Tells Recreation Center Plans in Western Iosco

Ground is to be broken sometime this week or next for a new eight-lane bowling alley at Hale, Tawas Area Construction Corporation has the contract for masonry work in the 52 by 150-foot building.

To be located on M-65, one-half mile south of Hale, the new business is part of a recreation center being developed and promoted by Ira Scofield, Hale businessman.

Scofield said that a local corporation was being formed which is to purchase automatic pin setting equipment for the bowling alley. It will then purchase the building from Scofield.

Stating that he had been investigating the possibility of a recreation center for the past two or three years, Scofield said future plans call for construction of a golf course on the 100-acre site. Plans call for the building to be air-conditioned for summer use. It will also house billiard tables.

Hale Creek crosses the rolling property, which is partially wooded, lending itself as an ideal setting for development of recreation facilities in Western Iosco County.

Scofield said that Hale and Plainfield Township, with its large number of lakes and tremendous influx of summer visitors, needed such facilities for an over-all development program. He said that many people were now making their homes year around in the inland lake country.

WAFB Announces Open House Plans

Wurtsmith Air Force Base will open its gates to the public from 10:00 a. m. to 3:00 p. m. Saturday, May 21, to give visitors a chance to view and inspect the base's defense capabilities and military readiness. The open house event will be held in celebration of the 17th annual observance of Armed Forces Day.

From static displays of aircraft to judo and sentry dog demonstrations, a full schedule is planned for the entire family. There will also be showings of air force films.

The center of attractions for the day will be static displays of the various aircraft assigned to the Strategic Air Command and Air Defense Command units at Wurtsmith. These will include the B-52H Stratofortress bomber, the KC-135 Stratotanker refueler and the F-101B Voodoo fighter-interceptor.

Other displays set up for the day will include a sonic boom van, fire fighting equipment, personal and survival equipment used by SAC and ADC crew members, and specialized ground equipment used in support of the aircraft.

Chamber to Publicize Area by Buying Time on Television Station

Directors of Tawas Chamber of Commerce voted unanimously last week that if sufficient funds are derived from the sale of tickets to the International Magic Time Show, the entire amount of revenue collected will be used to promote the Tawas area for 13 weeks via WNEM-Television, Bay City.

In other business handled at the regular meeting, the chamber has made a written request through an application to the Michigan State Highway Department that a sign be placed on the Standish exit of the new link in the I-75 highway directing traffic to the Tawas area.

The letter also requested that the exit sign at the clover leaf be constructed at West Branch also bear the name of the Tawas area.

The chamber of commerce has requested the highway department to locate an information center for northbound traffic on I-75 somewhere north of Pinconning and south of Standish.

Tawas City Applies for \$97,686 URA Advance

Preliminary application for a \$97,686 survey and planning advance was filed Tuesday with the Urban Renewal Administration by the City of Tawas City.

Representatives of Vilcan, Leman and Associates, the city's planning consultant firm, presented five copies of the required federal forms at Monday night's meeting of the city council. One copy was sent to the regional office of URA for preliminary inspection and others are to be forwarded following council action at its next meeting.

This application has been under consideration since the fall of 1964 when a field representative of URA was in the city and said that the proposed project appeared to be eligible for federal funds.

Last November, the planning consultants were authorized to proceed with preparing necessary applications and the city council authorized an expenditure of \$500 to pay the cost of preparing forms.

If approved by the federal government, money would be advanced to pay the cost of a detailed study of a proposed clearance project in the business district from a point west of the Mathews Street intersection along both sides of US-23 to the county jail.

The detailed study would establish conditions and costs of the clearance, relocation of present businesses, engineering and funds for appraising property.

The study would provide an estimate for the amount of federal funds required to aid in underwriting the entire project, which has been estimated roughly at \$1,200,000.

For cities under 50,000 population, the federal government pays three-quarters of the total cost, with one-quarter being paid locally through rehabilitation bonds or special assessments, in some instances.

About one year would be required to complete the detailed study by the planning consultants. After that, the project would be reviewed by the federal government, and if money was to be made available, public hearings would be required locally.

Normally, a planning advance requires about three months before approval by URA. It would be at least 21 months before negotiations are made with property owners.

If at the end of public hearings it was decided that the project was too expensive, the \$97,686 would become a grant and repayment would not be required. If the city decided to go ahead with the renewal project, the advance for planning would be included in the over-all cost of the project.

Tawas Area Bands in Spring Concert This Saturday Night

Annual spring concert of Tawas Area School bands will be held Saturday night, 8 o'clock, at the high school auditorium. The concert is entitled "Rhapsody in Music" and will feature the senior band, cadet band and dance band.

Numbers to be presented by the 87-member cadet band include "Days of Glory," "Bolero Non," "Little Classic Suite" and "Three Sketches for Band." The 20-piece dance band will present "Stardust," "The Lonely Bull" and "Downtown."

The 72-member senior band will present "Trombone King," "Highlights from the Sound of Music," "Elephant's Tango," "First Swedish Rhapsody," "A Kingston Trio Folk Song Overture" and "Beautiful Colorado," with Edward Eper as soloist.

Presentation of the Sousa Award, honoring the outstanding band member, will be made by Thomas Horning, president of the Tawas Area Music Booster Club. Four full and two partial scholarships to summer music camps are also to be presented by the band to six of its members.

Following the concert, light refreshments are to be served. The public is invited to attend.

KIWANIANS PLANT TREES

Members of the Tawas Kiwanis Club planted a "bed" of spruce trees Tuesday afternoon at the Iosco County Medical Care Facility. This is part of the program being conducted to interest local groups in landscaping projects at the new facility.

Mich. Employment Security Commission Opens Mobile Office

Michigan Employment Security Commission recently started a new program aimed at servicing those areas which do not have a staffed employment service branch office.

As a result, Iosco County now has a mobile team office in the county building next to the supervisors' room. Office hours are from 9:00 a. m. to 4:00 p. m. daily, Monday through Friday.

Services offered include complete information on training programs throughout the state, information on job openings in the area, information on job openings in other areas of the state, vocational aptitude testing and counseling.

William H. Hagley, supervisor, West Branch, stated that MESC is now the sole screening agency for job corps applicants.

"These services are entirely free and are provided to all persons in the state with a special emphasis placed on the needs of the unemployed and underemployed worker," said Hagley.

Five Building Permits Ok'd at East Tawas

Building applications approved during the past two weeks by the East Tawas Department of Public Works were as follows:

W. A. Luce, move cottage, 900 East Bay, \$200; Clifford Eppert, 318 Wilkinson, fence, \$35; Joseph Churchhill, Orange Grove Beach Subdivision, remodel, \$300; John Birkenbach, 602 West Franklin, install aluminum siding, \$430; Mrs. Mildred Parsons, 715 East Lincoln, remodel, \$300.

