Planners Take Final Urban Renewal Look

Continued participation in a long range study of the possibility of Tawas City's receiving an Urban Renewal grant for modernizing its original business district from Mathews to Whitmore Street was turned over to the planning commission for action before April 15.

After more than a year of discussion, the planning commission recently recommended that a major clearance and redevelopment project, with federal assistance, be dropped because of the impractical high cost.

The commission then learned that a second type of urban renewal program was available in which the federal government might cooperate in removing a portion of the substandard or structurally faulty buildings.

In either case, a workable program would have to be developed to the satisfaction of the Chicago, Illinois, office of the Urban Renewal Administration. The city has until April 15 to indicate if it desires to renew its application. Through some mixup at Chicago, the renewal application prepared by the city's planning consultant was lost in the UR office.

A preliminary cost estimate on the second proposal indicated that the city's share of the \$37,000 project would be \$250,000. The original application called for a 1.2 million dollar project, of which the city's share would have been \$990,000.

It is believed that the project could possibly be financed through rehabilitation bonds, with increased taxes gained through the modernization aiding in paying the city's share.

Of particular interest to the planning commission is the removal of old buildings along the shore of Tawas Bay, as well as removal of some buildings on the opposite side of US-23. This would allow relocation of some business places and provide much-needed off street parking.

In other business, the council gave its support to designating May 13-18 as Tawas Area Band Week. A proclamation is to be issued by the mayor so designating that week.

Gene Salamony, band director at Tawas Area School, appeared before the council and announced that Lloyd Conley, band director at Clare High School and a composer of national repute, had been commissioned to compose a suite in three parts entitled "Tawas."

This composition is to be presented at a band concert May 18 at the high school auditorium, under the baton of the composer. The three-part suite is historical in nature.

The council authorized payment of \$20 for full time and \$8 for part time inspectors at the April 1 election.

The same salary schedule as last year was adopted for elective and

Tawas City Ends Year With Balance

Year end report of Mrs. Ruth Albertson, city treasurer, indicated that Tawas City ended fiscal 1967-1968 in excellent financial condition.

With a balance on hand of \$12,974 and accounts payable of \$3,250, the city ended the year in the black with a balance of \$9,724.

The city had revenues of \$118,535 during the year, as compared to \$116,800 which had been budgeted. Total expenditures amounted to \$116,186.

Revenues included \$36,448 in taxes, \$17,846 in sales tax, \$23,049 from Act 51 highway money and \$14,279 in trunkline maintenance, to name four categories of receipts.

The council received copies of a new budget for 1968-1969, prepared by Reginald Bublitz, superintendent of public works, and a full discussion on financial matters is to be held April 1.

A public hearing on the proposed new budget is slated for April 15.

Committee Presents Information on Merger

T. City Council Opposes Merger

Adopt Resolution Against Proposal

Tawas City Council Monday night voiced its opposition to the proposed merger with East Tawas, which goes to a vote of the people on April 1.

The resolution, introduced by Ald. John St. James and supported by Ald. Clark Tanner, was as follows:

"After careful study and consideration of all available facts, the council can see no advantages for the residents of Tawas City in a merger with the City of East Tawas. The council feels that a merger would not be in the best interests of the people of Tawas City."

The resolution received unanimous support with "yes" votes being cast by St. James, Tanner, Clyde Evril, Cecil Cabbie and Howard Hatton. Ald. Daniel Ulrich is attending a convention at Buffalo, New York and was not present for the meeting.

The resolution is similar to one which received seven to two endorsement late last year by the Tawas City Planning Commission.

Mayor Russell A. Rollin Sr. announced that a study committee appointed by the Tawas Chamber of Commerce was to hold a public hearing on the proposed merger Friday, March 22, 7:30 p. m., at Tawas Area High School.

Pros and cons concerning the merger, learned through the study committee's two-week fact-finding canvass of the two communities, are to be presented. Harris Barkman and Neal Miller of East Tawas are co-chairmen.

At East Tawas Council meeting Monday night, a letter read from the Michigan Municipal League indicated that there was very little information available concerning how outstanding bond issues would be handled should the merger be approved.

"Unfortunately, we have never had a successful consolidation in Michigan, as such, except for the consolidation a number of years ago of the City of Fordson with the City of Dearborn and some other township territory," said Robert E. Fryer, league director.

"Because of the lack of success of these consolidation efforts," said Fryer, "Little is known as a practical matter as to what will occur following a successful consolidation. One has only the statutory language on which to rely and even this language is not too satisfactory."

The league director said it would seem to him that as far as what happens to the assets and liabilities of units of government consolidated are concerned that the city newly-created by a successful consolidation would "simply assume all of the assets and all of the liabilities of the units which were consolidated."

Thus, in his opinion, all general obligation bonds outstanding would become the responsibility of the new unit of government, which, if necessary would have to levy taxes throughout the consolidated municipality in order to pay off the bonds. Revenue bonds would continue to have the same backing that they had at the time of issuance, but the new unit of government would have complete responsibility for carrying out terms of the bond contract.

Fryer suggested that in such an important issue, it probably would be desirable to contact the bond counsel who wrote the opinion on the original bonds to determine precisely what, in his opinion, would be the effect of the consolidation.

The league director said that if the two communities have specific questions on either the procedure or the aftermath of the consolidation, the Michigan Municipal League would try to assist in getting an answer.

Area Schools Receive Federal Title II Funds

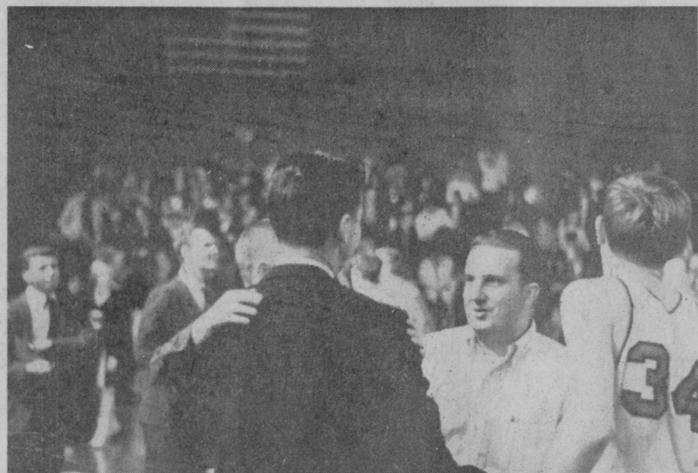

Bay-Arenac and Losco Intermediate School Districts have received a federal Title II grant of \$37,000 for providing audio visual materials to schools in the three counties.

