Friday night, the Braves defeating the Dukes, 74-68, and the Junior Braves trounced the visiting junior varsity, 57-39.

After losing to Oscoda Tuesday night, the Braves bounced back by taking a close decision over an up-and-coming Essexville Garber squad.

The two teams battled on fairly even terms during the first quarter with the Braves holding a 24-21 bulge at the end of the first stanza.

Tawas' outstanding hustle in the second quarter proved to be the deciding factor in the game as the Braves poured in 19 points to Essexville's 14 and held an eight-point lead at the half.

That little extra effort in the second quarter was important as the Dukes outscored Tawas, 19-14, in the third quarter. The Braves came back with a 17-14 scoring edge in the final stanza, but not before Essexville closed the gap to a one-point difference at one time during the quarter.

The Braves made mistakes during the game but not when it real-

ly counted in the late stages when a bad pass could have given the Dukes an opportunity to tie the score. Tawas held a 10-point lead with a little more than three minutes to go and, after a stall, Coach Bill McIntosh substituted freely.

Leading the tribe in scoring was Forward Dick Lapeer, whose spectacular shooting while being closely guarded by taller Essexville players netted him 24 points. Tawas had three other players in double figures, Fairfield being second high in scoring with 17 and turned in good ball handling. Forward Bob Sieloff followed with 13 and Guard Dale Koepke meshed 12 points, coming through in the late stages of the game.

Top scorer of the night was Deryl Whitney, big center for the Essexville Garber Dukes. Whitney meshed five field goals in the first quarter, two in the second, five in the third and had two and one in the fourth for a total of 29 points. The visiting team is composed entirely of sophomores and juniors and should prove to be a real threat in the NBC.

The Braves' record in league competition now stands at four wins and five losses, while Essexville Garber had a record of two wins and six losses. The Braves have one nonconference win.

Tawas Area Junior Braves rolled to their ninth win in succession by defeating the visiting junior varsity, 57-39.

The Junior Braves ended the first quarter of play on the short end of a 15-13 score but roared back with a 19-7 margin in the second quarter which they never relinquished. Tawas scored 15 points in the third and 10 in the fourth, while Essexville Garber JV had totals of 11 and six.

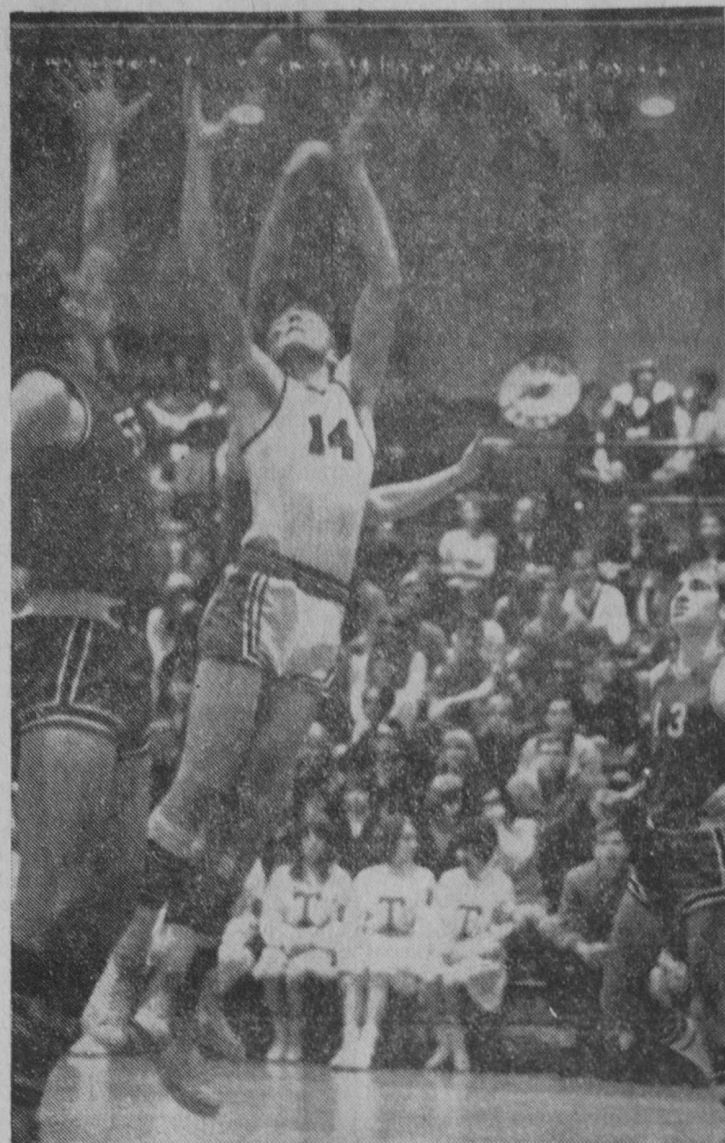

Scoring was evenly divided among six players with Kushion leading the way with 12 points.