T. Hospital to Observe National Health Week

National Health Week, May 8-14, takes on a special significance this year.

Tawas Hospital is one institution among thousands preparing for a new alliance for health—the government-financed hospital and medical care program for the aged known as medicare.

Schedule of National Health Week events at Tawas Hospital includes:

Monday, May 9—Sing along to be held from 7:00 to 9:00 p. m. at St. Joseph Social Center, East Tawas.

Tuesday, May 10—Hospital auxiliary tea, 2:00 to 3:00 p. m. with tour of the hospital.

Wednesday, May 11—Employees' day. Annual employee awards tea will be held at 2:30 p. m. and Mrs. Margaret Neville, hospital pharmacist, will give a short presentation. Awards are to be presented by Sister Rose Helene, SSJ, hospital administrator.

Thursday, May 12—Open house for public from 9:00 a. m. to 4:00 p. m. There will be tours and displays of equipment.

Friday, May 13—Patients' day.

"A program as large and as complex as medicare is bound to have some problems," Sister Rose Helene said, "but it is not going to change the day-to-day operation of the hospital. What the program does is ease the burden of hospital expenses for medicare patients."

"Tawas Hospital will continue to provide high quality care for all patients and, at the same time, work in the alliance to provide a healthy, happy and fuller life for older citizens under medicare."

Tawas City Prepares for Mayor Exchange

Preliminary plans for Tawas City's participation in Michigan Week were discussed at Monday night's meeting of the city council and a committee meeting is to be held later this week for the May 15-21 event.

Of principal concern to the city council is the mayor's exchange day program on Monday, May 16. Tawas City will trade mayors with Cheboygan.

Cecil Cabbie, who heads the city council committee, said the county Michigan Week Committee had a full slate of events planned for the week. Serving with Cabbie are Russell A. Rollin Sr. and Reginald Bublit, superintendent of public works.

The city will entertain the visiting mayor and guests with a tour of facilities, a noon luncheon, a tour of Wurtsmith Air Force Base and an evening banquet at the Barnes Hotel.

The council took official action changing its regular meeting of May 16 to May 17 because of the conflict with exchange day.

In other business, the council adopted recommendations of its street committee for a \$10,000 street improvement program this year. While the total is \$1,000 above the budgeted amount, councilmen felt that it would be well to take advantage of the location here later this year of a bituminous plant which will furnish blacktop for US-23.

The program includes regular prime and double seal on First Avenue from North Street to M-55 and the alley of the downtown business district parking lot between Hatton's Barber Shop and Keiser's Variety Store. The First Avenue intersection with M-55 would also be improved, as would ditches along both sides of the street from North to M-55.

Plant mix blacktop would be placed curb-to-curb on Mathews Street, First Street and Oak Street, all from US-23 to the railroad tracks.

In addition, the city hall parking lot is to be expanded and blacktopped. Curbs are to be constructed at both the east and west property lines.

A council committee is to meet prior to the May 17 meeting to study the possibility of adopting an ordinance similar to one enacted at East Tawas and Osceola controlling the parking of junked autos on private property.

A burning application was approved for Mrs. Karl Bublit, 620 Lake Street.

Iosco Schools Benefit from Fed. Library Grant

Federal funds have been released in Michigan for library materials and Iosco schools will receive a total of \$11,840.51, according to William F. Tracy, Iosco Intermediate School District superintendent.

These funds available under provisions of Title II, Elementary and Secondary Education of 1965, are allocated on a per capita as well as a need basis.

Each school district within the county will receive 68 cents for each student, teacher and other professional person on the school staff. This amounts to \$4,735.16 for the county and breaks down as follows:

Hale Area, \$155.90; Osceola Area, \$2,733.59; Tawas Area, \$1,207.82; Whittemore - Prescott Area, \$637.82.

The need allotment in Iosco is \$6,705.61 with the following breakdown for the four high schools:

Hale Area, \$158.50; Osceola Area, \$3,897.97; Tawas Area, \$1,729.95; Whittemore-Prescott Area, \$919.19.

This need allotment is based upon a library materials survey conducted by the state library division of the Department of Education.

Three nonpublic schools in the county will also receive funds under Title II for library materials. These schools are Zion Lutheran School, \$94.69; Immaculate Heart of Mary, \$136.35; St. Joseph, \$168.70.

All public and nonpublic schools are to submit their material requests to the intermediate school district, whose staff will process and order all districts. Title to all materials purchased under this federal program will remain with the intermediate school district.

ET Council OKs Prelim. Budget for New Year

A preliminary budget of \$194,406.44 was adopted Monday night by the East Tawas Council for city operation during fiscal 1966-1967.

Of the total operational money, \$59,166 would be raised by taxes. This would require 9 1/2 mills of taxes, the same rate as last year.

A breakdown of the budget shows \$28,216 for general fund, \$2,442 for maintenance of public buildings, \$8,603 for street lighting, \$7,130 for sanitary service, \$825 for recreation and \$450 for tree planting.

Cost of cemetery operation would be \$1,700, the fire department was listed as \$7,580, street construction of \$51,500, police department operation at \$20,390, water department was allocated \$56,550, the sewer department is to receive \$8,395 and revolving fund of \$622.90.

A public hearing on the proposed budget is to be held May 16.

In other business, Julius Hanslovsky, the city's financial consultant, said in a letter that applications for federal money to aid in sewer construction were being checked with the various governmental agencies.

Possible merger of the park commission with the city recreation committee is to be studied at the next meeting. It was believed that the merger might be beneficial to the over-all planning program and that some work may be duplicated by the two agencies.

On Iosco Facility—STRIKE HALTS WORK

A state-wide strike of construction workers has halted progress on the Iosco Medical Care Facility. Union employees around the state did not report for work Monday morning.

A spokesman for the Iosco Board of Supervisors said Monday that the strike would probably result in a delay on completion of the project, which had been scheduled for May 24.

Painting of the building's interior is the major work to be completed.

Wife of Pioneer Iosco Broker Dies

Funeral services were held Sunday afternoon for Mrs. Arthur Cowan, who died April 29 at her Tawas City home.

Mrs. Cowan and her late husband were among the pioneer developers of resort property in Iosco County. After vacationing here in the early 1900s, they could visualize the natural advantages of the area with its streams, lakes, miles of shoreline and national forest.

