Community Chest Aids Many Funds

Tawas-Whittemore Area Community Chest opened its 1966 campaign Monday morning with a kick-off breakfast at the East Tawas Community Building.

Goal for this year's drive is \$13,474. Pledges and contributions are to be solicited through November 6.

Among beneficiaries of this annual campaign are American Red Cross, \$1,800; Boy Scouts of America, \$2,200; girl scouts, \$300; Michigan United Fund, \$2,074; youth activities, \$1,400; polio fund, \$500; Isoco Association for Retarded Children, \$500; Salvation Army, \$1,000; operating fund, \$700; Michigan Children's Aid Society, \$1,000; Catholic Family Services, \$1,500; Lutheran Social Services, \$500.

Ralph Western, campaign chairman, this week outlined some of the services performed by organizations receiving contributions from the community chest.

The Michigan Children's Aid Society is the only state-wide, non-sectarian, voluntary, child welfare agency in the state. Its extensive history of services dates back to 1891. Today, through 16 branches and field offices, it provides a broad program of services to children and their parents. The North-eastern Michigan branch is financed locally and governed by a board of directors drawn from citizens in the communities it serves.

Lutheran Social Services has served five unwed mothers, counseling them, assisting with medical plans placing babies for adoption. The organization served two couples for adoption and its caseworker made regular visits here to supervise homes. The welfare staff has presented two talks to local groups about services provided and another talk is scheduled in November.

There are 164 cub scouts and boy scouts enrolled this year in the Tawas-Whittemore area being served by the Paul Bunyan Council. In addition, 57 adults serve as unit leaders, assistants, den mothers, committeemen and commissioners. Regular counseling services of a district executive are provided, plus monthly leader roundtable training, formal training courses, use of the scout reservation, as well as badges and literature.

The Salvation Army reaches out into every area of human need, the spiritual and physical. Through the local service unit, emergency relief is supplied for disaster victims, clothing and other items for the distressed, meals and lodgings for transients, Christmas and Thanksgiving cheer, medical aid for minor operations. The Salvation Army serves Tawas-Whittemore area even though it may not be in a highly publicized manner.

PROMOTING PERCHVILLE AT COBO HALL SHOW

O'Loughlin, chamber office secretary.

GERALD L. LAUWERS

Rites Wednesday for Canoe Champion

Gerald L. Lauwers, 29, Carpenter Road, Tawas City, was killed in an auto crash early Saturday morning on US-23 near Linwood.

Well known in state canoe racing circles, he and Ron Hohman of Oscoda had teamed to win the 20th annual AuSable River Valley Canoe Marathon over the Labor Day week-end.

Born at Detroit February 16, 1937, he was employed as a reinforced steel worker with Weber Construction Company, Bay City.

He was married to the former Leslie Carol Thayer at Rose City on February 15, 1952.

Funeral services are to be held today (Wednesday), 10:00 a. m., at St. Joseph Catholic Church, East Tawas, with burial in the church cemetery. The Rev. Fr. John Koler is to officiate.

Surviving are his wife; three sons, Raymond, Steven and Gerald Jr., a daughter, Carol, all at home; his parents, Mr. and Mrs. Joseph Lauwers of Rose City; three brothers, Joseph Jr. of Novi, George of Oxford and Alan of Rose City; one sister, Mrs. Louise Harrison, Walled Lake.

A Rosary service was said Tuesday night at Jacques Funeral Home, Tawas City.

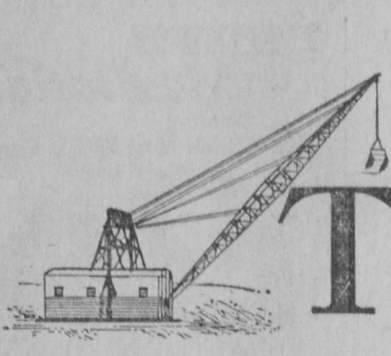

Three TC Building Applications Approved

Building applications approved by the Tawas City Department of Public Works during the past two weeks are as follows:

Edwin Habermehl, 624 Lake Street, entry shelter, \$350; Howard Hatton, 1121 Bay Drive, roof, \$500; Roy Bergeron, 409 Fifth Avenue, remodel, \$150.

FIRST RETIREMENT CHECK was presented to Arthur Allen, right, Tawas City, who concluded nearly 30 years of service with National Gypsum Company on October 1. He was a lift truck operator at National City. Making the presentation is R. M. Harris, plant manager. Allen plans "to take life easy" for awhile.

Medical Care Facility Broke; Transfer Funds

Transfer of \$15,000 from the county general fund to strengthen the depleted operational treasury of Isoco Medical Care Facility was authorized in the closing minutes of the October session of the board of supervisors.

But not before lengthy discussion between supervisors, who are finding difficulty in meeting regular county expenses with money at hand, and members of the Isoco Welfare Board, along with Douglas Webb, medical care facility director.

Higher operational costs than originally anticipated, coupled with a delay in receiving federal and state reimbursement of operational cost, was blamed for causing financial problems in the first three months of operating the new home for the aged.

Webb told supervisors that the \$50,000 set aside by the county two years ago for the first six months of operation had been depleted. This money was to have filled the gap between the first few months of operation and receipt of federal and state reimbursement.