The grant will be used to purchase film strips, films, records and tapes, in addition to program materials for instructional purposes.

The grant would also provide consultant service in the area of instructional materials, as well as to provide professional literature for teachers, cataloging and processing materials.

The Bay-Arenac unit presently has an instructional material center and Losco will become a part of that center.

Thomas Kennedy, educational consultant for the three counties, prepared the project, which was one of five approved in the state.

FOR A TEAM that was not picked to win the Northern B Conference championship this past season, Tawas Area Braves rolled to a final record of 19 wins and three losses. After winning six games in tournament play, that tension and pressure had built up to a peak, was evident when the St. Louis coach confided after his team's victory that he had a "sick stomach" all day. ET Board of Review Adopts \$7,246,750 as Real Valuation

A preliminary report by Deloise (Dewey) Durant, city assessor, indicated that East Tawas' total real estate valuation as found by the board of review would be \$7,246,750.

The figure, which compares to \$5,554,350 last year, includes \$1,663,900 in commercial, \$2,500 in industrial and \$5,580,350 in residential.

Commercial real estate was up \$274,700 over the previous year, the \$2,500 industrial figure is new and represents vacant land at the rear of Tawas Industries, Incorporated's new warehouse and residential is up \$1,415,200.

The increases reflect adoption of Gem Surveys appraisals on a county-wide basis for tax purposes.

Durant told city council members Monday night that the board of review was to reconvene March 23 to act on personal property.

In other business Monday night, the council approved using one block of land at the corner of Woodlawn and Wadsworth as a junior baseball diamond. This property had been acquired from the state and can be used only for recreational purposes.

The council accepted the city park board's audit which showed

\$42,744.66 as total operation revenue for the year. A total of \$38,032 was received in camp fees.

Spicer Engineering Company submitted a report which indicated that the city could save approximately \$15,400 by including changes in its present sewer plant construction to include facilities for removal of phosphates. At a later date, equipment could be installed costing \$15,700 which would comply with state requirements for phosphate control by 1977.

The city is to study the possibility of obtaining federal funds to assist with this addition to the disposal plant, now under construction.

A meeting has been called for Thursday, March 28, to adopt articles of incorporation and adopt a cost breakdown for operation of a sanitary land fill authority. Taking part in this facility will be East Tawas, Tawas City, Baldwin Township, Wilber Township, Tawas Township and Alabaster Township.

The council adopted the following wage increases, resulting in an additional cost of about \$760 to the city: Committee members are to be paid \$4 per meeting; salary of the mayor was set at \$8 per meeting, an increase of \$3; salary of council members was set at \$6, an increase of \$2.

On recommendation of Mayor James Campbell, the council decided not to participate in mayor's exchange day during Michigan Week.

It was reported that the city fire truck was involved in a collision last Wednesday at the corner of Ogemaw and West Washington. The truck, on its way to a grass fire, collided with a state police car. The two vehicles had total damages of approximately \$800.

History Editor Gives Tips on Organization

Guidelines for preparing a local history were presented to the Losco Historical Society Thursday night by Donald Chaput, editor of "Michigan History" published by the Michigan Historical Commission.

Chaput appeared before the second monthly meeting of the local group, which has now completed its organization and is to concentrate its activities on local historical matters.

The speaker explained duties of the official state historical commission and the services it provides to local groups.

Carrington Eddy of Fairview appeared before the group and outlined plans for formation of a historical group to serve the entire Ausable River region. The Losco organization would cooperate with the proposed new society.

Albert H. Buch, president, announced that membership in the Losco Historical Society was now open to any interested person. Regular meetings are held the second Thursday of each month and it is the intention to hold sessions at various communities in the county in order to stimulate interest.

Public Meeting Friday Night at High School

A fact sheet compiled after two weeks of study by a committee appointed by the Tawas Chamber of Commerce was finalized Monday night and presented to the Herald shortly before presstime.

"Those requesting the vote were probably a little quick on the trigger, as it has been very difficult for the committee to compile this information in the short time allotted," stated Harris Barkman, chairman.

He extends an invitation to all residents of the Tawas to attend Friday night's public meeting at Tawas Area High School.

PROPOSAL: MERGER OF THE TAWASES

FACT SHEET
by Fact Finding Committee, selected by Tawas Chamber of Commerce

Legal Requirements

1. A majority vote is required in each city for consolidation. Thus, if the proposal is passed in one city and defeated in the other, the merger will not take place. All qualified registered voters of the respective cities may vote.
2. If the merger proposal is passed, a Charter Committee will be elected, composed of equal representatives of each city, to formulate a Charter.
3. Then the Charter will be submitted to the voters and voted on until such a time as the Charter is accepted. The Charter will treat all civic matters, wards, elected officials, operations and all functions of the city government.

Detrimental Factors

A survey was made through newspapers and personal contacts to determine factors detrimental to the merger, as follows:

1. Competition between Tawas City and East Tawas is a good and healthy situation.
2. Loans from Farmer's Home Administration will not be available.
3. The East and West will be at odds with one another.
4. City government is fine the way it is.
5. People come here to retire and they can't stand an increase in taxes.
6. If parking is removed along US-23, the entire Tawas City business section would be knocked in the head—East Tawas is not interested in this problem.
7. We've demonstrated that we can work together on city dumps and fire protection without consolidating.