The family moved here from Sanilac County in 1919 and Mr. and Mrs. Cowan developed the Tawasantha Subdivision at East Tawas.

They then purchased property at Sand Lake and platted lots around the lake. With this development, they had a free camp ground featuring Indian meetings, as both had lifelong interests in these natives of Michigan and Indian lore. This was before the days of good roads and they often recalled that they had to walk to the Tawas and back, a distance of approximately 25 miles, when roads were impassable.

The Cowans later established a real estate brokerage business on US-23 in Tawas City and their office, now owned by William Borosch, realtor, was located on the bank of Tawas River. They retired in 1956.

Mrs. Cowan was born at Woodstock, Ontario, Canada, May 29, 1885. She was married to Mr. Cow-

Cottage Dedicated At American Legion Children's Home

A new \$10,000 cottage was dedicated at the American Legion Children's Home, Otter Lake, Sunday, May 1. This is a milestone at the home since it is the first new cottage constructed since 1933.

The single-story building, designed to house 19 children under normal conditions, is constructed of masonry and steel. Like the other cottages at the home, the new building is self-contained with its own kitchen and dining room.

The purpose of the American Legion Children's Home is to provide a temporary residence for children whose parents, for one reason or another, cannot care for them. The home handles needy children of all veterans... not just Legionnaires.

Club Will Present Fashion Show

An all-cotton fashion show, featuring 1966 fabrics and patterns for round-the-clock wear, will be presented by The Twentieth Century Club Wednesday, May 18, at Tawas Area High School cafeteria. The event is scheduled for 8:00 p. m.

The "Cavalcade of Cottons" collection is a loan service offered by the National Cotton Council and McCall's Patterns to emphasize the versatility of home sewing. It represents the season's trends in color, fabric and silhouette. Cottons and patterns are generally available at local department stores.

Plans for the show are announced by Mrs. George Liske, president, Twentieth Century Club. The commentator will be

Whittemore News

Husbands are Guests at Women's Club Dinner-Meeting

Whittemore Women's Club met at the Methodist parish house Wednesday evening for a pot-luck dinner preceding the brief business session. Members' husbands were guests at the affair which was attended by 26.

Program was presented by Mr. and Mrs. Robert Curtis, who showed slides of their trip to Alaska last summer. The Curtises, Mr. and Mrs. Leon King spent two months there salmon fishing and visiting the Curtises' son and family, who reside at Anchorage.

The May 11 meeting of the club will be held at the parish house with a 6 o'clock dinner served by the MYF honoring past presidents.

Mr. and Mrs. Harvey Schneider and daughter of Minneapolis, Minnesota, spent a few days here with his parents, Mr. and Mrs. Earl Schneider, enroute to Southern California where Harvey has been transferred.

A2C Kenneth Bronson of Puerto Rico is spending a month's fur-

lough here with his parents, Mr. and Mrs. Kenneth Bronson Sr.

The WSCS met at the parish house Monday night with 10 members present. Plans are underway for a mother-son banquet to be held in May.

Sympathy is extended to the Floyd Brown family in the death of his father.

MRS. CLARA MARTIN

Mrs. Clara Martin of Deckerville, mother of Charles Martin of East Tawas, died April 23 at the Michigan Masonic Home, Alma, where she had been a resident since May 1961. Funeral services were held April 25 at Carman Funeral Home with the Rev. Alan Weeks, pastor of Deckerville Methodist Church, officiating. Burial was in Downing Cemetery.

The former Clara Maude McFarlane, she was born October 6, 1880, at Arthur, Ontario, Canada. She was married to Frank E. Martin September 22, 1902. He preceded her in death December 21, 1961. She was a member of Deckerville Methodist Church, its WSCS and a life member of Marion Chapter No. 400, OES.

Surviving are another son, Robert I. of Detroit; three brothers, Robert, George and David, all of Arthur; a twin sister, Mrs. Louise Howes of Saskatchewan, Canada; three grandchildren, and one great grandson.

MEMBERS of Troop 111, East Tawas, assisted in planting 4,500 red pine seedlings Saturday at Tawas Point State Park. Working under the direction of Park Ranger A. Ray Prosch, the boys planted the three-year-old seedlings in the area of the new camping grounds as a measure to combat erosion. The boys are shown above with Prosch looking at a concrete monument which is to be set in the ground marking the planting date.—Tawas Herald Photo.

Pallet Plant Busy at National City

Tremendous recent growth of the pallet industry in this state and possible expansion as a means of providing employment in the local area were discussed this week by Ronald Tait, owner of Tait Sales, Incorporated, National City and Detroit.

Tait, formerly a manufacturer's representative for 29 years in the Detroit area, has operated his pallet manufacturing plant here since 1960.

Located on Sand Lake Road south of the National Gypsum Company quarry, Tait's plant produces approximately 75,000 pallets annually. The firm provides steady, year-around employment for eight persons and had a \$50,000 payroll last year.

In addition, the firm spent approximately \$60,000 for its raw wood materials last year.

Like every other business, the pallet industry is rapidly changing, said Tait. As far as the working man is concerned, this change is for the good. As Tait points out, the labor market is becoming more competitive, wages are higher and equipment is now becoming available which will revolutionize the business.

Because of the need for pallets and the availability here of neces-

sary raw materials, Tait stated it would be well for local development groups to investigate the possibility of expanding this manufacturing.

Pallets, he explains, are expendable items—nearly 95 percent of them, after serving the purpose for which originally intended, are discarded.

While stating that his operation was small compared to others in the Northeastern Michigan area, Tait said his plant has a motor capacity of 245 horsepower to operate his bolting machine, sawmill and gang ripper. He is particularly proud of a 600-amp electrical system which is patterned after those in modern factories.

As an example of production, his gang ripper can cut a bolt into six boards in five seconds and, during an eight-hour shift, can produce from 7,000 to 8,000 boards.

Between 19 and 20 feet of lumber are used in each pallet, all constructed of Michigan hardwood.

Pallets produced at National City are used by the Ford Motor Company for storage of automobile engines and small parts in warehouses prior to assembly of the automobiles. In addition, local pallets protect world-wide shipments of automobile windshields.

Tait is presently preparing to

cut a large quantity of top grade ash here for use in the manufacture of baseball bats. He has a contract to provide 200,000 pieces measuring three by three by 40 inches for the Louisville Slugger Company.

Municipal League to Meet at Roscommon

Municipal personnel needs, state regulations of solid waste disposal and a new highway financing program will be major subjects discussed at the Michigan Municipal League's Region IX meeting at Roscommon Thursday, May 5.

