## Braves Win Opening Round in Tourney

Tawas Area Braves opened the district basketball tournament here Monday night with a 44-27 ho-hum win over West Branch, which definitely must go down as one of the most unusual games ever played between these two schools.

Tournament action resumes tonight (Wednesday) when the Oscoda Owls and Standish-Sterling Panthers tangle. One of the teams will go to the finals Saturday night and a capacity crowd is expected to watch the battle.

Stalling tactics used by the Orioles Monday night as a method of upsetting the NBC championship squad resulted in a score that was reminiscent of games played years ago.

The Braves jumped off to a 14-4 first quarter lead as the Orioles were having trouble finding the bucket. Tawas had its troubles in finding the range early in the quarter but finally started to hit as Dennis Krish led the way with seven points.

The Orioles had tried a deliberate passing attack without taking any unnecessary shots in the first stanza. The second quarter found the Orioles 10 points down and stalling the ball for 3½ minutes without taking a shot at the basket. The Braves refused to take the bait and, after Haglund meshed two foul shots, the Orioles stalled for another three minutes before turning over the ball. Haglund meshed two more charity tosses in the quarter and that was all the scoring for Tawas. Reussger and Ehinger popped a field

goal apiece and each team had four points for total scoring in the quarter.

West Branch came back with another deliberate passing attack in the third quarter. Tawas had numerous turnovers on bad passes but continued to build up a 10-point lead held at intermission. Paul Beyer came up with eight points on three drive-in field goals and two foul shots and the Braves held a 30-14 margin at the end of the third quarter.

West Branch discontinued its stalling tactics in the final stanza, but it was about one quarter too late as Tawas held a 14-13 scoring margin. Coach Bill McIntosh ran in his "shock troops" with about four minutes to go in the game.

Haglund was Tawas' top scorer of the night with 11 points on one field goal and nine charity tosses. Ehinger had eight points to lead West Branch scoring.

The Braves had only 28 shots at the bucket and converted 14 for a 50 percent shooting average. The Branchers banged the backboards 57 times and meshed only 12.

Tawas now goes against the Gladwin Flying Gs Thursday night in the semifinals. Winner of this game is to play against winner of the Standish-Sterling-Oscoda Area contest on Saturday night.

Opening action was greeted by a near capacity crowd. This is Tawas' first district tournament in eight years and the school is to be complimented on handling of spectator parking and other facilities for the convenience of fans.

## Original Plan Too Costly

## Tawas City Studies New UR Application

Officials of Tawas City have until April 15 to make some decision on further processing of an application with the office of Housing and Urban Development.

It was reported at Monday night's council meeting that representatives of the city met February 27 with Albert West, Chicago office of HUD. Representing the city were Paul Chevys and Hugo Keiser of the planning commission and Reginald Bublitz, superintendent of public works.

The city has not prepared a workable program under this federal plan for redevelopment and the entire city must be brought in to the redevelopment in order to meet new requirements.

It was felt by local representatives that the city did not wish to continue under the original application, calling for redevelopment of the business district, but steps may be made to develop a plan calling for removal of some old buildings. Further discussion is to be held at the March meeting of the planning commission.

The planning commission had dropped further discussion on the original proposal because of the high cost of building removal and relocation of businesses located in the area being considered from

Mathews Street to Whittemore Street.

Planners also noted that a local business had started its own renewal of the business district. Bublitz Oil Company removed two old buildings at the corner of Mathews Street and US-23, replacing with a modern service center.

The commission has now learned that federal funds may be available to assist in renovating various sections of the business district, rather than a costly complete clearance.

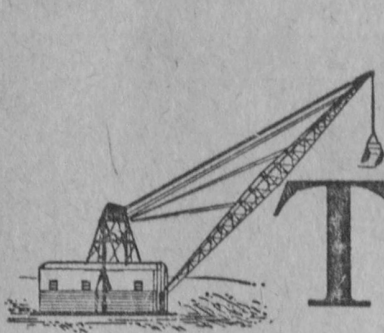

In other business, an application was approved for remodeling the interior of the Isoco Hotel. Cost was listed at \$350.

First payment of \$7,398 was authorized by Gary D. Steadman, Incorporated, on the \$34,000 special assessment district for constructing a sewer from Mathews Street south.

A tentative city budget for 1968 is to be presented at the April 1 council meeting. Further discussion is to be held April 15 and a special budget hearing has been scheduled for April 29.

Discussion with the street committee and department of public works indicated that a storm sewer should be reconstructed along

## Study Group Seeks Facts on Merger Vote

A fact-finding committee appointed by the Tawas Chamber of Commerce is now attempting to learn reasons from citizens of the two communities for favoring or opposing the proposed merger of Tawas City and East Tawas.

At a meeting held last Wednesday night at the home of Harris Barkman, committee co-chairman, a tentative eight-area program of investigation was established for consideration. Other areas may be added or deleted when the entire committee meets in the near future.

With a merger vote scheduled April 1 coinciding with the annual city elections, the committee has given itself two weeks to investigate the eight areas and another two weeks to present information at public meetings.

The committee is to investigate pros and cons in the following areas: Civic, industrial, educational, social, community benefits and detriments to a merger, recreation, additional benefits or services to

the community, community attitudes.

Individual attitudes as to why persons are or are not in favor of the merger are expected to be the most difficult to obtain, said Mr. Barkman.

Persons desiring to express their opinions are requested to write them down and send them to the Tawas Chamber of Commerce. When the committee's final report is prepared for the public meetings, no individual names would be used when attitudes or reasons for either favoring or opposing the issue are presented.

"We are not attempting to have a straw vote, but we are taking this means to assist the committee in obtaining information in order to present both sides of the question," said Mr. Barkman.

## Business Group Shows Growth; 15 New Members

An increase of 15 new members within the past two weeks brought membership of the Tawas City Businessmen's Association to 38, according to a report last week by Cecil Cabbie, secretary-treasurer.

A letter was sent out previously urging all Tawas City businessmen to join the organization. The list included all previous members for the past five years.

At last week's meeting, Carl Babcock Jr. reported on activities of the Tawas Chamber of Commerce and said that the Tawas were included in a study of 10 communities being conducted by Central Michigan University for the establishment of industry.

William McCready, Isoco probate judge, reported on the proposed juvenile detention home which is being considered by the state near the Isoco Medical Care Facility in Tawas Township.

L. G. McKay Jr., vice president, urged all those contacted by letter or others who may have failed to receive the membership letter to join the organization. Meetings are held every Thursday noon at the Barnes Hotel.

Howard Hatton, Tawas City councilman, who was named to the committee to study the proposed merger, announced Monday that he had not accepted the appointment. In a statement to the Herald, Hatton said he did not believe such a study should be a function of the chamber of commerce.