Contributing to the financial woes was a strike of builders last spring which saw the facility's opening delayed about two months. Personnel had been hired to operate the rest home and expenses were incurred without benefit of any receipts from operation.

While the medical care facility has phased into operation gradually since August 1, with a staff of between 55 and 60 employees, cost of operation has averaged \$25 per day for each of its 32 patients.

Webb and the welfare board had not counted on the high cost of initial supplies to open the facility and originally estimated that the daily, per patient cost would level out at around \$12. Of this amount, \$10 was to come from federal and state sources.

Webb told supervisors that operational costs were down to \$20 per patient day last week and expected that it would continue to decrease as the facility gains more operational experience.

As a result of the original estimated costs, private patients had been charged \$12 per day at the facility. Effective November 1, the cost to private patients is to be raised to \$15 per day.

It is expected that additional funds above the \$10 in federal and state assistance will be reimbursed from Title 19 Medical Assistance after the first of the year.

Webb estimated that it would cost approximately \$60,000 to operate the medical care facility from October 15 to the end of the year. Anticipated revenue includes \$24,750 in medical assistance, \$8,000 from medical aid to the aged, \$6,100 in county direct relief funds, \$444 in old accounts receivable and \$3,300 presently owed by patients.

This total revenue of \$40,694, augmented by \$15,000 from the county general fund and \$5,000 from the social welfare department, is expected to meet expenses.

While the additional money voted Friday is actually coming from the county's general fund, it was pointed out that since unifying operation of the county welfare department with the State Department of Social Services, the county had saved approximately 85 percent of its former operational cost for welfare.

As a result, Director Edward Burgeson had not drawn upon the \$42,000 allocated this year for the

new department of social services as a balance had remained from the previous year's budget.

After January 1, additional expense probably will be added to the operation when a new minimum wage law is expected to go into effect. In addition to raising the minimum pay to \$1.40 an hour by February 1, a blanket raise to all employees has been proposed. This is to be acted upon by the welfare board.

Seek Condemnation of Riverfront Property for ET Disposal Site

A petition seeking condemnation of property for East Tawas' new sewer disposal plant was filed Tuesday in Isoco Circuit Court.

Named in the petition as owner of the property is Mrs. Helen Beckett Majewski. The site is located north of Franklin Street along the Tawas River.

Circuit Judge Allan C. Miller set November 28, 11:00 a. m., as the hearing date. A jury of freeholders is to be impaneled to determine the necessity of taking the land and to appraise the amount to be paid to the owner.

The city council had been unable to reach terms for purchase of the property. Condemnation was necessary, according to a report two weeks ago, in order to protect a federal grant which is being sought for the project.

Isoco Cancer Workers Invited to Convention

All workers for the Isoco County Unit, American Cancer Society, who wish to attend the annual convention at the Jack Tarr Hotel, Lansing, October 26-27, are urged to telephone Mrs. J. N. Sloan or Mrs. Herbert Hertzler. Speakers will be present for a Wednesday evening banquet and Thursday luncheon.

Total amount received in the Isoco County Unit's 1966 crusade was \$3,022.92.

Petition Filed on Long Lake Level; Circuit Court Hearing Set for Jan. 3

Hearing on a petition proposed to determine the normal height and level of Long Lake and to authorize departure from that normal level as may be determined necessary is to be held January 3 before Isoco Circuit Judge Allan C. Miller.

This action was started on petition of Richard L. Miller, Isoco County drain commissioner, following adoption of a resolution July 20 by the board of supervisors.

Tentative normal level of Long Lake has been determined at 904.50 feet above sea level, according to United States geological datum.

Miller has prepared a special assessment district comprising property around the lake for purposes of financing any structure needed to maintain the lake level.

Six Building Permits Issued at East Tawas

Building applications approved at East Tawas during the past two weeks are as follows:

William Pickran, 308 Bridge Street, fence, \$32; Thomas O'Brien, 147 Warren Avenue, roof repair, \$200; James McDonald, 808 East Lincoln, repair, \$100; Walter M. Decker, 920 Maple Drive, repair, \$200; Herbert Sessler, 510 Wadsworth, fence, \$300; Wayne Vaughan, 704 West Lincoln, erect residence, \$15,000.

Special Assessors OK'd for US-23 Sewer Project

A board of special assessors was appointed Monday night to prepare a tax roll for the proposed Mathews Street south sanitary sewer district.

A joint public hearing was held by the Tawas City Council and water board on a project which would provide sanitary sewer service to both sides of US-23 from Mathews Street to a point near the Tawas River Bridge.

Sixteen of the 29 property owners in that district heard Supt. of Public Works Reginald Bublitz report that total cost of the project had been estimated by engineers at \$34,000. Cost of constructing the 3,024 lineal feet of sewer main would be borne by a special tax on 36 parcels of assessable property, according to benefit derived by each.

No objections to the proposed project were heard and Bublitz, Supervisor Clarence Everett and Water Board Member Carl Schaaf were named as the board of special assessors.

Bublitz said that he expected a tax roll could be prepared by the next council meeting on November 7 and another public hearing for review of assessments has been tentatively set for December 5.

Method of repayment of individual assessments to the city is to be discussed at that hearing. The city is to apply to the Municipal Finance Commission for permission to borrow the necessary funds and repayment would probably be made over a period of 10 years, as in the case of two previous special assessment districts.