The following areas would be affected as follows by a merger of the Tawas:

1. Economic:

a. Indebtedness: General Obligation Bonds and Revenue Bonds existing at the time of consolidation will become an obligation of the new city. Special assessment District Bonds will remain in the same areas that the special assessment benefited. However, the Charter Commission could determine that the General Obligation Bonds and Revenue Bonds, although the obligation of the new city, would be paid by only those areas benefiting from the services rendered. The residents of Tawas City would continue to pay through their water and sewer bills the \$232,000.00 obligations they have today; and residents of East Tawas would continue to pay through their water and sewer bills for the \$827,000.00 Revenue Bonds for their water works, sewer system and the new filtration plant. The \$55,000 Revenue Bonds for the East Tawas City Park would be financed by revenue from the user fees. The present parking contract along US-23 between the City of Tawas City and the Michigan State Highway Department will be honored and will remain in effect after the merger, according to a department spokesman in Lansing.

b. Taxes: There will be no im-

TODAYS Meditation
from The World's Most Widely Used Devotional Guide

Read Colossians 2:6-15
You, being dead in your sins... hath he quickened together with him, having forgiven you all trespasses. (Colossians 2:13)

I was in my backyard refinishing an old desk my wife had purchased. As I applied paint remover and then wiped away the old paint, I was amazed at the lovely grain of the wood. "This will be a beautiful desk when all the old ugly paint has been removed," I said to my wife. As I continued to work, the thought came to me that this is the way it is with God's forgiving love. We have all sinned and fallen short of the glory of God. As a commonly used prayer of confession states: "We have followed too much the devices and desires of our own hearts." But when we realize we have sinned and asked God to forgive us, the beauty of God's creation in man appears. The old sins are forgiven and the true person appears with a new, clean start and a new relationship to God and to mankind.

PRAYER
God, our Father, who gave Thy Son that we might find forgiveness of sin, guide us into His way of life. Knowing that we have sinned, grant us forgiveness that we may live the kind of life that is pleasing in Thy sight. In Jesus' name we pray. Amen.

THOUGHT FOR THE DAY
To receive God's forgiveness is to know the joy of His love. Thomas G. Rogers (Arizona)

Civil Service Has Openings

Interagency Board of United States Civil Service Examiners for Michigan announced today that applications are now being accepted for cooks, bakers and meat cutters to fill positions with various federal agencies in the State of Michigan. Principal places of employment will be United States Air Force bases and Veterans Administration hospitals.

Beginning pay rates range from \$2.56 to \$3.31 per hour, depending on the grade and location of the positions being filled. Information regarding qualifications needed and method of applying may be obtained from the examination announcement. Copies of the examination announcements and required application forms may be obtained from post offices which conduct civil service examinations or from the Interagency Board of United States Civil Service Examiners for Michigan, 144 West Lafayette Street, Detroit, Michigan 48226.

Alabaster Treasurer Top Isosco Tax Collector During 1967

Mrs. Leona Benson, Alabaster Township treasurer, became the county's best tax collector for the

second consecutive year, according to a report Tuesday from Edward J. Nelkie, county treasurer.

The Alabaster Township treasurer collected 96.36 percent of the tax levy for 1967.

The following is a list of all collection rates by the tax units of Isosco County for the past year, with the previous year's percentage listed in brackets for comparison:

Alabaster, 96.36 (98 percent); Sherman Township, 94.92 (95 percent); Reno Township, 92.78 (94 percent); Oscoda, 91.61 (91 percent); Grant Township, 91.41 (91 percent); Tawas City, 90.29 (89 percent); Baldwin Township, 89.54 (81 percent); Burleigh Township, 89.07 (90 percent); Tawas Township, 88.99 (88 percent); Whittemore, 87.09 (87 percent); AuSable, 85.71 (80 percent); Wilber Township, 85.07 (84 percent); Plainfield Township, 84.07 (88 percent); East Tawas, 83.83 (84 percent).

Nelkie stated that of \$1,508, 131.23 taxes levied for 1967, local treasurers had collected \$1,348, 191.09 by March 1, with a total collection of 89.39 percent and returning \$159,940.14 as delinquent.

Effective March 1, a four percent collection fee is added automatically at the county treasurer's office. Interest is charged at the rate of one-half of one percent per month. Waiting a year costs the taxpayer 10 percent in interest.

Local treasurers had collected \$1,916 in dog taxes as of March 1.

"A WOMAN'S WORLD" WITH Lee Murray

What is the best way to lift yourself out of the last of the winter doldrums? How about sparking up the menu with new ideas and recipes? Or perhaps plan an exciting do-it-yourself project.

STORAGE SPACE
Cedar lining can be installed right over the walls of an existing closet or it can be placed over the framing of a new closet. Select a large closet, such as a family room or a similar area. That way, the closet can be devoted to storing the family's winter clothing and woolsens and it will not deprive any one member of the family of his own private closet.

SWEET SOUR DRESSING
1/2 cup bleu cheese
1/2 cup salad oil
3 tps. wine vinegar
1 tsp. sugar
1/2 cup celery seed
Place all ingredients in blender and mix well. Drizzle over salad greens, after chilling thoroughly.

EASY PROCESS
In order to reheat muffins or dinner rolls, wrap them tightly in aluminum foil. Heat in a 400 degrees Fahrenheit oven for about 10 minutes.

GREATER EFFICIENCY
Decide ahead of time where the furniture will be placed in your new home. You can draw up a floor plan of each room. If you are not going to be present when the furniture arrives, it is helpful to give the movers copies of the layout. Even if you are there, these plans will aid in directing the relocation. The job will be completed faster.

TUNA CANAPES
1 8-oz. pkg. cream cheese
2 tps. chili sauce
1/2 cup minced onions
1 tsp. Worcestershire sauce
1/2 tsp. hot sauce
2 7-oz. cans tuna, drained
Beat all ingredients, except tuna, with mixer. Gradually add tuna to cheese mixture, beating well. Chill. Serve on crisp crackers.

THIS VEHICLE PAYS MORE THAN **\$3,540** PER YEAR IN ROAD USER TAXES

This truck is actually building a highway. One out of every three miles of Michigan's street and highway system is paid for by trucks. One large truck pays as much in highway-user taxes as do 30 automobiles. Heavy trucks (26,000 pounds or more), comprising 1% of all vehicles, pay 10% of all highway costs. Our interest in good highways is for real. We want to pay our fair share.

Highway users pay in advance, for roads yet to be built, and generally, in proportion to the use they derive from them. Highways cost the Federal government nothing; they have no effect on the Budget. If expenditures for highways are cut back, the tax paid by users still accrues in the Highway Trust Fund, which was created by Congress to finance the world's finest highway improvement system, and is by law earmarked for highway purposes only.

Interstate highways, built for reasons of national defense (but with not one penny from the Defense Budget), have been of great benefit to all motorists. The trucking industry has certainly benefited. But once and for all, let the record show:

THERE IS NO SUBSIDY FOR HIGHWAYS!