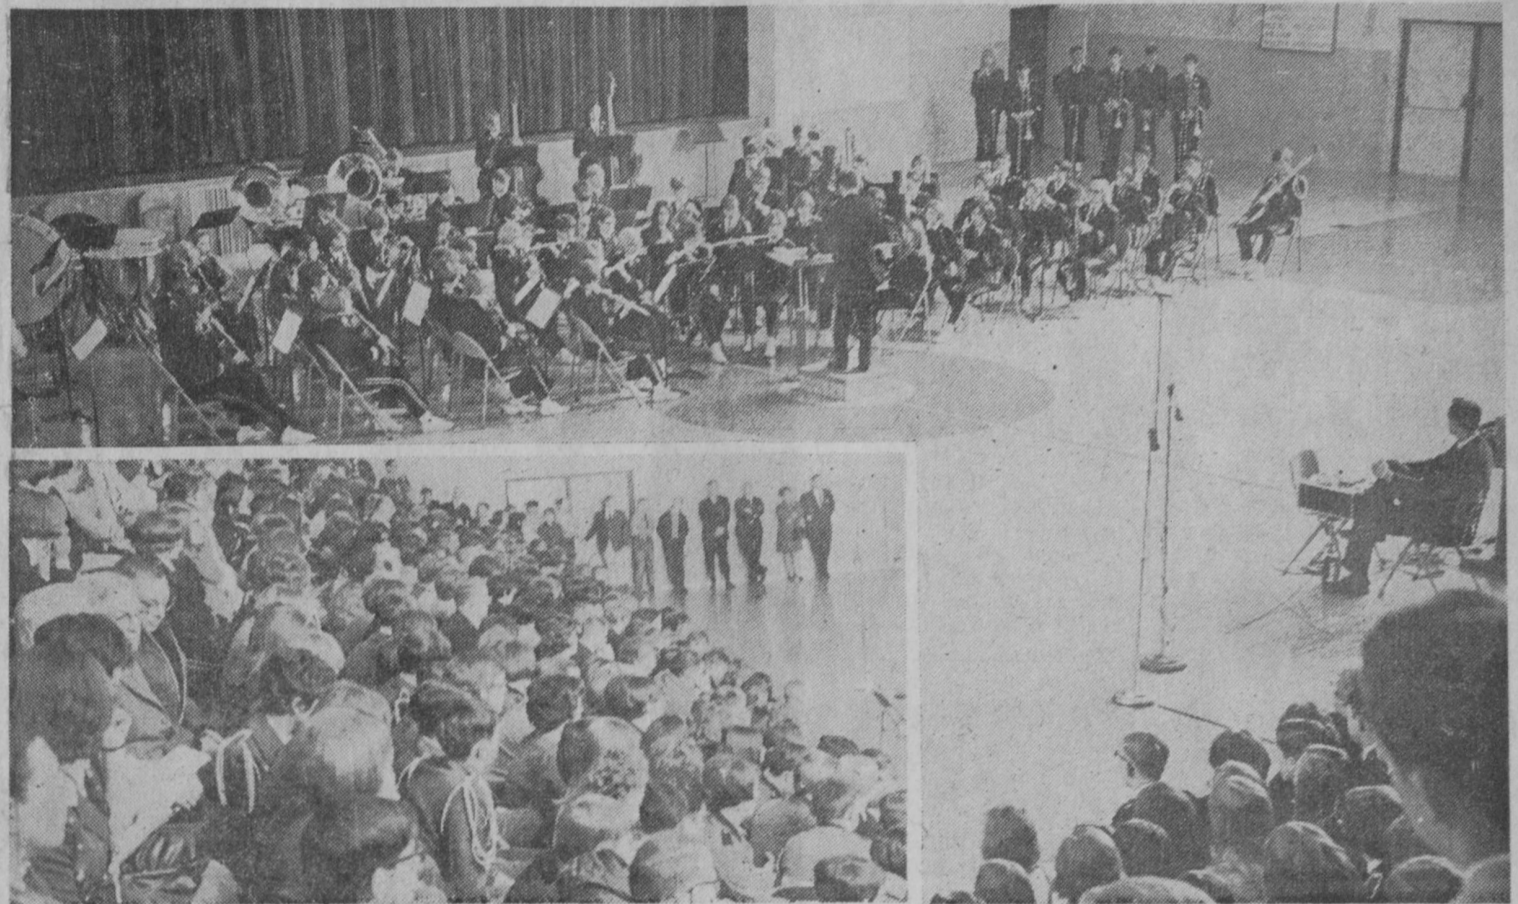

## County-Wide Planning Meet Set Next Week

A county-wide comprehensive planning meeting has been scheduled for Wednesday, March 13, 7:30 p. m., at the all-purpose room of East Tawas Elementary Unit.

Marvin Davenport, county extension agent, said that principal discussion will center around how area wide comprehensive planning can be accomplished.

Donald Peto, Michigan Department of Economic Expansion, who is planning coordinator for this part of the state, is to be main speaker. George Justus, senior consultant with a Chicago, Illinois, planning firm, will outline how county and regional plans may be developed.

All planning commissions, zoning boards, township boards, city councils and the county board of supervisors are requested to have representation at the meeting.

## Tawas Area Band Receives Top Rating for Performance

Tawas Area Senior Band received four Is, the highest possible rating, at last Saturday's District IX Band and Orchestra Festival held at Tawas Area School Auditorium.

Of the 16 performing bands, Tawas Area was the only band to receive this high honor. This makes the eighth consecutive year the Tawas band has received an I.

The band performed "Coat of

Arms" for its march; "Introduction and Invention," the class B required number, and "Estampie," a modern number for concert band and antiphonal brass choir as its free choice selection.

An I rating makes the band eligible to participate in the state festival to be held April 27 at Battle Creek.

Tawas Area High School was host to 16 bands and more than

## Tawas Hospital Receives First Contribution for Expansion

An Oscoda resident, Ralph H. Lawler, is the first person to contribute to Tawas Hospital's recently announced campaign to gain funds for modernizing and expanding facilities.

Lawler, a retired Flint resident, sent a \$100 check to the hospital last Friday.

Two weeks ago, M. Jerry Norwood, hospital administrator, announced that a steering committee had been named to start long range planning for some type of expansion at the hospital.

Plans are being made to apply for federal funds to assist in this

project, as well as to secure local contributions.

Norwood also announces that nine area organizations and individuals have contributed \$100 checks for redecorating hospital rooms. Included have been the Veterans of Foreign Wars Auxiliary, Oscoda Lions Club, Tawas Area Student Council, Tawas Hospital Auxiliary, East Tawas Lions Club and Tawas Kiwanis Club. One check was received from an anonymous donor, while checks were received from the hospital's dietary staff and other hospital personnel.

A report from the steering committee on future construction plans is expected in the near future.

900 student musicians from Whittemore-Prescott, Au Gres-Sims, Arenac Eastern, Hale Area, Atlanta, Hillman, Pinconning, Roscommon, Clare, Oscoda Area, Gladwin, Houghton Lake, West Branch-Rose City, Standish-Sterling.

The Tawas band performed exceptionally well and many favorable comments were made about the group.

Lloyd Conley, junior high band director at Clare, said: "That was the best band I have ever heard at a district festival." Ken Feneley, senior high band director at Clare, called the group's tone "the most mature sound from a high school group I have ever heard." "The very first time I ever listened to a band and got chills," reported Dave Kjelberg, director at Standish-Sterling.

Some of the comments from adjudicators were: "An excellent performance, very mature, musically confident group," said Dr. William Rivard, Central Michigan University. "You tackled some tough selections and did a beautiful job with them," said C. Howard Hornung, Ludington High School. "A most impressive overall performance—I feel most proud to have been a part of the history of the band," said Edward Rima, Taylor Center High School. "A group that your school and community can be proud of," said Clarence Odmark, Charlevoix High School.