"This area, with a plentiful supply of raw materials, good rail and highway transportation, is ideally situated to take advantage of the wood manufacturing industry. The right young man with the proper backing could go a long way," said Tait.

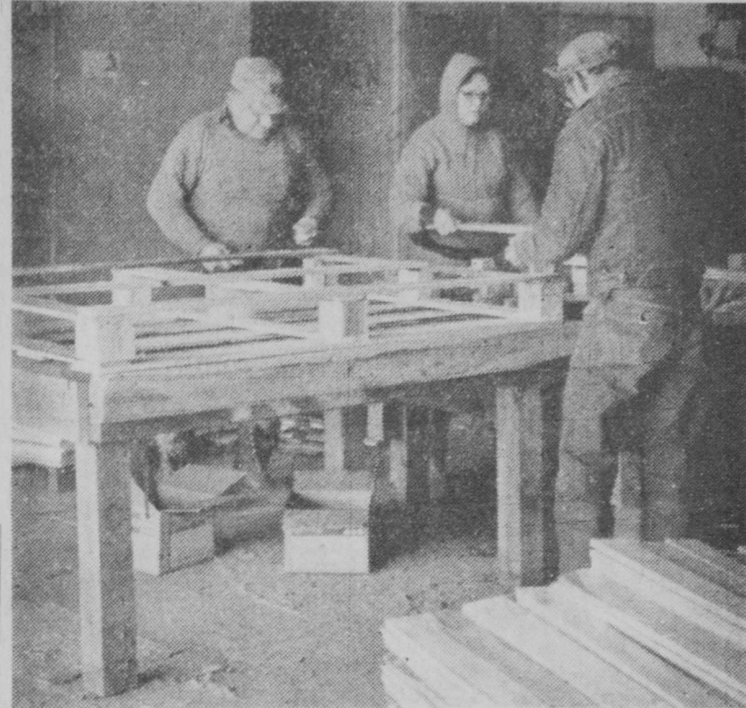

Attending this annual meeting will be mayors, village presidents, councilmen and other officials

from cities and villages in Counties of Alcona, Alpena, Cheboygan, Crawford, Iosco, Montmorency, Ogemaw, Oscoda, Otsego, Presque Isle and Roscommon.

Among officers of this group is Reginald Bublitz, superintendent of public works, Tawas City, who is regional vice chairman. Representing 434 member cities and villages in the state, the Michigan Municipal League serves to unite members in collectively striving for home rule and promoting higher standards of municipal government.

THREE IOSCO RESIDENTS received Trail Blazer Awards April 27 for their work in scouting. Shown in the above photo from left are William Armstrong, Whittemore; Mrs. Betty Wager, Wurtsmith Air Force Base, and Frank Mark, Tawas City. Awards were presented at a recognition banquet held at Dow Corning Cafeteria, Midland, in observance of the 15th year of the Paul Bunyan Council. Approximately 250 scouts and their wives attended from all of the districts in the seven-county area. Mark served as scoutmaster of Troop 74 when it was reorganized in 1958. In 1964, he served as assistant district

commissioner for scouting roundtables in the large District. He has also participated on the district training committee and will be an assistant scoutmaster of the Philmont Trek this summer. Armstrong served as an assistant scoutmaster at Whittemore in 1964 and became scoutmaster in 1965. Under his direction, the troop increased in size until it now serves over 50 percent of the available boys. Mrs. Wager has been a den mother for three years and her guidance and leadership have helped den mothers throughout the district.

Prescott Throws Hat in Ring for House Seat

George A. Prescott, Iosco County clerk, this week announced his candidacy for a seat in the Michigan House of Representatives, 102nd District. The area now includes Iosco, Ogemaw and Arenac Counties together with most rural townships of Bay County.

A Republican, Prescott is a member of an old Northeastern Michigan family not unknown to Michigan politics. His grandfather served in the Michigan Senate and

was later elected secretary of state. His father, the late George A. Prescott Jr., set a tenure record with 28 years continuous service on the Michigan State Fair Board under seven Michigan governors. Charles T. Prescott Sr., an uncle, served Northeastern Michigan 17 years in the state senate and was in office at the time of his death.

"It is no secret," Prescott said in his release, "that for some time I have been interested in serving the people of this section in the state legislature. From Bay north and west to Alpena now seems a no man's land in the new scheme of representation and I believe our area deserves a voice in Lansing."

Prescott first entered politics as a supervisor from Tawas Township in 1947. He served as a member of the board of supervisors until 1951 when he was appointed to the office of county clerk by former Circuit Judge Herman Dehnke to fill a vacancy. Elected each succeeding term to that office, he is currently serving a four-year term.

Prescott is 53 years old, father of five sons and one daughter. His wife is the former Margaret Davy of Lansing. The candidate is a graduate of Michigan State University earning his bachelor of arts degree with the class of 1935.

He was a founder of the Iosco County Fair, Dairy Herd Improvement and Artificial Breeder's Associations and a past president of those groups. Prescott is a Farm Bureau member and one of the original founders of the Northeastern Michigan Hereford Calf Association. In 1961, he served as president of the Michigan Association of County Clerks.

"I pledge my best efforts and 20 years experience at the county level to the people of this area," Prescott said, "and earnestly ask your support in this new challenge."

Beef Bull Sale May 12 at W. Branch

The 36th annual Northeastern Michigan beef bull sale will be held at the feeder cattle yard, West Branch, on May 12. There will be 28 bulls sold this year. Cattle will be shown at 10:00 a. m. so that prospective buyers may see them out of the stalls and to determine sale order for the afternoon sale, scheduled to start at 12:30 o'clock.

The sale will include eight Hereford bulls, 16 polled Hereford bulls, three Angus bulls, one Angus heifer and one Milking Shorthorn. Cattle will be assembled by 18 different consignors from 16 Michigan counties.

This cooperative event is planned by directors of the feeder sale group at West Branch and representatives of the Michigan purebred beef cattle breeders with the hope of getting well grown, high quality beef sires into the area where feeder calves are produced.

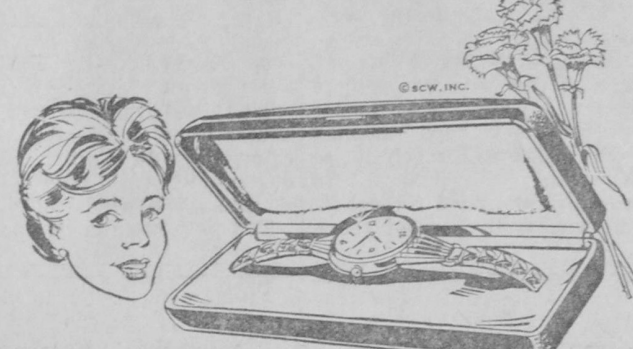

Information may be secured by writing Wilton L. Finley, Michigan State University, Animal Husbandry Department, East Lansing. Finley is a former county extension agent of Iosco.