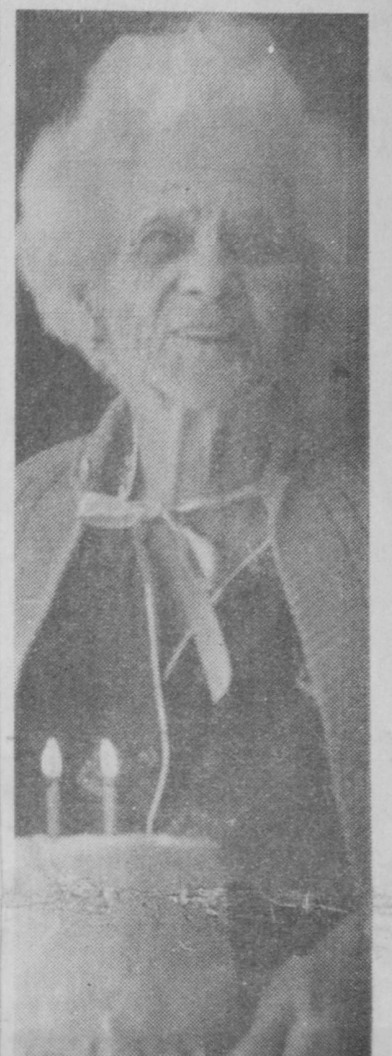

This project has been in the "talking stage" for more than a year, after original attempts about 15 years ago were stymied due to the lack of property easements on the lake side of US-23. Last summer, the city received the final signed easements allowing installation of the sewer on private property and immediate steps were taken to commence establishment of a special tax district.

City Attorney Alf C. Watson is to continue his work with the special assessment board on this project.

In other council matters, Bublitz read a letter which the city sent to Truman Barbier, owner of a service station near the river

bridge, notifying him of a zoning violation on his property. Bublitz said that a refrigerated van set on concrete blocks there and used for a milk distribution point was in violation of the ordinance.

Supervisors Deny Pay Hike for Co. Officers

Isoco County Board of Supervisors turned down a request to raise salaries of county officers by \$1,000 for the coming year.

Acting on a recommendation from the officers' salary committee, the board voted, 10-7, to disallow the raise.

A study of officers' salaries had been made by Percy Jackson (chairman), A. F. Belson, C. J. Stephan and John Hoshbach, who recommended approval.

Voting in favor of the proposal were Belson, C. S. Everett, Hoshbach, Jocks, Richter Lixey, Walter Kasichek and Stephan. Opposed to the raise were Alton Abbott, George Blust, James Campbell, Edward Gerard, L. S. Little, Earl McElheron, Richard Moss, Henry Oates, Harvey Odell, Charles Smith and George Webb.

Earlier in the week, the board had adopted a budget of \$403,600. Less fees of an anticipated \$60,000 to be received by county offices, this would leave \$343,600 to be raised by taxation.

The county received a tax allocation last spring of \$289,952, which will leave an estimated \$53,648 budget deficit for next year.

Salaries of the six elective county officers is to remain at \$6,000. Budgets of the various departments included \$11,100 for prosecuting attorney, \$17,150 for county treasurer, \$17,145 for county clerk, \$50,250 for the sheriff's department, \$13,800 for probate court, \$17,955 for the register of deed's office.

In addition, the county has allocated \$16,350 for operation of the circuit court, \$19,555 for the new equalization department, \$7,980 for Isoco Extension Service, \$17,

940 for courthouse and grounds, \$16,178 for district health, \$18,000 for board of supervisors' per diem and expense, \$5,500 for the airport, \$2,500 for county advertising, \$28,000 for state institutions, \$1,800 for the drain commissioner.

Other major expenses include \$9,080 for the regional library, \$3,880 for county planning commission, \$30,000 for county appraisal, \$8,600 for child care, \$6,600 for social security and \$3,600 for soldiers' burial.

The welfare department was allocated \$74,850, with \$30,000 going (See SUPERVISORS, page 8.)

Seaman Dennis J. Sullivan, United States Navy, son of Mr. and Mrs. Paul J. Sullivan of Tawas City, is a crewmember aboard the medium landing ship, St. Francis River, which is on operations off the coast of Southeast Asia.

During a recent break in the combat operations, the ship was able to spend a few days of limited combat in a quiet bay near the friendly village of Song Cao, Vietnam. Grateful for the ship's gunfire support, the preceding week, the local Vietnamese District commander invited the crew ashore.

The crew was given a tour of the area, which included the market places and schools. One primary school was badly in need of paint. There was paint aboard the St. Francis River and the volunteers were many.

Armed with brushes and a can-do spirit, members of the crew set upon the drab structure the next morning. Five hours and 15 gallons of paint later, the Song Cao primary school was no longer drab with its new coat of desert sand and bright green trim.

Leaving a very grateful village, the volunteers barely had time to get aboard before the ship returned to her primary mission of gunfire support.

Hazen John Warner, son of Mr. and Mrs. Hazen Warner of Tawas City, was recently promoted to specialist four. He is now in the 94th artillery group at Kaiserslautern, Germany.

Warner received his basic training at Fort Knox, Kentucky, and specialized mechanic training at Aberdeen Proving Ground, Maryland.

Pvt. Kenneth Thornton, who is stationed in Hawaii, is spending a furlough visiting his father and grandfather, Charles and Silas Thornton, at National City.