## Lack of Snow Endangers Mains

An unusually light snowfall this winter may prove to be a serious problem for the Tawas City Department of Public Works. Without this ground cover, the heavy frost line is penetrating to a depth where water mains are being endangered.

Reginald Bublitz, superintendent of public works, said Monday, that his department had repaired two water main breaks during the past week. In both cases, iron water mains had been laid in heavy clay about 30 years ago.

"When the frost penetrates to a depth where it hits the clay, a heavy shock wave causes the ground to heave and water mains are snapped," said Bublitz. "In recent years, a cushion of sand is placed around the main to alleviate the problem, but this was not done during original construction."

Bublitz said that the problem could become more serious during the next few weeks. He suggests that homeowners leave a water tap running at night as a means of preventing costly maintenance problems.

## Hall Receives Prison Sentence

Otto Hall, 39, Oscoda, was sentenced to concurrent terms of three to 10 years in prison when arraigned Monday before Isoco Circuit Judge Allan C. Miller. Hall had been convicted of two counts of obtaining money under false pretenses.

## Area Snowmobile Team Sets Cross-State Record

An eight-man area snowmobile team, back from establishing the first timed endurance run from Lake Huron to Lake Michigan, believe that at least one hour can be cut from the 15-hour, 24-minute record established last Friday and Saturday.

Four snowmobiles driven by James Hearl of East Tawas, James Hardy of Luzerne, William Fuerst of Whittemore and Floyd Schaaf of East Tawas participated in the cross-state run.

Operating chase truck teams were Arden Charters, Buck Pickens, Bruce Goupil and Robert Felske of the Whittemore area; Willard Schaaf and Michael Hearl of East Tawas.

Because of the lack of snow in the Tawas area, a timed run was made Thursday afternoon from the Tawas Chamber of Commerce office to Gordon Creek on the first leg of the 240-mile run. After traveling on gravel roads and blacktop for eight miles, ski runners had to be changed Thursday night so ma-

chines would be in readiness for the actual run Friday morning.

Leaving Tawas Friday at 6:15 a. m., the team reached Grayling shortly after 1:00 p. m. The team then continued on to Kalkaska, arriving there at 4:22 p. m.

"We were given a royal welcome by the chamber of commerce and residents of Kalkaska," said James Hearl. "An automobile dealer cleared his garage and we were given the opportunity to make emergency repairs to our machines before pursuing the trip Saturday morning."

The last leg of the trip from Kalkaska to Empire, about 60 miles, saw the team finishing at 12:55 Saturday afternoon. A group from Interlochen Snowmobile Club escorted the local team over the last 20 miles to Empire.

Members said that the trip proved very exhausting. After leaving Gordon Creek, snow conditions improved and machines were hitting 50 miles per hour along fire lanes and back trails.

By the time machines reached

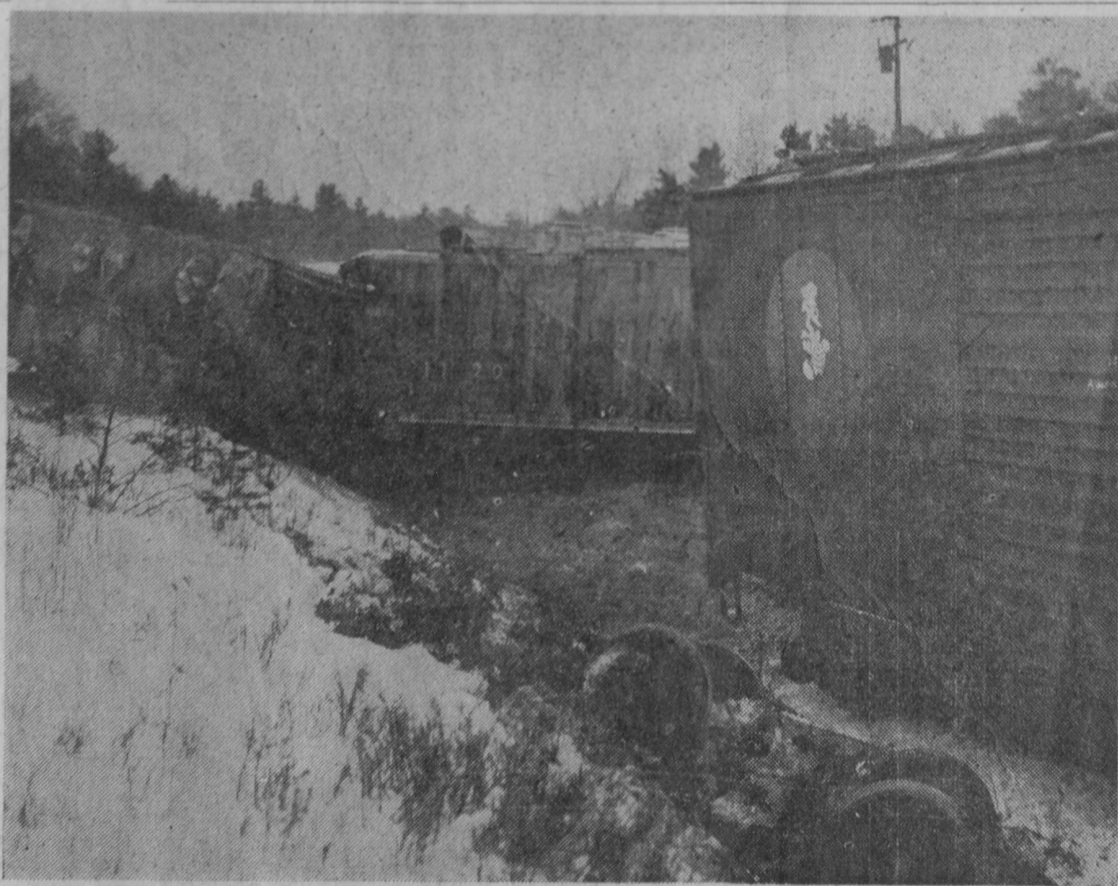

Empire, the team had to buck snowdrifts 4½ feet deep. "We found some areas where we had to push machines up steep ravines. That was back-breaking work," said Hearl.

Time stations were located at Gordon Creek, Luzerne, Grayling, Kalkaska and Empire, all operated by sheriff's departments of the various counties.

Considerable planning went into this first trip. Hardy, a director of the Michigan Riding and Hiking Trail, briefed participants on terrain features and four meetings between team members were held before making the trip.

"We feel that this first effort served a good purpose," said Hearl. "It is the first time for snowmobiles to cross the state from east to west and we are positive that this record can be easily broken."

Anyone wishing to make this run is invited to contact members of the team for information on the trail and equipment necessary.

A DEFECTIVE JOURNAL on a freight car was responsible for this massive derailment Thursday afternoon near the Cedar Lake Road intersection, Oscoda. Two 100-ton hopper cars and three 75-ton cars, loaded with Portland cement from Alpena, were derailed. Railroad maintenance crews rushed to the scene unloaded the cars of approximately 425 tons of cement that night. A

freight engine was used to skid damaged cars off the track Friday morning. Following repairs to tracks, through freight service was resumed Friday afternoon. The defective journal causing the wreck was located on the 15th car behind the locomotive. After the crash, the train continued to Bay City. There were no injuries. —Tawas Herald Photo.