Action moved to Whittemore-Prescott Area last night (Tuesday) for a nonconference game and the Braves play at West Branch Friday night. Tawas won the first meeting earlier in the season.

Hale Area Eagles continued in their winning ways Friday night by defeating Hillman, 34-23. The undefeated Eagles are still tied with Mio for leadership of the Northern Star League, each with 8-0 records. The two teams are to meet February 8.

Hale jumped off to a 14-8 first quarter bulge and was never headed, although Hillman held a 12-10 second quarter edge. Hale had 15-point totals in the third and fourth quarters while Hillman had 11 and 14.

Jim McMurray was top scorer for Hale with 14 points, followed by 12 points for George Maas and 12 for Martin Caverly. R. Hamilton topped the losers with 26.

**Recent Game with Diplomats Nets Two TA High Clubs \$466**

Profit from the recent basketball game with the Harlem Diplomats totaled \$466, according to a report this week from Bill McIntosh, athletic director at Tawas Area High School.

More than 1,000 persons attended the game, according to ticket sales. Total profit included sale of refreshments and coat check service.

The profit was split equally by Tawas Area Key Club and Tawas Area Varsity Club. The former sponsored purchase of an eight-millimeter movie camera and projector for the school. The varsity club purchased new uniforms and equipment for track.

"Members of the two sponsoring clubs and the school extend thanks to the community for its support of the program," said McIntosh.

**FORMER RESIDENT DIES AT FLINT**  
Albert Wesenick, 90 years old, passed away in a Flint hospital the past week. He was born in St. Clair County July 25, 1875. He came to Reno Township in 1902. He resided there until nine years ago when he made his home with his nephew and wife, Mr. and Mrs. Lionel Wesenick, at Flint.

He is survived by two brothers, Herman of Whittemore, Mrs. Charles of Wausau, Wisconsin; one sister, Mrs. Helen Ruckle of Whittemore; several nieces and nephews.

Funeral services were held from the Whittemore Methodist Church Sunday afternoon, January 16, with the Rev. A. Parkin officiating. Burial was in the family lot in Whittemore LDS Cemetery. His nephews were pallbearers.

Relatives attended from Pontiac, Flint, Bay City, Tawas, Hale and surrounding community.

**WOMEN'S GROUPS UNITE FOR ANNUAL PROGRAM**  
A combined club meeting of the Young Women's League, Rural Ladies Club and Whittemore Women's Club met at the Whittemore-Prescott Area High School cafeteria Thursday night with about 50 members attending. The Young Women's League was the hostess club.

In the absence of the president of the hostess club, Mrs. Jill Hotois, vice president, extended a welcome. She introduced the presidents of the other two organizations, Mrs. Earl Stone and Mrs. Roy Charters, who also extended greetings on behalf of their club members. A program of songs, piano and accordion selections, slides of Western States and Chicago, a humorous skit entitled "How to conduct a club meeting" was enjoyed.

Social committees of the organizations served refreshments.

## W-P Area Cards Downed by Bucks 69-55, Friday Night

Whittemore-Prescott Area Cards tried their best to upset the Roscommon Bucks Friday night but went down in defeat, 69-55. Coach Val Young's JV squad just could not get things rolling and lost, 59-40.

The Cards started off trailing but John Ridgeway put them ahead, 12-11, midway in the first quarter with three straight field goals. The Cards then fell behind by four points as the quarter ended.

The Cards lost another point in the second quarter to trail by five at intermission. The W-P squad just could not match the Bucks in rebounding and fell behind in the third quarter, never getting closer than five points. The Bucks had it pretty well sewed up as the last quarter started but the Card scoring ace kept pouring in baskets, but still not enough to stave off defeat. Ridgeway finished the game with 26 points. The only other Card in double figures was Gary Free with 13.