TODAYS Meditation from The World's Most Widely Used Devotional Guide

Read 1 Peter 2:19-25

When he was abused he did not retort with abuse, when he suffered he uttered no threats. (1 Peter 2:23, NEB)

Television has only recently come to New Zealand and it is of great interest, of course, especially to youth. Therefore, one day when we were thinking about Christlikeness in a junior high school class, we found ourselves discussing some of the television stars.

It was then I asked the class what they thought of the Texan and Neil Brock, the first a fast-shooting hero and the other a self-effacing social worker. I asked which one they thought was more like Jesus?

Some inclined to vote for the fast shooter. "After all," they said, "he fights for the right." Others remembered Mr. Brock for his compassion, hatred of oppression, willingness to identify himself with the lowest and the lost and the way he just went on helping when he failed to win a response.

The class decision was that Mr. Brock showed more likeness to Jesus, who said on the cross, "Father, forgive them; they do not know what they are doing." Jesus had the courage that keeps on helping and does not hit back.

PRAYER

O God, our Father, help us on the long road that leads to Christlikeness. Give us more of His patience, courage, and compassion that we may represent Him more faithfully each day. In the name of Jesus, the Son of man. Amen.

THE BIBLE SPEAKS TO YOU

"Withhold not thou thy tender mercies from me, O Lord: let thy lovingkindness and thy truth continually preserve me."

These words from Psalms are part of the responsive reading in this week's Christian Science lesson-sermon titled "Probation After Death." The lesson-sermon is read each Sunday in Christian Science churches throughout the world.

The sermon also includes these words from Hosea: "I will ransom them from the power of the grave; I will redeem them from death." Among related passages to be

read from the denominational textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is this: "The nature of Christianity is peaceful and blessed, but in order to enter into the kingdom, the anchor of hope must be cast beyond the veil of matter into the Shekinah into which Jesus has passed before us; and this advance beyond matter must come through the joys and triumphs of the righteous as well as through their sorrows and afflictions. Like our Master, we must depart from material sense into the spiritual sense of being."

Meet Your School Superintendent

Ray Kesler Leads Active Role in Local-State Education

Playing an important role in meeting new concepts in education is Ray Kesler, 46, superintendent of Whittemore-Prescott Area High School.

While Kesler is pioneering new ideas in education in his own school, he is taking an active part in improving accreditation policies of state schools, as well as being a member of a committee which is delving into novel teaching ideas.

Asked to explain some of the challenges to be met in his own school district, Kesler said that

problem areas at Whittemore-Prescott Area, like most schools, include special education, teacher procurement and administration of federal programs.

"We find it difficult to find enough qualified students capable of pursuing special classes to make it possible for the school to afford such training. Some special teaching areas exceed a cost of \$900 per student. If they were not included, it would jeopardize our accreditation," he said.

Kesler is a member of the State Council of Secondary Education which meets monthly to make recommendations to the department of instruction in reference to school curriculums. This committee recently finished a report on training of student teachers and is now reviewing accreditation policies with the University of Michigan.

One problem in teacher procurement in this area, said Kesler, was that there is no convenient college here where teachers could continue their education. Salary schedules are not necessarily the problem, as many local schools have higher starting base salaries than offered by schools in the lower part of the state. In many instances, he said, teachers would rather take less money in order to be conveniently located near a college.

As for federal programs in which Whittemore-Prescott has participated, Kesler said that the administrative load has been increased tremendously by Headstart, Titles I, II, III and the Neighborhood Youth Corps.

Whittemore-Prescott has been approved for a special program in remedial work for slow learners under Title I of the Elementary and Secondary Education Act.

"Another problem," he said, "is to acquaint the public with special teaching methods required by these programs. In working with special groups, the teaching ratio is often one teacher for five students, instead of the usual one teacher for 30 students. The teacher-pupil ratio in these special programs is not a waste of money as it allows the teacher to concentrate on a child with special problems."

Excellent response was noted from parents concerning the school's remedial program conducted last summer. He said that reports from children who had

participated were most encouraging.

Whittemore-Prescott Area has a very favorable financial picture and the school has been operating on a balanced budget since he first became superintendent four years ago. The entire faculty is composed of degree-holding personnel.

Some of the advanced classes offered at Whittemore-Prescott Area include German and agriculture. The school also has a ninth grade orientation class which hopes to instill goals for future training, a class in world affairs and a keyed plantation for biology classes. A special junior high school class in communications skills is offered in the area of public speaking, writing and spelling.

His varied professional activities include membership on a research committee for the Michigan Association of School Superintendents which researches new teaching ideas, as well as being a member of the regional council of the Michigan Education Association as superintendent representatives.

Kesler has completed all residency requirements for his doctor degree at the University of Michigan and, as a member of the Bureau of School Service, has an interim degree in special education.

A native of Hale, Kesler graduated from East Tawas High School

in 1936. He received his bachelor of science degree in 1940 from Central Michigan University and taught one year at Rose City.

He returned to Hale in 1942, where he served five years teaching mathematics and science, as well as coaching basketball and football.

He taught four years at Mt. Pleasant High School and was critic teacher at Central Michigan University. He later served two years as principal at Hale Area School and then served 11 years as superintendent at New Lothrop.