### TODAYS Meditation

from The World's Most Widely Used Devotional Guide

Read I John 3:1-8

If we say we have committed no sin, we make him out to be a liar, and then his word has no place in us. (I John 1:10 NEB)

Several years ago, I suffered some severe lacerations in a motorcycle accident. I went to a doctor to seek relief from my pain but in treating my wounds he made my pain more intense. He first scrubbed my wounds with soap and water. Not until he had scrubbed out all the grease and road dirt did the doctor bind up my broken skin. It was painful treatment, but if the doctor had spared me that pain, my wounds could have caused infection and more pain.

The healing of the Great Physician is something like that. It hurts to know ourselves as sinners. But we must have confidence in Him that He can do for us what needs to be done. Unless God's word of judgment first washes away our self-deception, we can never know the healing, the joy, the life that His mercy and forgiveness can bring.

#### PRAYER

Dear Father, grant us the courage to accept Thy judgment of us as sinners. May Thy word of grace find a place in us to heal and save us; through Jesus Christ, Thy Son and our Savior. Amen.

#### THOUGHT FOR THE DAY

If we are to have God's mercy, we must be willing to listen to His judgment. Daniel L. Olson (California)

Dial direct and let the savings roll in.  
If you'd like to save some money, you'll be interested in Direct Distance Dialing. It's a more economical way to call Long Distance because direct dialed calls are all Station-to-Station instead of Person-to-Person.  
It's easy, too. Just dial "1", then the Area Code, if it's different from your own, and the number you want. For an idea of how much you can save, here's an example. A 3-minute Person-to-Person call between Detroit and Chicago costs \$1.30 at the day rate. Dial direct and the cost is only 85¢.  
So whenever you're reasonably sure the party you're calling will be there, dial direct and let the savings roll in!

## Browne-Bassi Marriage Vows Exchanged at Turner Church

Miss Linda Bassi of Turner became Mrs. James Browne in afternoon rites February 24 at Our Lady of Lourdes Church, Turner.

The Rev. Fr. Bela Torok officiated at the double ring ceremony uniting the daughter of Mr. and Mrs. James Bassi of Turner and the son of the Albert Brownes of Twining. Mrs. Steven Kusey and Joseph Tolgo, vocalists, were accompanied by Mrs. Proulx. A reception for the wedding guests was held immediately following the rites at Deep River Hall.

The former Miss Bassi selected a silk organza over bridal taffeta gown fashioned in traditional style with lace edged scoop neckline and long tapered sleeves. Chantilly lace motifs accented the skirt and floor length hemline. Controlled pleats formed the fullness of the chapel length train. Organza petals edged with pearls and centered by a bow held the multi-tiered, silk illusion veil. Red roses and white carnations made up her bouquet.

Attendants in dark moss green velvet dresses preceded the bride to the altar. Matching headpieces

completed the ensembles of Jeanne Fitzgerald of AuGres, maid of honor; Teresa Noel of Flint, Diana Ostrander of Whittemore and Nancy Emberton of Flint, bridesmaids. They carried white and green chrysanthemums.

Mr. Browne chose Mark Saponi of Warren as best man with Gene Bassi of Mt. Clemens, Larry Southworth of Twining and Larry Fitzgerald of Flint, attendants. Charles Fitzgerald of Twining and Jack Nagy of Sterling seated the guests.

The bride's mother chose an off white, three-piece wool suit with blue accessories. Corresponding accessories enhanced Mrs. Browne's navy blue dress. Their corsages were white carnations and red roses.

The newlyweds are residing at Twining.

Pre-nuptial showers honoring the bride were hosted by Janet Nagy and Rose Zuchnik; Miss Ostrander, Miss Fitzgerald, Mrs. Noel and Dorothy Fitzgerald.

# Braves Edge Dukes; Receive NBC Crown

Tawas Area Braves finished the regular 1967-1968 basketball season by edging Essexville, 59-58. It was the NBC champions' 11th conference win. With three non-conference victories, the Braves ended the season with 14 wins and two losses.

The Braves jumped off to a good lead in the first quarter, 18-12, and held a 12-point edge at half-time with a 17-11 margin in second quarter scoring.

Essexville roared back in the second half. Although never behind at any time, the Braves were confused by a press defense and threw the ball away on a number of occasions.

The Dukes outscored Tawas, 18-13, in the third quarter and 17-11 in the fourth to come within one point of tying the score.

Paul Beyer and Gary Haglund topped Tawas scoring with 18

points each. Dennis Krish hit double figures with five field goals. Humphrey topped Essexville with 22 points.

### Chips From The Sawdust Pile

Even with the lack of snow our two snowmobile trails have been getting plenty of business. Unfortunately, some of it has been monkey business.

Both the trails at Silver Valley and Gordon Creek were marked by wood stakes and orange flagging ribbon. A few folks have enjoyed

knocking down the markers. Some one likes to take apart our safety barrier at Silver Valley, too.

Next season, we will try to mark the trail more permanently and make safety facilities more substantial so it will be difficult for others to interfere with the operation of the trail. Anyone with a good, economical idea should let us know.

Now's the time, when there is snow on the ground, to burn those brush piles out back. Though it's probably more comfortable for you on a nice, sunny, dry, spring day, your friendly fire officer is not too comfortable about that time.

No burning permits are required when snow is on the ground. As long as the brush is not covered by wet snow - and the piles are packed tightly, they will burn up quite well in winter weather.

Be sure to pull them away from under live trees into an opening so you do not kill live trees you want on your property.

Last week, we blasted five wild-life watering ponds with ammonium nitrate out on the jack pine plains as a part of our continuing program of wildlife habitat improvement program.

Open water is scarce out there and sometimes is a limiting factor in extending the capacity of the deer summer range. The ponds are located in marshy areas in the vicinity of the Hale Shortcut Road between the Monument Road north of Silver Valley and Bass Lake near Hale.

We struck water in each hole. Blasting ponds with ammonium nitrate, under the expert direction of Forestry Technician Roy Shedenhelm, continues to be an economical way to develop open water for wildlife. We hope to continue this practice in future years.

### Congressman's Aide to Visit Isosco

Isosco County residents having problems with agencies of the federal government or having views on federal legislation will have an opportunity to contact Cong. Elford A. Cederberg's liaison at the Isosco County Building, Tawas City, Wednesday, March 13.