This was the last game with W-P for Ridgeway as he moved to Kentucky this week.

## W-P Area Girls Won First '66 Victory

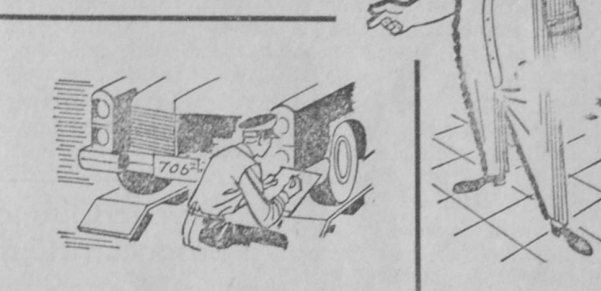

Whittemore-Prescott Area girls walked off with their first victory Wednesday night on a 31-16 win over Roscommon. The Cards started off fast and took a 13-5 lead at the end of the first quarter. They held the visitors to only free throws in the second quarter while collecting six points to hold a comfortable 19-6 lead at the half.

Edna Mullenix played an exceptional game at guard by keeping Roscommon girls away from the basket. Gail Grabow and Diane Graham were standouts. Christy Gilbert was W-P Area's scoring star with 14 points.

County: Roxanne Boll, Olive Schuler, Willie Smith, Oscoda; Other communities: Helen Mor-Schuler, an, Au Gres; Richard Yager, Flint, Theodore Dobson, Gladys Nickell, Whittemore.

### Named Hale Area's DAR 'Good Citizen'

Miss Connie Brooks, a senior, has been selected as the Good Citizen of the Year at Hale Area Schools. This contest was sponsored by the John Alden Chapter of the Daughters of the American Revolution.

She was chosen by the faculty from a list of three seniors, submitted by the senior class.

As local winner, she was invited to a ceremony in Midland in honor of the good citizens selected at local schools. She is also eligible to compete in the contest to determine a state good citizen. State winner will compete in the national contest, also sponsored by the DAR.

### Three Iosco Students On FSC Dean's List

Three residents of Iosco County were among the more than 700 Ferris State College students who were named to the dean's honor list for academic excellence during the past quarter. Dr. Robert L. Huxol, vice president for instruction, has announced.

To be named to the dean's honor list, a student must maintain at least a B average while carrying a full academic load.

The students were Charles C. Busch, junior in the school of general education and son of Mr. and Mrs. Chester Busch, East Tawas; Jeri L. Ruppert, freshman in the school of commerce and daughter of Mr. and Mrs. Irwin Ruppert, Tawas City; Robert M. Smith, junior in the school of pharmacy and son of Mr. and Mrs. William Smith, Tawas City.

### LETTERS to the EDITOR

To The Editor:  
This memo in response to Mr. Calabrese's quote in your paper, I cannot agree as to the 10-year period he refers to on the US Plywood plant at Gaylord.

We can't wait 10 years here for industry, if we do we are going to have a ghost town or towns. The Rev. Morrison just two weeks ago in his sermon remarked on how many young people have left the area since June 5th to seek elsewhere. This should not be, and we are not doing enough to attract industry. Only this morning, I opened a brochure from Dothan, Georgia, Chamber of Commerce, making a bid for a local industry, very attractive with free building site plus long time loan at attractive rates.

What do we have to offer? Another matter which I think is out of order, the \$20 certificates, too high for the average family. Why not have \$1 certificates and sell them on a weekly basis. If you have 900 families participate 52 weeks a year the first year, your treasury will have \$46,800 in the treasury and you can do business with that kind of money in the treasury. Such as money to purchase building sites plus cash to loan a reliable firm. You will have many stockholders which is good for many outside contacts and everybody is interested as they have a stake in the success of the project.

Let me repeat—10-year wait for industry will be a lost cause for the young people will be gone and their children will have roots elsewhere and this area will die.

Let us have some letters to the editor on the subject—it has been hidden under a basket too long. Certainly other persons must have something to write about.

Bert Godley

Dear Editor:  
The enclosed news articles, if not already noted by you, should prove of some interest to you. Your efforts to prevent the loss of perch in the Great Lakes apparently has received considerable attention in today's Flint Journal (Sunday, January 16, 1966). Protests from the local government officials and civic organizations are receiving some attention from the Commission of the Michigan Department of Conservation. But, at the same time, they are proceeding with hearings in other sections of the state to gain support in their move to remove all restrictions on perch fishing by the commercial fishery.