Kesler received his master of art degree from the University of Michigan in 1949. He came back to Iosco County four years ago as superintendent at Whittemore-Prescott Area.

In addition to his work as superintendent and educational activities at the state level, Kesler is taking an active part in discussing possible reorganization of area school districts as well as being a member of the study committee conducting an occupational training needs study for Bay, Arenac and Iosco Counties.

While much time is devoted to his profession, he has been active in participation sports and his greatest free-time enjoyment is fishing for trout on the Manistee River and area streams. He leads a busy life.

SUPT. RAY KESLER

Adult Hearing Tests Set This Week in Iosco

Michigan Association for Better Hearing, in cooperation with District Health Department No. 2, will bring one of its hearing testing mobile units into Iosco County beginning October 25 to provide free hearing tests for adult residents of the area.

George Fuller, staff audiologist conducting the hearing tests, urges all residents 18 years of age and over to take advantage of this service provided for Michigan people through contributions of local United Funds and community chests.

Hearing loss is one of the major health problems of the country, affecting more than 12 million adults and another three million children. In terms of incidence, hearing problems constitute our second greatest health concern. Approximately one person in 10 has some degree of hearing impairment. Because hearing loss frequently has a gradual onset, many people are unaware of any impairment or fail to do anything about it until it reaches a handicapping degree.

The mobile unit of the Michigan Association for Better Hearing is equipped with modern testing equipment which makes it possible to detect a hearing loss in its early stages and allows for preventive measures to be taken.

In addition to the hearing tests, residents may receive counseling and answer to questions regarding their hearing problem.

The mobile unit will be located in Oscoda on October 25-26 at the township hall parking lot. Hours of testing are from 10:00 a. m. to 5:00 p. m. The trailer will move to East

Tawas Community Building October 27-28. Testing will be conducted from 10:00 a. m. to 5:00 p. m. October 27 and from 1:00 p. m. to 9:00 p. m. October 28.

Hot Lunch Menu at TA High School

Tawas Area High School menus are announced as follows:

Monday, October 24: Beans and franks, buttered carrots, diced peaches, bread, butter, milk.

Tuesday, October 25: Ham and creamed potatoes, buttered peas, applesauce, chocolate cake, bread, butter, milk.

Wednesday, October 26: Chicken and spaghetti casserole, pear and lime gelatin salad, buttered beets, bread, butter, milk.

Children are walking to and from school today. Be a careful driver and prevent accidents.

Christ Episcopal Church Scene of Colburn-O'Loughlin Wedding

MR. AND MRS. DANNY LEE COLBURN

White gladioli and chrysanthemums decorated the altar of Christ Episcopal Church, East Tawas, Saturday, October 15, for the double ring ceremony in which Danny Lee Colburn claimed Terrence Maureen O'Loughlin as his bride. The Rev. Robert Morrison read the 11:00 a. m. rites.

The bride is the daughter of Mrs. T. M. O'Loughlin of East Tawas and the late Mr. O'Loughlin. Mr. and Mrs. William Colburn of Tawas City are parents of the bridegroom.

Paul Youngs of East Tawas served as organist. Escorted to the altar by her brother, Maj. E. T. O'Loughlin of Oscoda, the bride appeared in an imported Chantilly lace dress fashioned with fitted bodice and wrist-point sleeves. The full, bouffant ruffled skirt fell into a chapel length train. A crystal queen's crown secured her English illusion veil and she carried a cascade arrangement centered with pink roses.

For her role as matron of honor, Mrs. Philip Conley of East Tawas wore an Empire-styled dress with bronze velvet bodice featuring a scooped neckline and vanilla crepe, floor-length sheath skirt. A matching headpiece completed her ensemble and she carried a cascade bouquet of yellow and bronze chrysanthemums.

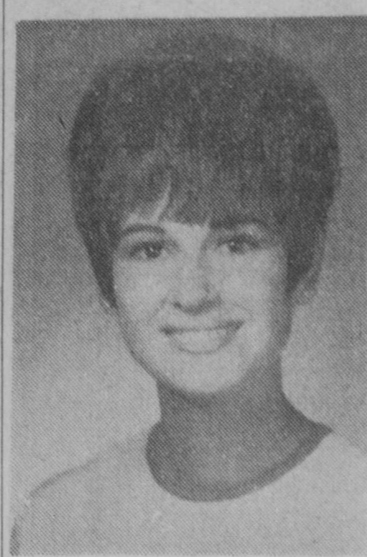

Attending the bridegroom was Terry Bublitz of Flint. Guests were seated by William Colburn Jr. of Tawas City, Kevin O'Loughlin of Oscoda and Douglas McLaughlin of Franklin.

For the ceremony and reception following in the parish hall, Mrs. O'Loughlin selected a dusk melon two-piece knit suit with brown and beige accessories. Mrs. Colburn chose a brown, three-piece knit suit with green accessories. Yellow roses made up their corsages. Following a northern trip, the bride will remain in East Tawas. The bridegroom will return to his duties with the United States Army and will be sent to Vietnam.

The newlyweds are graduates of Tawas Area High School and the new Mrs. Colburn attended Saginaw Business Institute.

Out-of-town guests were present from Franklin, Detroit, Monroe, Flint and Bay City. Martin Siegrist of Whittemore was a Friday evening visitor of his sister, Mrs. George Machulis, and family. Colleen O'Neil of Oscoda enjoyed the week-end at the Machulis home.