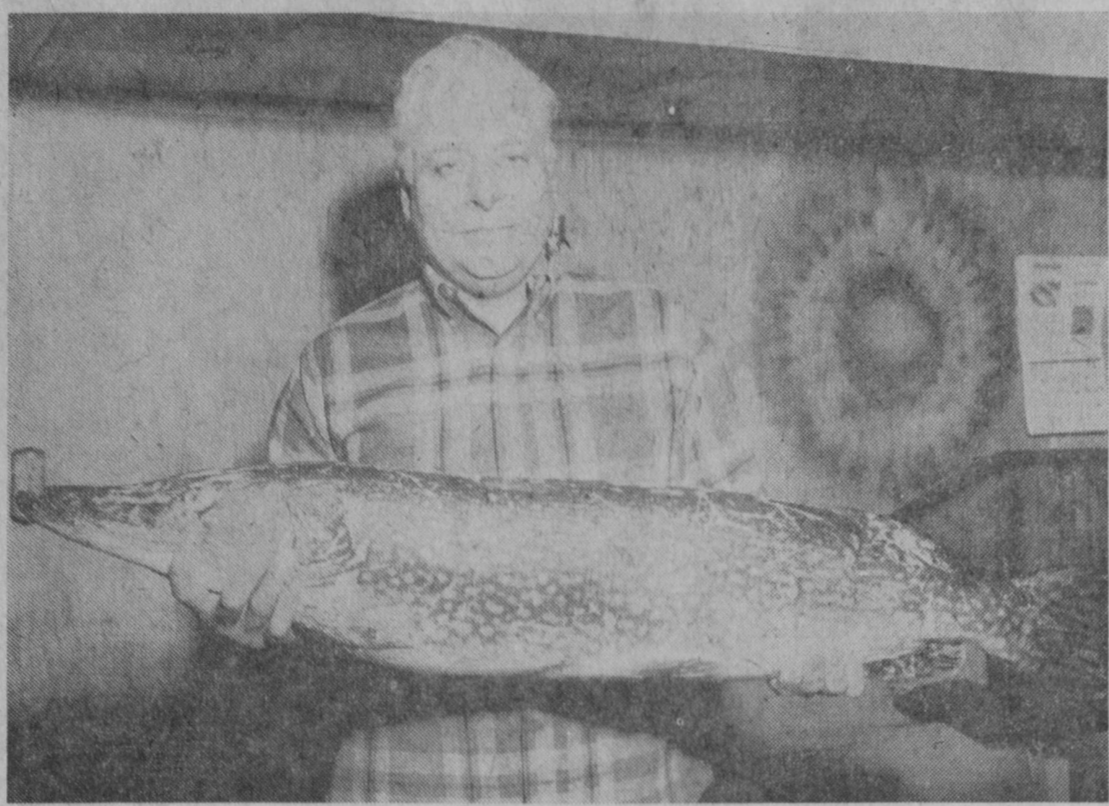

Walter Nakkula, the congressman's district staff man, will be at the courthouse between 2:00 and 3:00 p. m. on that day. If the matter involves a particular case with the government, the congressman suggests the constituent bring papers that will assist in identifying the matter.

### CMU Offers Credit Courses at Wurtsmith

Thirteen, possibly 14 university credit courses will be offered beginning in mid-March at Wurtsmith Air Force Base, Oscoda. Courses are being arranged through the Central Michigan University Off Campus Education office.

Civilian students, as well as military personnel, are welcome to enroll. Registrations are now being taken by Donald Kelso, base education officer, at the education office on the base. Information may also be obtained from MSgt. Edgar Guisbert at Wurtsmith.

Final civilian enrollments will be taken Thursday, March 14, 7:00 p. m., by staff members of CMU's Off Campus Education office at the base education office.

HAROLD PFEIFFER, East Tawas businessman, is shown here with a monster northern pike caught February 26 in the AuSable River near Foote Dam. The fish weighed 28 pounds and measured 45 inches long with a 23-inch girth. Pfeiffer was fishing with his aunt, Mrs. Loretta Thomas, and Mrs. Helen Colles of Battle Creek. Mrs. Colles hooked what she thought was a log and asked Pfeiffer to break the line. The log turned out to be this whopper.—Tawas Herald Photo.

"If you are receiving a monthly social security benefit, the amount you receive will be increased by at least 13 percent beginning with the check due early in March," reported John Carr, district manager of the Social Security Office located at 1009 North Madison, Bay City.

"You do not have to do anything in order to get this increase," Carr stressed.

The minimum monthly benefit for a worker who retired at age 65 will be increased from \$44 to \$55 and maximum from \$135.90 to \$153.60.

The maximum payment to a family now on the rolls, \$368 a month, will be increased to \$395.60.

He added that for many working people, the 1967 amendments will increase future cash benefits even more. This will result from the increase in the amount of earnings that can be counted toward benefits in a year from \$6,600 to \$7,800, beginning in 1968. The resulting ultimate maximum benefit will be \$218, based on average monthly earnings of \$650.

These higher maximum retirement payments will be payable to workers who are now young and who consequently will be paying contributions on these higher amounts of earnings over a considerable period of time before they retire. But even those in their middle years will benefit, he noted. For example, a man age 50 in 1968 who earns \$7,800 a year until he is 65 will get a benefit of \$188.80 at age 65—21.8 percent higher than he could get under the old law.

"The special payments made to people age 72 and older, who did not work long enough to qualify for regular benefits, are also increased under the amendments," Carr said. Single persons now receiving \$35 will receive \$40 per month and a couple now receiving \$52.50 will receive \$60 a month effective with the checks received early in March.

Carr again pointed out that these increases are automatic and people do not have to go to their social security district office to take any action.

### "A WOMAN'S WORLD" WITH Lee Murray

Today's homemaker has so many interesting and challenging things to do; perhaps she has joined the ranks of working mother. Yet, she still delights her family with new ideas in food and menus.

#### AN OLD FRIEND

Modern electric timers enable you to prepare food in the mornings, play a round of golf and have dinner ready to serve at 6:00 p. m. on the dot. Timers come in handy in other ways, as well. You can invent a game to see which child can dress the fastest—bake a chiffon pie or make sure the breakfast eggs will not be overcooked.

#### CRUMB CRUST

1 cup gingersnap cookie crumbs  
1/4 cup softened butter  
2 tbsps. granulated sugar  
Blend ingredients in a large bowl. Press into a nine-inch pie pan. Bake at 350 degrees Fahrenheit for 15 minutes. When cool, fill with an instant filling.

#### SNOWY GELATIN

Prepare fruit flavored gelatin as directed on a three-ounce package. Chill until thick but not firm. Add one or two raw egg whites and beat with an electric mixer until mixture is fluffy and about double in volume. Pour into molds and chill until firm.

#### SUCCULENT SUCCOTASH

After cooking a 12-ounce package of frozen succotash according to directions, drain. Add one tablespoon butter, one-half teaspoon ground nutmeg, one-fourth teaspoon sugar, one teaspoon fresh lemon juice and pepper to taste. Toss lightly and garnish with pimento strips.

#### CHICKEN 'N SAVORY

1 frying chicken, cut up  
1 can cream of chicken soup  
1 teaspoon lemon juice  
1 (10 oz.) pkg. frozen broccoli  
1/2 teaspoon crushed savory  
Set fry pan at 350 degrees Fahrenheit and brown chicken in shortening. Stir in soup, juice and savory. Cover, turn to lower temperature and simmer for 25 minutes. Add broccoli and cook another 25 minutes.

Now is the time to check the garage and back porch for those unwanted items. Sell them with a Herald classified.

ANOTHER Gold Bond Idea winner, Eugene Bonino, receives a check from Richard Harris, right, National City plant manager. Bonino has had several money winning ideas previously. In addition to cash for ideas, each idea entitles the employee to his choice of autographed Zippo lighter, rule or key case.