NFO Meeting

Lectures Aid History Classes in Junior High

Eighth grade history students at Tawas Area School will hear one more speaker in the current series conducted by local resource personnel, according to Mrs. Mary Dunham, junior high history instructor.

During the last 12 weeks of the term, Mrs. Dunham has invited seven local businessmen and public officials to assist instruction in that period of history before reconstruction after the Civil War and World War I.

Particular emphasis has been placed on the history of Michigan during the above period. Very few textbooks are available concerning this era of the state's history and an in-depth study is being made through lectures by local residents, plus regular classroom study.

Participants to date have included William Pinkerton, labor-management; Richard Harwood, banking and the federal reserve system; Marvin Davenport, the act establishing land grants; Loren Woerpel, conservation and forestry; Stuart White, railroads.

Ralph Western, former president of the Tawas Chamber of Commerce and presently a member of the Tawas Area Industrial Development Corporation, is to speak on the past, present and future of the local area.

Mrs. Dunham said that textbooks usually skim this important period in United States History and that the above instruction will be given to seventh graders next year. This will provide a better background for the study of history when the student reaches high school.

"We hope to expand our list of speakers next year in order to take advantage of more local resource personnel," said Mrs. Dunham.

Parents Should Warn Children of Molesters

Emphasizing that child molesting incidents increase in spring and summer when children are outdoors more, State Police Sgt. George Briggs, commander of the East Tawas post, advised parents to caution youngsters about possible danger from strangers.

In a seasonal reminder on this problem, Sergeant Briggs said the state police last year received 547 complaints of sex offenses, which included incidents of child molesting with most occurring in warm weather months.

Similar incidents are reported to other police departments and many, usually because of an unwarranted fear of publicity, are not reported at all.

Molesting dangers can best be thwarted by cooperation of parents, children, school authorities and police, the sergeant said, though initial responsibility falls heaviest upon parents and children.

Parents should set guidelines of outdoor activity for their children, explain the importance of such rules and see that they are followed.

Sergeant Briggs made these recommendations: Children should not accept offers for walks or rides from strangers nor should they go with any person unless the parents approve. Youngsters should reject bribes of candy, money or gifts and report such offers to parents, teachers or police.

Parents should know where their children are outdoors and children should make no important change of area without notifying parents. Children should have companions at play, going to or from school, movies or other approved places or when running errands because a child alone may too easily become a molester's victim.

Parents should report any molesting incident to police because this can help check the menace. Names of youngsters involved in such incidents are not made public, except where warranted in cases of abduction or murder.

Additional Time Given Oldsters to Apply for Insurance

Older people in the Tawas City area who did not sign up for the voluntary doctor bill insurance under medicare before the close of the first enrollment period March 31 have been given a little more time, Paul M. Ellifritz, Bay City social security district manager, announced.

In legislation signed by President Johnson last week, congress has extended until May 31 the deadline for enrollment by persons 65 or over.

Nearly 90 percent of the nation's elderly were enrolled for the doctor bill insurance when the social security offices closed at midnight March 31, Mr. Ellifritz said. Only five percent had turned down the protection which supplements the basic hospital insurance provided persons 65 and over.

Another five percent had not made up their minds either way or else were not aware of the deadline and the need to sign up for the supplementary protection.

Older people who have not yet applied for their medicare benefits should get in touch with the nearest social security office now, Mr. Ellifritz said. Some may find an added bonus, he noted.

The \$3 premiums do not become payable until July when the medicare program goes into operation. But persons 65 or over by February of this year who delay signing up until past May 31 will have to wait two years for another chance to enroll. The next general enrollment period will be October 1967 through December 1967 with no medical insurance benefits payable until July 1968.

The social security district office in Bay City is located at 1009 North Madison. The phone number is 893-9579, avoid the rush and visit your social security office now and the people there will be more than happy to answer any questions you have concerning this medical insurance.

For further assistance, a social security representative will be in Tawas City at the Isoco County Building Thursday, May 12, from 10:30 a. m. until 2:30 p. m.

Congressman's Aide Coming May 12

This month's visit of Cong. Elford A. Cederberg's district staff man to Isoco County is scheduled for Thursday, May 12. Walter Nakkula will be in the courthouse, Tawas City, between the hours of 2:00 p. m. and 4:00 p. m. Area residents having views they would like to have referred to the congressman or specific problems involving government agencies they would like to have him handle are urged to give them to Mr. Nakkula.

DOROTHY SCOTT, Extension Home Economist

Hello there!

Sandwich is a good way to describe what happens in making bonded or laminated fabrics—newcomers to the textile world.

Joining two fabrics back-to-back with an adhesive is known as bonding. Most used is acetate or nylon tricot on one side as an underliner to the outer fabric. Two outer fabrics can be bonded as the two sides of the sandwich making a reversible fabric.

If a layer of urethane foam is fused to the wrong side of an outer fabric, it is called lamination. The foam side becomes a backing or interlining.

Bonding and lamination make possible new uses for the outer fabrics: A bonded lace becomes a dressy suit, a lightweight wool coat is warm enough for some cold days, bonded dress fabrics need no further lining; nor drapery fabrics either.

The need for second items is sometimes eliminated—no padding with laminated tablecloths or foam-backed carpets.

Advantages in sandwich fabrics include good stability, shape retention and wrinkle resistance.

Performance will vary because of quality of chemical adhesive used; effect of laundering; effect of solvents used in dry cleaning (petroleum solvent best, most cloths use synthetic solvent); quality and surface of outer fabrics; off-grain joinings (cause skewed or rippled effect); shrinkage—one side shrinks, not the other or both sides shrink but at different rates (preshrink bonded fabrics by steam pressing, London-shrink or dry cleaning); separation due to action of spotting agents on adhesive; discoloration if foam oxidizes from gases in the air or dry

cleaning solvents.

Bonded fabrics handle quite easily with regular patterns; laminates require easy styles with few seams, all-in-one sleeves and little fullness. Pressing is done on the side permitting highest temperature—keep it low.

Alert your dry cleaner when you take a bonded or laminated fabric for cleaning.

Next on the horizon is a new method for weaving a nylon tricot to the outer fabric rather than use adhesive. Chemical quilting and fabric backed simulated leather are under study.