Mrs. Brewer is Prize Winner

Mrs. Benjamin Brewer of Tawas City was notified March 13 that she was first place winner of a \$500 gift certificate in a Gibson Company winter promotion conducted throughout 15 divisions of Consumers Power Company.

The contest, "Sell-N-Tell," was a promotional plan for Consumers Power Company salesmen and their wives. For each piece of equipment sold by husband-salesman, his wife immediately called the Gibson Company at Greenville.

For six weeks, prizes were given each Consumers Power division for salesmen's names placed in a container. At the conclusion, all division names were placed together for one big drawing and Mrs. Brewer won first prize. Two other prizes were in the amount of \$200 and one for \$100.

Mrs. Brewer also won twice in divisional drawings. Her \$500 prize is available at Jacobson's, Greenville.

Dr. Manley Explains Mott's Community School Program

Parents and teachers enjoyed a talk by Dr. Frank Manley of the Mott Foundation at the Monday night Tawas Area Parent-Teacher Association meeting. Doctor Manley showed the film, "Too Touch a Child," and talked about the community school program, what it has done for the City of Flint and what can be done in other communities. He was introduced by Mrs. Nan McGuire, a long-time friend and teacher in Tawas Area School.

Walter Champion, president, conducted elections for P-T-A officers. The following were elected: Mrs. Rosemary Klenow, president;

Mrs. Pat Sandusky, secretary, and Mrs. Joyce Roach, historian.

Questions presented at last month's meeting were answered as follows:

Thomas Pintkowski explained that membership in the National Honor Society is limited to five percent sophomores, 10 percent juniors and 15 percent seniors. Membership recommendations are made by a panel of nine teachers who consider the four requisites of membership scholarship, character, service and leadership.

Bill McIntosh answered questions about the price of tickets to basketball and football games by a prohibitive expense for larger families by saying that the ticket money raised about \$5,000 each year which went to make the athletic program self-supporting.

It is necessary to have officials present at all games and their fees must be met. Season tickets have been tried in the past but they were not much interest. He also mentioned that it was unfortunate that many of the loyal fans games all year were unable to secure tickets for the regional game at Mt. Pleasant.

Reynold Mick answered a question about the school policy of length of hair by saying that the aim of the school was to have code of hair length and dress that did not detract from the educational goal. As to the wishes of parents in this matter, Mr. Mick stated that some parents are happy to have the school enforce code of hair length and dress they are either unable or unwilling to direct their children in the matters.

Mr. Champion recommended vote of thanks to Mr. McIntosh and the basketball team for their fine efforts.

TAHS Orators Sweep Contest

Tawas Area School swept the District Three high school forensic contest held Friday at Central Michigan University, Mt. Pleasant, taking four first places, three seconds and three thirds.

First place winners included Beth Boldt, humorous reading; Mark DeBeau, radio news; Gary Martin, original oratory; Mike Briggs, Sharon Deering, Judy Hatcher, Don Mick, Blinda Pintkowski, group readers.

Second place honors went to Laurie Look, girls extemporaneous speaking; Goran Lindblad, boys extemporaneous speaking; Frank Prescott, radio news.

Third place winners include Mary Tomlinson, declamation; Jane Krueger, girls extemporaneous speaking; Glen Bullock, boys original oratory.

These students will compete in the regional forensics festival April 9 at CMU.

Social Security Amendments Are Explained

The social security amendments of 1967 raise from \$1,500 to \$1,680 the amount of total earnings a social security beneficiary may have in a year without any of his benefits being withheld, John Carr, district manager in Bay City, announced today.

He pointed out that this new provision applies to all monthly beneficiaries under age 72 but not to any person who is receiving benefits because he is disabled. (Special rules with medical considerations must be applied when people, who are receiving benefits because of their disability, return to work.)

No benefits will be withheld from a beneficiary if his earnings are no more than \$1,680 in 1968. If total earnings exceed \$1,680, \$1 is withheld from benefits for each \$2 of earnings between \$1,680 and \$2,880; above \$2,880, \$1 in benefits is withheld for each \$2 of earnings.

However, no benefits would be lost for a month in which the beneficiary neither earns over \$140 in wages nor performs substantial services as a self-employed person. As under previous law, beginning with the month in which he reached age 72, no benefits are withheld regardless of how much a beneficiary may earn.

Carr emphasized that, due to these new provisions, it is increasingly important that people approaching retirement age realize that they may be able to collect some social security benefits although they still continue to work. He urged those who wish additional

information about social security payments while still working to visit the social security district office at Bay City or telephone TV 3-9579.

Soil District Urges Tree-Shrub Planting

Again this year, the Iosco County Soil Conservation District is encouraging landowners to plant trees and shrubs. According to Harry Krueger, chairman of the district, many more trees need to be planted for reforestation, erosion control and to improve wildlife cover. "Tree orders are coming in slow this year," says Mr. Krueger. "Deadline for ordering is April 12."

"Last year showed an increase in the sale and planting of wildlife shrubs. Some 23,000 shrubs such as autumn olive, Siberian crab, hawthorne and dogwood were planted by private landowners in the district, double the amount of any previous year. We hope to sell and plant even more this year," states the chairman. To make this easier, a smaller packet containing 100 shrubs which can be planted on smaller pieces of land has been prepared.

Tree orders can be obtained from Elmer Anschutz, 4051 West M-55, at corner of Sand Lake Road. Mr. Anschutz manages the district's tree planting program. He is also in charge of the district's tree planter and can be hired to plant large quantities of trees.

SSGT. HOSBACH

Bronze Star Medal Goes to SSgt. Hosbach

SSgt. Theodore J. Hosbach, Tawas City, has been awarded the Bronze Star Medal for "outstanding meritorious service" from December 1966 to November 1967 in connection with ground operations against a hostile force in the Republic of Vietnam.

Hosbach, son of Mr. and Mrs. John Hosbach, rose from mechanic's helper to senior track mechanic while serving with battery B, second battalion, 18th artillery, 25th infantry division.

"Through his untiring efforts and professional ability," stated the citation signed by Stanley R. Resor, secretary of the army, "he consistently obtained outstanding results."