### Pallet Shop and Sawmill Owners Invited to Workshop

Owners and operators of pallet shops and sawmills will have an opportunity to attend a management shortcourse at the Rose City School Wednesday, March 6, 13 and 20, 7:00 to 9:00 p. m., according to David Olson, extension natural resource agent, Northeastern Michigan.

This is a unique opportunity for mill people to upgrade their business and attend a shortcourse developed by people who know the pallet and mill business and the problems of these operations. No advanced registration is necessary.

### Waldo Curry Heads Isosco Animal Breeders

Isosco-Tawas Animal Breeders Association elected new officers during the February meeting which was held at Alden Phelps' East Tawas home. Waldo Curry of Tawas Township is president; Eilert Barnes, Reno Township, vice president; Duane Reinke, Tawas Township, secretary-treasurer.

John Knight of Knight's Mill will discuss "Pricing a Pallet" and Ed Wood of Michigan State University will give suggestions on "Knowing Your Costs and Controlling Them."

John Knight of Knight's Mill will discuss "Pricing a Pallet" and Ed Wood of Michigan State University will give suggestions on "Knowing Your Costs and Controlling Them."

Ronald Timreck and Reinke reported on a district meeting at Clare. Norman Bradford of Sparta will be the district's representative on the Michigan Animal Breeders Cooperative board of directors.

Barnes and Leonard Robinson were named delegates to the March 21 annual meeting of the Michigan Animal Breeders Cooperative at East Lansing. Others attending the session include Herman Drengberg and Russell Nelkie Jr.

Maurice Rhoads of Consumers Power Company will discuss "Commercial Electric Power in Your Plant."

Drive one of these dressed-up Chevrolets instead of a stripped-down something else.

'68 CHEVROLET prices start lower than any other full-size models. Look at it. Chevrolet's 4-door sedan is roomier than any other American car except one luxury sedan. Drive it. You tell by its smooth and silent ride that Chevrolet quality runs deep. Buy it! Get a Chevrolet instead of a medium-priced name and you can have, say, power steering, power brakes and a radio besides!

'68 CHEVELLE prices start lower than any other mid-size models. Obviously nothing's newer in mid-size cars than Chevelle. There's fresh styling, the long-hood, short-deck look. There are two nimble-footed wheelbases now—both on a wider, steadier tread. You get big-car power, big-car ride in a quick-size package. No wonder Chevelle outsells everything in its field.

'68 CHEVY II NOVA prices start lower than any other economy car so generously sized. Nova is big enough for a family on vacation, yet it slips into parking spaces others pass by. With its new wide stance and computer-tuned chassis, Nova rides as silent and steady as cars costing a lot more, and it comes with the biggest standard V8 in its field. Nova's the not-too-small car.

### Civil Service Receives Opening for Career Nurses

The United States Civil Service Commission announced today that applications will be accepted for career positions as licensed practical nurse, \$4,466 to \$4,965 a year. Positions, located throughout the State of Michigan, exist primarily with the Veterans Administration hospitals in Allen Park, Ann Arbor, Battle Creek, Iron Mountain and Saginaw; the United States Public Health Service Hospital, Detroit, and with Selfridge, K. I. Sawyer and Wurtsmith Air Force Bases.

Additional information, application forms and instructions may be obtained from the examiner-in-charge at the United States Post Office, East Tawas, or from the Federal Job Information Center, 144 West Lafayette Street, Detroit, Michigan 48226. Telephone (313) 226-6950.

## Renewal

(Continued from page 1.)  
North Street to the Tawas River to alleviate a drainage problem. Plans call for deepening a ditch on Fourth Avenue which drains into the North Street sewer.

Bublitz reported that if deepening the ditch on Fourth Avenue did not prove practical, a connector storm sewer could be constructed there at some future time.  
A request had been made to reconstruct the First Street storm sewer. It was felt this project would be too expensive and that the water could be diverted more easily to the North Street sewer. At present, the First Street sewer is overloaded and a drainage problem exists during the spring water runoff.

# FARMER TO FARMER TOUR OF THE SOUTH PACIFIC

This is no ordinary tour. It is a 42 day Farmer-To-Farmer Study Tour sponsored by Farm and Home Section. You will see exciting places. You will catch up on extraordinary farming techniques.

The tour will start from the West Coast and fly to Tahiti, spending a few days there sightseeing and having a ball. Then it's off to New Zealand where you will visit farms and meet people, including agricultural officials — who may want to learn something from you. And perhaps teach you something new.

The same goes for your trip through Australia where the farmers are fantastic and the people love Americans.

The rest of the trip includes Singapore, Bangkok, Hong Kong and Tokyo. Sightseeing, most meals, tips, hotels, and transportation included.

And you will know you are flying the best airline there is — Pan American, "The World's Most Experienced Airline."

Participants on this Farmer-To-Farmer Tour departing the West Coast on October 17 for 42 exciting days will have a real opportunity to meet warmhearted, hospitable folks... see their properties... even stay in their homes.

Send for your free brochure and study the itinerary for yourself. The scenery in New Zealand is spectacular but the space limitations in the brochure do not permit us to begin to tell you the story. And the still-prevalent pioneering atmosphere of Australia, so much like our own early American days, is guaranteed to warm the heart of every traveler.

But after Australia, you have only completed half the trip. Next comes the fascinating Orient. From Australia our Farmer-To-Farmer Tour visits the highlights of Singapore, Bangkok,

Hong Kong and Tokyo before returning to the West Coast.

And when we say ALL-INCLUSIVE, that is exactly what we mean. Send for your tour brochure and study it closely — there are no gimmicks, no innuendoes, no hidden charges — in fact, there is no tour in the travel industry that is more ALL-INCLUSIVE. Except for strictly personal items, everything is included in the tour cost—ALL MEALS, TRANSFERS, SIGHTSEEING, TAXES AND ALL TIPS.

You will stay at the best hotels... have local English-speaking guides... and a Tour Director who will attend to the myriad of tedious details, leaving you completely free to enjoy yourself.

From the West Coast this tour package costs per person \$3,390.84 economy class, based on sharing twin-bedded rooms. The only additional cost would be the air fare from your hometown to our West Coast gateway city.

We cannot emphasize enough the fact that the tour price is ALL-INCLUSIVE. It even includes the cost of getting your visas. We can also arrange individual extensions in Japan or other return routings (say a stop-over in Hawaii) if you desire.

Won't you join us for a never-to-be-forgotten adventure? Send for your free tour folder today. Join us on this Circle Tour of the Pacific.

**Ralph Booher knew  
exactly where he  
didn't spray AMIBEN  
...so did his neighbors**

"Enclosed is a picture of the year's bean spray results that might be of interest to you. We banded Amiben on approximately 450 acres, and by accident, received this check strip. The power take off driving the spray pump was accidentally knocked out of gear while turning, and consequently no spray on the 4 rows shown in the picture. I stopped to mark the rows on the next turn, but had no trouble locating them after things started to grow. All beans were cultivated twice. We estimated the unsprayed beans to yield approximately 15 bushels, compared to 35 to 40 for the sprayed ones. One certainly doesn't realize the grass control he might be getting unless he checks, or something like this happens." *Ralph Booher, Route #1, Lafayette, Indiana 47906*

# FARM SHOWS' CORN-SOYBEAN CLINICS DREW LIKE MAGNETS

by Earl Minser

Who could argue with the statement . . . "farming gets more demanding and complicated every year"?