This season, the younger set emphasizes the "granny" look with lace. Bonding with taffeta gives it an opaque effect with tricot a lightened look.

Next week, the Family Living Education column will have a different byline.

It will be continued by Mrs. Clemma B. Lenehan, extension home economist for area 15. She plans to continue bringing the rest of the clip and save series, "What's New in Family Fabrics," next fall accompanying programs on care and construction of new fabrics.

It has been a privilege to share with you each week up-to-date information important to all area 15 families.

This month, I am beginning a new experience as home supervisor with Farmers Home Administration.

Bye-bye.

4-H Scholarships Available Under Assistance Program

Young men pursuing a college degree in agronomy or forestry can get financial assistance in the form of scholarships available to current or former 4-H Club members.

Two firms celebrating 10 years as 4-H award donors offer scholarships to agricultural college students. Chevron Chemical Company, Orto Division, San Francisco, California, will provide two \$800 scholarships to students enrolled in their junior or sophomore year. Another requirement is that they major in specific courses like agronomy, soils, entomology, floriculture, plant pathology or horticulture.

The other firm is Homelite, a division of Textron, Incorporated, Fort Chester, New York. It offers four \$1,600 scholarships to students who will be college freshmen in the fall of this year. The requirement is that they major or minor in forestry.

All candidates must make application through the state 4-H Club leader whose office is at Michigan State University. More information can be obtained from Jerry Malosh, area extension 4-H agent.

During 1966, more than 300 scholarships and fellowships valued at \$164,500 will be awarded current and former 4-H members in programs arranged by the national 4-H service committee.

RECEIVING his 30-year pin Thursday night at Baldwin Lodge No. 377, IOOF, East Tawas, was Richard Price, center, East Tawas postmaster. Price has actually been a member of the lodge for 32 years. Making the presentation was J. Russell Hughes, left, deputy grand master, Grand Lodge of Michigan, IOOF, Harrisville. Watching at right is Henry Schwochow, noble grand of Baldwin Lodge. The lodge was instituted 83 years ago on April 27, 1883, and a history compiled by Clarence Ashmore was read during the program.—Tawas Herald Photo.

Col. Calhoun Leaves WAFB for New Post

Col. W. R. Calhoun Jr., 379th bomb wing commander since June 1965, will leave Wurtsmith soon for an assignment in Spain, according to an announcement by Brig. Gen. John A. Roberts, 40th air division commander.

Col. Pat H. Earhart, vice commander of the 379th bomb wing since September 1965, will move up to the wing commander position when Colonel Calhoun departs.

In Spain, Colonel Calhoun will be assigned as deputy chief of the Joint United States Military Group (JUSMG) and as chief, air forces section, Military Assistance Advisory Group (MAAG). Target date for his departure from Wurtsmith has been set at June 15.

To Hold Registration In TA May 5 and 6

Registration for children who will be five years old by December 1 and plan to enter school in September will be conducted Thursday, May 5, 9:00 a. m. until noon and 1:00-3:30 p. m. at the East Tawas Elementary Unit and May 6 at the Tawas City unit.

During the spring kindergarten round-up, parents are to bring their children's birth certificates. Under Michigan law, children who enter public or private school for the first time must be immunized against smallpox, diphtheria, tetanus, pertussis, poliomyelitis and tuberculosis tested.

Miss Clara B. Bolen, elementary principal, requests individuals who are new in the community and have a kindergarten to call her office, 362-3151.

WHEN SHE'S GOOD, she's very, very good, and when she's bad, she's horrid. So it is with most little girls and now your little girl can have a doll reflect her good moods and her bad. She is a turn-a-bout doll and on her "good side", she has blue eyes and blonde pigtails... and her "bad side", she has chertreuse hair with black button eyes.

TURN-A-BOU-T IS FAIR PLAY

The dolls are made with a pair of heavy white cotton men's socks and stuffed with cotton wadding or old nylon stockings. The hair is knitting worsted, and the mouth, red pipe stem cleaners. Jumbo and baby "BOILTEX" rick-rack and "BOILTEX" seam tape make an interesting stripe effect. When you pick the material for the skirts, pick a bright one for the good girl... a bright calico print and perhaps a black and white check for the bad girl.

A BRILLIANT BAZAAR ITEM

This old fashion doll is always a favorite item at church bazaars and makes a very thoughtful gift. A cloth doll is ideal for the toddler too. There's nothing he can hurt himself on. Just embroider the eyes on the doll instead of using buttons so you won't have to worry about his swallowing them. RED AND WHITE ON "THE GREEN". This sharp knitted cotton shirt is designed for the summer sportsman. It can't help but improve his form if not his game of golf. It's knitted with cool, comfortable and washable Speed-Cro-Sheen. Don't be surprised if he asks for several. Pattern adaptable to sizes 38-44. ET Seaman Finishes Navy Basic; Now Assigned to Duty

Seaman Recruit David C. Frank, 19, United States Navy, son of Mrs. Virginia Frank of East Tawas, has completed seven weeks of navy basic training at the Naval Training Center, Great Lakes, Illinois.

In the first weeks of his naval service, he studied military subjects, lived and worked under conditions similar to those he will encounter on his first ship or at his first shore station.

In making the transition from civilian to sailor, he was taught and supervised by experienced navy petty officers. He learned the basic skills of seamanship, as well as survival techniques, military drill and other basic subjects.

Upon completion of his recruit training, he was assigned to a school, shore station or ship, according to the results of his navy classification tests, his own desires and needs of the navy.

A2C Leonard R. Wasilewski of Whittemore is now on duty with the United States Air Force in Thailand.

Airman Wasilewski, son of Mrs. Mary Wasilewski of Whittemore, serves as an aerial photo systems repairman with air force advisory personnel who support aerospace

defense and training activities—closely coordinated with the Royal Thai Air Force.

He is a graduate of Whittemore-Prescott High School.

Pvt. Dennis W. Whitford, son of Mr. and Mrs. Wilford W. Whitford, Tawas City, completed a radio course at the Army Training Center, Fort Knox, Kentucky, April 22.

During the 10-week course, Whitford received instruction in basic radio and electrical theory and was taught the international Morse code.

The 19-year-old soldier entered the army in December 1965 and completed basic combat training at Fort Knox.

He is a 1964 graduate of Tawas Area High School.

A2C Kenneth B. Brown of the 445th FIC has returned from one year duty at South Vietnam. He is married to the former Nancy Lane of Tawas City. He is now stationed at Keesler Air Force Base, Biloxi, Mississippi, and expects to remain there 15 months.

The Browns' residence address is 1016 LaFontaine, Ocean Spring, Mississippi.