Engagements

Mr. and Mrs. Leslie E. Buchanan of Hammell Beach, Au Gres, announce the forthcoming marriage of their daughter, Penny, to Larry E. Rose, son of Mr. and Mrs. Olaf S. Rose of Tawas City. A November 26 wedding is planned.

The engagement of Carol Ann Kuerbitz to John Earl Kipfmueller has been announced by her parents, Mr. and Mrs. Arnold Kuerbitz of Tawas City. Mr. and Mrs. Earl Kipfmueller of Round Lake are parents of the prospective bridegroom, who is presently attending Ferris State College, Big Rapids. Wedding plans are indefinite.

Braves Down Panthers; Meet Oscoda Fri. Night

Tawas Area Braves scored a touchdown in every quarter last Friday night to chalk up their first win of the 1966 football season, 24-12, against the visiting Standish-Sterling Panthers.

While the Braves were not as sharp on blocking and tackling as the previous week against Pineoning's Spartans and the Panthers' were dulled by graduation last spring, the Braves turned in another good team effort to end a drought in the victory column.

Ray Powers and Dennis Harten again combined in the backfield with some hard running to lead Tawas' offense, which was hampered in this game by a number of major penalties. One clipping infringement nullified a touchdown run and key holding penalties hurt the Braves when they had a good sustained drive going their way.

Tawas' first touchdown came on a long sustained drive led by the two senior halfbacks and was set up on a good run by Senior End Dave Thunberg. Powers scampered into the endzone only to fumble. Thunberg pounced on the ball for a Tawas score. The try point after touchdown was blocked, as was the case on three other PAT attempts during the night.

The Braves scored in the second quarter after another good sustained drive from about the 35. The series was capped by Quarterback Gene Kushion's 15-yard pass to End Howard Rollin in the endzone.

Tawas made it 18-0 in the third quarter when Harten went 25 yards for a touchdown.

Standish-Sterling's Panthers had their first chance to growl during the night when Bob Savino, slick little sophomore back, scored on a 75-yard touchdown run.

Tawas came back with a warhoop in the fourth quarter on another long sustained drive led by Powers and Harten. Powers went the final distance for the TD.

In the closing seconds of the game with Tawas' second stringers getting a chance to see some action, Standish-Sterling scored on a nice pass play from Quarterback Bill Forsyth to End Bob Bell.

Tawas' statisticians in the press box used a new tape recorder during the game and a malfunction of equipment resulted in no play-by-play account.

Tackle Al Lickfelt turned in an outstanding performance against his old buddies from Central, while Kushion's handling of the offense was creditable.

The Braves now take on their arch rivals, Oscoda Area Owls, at Oscoda this Friday night. The Owls are undefeated in conference play after whipping Gladwin Saturday night.

Hale Area Eagles Downed 12-0 by Hillman on Friday

Hale Area Eagles lost to Hillman, 12-0, in a North Star Conference game Friday. Hillman is in second place in conference standings while Hale is 0-4 in the standings.

Hillman struck in the second period on a 24-yard reverse play. The second touchdown came in the fourth period on a pass interception. The play covered 49 yards.

Hale threatened inside the 10-yard line in the second period and penetrated to the 20 when it blocked a punt in the first period. Second half play saw the Eagles reaching the 15 in one series but ran out of steam.

Hale travels to Posen this Friday to take on the league leaders.

Tawas Area Jvs Win 46-7 at S-S Central

Tawas Area Junior Braves whipped up a 46-7 victory over Standish-Sterling Central's JV Thursday night.

Scoring for the Junior Braves saw Tom Brown hitting paydirt on a 12-yarder and Dennis Krish coring on a quarterback sneak, both in the first quarter.

Mark Harris scored a 55-yard TD in the second quarter, followed by a pass from Krish to Fred Look on a 14-yard play. Tawas had recovered a fumble with only two seconds to go and had one pass play.

Second half scoring saw Len Sarki go into the endzone on a 30-yarder and Dennis Link cracked over on a four-yarder, both in the third quarter. The final score came on Link's 12-yard touchdown in the final quarter.

Mike Hearl, who quarterbacked the squad in the second half, ran one point after touchdown and kicked another.

Occupational Needs Study Ready for Area Citizens' Committee

A 91-page occupational training needs study was reviewed yesterday morning (Tuesday) by school superintendents from Bay, Arenac and Iosco Counties, who met at the county building in Standish.

The policy committee composed of area school superintendents is to set a date for a full report to the Citizens' Advisory Committee, which spent 10 months in compiling information on vocational training needs.

This was a year-long research study to determine the feasibility of an area vocational training center or centers to serve the three counties. George A. Stickle Jr. was study director.

The study was sponsored by the following school districts: Au Gres-Sims, Bangor, Hale Area, Essexville-Hampton, Standish-Sterling, Whittemore-Prescott, Bay City, Pinconning, Oscoda Area and Tawas Area.

Funds were provided by the state and a three-county study was initiated a year ago on recommendation of a study committee that included area superintendents, superintendents of area Catholic schools and president of Delta College.

Chairman of the citizens' advisory committee was Sam Miescisin of Standish and alternate chairman was Russell A. Rollin Sr., former Iosco school superintendent.