As a casual observation, it would appear that the conservation department has received more criticism from deer hunters than any tax supported department would desire. The only people who seem satisfied with their conservation of wild life are the writers on the payroll of the conservation department. You will note familiar comments in some of the enclosed news articles, such as:

"We have listened to department researchers, who for years looked down their noses at the sportsman, jokingly refer to the need for going into 'people biology'."

"For too many years, they ignored the fact that wildlife management is for the benefit of the people—that, it is not like a test tube venture in the sterility of a laboratory."

"The fish section has made the switch in thinking and now has geared some of its regulations to the quality of the sport. The

pounds turned out by the fish factories or placed in creels are de-emphasized. Restrictive regulations have automatically limited numbers of anglers on some stream sections."

While I sincerely believe that restrictions must be placed on the harvest of all fish in the Great Lakes, if the proper balance of fish life is to be maintained, it might be advisable to adopt a wait and see position toward the department's proposal to restrict commercial fishing in the Tawas area between the period of June 10 and September 10. If fishing improves in our area and continues to decrease in other areas, a more factual basis for protest might be provided.

Very truly yours,  
Chris Addison  
Mt. Morris, Michigan

## The good old American Custom of "comparison shopping" helps you get the most for your money!

WHEN YOU PLAN A MAJOR PURCHASE such as a car or even a boat, you shop around comparing performance and checking costs.

IN YOUR CHOICE OF A HOME HEATING SYSTEM IT WILL PAY YOU TO FOLLOW THE SAME PRACTICE.

As you compare electric home heating with other fuel systems, you will be surprised to find the cost comparable when recommended installation practices are followed.

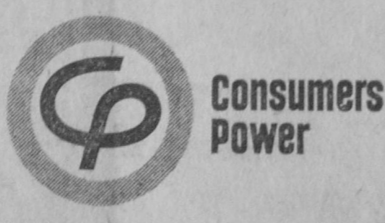

Consumers Power Company's electric home heating rates are on the downward trend. These rates have been reduced twice in the last two years. The last reduction amounted to a savings of 19% to its home heating customers.

Compare the benefits and complete "comfort performance" of custom controlled electric home heating with other fuels—YOU'LL BE GLAD YOU DID!

DOROTHY SCOTT, Extension Home Economist

Hello There! Is moisture control a problem at your house? If so, you should find some reasons why among these tips from Carlton Edwards, Michigan State University housing specialist. I hope you will also be able to do something about the reasons that result in greater comfort as well as saves money.

Every kind of insulation has to have a moisture barrier on the warm side. That is because moisture laden warm air goes through walls and ceilings. It gets into the insulation "voids" making it no longer an insulator but a conductor. We are most comfortable in a home with 40-60 percent relative humidity, but in cold weather about 40 percent is as much as most houses will take. Too much causes condensation on the coldest windows. A wee bit tells you the humidity is for the temperature at that time. Remember, the lower the temperature the less humidity you can have without condensation. What kind of insulating materials to use?

Perhaps the top choice is polyethylene sheets, eight-foot wide and installed with a minimum of nails and other openings. Aluminum foil used inside the sheathing board has to "reflect" and must have air space to do it—both for heat and cold. This material has some moisture-vapor value used on an inside wall. Finished plywood panels have two glue layers. They make a pretty good moisture vapor barrier as is.

Areas already built are helped by painting with two coats of aluminum paint on the inside of exterior walls and ceiling. Then add your decorative paint. Clapboards on outside walls absorb moisture and swell. The paint surface does not swell—it peels or blisters in spots where the sun's heat causes a gas that puffs the paint.

Where did the moisture come from? It came from inside the house, through the walls, if there was inadequate moisture-vapor barrier. Concrete and cinder block walls can have the hole spaces filled with pour insulation, giving about half insulated value, or you can nail on furring strips and attach sheet insulation inside.

What are families like half way around the world? What will United States families face in 1980? How can today's homemaker better cope with her rights and responsibilities as a consumer? How does she use the multitude of information available?

Special programs designed for you who attend the 1966 Farmers' Week will point the way to some of the answers. This annual event is coming up January 31 through February 4 on the Michigan State University Campus.

If you cannot go for the full program, choose a day's activities and attend. Complete programs are available at your Cooperative Extension Service Office, just ask for one.