First Game... First Win

MIDWESTERNER

by Forrest Peter

May we introduce you to Sally and Jack Midwest. Probably you know them already, since they live just down the road or across the street.

The Midwests are average or typical people as determined by several recent surveys. We present them to you now in some detail, and we suspect that you will find the experience is like looking in a mirror.

Sally and Jack live on a 303-acre farm with a total value of \$40,000. Population studies show that the Midwests have one and one-fourth children, but Sally and Jack decided they did not want any fractional children so they have two.

The Midwests have a lot of neighbors. There are over five million people living on midwestern farms, and another ten million live in rural areas but do not farm. Of these neighbors, six and one-half million are under 20 years of age. There are also more than one and one-half million people over 65 living on farms and in rural non-farm areas.

The increasing level of education is reflected with the Midwests. Sally has 10.8 years of schooling, and Jack has 10.3 years.

Their family income varies, depending on where they live. Farm income on a recent year in Ohio, Indiana, Illinois, Iowa and Missouri was \$8,413. In North Dakota, South Dakota, Nebraska and Kansas it was \$3,947 and in Michigan, Minnesota and Wisconsin it was \$3,348.

The Midwests subscribe to six magazines, have two radios and television. They take a daily newspaper and also the local weekly. Last year they spent \$280 on food and tobacco, \$340 on clothing, and another \$210 on household items.

Since food is a major item of expense, we shall tag along with Sally Midwest as she makes a grocery shopping trip. As with more than half—51 per cent—of her neighbors, Sally shops on Friday. There are times, of course, when she also joins the 41 per cent who shop on Saturday.

The shopping trip is a weekly affair for Sally, as it is with about 60 per cent of the rural-farm women.

Sally goes to the supermarket, telling us that she selects a grocery store for its large and complete selection of groceries and secondly because of lower prices. Some 37 per cent of Sally's neighbors say that they buy most of their groceries at a small local grocery, and another 19 per cent buy theirs at a general store.

Jack shops with Sally 19 per cent of the time, and does the grocery buying alone 15 per cent of the time.

Yeast is an important item on Sally's shopping list, because like more than 80 per cent of the rural-farm women, Sally bakes her own bread.

Sally also bakes pies and cakes, using a cake mix about three-fourths of the time.

She also does some food canning at home, as do 75 per cent of the farm women, and 35 per cent of the urban women.

The mechanization of rural life is reflected in Sally's house as well as in Jack's machine shed. She has a food mixer, refrigerator, food freezer, toaster, coffeemaker, electric frypan, washer and dryer, and a deep-fat fryer.

And now we'll let Sally and Jack get back to work, because even with all the mechanical help, there is always more work to be done.

Yes indeed, it's just like looking in a mirror, isn't it?

HOW DO YOU THINK A MIDWESTERN HOMEMAKER WOULD SPEND "EXTRA MONEY"?

What would you do with an extra \$1,000? In learning about the average farm family, Farm and Home thought it might be interesting to ask Mrs. Midwest what she would do with an unexpected \$1,000.

Chances are, the answers are about what you would have given if we had asked you.

To let you participate in our survey, we've made a matching game out of the \$1,000 answers and the photos of the housewives who gave the answers.

Get that pencil out of the cookbook drawer and see how good you are at analyzing your neighbor by the look in her eye. Match the correct answer with the correct photo.

- A. Buy a food freezer.
- B. Take a trip to Hawaii.
- C. Visit daughter in Washington.
- D. Take family to Florida.
- E. Buy clothes dryer.
- F. Children's education fund.
- G. Invest in stocks.
- H. Pay bills.
- I. Go to Japan.
- J. Buy a home.
- K. Take a trip to California.

Worms are for the birds

A worm a day may keep the doctor away for birds. But, when it comes to small dogs, puppies and kittens, worms are strictly for the birds. To eliminate roundworms (Ascarids) and hookworms in small puppies, small dogs (toy breeds) and cats, get Pfizer's Globe NBC Capsules. Especially formulated for small pets, NBC Capsules bring quick, safe, effective relief. In fact, results are often obtained in just one hour. And NBC Capsules are so easy to administer. Just place required dosage on back of tongue and rub pet's throat. Next time your dog or cat is bothered by irritating worms, get NBC Capsules in the handy plastic dispenser. They'll send your dog or cats' worms flying.

The Pfizer's Globe family of fine pet products includes: Pet Wormer • Dog Kaps • Flea and Tick Powder • NBC Capsules • Blue Lotion Aerosol Spray • Mange Remedy • Flea Bomb and Deodorant • Emerald-Glo® Shampoo

Corn pickers soon may be in the same corner of the market as the corn shredder, the threshing machine and other farm equipment. This is because more efficient machines have been developed.

The corn combine and the picker-sheller are rapidly replacing the picker. In 1956, only 2% of our corn crop was being shelled in the field by corn combine or by picker-sheller. And last fall, over 10% was in the field.

The reasons are obvious: It costs less to store shelled corn than to store cobs. Farmers don't have to haul the cobs home. Harvesting losses are less when you pick in the field. Or you can use full season hybrids, and harvest in the field.

The harvesting stage of crop production is of growing importance to farmers today is what to do with the crop after they harvest it. Corn sales are way up, and the problem will be getting worse.

Last year, many progressive farmers who switched to full season hybrids and long lines at the elevator to market their crop. On-the-farm storage, can avoid this dilemma.

At present, there are three popular methods of handling corn: 1. Store it wet and market it. 2. Dry it and market it.

The advantages of shelled corn harvesting are so great that all farmers will eventually be forced to choose one of the methods.

No doubt about it, timely harvesting is one of the most important factors in crop yields. Both yield and quality suffer if you don't harvest crops in the best stage. Check this evidence:

Corn—You lose about a bushel per acre for every week of delay.

Soybeans—Losses increase as moisture content drops below 14%. An acre higher at 10% moisture than at 14%.

Grain sorghum—Yields can drop 8% for each week of delay in the whole crop.

"Easier on my hands; no blisters formed . . . more strength."

—Gordon Ropp, McLean County, Illinois

"Ties about 20 more bales."

—Clarence Uhden, Moody County, South Dakota

" . . . so good that any time I miss a bale it's my own fault. Far superior in every respect to the old twines I was using."

—Harley Morton, Bonner Springs, Kansas. (7,500 bales annually)

"Uniform thickness . . . works very well in baler . . . good strength."

—Roy Lerud, Norman County, Minnesota

"It just won't break. With ordinary twine there will be 'thin spots,' and when you hit one of them the twine breaks."