"He was quick to grasp the implications of new problems with which he was faced as a result of the ever changing situations inherent in a counterinsurgency operation. The energetic application of his extensive knowledge has materially contributed to the overall effort of the United States in Vietnam."

"He was a motivating example to all with whom he came in contact. His devotion to duty, loyalty and meticulous attention to detail are in keeping with the finest traditions of the United States Army and reflect great credit upon himself, his unit and the military service."

Hosbach returned to the United States in January and is now serving at Fort Carson, Colorado, where the presentation was recently held.

EIGHTH GRADE basketball team at Hale Area School finished the season by winning the junior high league trophy among four area schools. The team has a 15-3 record for the past two seasons. raised by a vote of the people. Also, if any new industry locates within the new incorporated area, all citizens within the whole area will benefit from the spread of the industry assessment. Any new taxes, as is the present situation, would have to be voted by the people. Presently, we are not an "urban area" according to a census definition. A merger would provide a larger tax base to build or bond in the future, and the "urban area" — a larger unit — would facilitate the participation in federal and state grants. For example, urban cities who have a full-time fire department may receive participating federal and state funds to help finance them.

c. Insurance: For fire insurance purposes we are now categorized as a Class 7 area. This means a \$10,000.00 home would have a yearly fire rate of \$61.00. If the new city were to employ one full-time police chief and transfer the other police chief position to a full-time fire chief, the insurance rate would drop 10 percent on all rates, or \$6.00 on a \$10,000.00 home. Currently, there is also difficulty getting sufficient amounts of insurance coverage because we do not have a large enough city to qualify as a Class 4 insurance rated city.

2. Governmental Services: A city: The form of government, police, fire and other services will be determined by the elected charter commission and must be approved in future elections by the majority vote of the combined area. A new Charter will give a flexibility that is not permissible under the present old Charter. Planning activity through a coordinated effort would be improved. Combined fire, police, sewer and water services and city offices would be a more efficient operation. The size of the town would not be large enough to constitute a bureaucracy.

b. Post Office: Sam Coffey, the Postal Service Officer at Flint, stated, "The Tawas City Post Office and postal services will remain the same, but Tawas City area would qualify for home mail delivery and possibly two additional carriers would be hired for such home delivery." Richard Price, East Tawas Postmaster, reports that two postmasters will not be a problem as he will retire after 35 years of service.

3. Industries: In a study made by Central Michigan University, which is helping cities secure industry, it was found that our area had all the attributes for industrial development, except that the present attitudes and division — two small cities — will probably destroy our possibilities for consideration. The Michigan Economic Development Commission officials have stressed to the Tawas community that industry is not interested in locating in a "fractured community." If one new industry, employing 100 persons, were brought into a community, it would employ 269 more people, create 112 new households and have 51 more school children. This would add \$500,000.00 to the personal income of the area, \$270,000.00 in bank deposits and 107 more passenger cars. It would create four more retail establishments and increase retail sales by \$360,000.00. On a survey made of the business places in the area (48 in East Tawas and 12 in Tawas City) on the question, "Do you have customers in both Tawas City and East Tawas?" all replied, "Yes." All 60 businessmen concurred in stating that they were interested in seeing new industry in the area. A combined city would be better able to attract industry which would provide jobs, improve the economic condition of the area and also help to retain our high school graduates.

1. Community Organizations: There are 14 organizations which have members from both towns and function as a unit without division according to city.

i. Churches: There are 14 churches whose members encompass citizens of both communities. The churches are: Immaculate Heart of Mary, Zion Lutheran, Emanuel Lutheran, Grace Lutheran, Methodist Churches of the Tawas, Letter Day Saints, First Baptist Church in Tawas City and the First Baptist Church in East Tawas, Seventh-Day Adventist Church, Episcopal Church, Assembly of God, Nazarene Church and St. Joseph Church. The clergy of the area were contacted and they have unanimously stated that community relationships and community spirit would gain by a merger.

Fr. Arthur Mulka said "A merger of the communities would be beneficial for the community spirit and it would be a good thing for we would all be welded together in time."

The Rev. Ernest C. Ferguson of the First Baptist Church in Tawas City said, "I believe the merger will serve to increase and to demonstrate a spirit of good will and cooperation which now exists between the two towns. The results of the consolidation could be the means of bringing greater benefits to Tawas and surrounding areas."

Pastor Ronald Farah of Zion Lutheran Church, Tawas City, replied, "I have found that a great majority of the newer residents of the area feel that it would be to a great advantage to the community spirit to have the cities united and I agree with them that, in the long run, this would definitely take place."

The Rev. Donald Turbin said, "For the Methodist Churches and the community, I think once the decision to merge the cities were made, the community spirit would radically improve."

Fr. John Kolevar said "I think a merger will benefit the area as a whole because then we do not have to be conscious of the uneasy lines drawn and the differences that people now sometimes have in speaking of their interests in their town because of the definite community distinctions. If we begin to be one, we will be more joined in spirit. I am thinking primarily of the future and our young people, but we will gain a tremendous status from other people who are looking in on us and in our own spirit as well."

Rev. George Krish stated, "A merger of the two cities might help change the community spirit from one of rivalry, jealousy and envy to one of unity, pride and appreciation for Tawas as a whole. We would feel more responsible to make this a better place to live and visit."

5. Education: Through a merger, Tawas Area School became a Class "B" school, replacing two Class "C" schools. Education has been up-graded. There is also a first-class band, basketball team and other special educational benefits. In a 10-year period, the people of the area have invested approximately \$800,000.00 for the education of youth (\$7,310.00 per student with an average of 108 graduates per year); however, the major part of this investment is lost to the local area as the young people must leave the area to find employment. Talent and ability are, therefore, lost to the area.

LETTERS to the EDITOR

Editor
Tawas Herald
Tawas City, Michigan
Dear Sir:

For the past few weeks, I have been annoyed by the fact that neither of our two local papers have informed the public as to the advantages and disadvantages of consolidation of our two cities.

I personally believe the newspapers would be doing the public a service if they would evaluate this matter and inform the people in advance, so they might have time to think and vote as their conscience directs them to do.

Along with the promotion to consolidate the two cities, I believe it should be the responsibility of the promoters to make every effort to see that the voters turn up at the polls.

If they do not campaign extensively to turn out the voters, I personally would assume that they do not want opposition.