Among the speakers and topics are these: Mrs. George Romney, Japanese Family Life; Mrs. Loa Whitfield, Family Life in 1980; Dr. Gertrude Nygren, Home Furnishings; Dr. Dena Cederquist, Vitamin Supplements and Enriched Foods; Carol Shaffer, Consumer Protection; Dr. Eugene Peisner, Value and Choices; Mr. Edwards, Housing Tips; Bernetta Kahabka, Paacesetting Clothes for Dads and Lads.

# County District Votes to Adopt MSCD Recommendations

Iosco County Soil Conservation District at a recent meeting of the board of directors voted to adopt a set of recommendations developed by the Michigan Soil Conservation Districts, Incorporated, for an improved district program. They are designed to be used in cooperation with the Public Works and Economic Development Act of 1965.

These recommendations include:

1. Intensify efforts in water conservation. Step up efforts to obtain benefits to the area from the Watershed Protection and Flood Prevention Act (P. L. 566). Encourage development of ponds for all purposes including fish production, swimming, stock water and as an addition to the beauty of the countryside. Encourage proper water management by all people.
2. Improve forest resources by continuing and increasing the district tree planting program. Increase efforts to secure proper management of existing woodlands, thereby increasing the value, providing more employment and using the land to its utmost capabilities. Develop a complete forest land use program which will recognize the benefits of recreation, wildlife and watershed protection.
3. Encourage the planning and developing of recreation areas on private land, as demand dictates need, for both public and private use. Evaluate need for developing the soil, water and forest resource along side of existing or planned publicly-owned recreation areas as a supplement to these areas.
4. Agricultural resource benefits will be increased by assisting in the establishment of beef enterprises on land suitable to the production of the necessary food crops. Place more emphasis on the production of special crops suitable to the area. Assist in maintaining and improving idle crop land which will be needed for future agricultural production.
5. Substantially increase plantings of wildlife food plants as a supplement to existing wildlife food, thus increasing the carrying capacity of the land and providing more recreation for a longer period of time during the seasons of use. Emphasize the possibilities of increasing cover for wildlife on farm land.
6. Improve the natural beauty of the countryside. Conduct an informational program, pointing out the contributions to the beauty of the landscape made by following practices which are consistent with proper management of soil, water and forest resources.
7. Cooperate with agencies or organizations concerned with the development of soil, water and forest resources for community betterment. These will include county, city, village and township planning, zoning boards and industrial organizations. Assist schools, hospital and other social groups in selecting sites for buildings and grounds. Make all of these groups aware of the need for selecting proper sites as related to soil and water conditions.

These goals will be attained by use of the concept of broad area planning with other counties in this area. By their inclusion in the districts long-range plans, a substantial increase in the economy of the area will be possible.

# Traffic Accidents Investigated by Police Troopers

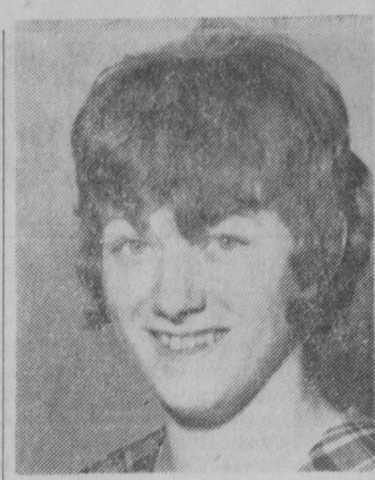

State police investigated four minor accidents Sunday. Bernard Federspiel, 59, Saginaw, was treated at Tawas Hospital following a crash on US-23 in Alabaster Township. He lost control of his car and drove off the shoulder. Two passengers, Elmer Sagasser, 58, and Max Federspiel, 31, escaped injury.

Two persons escaped injury in a two-car collision at East Tawas. Charles E. Wade, 67, 1270 Schill Road, and Agnes Ouillet, 210 Oakes Street, collided at the intersection of Wadsworth and State. Officers said that the road was slippery and Wade was unable to stop his car for the intersection.

James L. Allen, 19, East Tawas, backed his car out of a private drive on Green Road, Baldwin Township, and collided with a car driven by Martin J. Strelecki, 29, East Tawas. There were no injuries.

Three high school youths escaped injury in a crash on Monument Road. Edward T. Cain, 18, driver, Tawas City, told officers his car skidded through the intersection with River Road and struck some guard rails.