Early in the history of the study, eight objectives were set down to guide committees and to define the breadth of the study. Objectives as stated were:

1. To investigate the occupational training needs in the Bay, Arenac, Iosco area so that appropriate programs may be developed.
2. To determine where occupational preparation programs are now located, how better coordination could be achieved in the operations of these programs, where additional programs should be located and which schools can conveniently cooperate to provide these programs.
3. To obtain data about the number of high school students and graduates, adults, nonhigh school graduates and persons displaced by new processes and automation that could be served by expanded or new vocational training facilities.
4. To obtain information about new and developing occupations which required training manpower in the future.
5. To obtain data which will en-

able the selection of courses that will best serve the occupational training needs of the people who live in the area.

6. To obtain data which enables the development of functional and realistic services for youngsters and adults who have been forced to curtail their education.

7. To determine whether the needs of the area can be met through expansion or alteration of present facilities; or whether the construction of one or more new facilities, designed especially to serve the needs as brought out by this survey, are desirable.

8. To determine the kinds of services which will aid parochial schools in providing occupational training programs for their youth.

Seven questionnaires were prepared to aid the committees in assembling and analyzing the facts and opinions as reported by citizens of the three counties.

Hundreds of the questionnaires distributed were completed and returned.

"The recommendations presented as part of this report speak to the need for improvement and expansion of vocational and technical training as it now exists in the three counties," stated Mr. Stickle in his forward. "They call for a flexible, comprehensive up-to-date training program in the skills of both today and tomorrow."

"The recommendations call for guidance and counseling of youth and adults in the nature of the labor market and the talents needed to secure and to hold employment. They recognize the unique and vital role which public high schools, parochial high schools and community college must shoulder."

Historically, the provision of vocational education on a functional level has been in the larger urban areas. To provide adequate training in a variety of vocational fields has been economically impossible for the smaller districts. Consequently, individual needs of employment-bound youth have been neglected.

In some geographical areas, several schools have cooperated in employing a director of vocational education charged with the duty of organizing a cooperative plan in which each participating school would provide training classes of its choice on an exchange basis.

In order to provide a more truly democratic educational program from which more people may obtain help toward a realistic occupational goal, the area school seems to have the greatest potential. Education has become a major concern of society. Practically everyone is or has been involved in the implications of our educational system. One form of education which is rapidly advancing is vocational education. The rapid increase in the manpower needs, as well as changes in the type of training workers need, has had a tremendous impact on schools of the nation.

A general summary of the survey noted that not more than 12 percent of the students in the three-county area are now enrolled in vocational courses. Industrial arts courses offerings seem quite incomplete in over half of the high schools. General commercial course offerings are strong in typing and shorthand. Commercial courses on the vocational level are in short supply.

Vocational industrial programs are nonexistent at 10 schools. Programs in some critical fields are not offered in any of the three-county high schools. Competent personnel is currently available to teach nearly all courses perceived as being desirable to add to the curriculum.

A significant majority of respondents to all questionnaires desired improvements in existing vocational facilities and, when asked, expressed willingness to participate in future planning.

Businessmen were not generally satisfied with the job performance of high school nongraduates. More than half of these employers stated dissatisfaction. Businessmen generally expressed the need for improved vocational education facilities. Training programs for half of the skills most frequently reported in scarce supply are nonexistent in any of the three-county high schools.

The majority of college preparatory high school students who are not able to go to college would participate in vocational education if facilities existed. Many high school students, the report showed, would welcome vocational education as an interim means of earning power to enable them to attend college.

The above facts, along with a tremendous amount of other information gained in the study, is to be presented soon to the Citizens' Advisory Committee for further action.

A DEMONSTRATION LECTURE sponsored by the Atomic Energy Commission on atomic energy and its uses will be presented at Tawas Area High School on October 21. The program, titled "This Atomic World," is designed to acquaint students with the basic principles of nuclear energy, its sources and role in industry, agriculture and medicine. William W. Miller III, above, will present the assembly program which breaks down into student terms topics including the structure of atoms, radiation, reactors and fusion. Miller has completed extensive training at Oak Ridge, Tennessee, facilities of the Atomic Energy Commission. He is a graduate of the University of Miami and holds a bachelor of arts degree. The program is also scheduled at Oscoda Area High School.

George A. Partlo Dead; Retired Iosco Farmer

A retired Whittemore farmer, George A. Partlo, died Friday, October 6, at Hills and Dales Hospital, Cass City, following a three-month illness. Funeral services were conducted October 10 at Whittemore Methodist Church with the Rev. Arthur Parkin of Whittemore and the Rev. Archie Woodward of Colling Nazarene Church officiating. Burial was in Saints Cemetery.

death June 6, 1955. August 24, 1959, he married Lucella Bell.

Among the survivors are his wife; two sons, Merlin of Yale and Burton of Whittemore; two daughters, Mrs. Irene Dickey of Whittemore and Mrs. Edwina Thompson of Bay City; 12 grandchildren; four great grandchildren; two brothers, Earl of Whittemore and Oliver of Akron; one sister, Mrs. Mable Smith of Flint.

Micki Greenlee and friend, Elaine Staten of Kalamazoo, who are students at Central Michigan University, Mt. Pleasant, spent the week-end with the former's mother, Mrs. Mildred Greenlee, and enjoyed homecoming activities.