Too many times in the past, I think the people have been given information that was not complete, only to gain their approval.

Sincerely,
Edward F. Seifert Jr.

Judge Denies New Trial Motion

Judge Allan C. Miller denied a motion for new trial requested by the attorney for Leo V. Maki, East Tawas, who was recently awarded a \$12,500 judgment by an Iosco Circuit Court jury.

Maki's attorney claimed the court should have granted a directed verdict on liability against the City of East Tawas. He had been injured in the eye while at the city dump.

The request for a directed verdict was on the theory that the city operated an intentional nei-

gence, rather than to permit the jury to meditate on the two counts, which were derived from negligence and nuisance derived from intent.

Judge Miller ruled in his opinion that "it cannot be said that the jury's award shocks the judicial conscience or that it is erroneous as a matter of law."

Attorneys for the city are presently perfecting an appeal on the basis of governmental immunity.

Seeks Damages for Fall on Sidewalk

A \$75,000 damage suit was filed Tuesday against Cecil and Ebert Kennedy, the Township of Oscoda and the Iosco County Road Commission.

Mrs. Kathleen D. Souci, Oscoda, claims that on May 4, 1967, 10:30 p. m., she stepped into a hole or depression in the sidewalk approximately in front of a grocery store operated by the Kennedy brothers at Oscoda.

Mrs. Souci fell to the sidewalk and sustained injuries which caused her to be hospitalized for

20 days. Injuries listed included a neck fracture and fractured right hip. She claims she will be forced to undergo further extensive medical and hospital treatment.

The petition claims that the plaintiff was free of any contributory negligence and claims that the defendants failed to inspect or notice the hole or depression, failed to maintain the area and correct the hazard.

Braves Down Petoskey-Cadillac; Bow Out to St. Louis in Final

March madness and tournament fever finally caught up with Tawas Area Saturday night at Mt. Pleasant, but not before the Braves capped an exciting 15-week basketball season with two big wins in the regional basketball tournament.

The end of the tournament trail found the Braves bowing to the rugged St. Louis Sharks in the regional championship game, 59-48.

For the McIntoshmen, the final game was another battle against the odds, a familiar role for Tawas throughout the season. While the Braves were able to overcome a height deficiency in the semifinal by forcing Cadillac to play Tawas' slower-paced brand of basketball, the Braves had a cold first quarter against the Sharks which hurt their chance.

Despite the loss, it is to the Braves' credit that they again forced a taller team to play their style of basketball and had Tawas been sharper at the foul line or been able to hit from the outside, the game could have ended differently.

The Sharks were up to the task of changing from a fast moving game, which saw them defeat Whitehall in the semifinals Friday night. Both Tawas and St. Louis played outstanding defensive

games, accounting for a low score, but the Sharks' height advantage paid off on the defensive boards and it spelled the difference.

Unable to break St. Louis' defensive wall in the first quarter, Tawas was cold on its outside shooting. Little Dennis Krish, whose 14-point effort in the fourth quarter saved the game against Cadillac the preceding night, was unable to buy a basket and he was in trouble from the start with fouls.

Gary Haglund, high scorer for Tawas against Cadillac, was also

off on his shooting in the opening quarter. He topped the Braves with one field goal and two out of four shots from the charity line as St. Louis held an 11-10 edge at the first quarter whistle.

Tawas took the lead, 12-11, at the start of the second quarter and that was the only time during the night that the Braves were on top. Biehl, little five-foot, four-inch guard came off the St. Louis bench to replace Smith and he led his team with seven points in the second quarter. Deline was close behind with three buckets.

The Braves stayed within striking distance when Paul Beyer found the range for three buckets, while Dale Koepke hit two from the floor and three from the foul line and Tawas trailed, 29-27, at the half.

St. Louis found the range in the third quarter and outscored Tawas, 15-10, to build a scoring margin leading to victory. Allen of the Sharks led his mates with two buckets. Tawas had foul trouble during the quarter and St. Louis connected on five of eight from the line. Haglund led the Tawas team with two buckets and two charity tosses, but St. Louis held the edge, 44-37, at the end of the third quarter.

St. Louis continued to pull away

in the final quarter and led by 12 points at one time. The Sharks' 14-point effort was topped by Mailand and Deline with four points each while Koepke had the same total to lead Tawas.

A total of 36 fouls were called in the game, 21 against Tawas Area and 15 against St. Louis. Tawas capitalized on only seven out of 20 free throws while St. Louis hit on 16 out of 28 shots. In the first two games, Tawas completed 37 out of 65 foul shots.

St. Louis had four men in double figures to take home the championship trophy, led by Deline's 16 points. Koepke topped Tawas with 15 points on six field goals and three foul shots. Haglund was close behind with 14 points.

Tawas gained the regional final by upsetting a favored Cadillac squad, 65-62. Facing a team with superior height, including a six-foot, eight-inch center, the Braves played deliberate basketball and had Cadillac against the ropes starting in the second quarter.

Cadillac held a 15-14 edge at the end of the first quarter, only to have Tawas turn in a great defensive game in the second quarter and the Braves held a 26-21 edge at intermission. Haglund's 16 points took up the scoring slack for Tawas as Koepke was blanked and Krish was able to score only

two points. Beyer aided Tawas' cause with eight points and his rebounding, along with that of Ron Doak, meant the difference.

Cadillac closed the gap in the third quarter as Malmstrom caught fire with eight points. Haglund paced Tawas with seven points and a 23-point effort for the night.

Tawas needed its best scoring effort of the tournament to stave off the marksmanship of Major, classy Cadillac guard, in the final. Major totaled 15 points in the fourth quarter, but that was nearly offset by Krish, who came to life with four from the floor and six from the foul line. Beyer added six points and Tawas fans went wild at the final gun. Major meshed his final field goal at the buzzer, but Tawas held a three-point edge.

Tawas' best scoring attack came in the opening game against Petoskey Wednesday night as the Braves won another thriller, 70-63. As has been the case many times during the regular season, the Braves had a cold first quarter and were forced to come from behind. The Braves were equal to the task, but it took some great rebounding by Doak and Beyer to down the Petoskey five. Coach Bill McIntosh again received great help from the bench when Bob Brugger took over from Krish and turned in an outstanding performance with seven points and great defensive play.