Keeping up with a fast moving field of agriculture can really present problems. One year a farmer thinks he has everything figured out . . . his equipment is all in good condition . . . he's farming a reasonably large acreage . . . margins have been OK in the past so that things averaged out in the market place from year to year.

Then, one morning he suddenly realizes that the whole picture of producing corn and soybeans is changing. Land prices are higher . . . taxes are up . . . profit margins are narrower, as is the space between rows in many fields. He has been a good farmer in past years. Now, he suddenly realizes that to stay in business and continue to make a good living, he must start doing everything 'more right than ever before' and keep up with changing times.

Some of these agricultural economic facts of life can be credited with most of the motivation that has gone into the creation of Farm Show's Corn and Soybean Clinics . . . this new dimension in education and selling.

Perhaps you were one of those who attended the 1968 round of clinics just completed. The shows were held in some fifty locations in South Dakota, Minnesota, Nebraska, Missouri, Iowa, Illinois, Indiana, Ohio and Michigan. Thousands of farmers turned out.

The Clinics, produced and staged by Farm Shows, Inc. of Madison, Wisconsin were sponsored by a half dozen commercial companies who wish to make sure that as many farmers as possible are kept up-to-date from year to year on these very important changes that are taking place. Companies with modern stories to tell who participated included Allis-Chalmers, Amchem, Behlen, DeKalb Agricultural Association, Shell Chemical Co. and Smith-Douglass fertilizer.

As you can see, the nature of the total 6 hour presentation covered everything from preparing the seed bed through the drying and storing of the harvested grain.

Many thousands of volumes of agricultural research material are written every year. Naturally, these volumes contain millions of words and would fill many large rooms if stacked solid. Farmers simply do not have the time to do much reading. It is the responsibility of others to search through all of this material and "bother the farmer" with only that information that will directly help him. This is what

the Farm Shows Corn and Soybean Clinics did.

Farmers started to arrive at the sites of the farm clinics about 8:30 in the morning. They were pretty busy even before the formal program started . . . filling out registration cards, watching out-of-door movies on hunting and shooting and enjoying coffee and donuts. The hot coffee was especially appreciated by the hundreds of farmers attending the clinics in subzero weather.

Smith-Douglass brought the fertilizer story to the farmer-guests. Producing a good corn or soybean crop is not too unlike feeding livestock. A good balanced feeding program pays off in optimum yields and maximum profit. Spokesmen for the company recommended following a good soil testing program. They further recommended that some fertilizer be placed in the row close to the seed for fast utilization in the early growth stage.

The man with the big S-D on his shirt had a special message concerning use of fertilizer on soybeans. He said, "There are all kinds of mixed feelings about soybean fertilizing . . . farmers cannot expect soybeans to do their best if they have to do it on leftovers from last year's corn crop." His presentation, like most of the others, stressed maximum use of \$300 to \$1,000 per acre land.

The DeKalb Agricultural Association had a good story to tell on the breeding and development of constantly improving seed corn varieties. The speaker said that the ability of the farmer to make better yields depends directly upon his suppliers to keep coming up with better products for him to use.

"The pressure is on us much as it is on the farmer," he said. "We are constantly developing seed corn hybrids superior to those already in production. This is a continuous job with us and I am sure others on the Clinic Program have research programs that never end too."

There probably are few farmers left who doubt the yield power of single-cross seed corn varieties or the sound economics involved in planting them.

Ways of planting are changing, too. The Allis-Chalmers story was broken down into two segments. The first was a movie on farm power which featured the many new tractors now offered to fit any operation.

The second part of the Allis-Chalmers presentation brought to light some of the

We are considered one of the largest suppliers of strawberry plants in the U.S.

basic changes taking place in the field . . . changes such as planting corn and soybeans in narrow rows and minimum tillage. The company was a leading proponent of narrow rows and has developed a whole new line of farm equipment that permits the farmer to go in that direction any time he wishes. The experience of Clyde Hight of Moweaqua, Illinois in both narrow row and limited tillage practices was featured in a film presentation in which Clyde, on film, answers questions tossed at him by the moderator who was there in person. It was a clever method of conducting a question and answer session. The same technique was used with Harry Young, the North Carolina farmer who has done so much work in the area of double cropping and no-til planting.

And where would today's farmer be without the chemical industry? Amchem was well represented at the meetings and left no doubt in the minds of soybean producers present that it does, indeed, pay to use good herbicides like their own Amiben. A humorous but informative film entitled MORE JACK FROM YOUR BEAN-STALK pointed out that there is no shortcut to success in the soybean business. This slide presentation, along with the entire story of controlling annual broadleaf weeds and grasses sent farmers home with the knowledge that it costs far less to control weeds than to let the weeds have the crop.

Another Amchem product, Butyrac 175, is a very special herbicide that can actually effectively combat the much despised Cockerbur.

Another invisible robber of farm profits is that group of insects that live in the soil and do their dirty work underground. On hand throughout the cornbelt to tell farmers how they can effectively fight worms, beetles, maggots, grubs and a host of other insects was the Shell Chemical Company.

An excellent film entitled A VERY GOOD YEAR featured close-up footage of these destructive soil insects actually eating planted seeds and the tender root and stalk shoots . . . before they even have a chance to get a good start. Probably you all have heard of Shell's popular product, Aldrin. This insecticide and its proper use was more or less featured in the Shell presentation. They included, however, the use story of Heptachlor as well.

Thus far, we have the crop pretty well cared for. It has been planted . . . much of it in narrow rows, we have fertilized properly . . . applied herbicide and insecticide. We'll have to skip the growing season and get through the harvest quickly with a new Gleaner Combine . . . which brings us to the last member on the Corn and Soybean sponsoring team.

The speaker representing the Behlen Manufacturing Company greeted farmers present with a pledge to show them more reasons for staying UP ON THE FARM. He said the technical business of farming is one that really puts a man's total ability to the test and that those who have survived no longer live down on the farm.

Behlen had the job of advising the farmer what he should do with the grain that he brings in from the fields. He was well supplied with information, too, being a rep-

resentative of a company who has led the way in crop drying and storage facilities. The speaker explained why it is necessary to do more than just put the grain in a tank and forget it. He told of the necessity of temperature control and aeration to hold down condensation that can cause spoilage. Many good engineering-oriented illustrations made the problem more easy to understand.

Many farmers dry their grain and hold it in storage until a future time when prices are better. Many a farmer has paid for his new storage facilities with just a few crops by planned marketing in this way.

Every Corn and Soybean Clinic was wound up with a brief talk prepared and delivered by a guest speaker. In most cases the speak-

er was a farmer . . . someone like Clyde Hight or Harry Young, previously mentioned . . . or John Reiser, the central Illinois farmer referred to by practically everyone as "the Soybean King"

The EXPERTS appearing on the program were then put to the test with a good bombardment of questions from farmers in the audience.

One farmer described his experience of having attended one of the clinics this way . . . "I learned how to fight bugs, kill weeds, fertilize, plant modern seed with big modern equipment, how to harvest my crop, dry it properly and put it in safe storage until the price is right."

Then, another was heard to say, "I think I learned more here today than I did in four years of Ag College. Of course I'm just kidding . . . I think," he added.