—Albert Paweltzki, Bridgewater, South Dakota (8,000 bales annually)

"Our meadow is wet and this twine won't rot."

—Lawrence Reicks, Custer County, Nebraska

"You can get a tie so tight you can hardly get your fingers under the twine . . . the stuff doesn't break . . . weather doesn't affect it. One day I baled 1,089 bales without a single loose one."

—Dick Knock, Turner County, South Dakota (30,000 bales annually)

"Exceptional knot strength . . . bale is longer than a bale of sisal."

—Mervin Zellmer, Woodbury County, Iowa

This will be your final reminder . . . EUROPE IN '66!
Already response to Farm and Home Section's European Jet Holiday has been really wonderful. Midwesterners from Grassroots America — just like yourself — have said, "This is the year I'm going to Europe."

Reservations are still being accepted for the September 13 and October 11 departure dates. BUT, space is filling up rapidly, so if you plan on going, sign up today. (And if you haven't already received your Farm and Home European Holiday travel folder, write for your copy right now. Simply mail in the coupon appearing with this story.)

Many of you who have already written us for details have expressed (No. 1) amazement at the low price tag and (No. 2) what about passports?

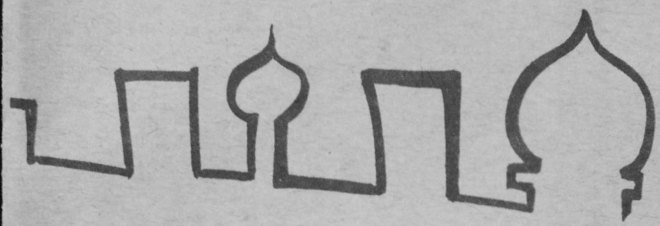

Yes, the price tag is low (\$799 for 22 days from New York back to Chicago all inclusive — air fare, hotels, etc.). And don't be concerned over passports! As soon as you make your initial down payment and tell us what type of arrangements you desire, then we will brief you completely on the procedure to follow in obtaining a passport. It's all very easy! Don't cloud up a great trip by unnecessary worry over little things.

Remember, this is a tour for Midwesterners. We realize most of those persons who will go with us to Europe have never been there before. And that is precisely why we are handling all details of the tour . . . so you won't have to! Why else, for example, do you think we insisted on flying the world's most experienced airline — Pan American?

Why else would we insist on a bath in every room of our European hotels? Why else would we arrange for an air-conditioned motor coach to carry us from country to

Here's our Jet Clipper which will take us from New York to Amsterdam. It will pick us up later in Paris, fly us to London for a few days, then take us back to Chicago. Which window seat would you like? Just think of it . . . 22 days for under \$800 and that includes everything from New York back to Chicago!

country in Europe? And why else would we be prepared to make *all of your arrangements from your front door and back to it, if you want?*

It's because this trip is for YOU TO ENJOY - NOT TO WORK!

Remember, this is your last reminder. You'll never get another opportunity for such an all-inclusive tour to Europe. Sign up today.

First stop—Farm and Home's European Holiday Jet Clipper will take us to our first European city—Amsterdam. This is a street scene in Amsterdam, Netherlands, where we will spend two days.

Twelfth and thirteenth days will find us in Rome. And we'll probably be shopping right along this same street—Via Condotti. Plus, there will be Vatican City to see, too, while here.

We know Europe like the palm of our hand.

So let us give you a hand on your way to Europe.

We fly straight through to 27 European cities from the U.S.A. No one else flies to even half that many. And we have the most flights, too.

So the first thing for you to do is see a Pan Am Travel Agent, or call us direct. We'll see that you get from your hometown to Europe with a minimum of fuss. We'll take care of connections. We'll give you the low-down on the high-life in Europe. What to do, where to go, who to know.

Before you know it, you'll be living it up in Europe.

And wherever you go with us, you'll have the good feeling that comes from flying the very best there is.

It's a good feeling, any day.

GRASSROOTS GLEANINGS

by Bill Stokes

The average girl would rather have beauty than brains because the average man can see better than he can think, says **The Mason County Democrat of Havana, Ill.**

The **Traer (Iowa) Star-Clipper** said recently, "Thrift is a wonderful virtue, especially in an ancestor."

"The older a man gets, the farther he walked to school when he was a boy," claims **The Delavan (Wis.) Enterprise**.

"It's easy to be happy," advises **The Guttenberg (Iowa) Press**. "Just forget your troubles as easily as you forget your blessings."

Four-fifths of all life on earth exists in salt water, reports **The Black Hills Press of Sturgis, S.D.** This must, of course, include the hard-working, perspiring farmers.

"Married life is just one undarned thing after another," says **The West Bend (Wis.) News**.

Along the same lines, **The Weekly Valley Herald of Chaska, Minn.**, reports that when a man decides to get married, it's sometimes the last big decision he's allowed to make.

The **Dickinson (N.D.) Press** reports reading a magazine article that said the American gray wolf has all but vanished. "Obviously the author never attended an office party," says **The Press**.

The **Algona (Iowa) Upper Des Moines** tells about the daughter whose father told her to be home from a date by 11 o'clock.

"But dad," she protested, "I'm no longer a child."
"I know," said her father. "That's why I want you home by eleven."

Automation, says **The Democrat-Tribune of Mineral Point, Wis.**, is man's effort to make work so easy that women can do it all.

Most husbands would like to see their wives wear their dresses longer—about three years longer, says **The New Richmond (Wis.) News**.

"Some people sure are funny," mused a fellow visiting **The Belvidere (Ill.) Daily Republican**. "I know a guy who hasn't kissed his wife for 10 years, and then when someone else did it, he shot him."

An article in **The Daily Sentinel of Fairmont, Minn.**, reports that the average amount of money in circulation per person is \$213.79. I'll go along with that 79 cents, but who has my \$213?

The **Chronicle-Herald of Macon, Mo.**, defines an American as one who gets mad at his wife for not running the home like a motel, and gets mad at a motel for not operating like a home.

Many of us spend half our time wishing for things that we could have if we didn't spend half our time wishing, says **The Lewiston (Ill.) News**.

"One thing about taking a horse in to be shod," says **The Belvidere (Ill.) Daily Republican** "was that you didn't have to worry about the blacksmith finding a lot of other things that needed fixing."

You are half way through life before you realize it is one of those do-it-yourself deals, says **The Marshall (Minn.) Messenger**.

"As long as we're not interested in it, a question always has two sides," claims **The Wayne County Press of Fairfield, Ill.**

The **Brookings (S.D.) Register** says, "If you want it to be a short summer, just sign a 90-day note."