Tawas cut into Petoskey's margin with a 19-15 scoring effort in the second quarter and trailed, 33-31, at the half. The big difference came in the third quarter when Beyer meshed four field goals and Doak had three from the floor and two from the foul line. Tawas held a 52-48 margin at the end of the quarter.

Tawas outscored Petoskey, 18-15, in the final as Beyer capped a 25-point evening with two fielders. Koepke was high with one from the floor and added six charity tosses.

Proceedings of Iosco Board of Supervisors

FEBRUARY SESSION

February 21, 1968

Pursuant to January adjournment, the Iosco County Board of Supervisors was called to order at 9:30 a. m. by Chairman Smith who ordered roll call. The following supervisors were present: Belson, Blust, Campbell, Chrivia, Everett, Gerard, Hester, Higgins, Hosbach, Jocks, Kasischke, Little, Lixey, McElheron, Mead, Mielock, Smith, Stephan, Weible. Absent: None.

Communications were read and referred to the proper committee by the chairman.

There was a brief discussion concerning the vacancy in the drain commissioner's office, and Chairman Smith advised that he had contacted Mr. Parisi of the Michigan Townships Association regarding abolition of the office and transfer of the powers and duties to the county road commissioner. Mr. Parisi was to advise of his findings within 30 days, according to Smith.

Mr. Glen Mask of Gem Surveys addressed the board to request the \$5,000.00 which was withheld by resolution January 19, 1968, pending the furnishing of a performance bond. Mask explained that they were required by the State Tax Commission to defend their appraisal figures and that a performance bond was not necessary and would only add to the county cost. Referred to the finance committee by the chairman.

Probate Judge William McCready introduced Mr. William McMillan of the State Department of Social Services, who is in charge of establishing regional juvenile detention facilities throughout the state. The function of the facilities, or diagnostic centers, is to detain juvenile offenders while the probate courts determine the corrective program to be followed. McMillan indicated that the facility for this region be located at Tawas City and that the property adjoining the medical care facility would be suitable. He also indicated that the structure would be erected by the state with no cost to the county except for use by county juvenile offenders. Five acres would be the minimum land required, with 10 to 15 acres preferred for the twenty (20) bed unit, according to McMillan, who also indicated that an expression of interest at the local level would help expedite.

There was some discussion concerning the building of the unit by the county, for lease to the state, which was referred to the building authority committee for study.

Mr. Steven Zamiara, assistant state archivist from the Michigan Historical Commission, appeared before the board to request the return of some Iosco County record books of which the commission had gained possession some years ago and which have been on loan to the regional library. After a spirited discussion during which Zamiara cited the acts entitling the commission to possession, it was agreed that the books, would be left with the county for another 30 days.

At 11:10 a. m., committees were ordered to their respective duties, balance of the board to be at ease subject to the call of the chair.

Upon call to order at 11:45 a. m., Mr. Jim Hasty, District Health No. 2 sanitation officer, addressed the board to urge the enactment of ordinances or codes which would give the department some regulatory control powers in the fields of sewage disposal, garbage and rubbish, habitable dwellings, land subdivisions etc., in order that environment necessary for the health and welfare of all persons in the district might be safeguarded.

After discussion on the problems of the percolation test and the fact that local ordinances equal to or exceeding health department regulations would preclude state inspection, the matter was referred to the health committee for study and consultation with the prosecutor.

Upon motion supported and prevailing, the board recessed until 1:30 p. m.

AFTERNOON SESSION

Upon call to order at 1:30 p. m., roll call was ordered by the chairman. The same supervisors were present as at the morning session.

Mrs. Florence Blundy of the Michigan Municipal Employees Retirement System appeared before the board to outline and explain the functions of the system, indicating that thirty-seven (37) of Michigan's 83 counties are enrolled under the plan. Employees would be credited for all accrued service prior to the adoption of the plan, according to Mrs. Blundy who stated that a 3-5 majority vote of the board of supervisors would be required for adoption.

The insurance committee was then excused to meet with Mrs. Blundy.

Forest Chats

By STUART BAILEY, Forester
Huron-Manistee National Forest
Tawas Ranger District

What do you call it? Yellow pine? Norway pine? Red pine? Whichever, it is the same tree. The surveyors in the 1840s called it yellow pine, the loggers in the late 1800s called it Norway pine and we call it red pine.

The red pine is a stately tree with long dark green needles and red-fissured bark that grew in association with the white pine in large tracts in parts of Isosco County. Red pine lumber was used to help build the United States in the late 1800s, when for a short time, Michigan was the largest producer of lumber in the world.

During this time, five billion board feet of lumber was processed at mills located in the Tawas, AuSable and Oscoda. Also, an unestimated volume of logs was rafted to Buffalo, New York.

As you travel in Isosco County, you may see fields of stumps that were once magnificent stands of red and white pine. All is not lost though. Many residents are not aware that on the Tawas district there are about 1,300 acres of large red and white pine trees. The trees are growing in patches scattered throughout the district, usually back away from the roads. In only a few of these stands are the trees as dense and nearly the size of trees in the original stands.

In our examination of different stands on the district, we sort out the larger and more dense pine stands and set aside for special management those that have recreational value. These stands will be managed so that little or no harvesting will be done at the present time nor development planned that will detract from their natural beauty. The areas are designated on a map and notations made to indicate that special considerations are to be used in managing these stands.

We can not refrain from cutting all red pine though, for there is a demand by local individuals for lumber for construction. We try to meet these needs by designating for cutting red and white pine trees that are fire scarred and susceptible to attack by insect and disease. Usually, the trees we des-

ignate to cut are scattered and growing in stands of smaller trees. When the larger less vigorous trees are removed, the probability of an infestation of insect and disease are reduced. Thus, we can better assure stands of large trees in the future.

Since the Huron-National Forest was established in 1909, about 35,000 acres of barren land on the Tawas district has been planted to red pine. We will have to wait until after the year 2000 for these plantations to grow into stands that resemble the stands of the past.

If you can not wait until the year 2000, Frank Wilkusi knows the location of most of the good stands on the district. He has shown me one that has become my favorite. There, I can look up at the tall silent trees and regain my perspective. For, in their presence, I am reminded that the Creator gave man his special abilities to take care of this earth and not to thoughtlessly misuse it. Wherever man fails to provide the care necessary, he not only threatens his existence but is also in danger of destroying his own identity.