Bronze Figures Set on Base; Memorial to State Lumbermen

35 Years Ago—

October 30, 1931—Two-ton bronze figures for a memorial to that hardy race, the lumberjacks, were placed on a granite base Saturday in a Y at the end of Thompson Trail overlooking the AuSable River. R. G. Schreck, who has been instrumental in the project, states that a formal unveiling would probably be held early next summer. Elaborate plans will be made for this event. The memorial piece by Robert Aitken, eminent New York sculptor, is a bronze casting. Twenty tons of cut granite were required for the base. The block supporting the figures weighs nine tons.

Frank Mochy announces that he has purchased the barber shop formerly operated by Hosea Bigelow at the Holland Hotel.

Whittemore High School's annual school fair is to be held November 6. Dinner is to be served at 5:30 p. m., followed by a four-hour program of entertainment by all grades.

Miss Dorothy Holbeck, daughter of State Rep. and Mrs. Fred C. Holbeck of Long Lake, has been announced as the state radio audition winner. She will go to Chicago, Illinois, in November for district competition.

Virginia Anschutz, Rose Mary McKay and Golda Mae Sherk topped the scholastic honor roll for seniors for the first term of the first semester at East Tawas High School.

Apple trees in various parts of the county are being reported by their owners to be in blossom this past week. Blossoms from trees

owned by Robert Murray of Tawas City and Mrs. Clara Benson of Alabaster have been displayed to the Herald force.

There will be continuous dancing at the American Legion party on Armistice night, Wednesday, November 11, at the East Tawas Community Building. Two orchestras have been hired.

C. A. Bonney of East Tawas and Albert Mallon of Tawas City were at Detroit last Friday and Saturday. Mr. Bonney purchased a complete machine shop which he plans to put in operation in about 10 days. He will be in a position to do experimental work, perfecting inventions, designing, erecting or installing machinery. He will also repair, rebuild or manufacture any kind of machinery.

25 Years Ago—

October 24, 1941—For the first time in 20 years, the killing of doe deer will be legal in Michigan this fall. In a surprise move on its return from a three-month recess, the state legislature gave immediate effect to an act amending the general game laws. Hunting of antlerless deer had been recommended by the conservation department only in a special season and only in certain areas where loss from starvation is high because herds are too large for the winter food supply.

Three hundred bushels of potatoes per acre is a mark reached by few Michigan farmers. Those few who have succeeded in producing such a crop are located in the state's most favored potato growing sections. Emil Cholger of Wilber Township, notwithstanding the unfavorable season, has just harvested a crop of potatoes which averaged 316 bushels per acre. He had a field of 3½ acres which produced 1,106 bushels of fine potatoes.

Recreation department of Camp Skeel, Oscoda and AuSable, is doing a wonderful job in furnishing recreation for the officers and enlisted men. Friday night dances are

sponsored by the Lions Club and under the direct supervision of the Works Progress Administration. Music is furnished by volunteers and under the direction of Tom LaForge.

Mr. and Mrs. Leon Biggs of Hemlock Road had a caller from out of the sky last week. Their grandson, Second Lt. Everett Umphrey, Selfridge Field, flew over their home in one of the fastest twin-motor pursuit planes of the United States Army. He circled around twice so as to give them a good view of the plane and its speed.

Walter K. Becker, a platoon sergeant and an instructor at the post motor school, Camp Croft, South Carolina, writes that he is enjoying the wonderful weather down South, which reminds him of a nice fall day in the woods of Michigan.

15 Years Ago—

October 26, 1951—The erosion was again emphasized when a gale and rain storm whipped water of Lake Huron and Saginaw Bay into huge waves against the shore line. Home and cottage owners along the shore continued the losing

fight of trying to keep waves from undermining buildings. Near the junction of M-55 and US-23, there was a threatened washout of the highway.

Maurice C. Eveland, state banking commissioner, announced the chartering of a new state bank at Hale. Starting with a capital of \$50,000, subscribed by people of that community, it has qualified for federal deposit insurance. Dale M. Bradley, previously cashier at Olivet State Bank, is the new cashier. Dr. E. N. Douglas is president. The bank is to be located in the new building owned by Ira Scofield.

Thirty-eight persons attended the Tawas City Fire Department's banquet Monday night at Vic and Zel's Restaurant. Clyde Evril was toastmaster.

Elmer Britt and Sons of Burleigh Township won two honors at the annual Northeastern Michigan Hereford Calf Association sale at West Branch last week. They received first prize for their pen of heifer calves and had the top selling pen.

Walter Champion, formerly of Ferndale, has purchased the Neon Electric Sign Service, according to an announcement made this week by Albert Chaney, former owner.

Two East Tawas Men Bag Moose in North

Vernon Jones, 826 Smith Street, East Tawas, returned home last week with a 750-pound moose which he shot 100 miles west of Port Arthur, Ontario, Canada, on October 12.

Another East Tawas hunter, Peter Lichtfusz, president of Losco Sportsmen's Club, also bagged a moose on a Canadian hunting expedition. His hunting companion was Malcolm Blackwood of Bridgeport.

Chalmers LaFray, field service officer for Disabled American Veterans, will be in the Iosco County Building Tuesday, October 25, from 10:00 a. m. to 3:00 p. m. to serve the needs of all veterans.