PLAYERS and coaches of the Northern B Conference selected five players as members of the 1967-1968 all NBC basketball squad last week. Named from Tawas Area, conference champion, was Dennis Krish, high scoring guard. Standish-Sterling Central placed two players on the squad, Guard Bob Groszek and Forward Steve Bishop. Maynard Crowley, outstanding Oscoda Owl center, was

picked for the squad as was Dan Nemode, Essexville Garber forward. Named to the second team, another highly-talented group of athletes, were Paul Beyer and Dale Koepke, Tawas Area Braves; Doug Bell, West Branch; Clifford Draper, Oscoda; John Krevinghaus, Pinconning; Charles Humphrey, Essexville.

'Kite Eating' Wires Can be Dangerous; Observe Caution

Charlie Brown in the comic strips has trouble with the "kite-eating tree" and electric power companies in Michigan have trouble each spring with "kite-eating wires."

The annual alert to youngsters flying kites in the vicinity of electric wires has come from Lowell L. Shepard, manager of Consumers Power Company's Bay City division.

Starting with distribution of kite flying safety rules to the schools in this area, Mr. Shepard asks parents and teachers to pass on the rules to the youngsters before their kites get tangled in electric equipment in the neighborhood.

"About that same time each spring," Mr. Shepard said, "we experience a sharp increase in calls about youngsters flying kites close to electric poles and wires. One of our suggestions is that the power company be called if a kite gets snagged in a power line. No one should attempt to climb a power pole."

The power companies suggestions are these:

1. Always use dry string, wood and paper in your kite... not wire or metal.
2. Always fly your kite on days when there is no rain.
3. Always avoid busy streets and highways while flying your kite.
4. Always fly your kite away from television and radio aerials, electric or power lines.
5. Always keep away from fallen wires.
6. Always call your power company if your kite gets snagged in a power line. Do not pull the string or climb power poles.

"By distributing the safety rules in the schools," Mr. Shepard said, "we hope to forestall a potential tragedy."

Dial direct and let the savings roll in.

If you'd like to save some money, you'll be interested in Direct Distance Dialing. It's a more economical way to call Long Distance because direct dialed calls are all Station-to-Station instead of Person-to-Person.

It's easy, too. Just dial "1", then the Area Code, if it's different from your own, and the number you want. For an idea of how much you can save, here's an example. A 3-minute Person-to-Person call between Detroit and Chicago costs \$1.30 at the day rate. Dial direct and the cost is only 85¢.

So whenever you're reasonably sure the party you're calling will be there, dial direct and let the savings roll in!

Looking Backward—Lake Street Sewer Makes Progress

15 Years Ago—

March 20, 1953—Rapid progress has been made during the past winter on Tawas City's Lake Street sewer project. Under the direction of Martin Kasischek, superintendent of public works, a minimum of hand work has been used in its construction. When completed, it will service the city's newest residential and business subdivision in the Third Ward.

Charles (Tom) Dorcey was named valedictorian and Veronica Pavlik, salutatorian, at Burleigh Township Rural Agricultural School.

Candidates for the upcoming spring election in Tawas City are George W. Myles, mayor; Albert Buch, clerk; John Hoshbach, treasurer; H. E. Friedman and Frank Walker, justices; John W. King, Arnold Bronson and Clarence Everett, supervisors; Reginald Bublitz, Archie Ruckle and W. C. Cholger, aldermen.

Tawas Chamber of Commerce distributed more than 19,000 pieces of advertising literature at the Detroit Sportsmen's Show last week.

Keys to Tawas Hospital were presented Tuesday to Mother Rita Louise, administrator of the new institution, and her administrative staff. The presentation was made by Dr. John LeClair, president, and Judge H. Read Smith, secretary, of the Tawas Hospital Association. The hospital is now nearly complete and much of its equipment is in place.

25 Years Ago—

March 19, 1943—Iosco officials believe that the county will raise a total of \$4,000 as its share of the American Red Cross war needs. Plainfield Township, under the direction of John Webb, is the fifth district to exceed its quota.

The annual senior play at Burleigh Township Rural Agricultural School includes the following cast: Elaine Gerard, Viola Young, Gladys Brookings, Doris Fortune, Virginia Nichols, Norma Bellows, Raymond Ross, Cyril Pederson, Roy Hutchison, Benton Norton and Allen Kohn.

A reception and pot-luck supper is to be held at First Baptist Church, Tawas City, in honor of the new pastor, the Rev. Paul Dean.

F. E. Kother announces that he has sold his farm one mile south of Hale and will hold a public auction on April 1.

The Philadelphia Mint is now producing one-cent pieces composed entirely of solid soft steel, with a zinc plating, replacing the old copper coin which contained 95 percent copper, four percent zinc and one percent tin.

The "Whiz Kids" from the Uni-

University of Illinois and their amazing forward, Andy Phillips, the greatest basketball aggregation in the nation, are rewriting the record books in Big Ten competition. The squad broke its own record for field goals in a single game, 38 against Northwestern, by pumping in 41 against Chicago, Illinois.

35 Years Ago—

March 17, 1933—East Tawas was nosed out of a regional championship Saturday night by Reed City.

A district convention will be held today at Standish to nominate two candidate delegates, one of whom will be selected by voters at the April 3 election to ratify or reject the 18th amendment at the forthcoming constitutional convention. One "dry" and one "wet" candidate delegate will be nominated.

Two caucuses were held in Plainfield Township last week. Among Democratic candidates nominated was Edward O. Putnam, supervisor. Lewis Nunn was nominated as Republican candidate for supervisor.

Miss Margaret E. Worden was re-elected chairman of the Iosco County Child Health Committee.

Radios repaired and serviced. John Moffatt, East Tawas.

Hale Area School Girls to Compete for Trophy

Friday, March 22, 7:00 p. m., three groups of Hale Area High School girls will match creativity and physical dexterity for the possession of a 15-inch silver trophy.

The groups consist of girls from the seventh, eighth and senior high physical education classes, respectively. Impartial judges will determine the winners on basis of use of individual talent, group coordination and staging.

A bake sale in the lobby will provide refreshments. Contributions on a free-will basis will be collected during the program. Proceeds go to the girls' athletics program.