## Short on height! Long on Yield!

It's no coincidence that modern DeKalb Brand XL Corn Varieties—the short ones—measure up so well in the yield department. Shortness is one of the reasons the XLs take to high population—the key factor in the highest yields. You appreciate short stalks at harvest, too . . . they stand better, and run through machines easier. No wonder there's a record demand for DeKalb—Big name for Big yields.

#### ORANGE REFRIGERATOR CAKE

2 tablespoons unflavored gelatin	1/2 pound miniature marshmallows
1 1/2 cups water	3 dozen single lady fingers
1 cup sugar	1 cup chopped California walnuts
3 tablespoons lemon juice	1/2 cup heavy cream
3/4 cup orange juice and pulp	2 tablespoons sugar
2 cups heavy cream, whipped	Orange sections
	Grated orange rind

Soak gelatin in 1/2 cup water about 5 minutes. Heat remaining water and 1 cup sugar to boiling point; add softened gelatin and stir until gelatin is dissolved. Add lemon juice, orange juice and pulp and mix. Chill until mixture is slightly congealed, then beat until light. Fold in 2 cups whipped cream and marshmallows. Line bottom and side of a 9-inch spring form pan with lady fingers, placing the rounded side next to the pan. Place a layer of gelatin mixture on the bottom layer of the lady fingers, then a layer of nuts; repeat until all gelatin mixture and nuts have been used. Chill until set. Garnish with additional sweetened whipped cream, orange sections and grated orange rind. Yield: 1 cake.

#### CHOCOLATE ORANGE VELVET

2 8-ounce packages cream cheese, softened	1/2 cup sugar
1 cup heavy cream	2 tablespoons grated orange rind
1 6-ounce package semi-sweet chocolate	

Whip cream cheese and heavy cream together. Add remaining ingredients and beat at high speed until light and fluffy. Pour into ice cube tray and freeze until firm. Cut into pie-shaped pieces. Makes 6 to 8 servings.

#### ORANGE SURPRISE CHIFFON PIE

One 9-inch pie

1 1/2 cups sifted flour	1/2 cup shaved sweet chocolate
1/2 teaspoon salt	1 tablespoon grated orange rind
1/2 cup margarine	Chocolate curls, if desired
4 to 6 tablespoons cold water	

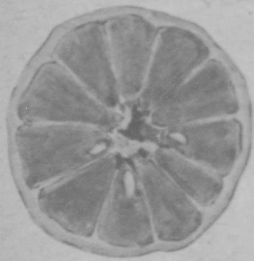

#### Orange Chiffon Filling

Sift together flour and salt. Cut in margarine until pieces are size of small peas. Sprinkle with water, a little at a time, mixing lightly until dough begins to stick together. Turn out onto lightly floured surface and press together. Roll out to circle 1/8-inch thick and fit gently into pie pan. Trim pastry; turn under and flute edge. Prick to allow steam to escape. Bake in preheated 450° oven, 12 to 15 minutes, or until lightly browned. Cool. Spread one-third of Orange Chiffon Filling in pie shell. Sprinkle with one-quarter cup shaved chocolate. Spoon half of remaining filling over chocolate and sprinkle with remaining chocolate. Spoon rest of filling over chocolate. Garnish top with orange rind and chocolate curls, if desired. Chill until firm.

#### Orange Chiffon Filling

1 envelope unflavored gelatin	1 can (6-ounce) frozen orange juice concentrate, thawed
1/4 cup cold water	1 cup whipping cream
3/4 cup milk	1/4 cup sugar
2 eggs, beaten	
1/2 cup sugar	

Soften gelatin in water. Scald milk. Mix together eggs and 1/2 cup sugar. Blend a small amount of hot milk into egg mixture. Slowly add egg mixture to milk, stirring constantly. Mix well. Cook over low heat, stirring constantly, until custard is smooth and thickened (about 15 minutes). Remove from heat and blend in softened gelatin, stirring until gelatin dissolves. Blend in orange juice concentrate; chill until partially set. Beat cream until frothy. Gradually add sugar and beat until stiff. Carefully fold into gelatin mixture.

# RANGES

#### QUICK TRICKS WITH ORANGES

Cut 3 oranges in half lengthwise, stem to blossom end. Carefully ream orange halves, keeping shells intact and reserving 3/4 cup fresh juice. Prepare one 3-ounce package pink grapefruit or orange flavored gelatin according to package directions, using 3/4 cup fresh orange juice in place of cold water. Chill until syrupy. Pour into orange shells; chill until very firm. To serve, cut each filled shell into 3 wedges and arrange on crisp lettuce or serve as an accompaniment for poultry or meat. Makes about 6 servings.

Fresh orange adds a mild aromatic flavor boost to hot tea. Slice 1 orange, unpeeled, into cartwheels. Stud peel with whole cloves and place slices in your teapot before adding tea and boiling water. Steep the usual time. Orange slices need not be removed when pouring tea.

Vanilla ice cream can be "dressed up for company" with Fresh Orange Sundae Topping. Peel 3 to 4 oranges and cut into bite-size pieces. Combine orange pieces with 1 cup sugar and 1/2 teaspoon salt. Bring to a boil; simmer for 10 minutes. Serve chilled over scoops of ice cream; sprinkle with chopped California walnuts. Makes about 1 1/4 cups topping.

Follow recipe for Toll House cookies and add 1 tablespoon grated orange rind to the shortening mixture.

#### DE LUXE ORANGE BROWNIES

1/2 cup sifted flour	2 eggs
1/2 teaspoon baking powder	1/2 cup sugar
1/4 teaspoon salt	1 teaspoon vanilla extract
1 6-ounce package semi-sweet chocolate morsels	1 cup chopped California walnuts
1/2 cup margarine	1 tablespoon grated orange rind

Mix and sift flour, baking powder and salt. Melt morsels and margarine and mix well. Beat eggs until light; add sugar gradually and beat until thick; add sifted dry ingredients, chocolate mixture, extract, and orange rind and mix. Fold in walnuts. Spread batter in a greased 8-inch square pan. Bake 375° for 30 minutes. Cool and cut into squares. Yield 1 1/2 dozen. Frost with Orange Butter Cream Frosting.

#### Orange Butter Cream Frosting

1/2 cup soft margarine	1 teaspoon grated orange rind
1/2 teaspoon salt	2 tablespoons milk (about)
3 1/2 cups sifted confectioners' sugar	
2 unbeaten egg yolks	

Mix margarine, salt and 1 cup confectioners' sugar until light and fluffy. Add egg yolks and rind; beat well. Add rest of sugar and milk alternately, beating till very smooth and of spreading consistency.

#### ORANGE BLOSSOM ANGEL FOOD CAKE

##### Angel Food Cake Mix

Make cake as directed on package. When thoroughly cold remove from pan. Split cake into 3 layers. Put layers together with Orange Filling . . . use about 1/2 cup between each layer and 1/2 cup to garnish top of cake.

##### Orange Filling

1 cup sugar	2 tablespoons grated orange rind
1/2 teaspoon salt	1 1/2 tablespoons lemon juice
4 tablespoons cornstarch	2 tablespoons margarine
1 cup orange juice (fresh or frozen diluted according to directions on can)	

Mix in saucepan sugar, salt, cornstarch. Stir in orange juice slowly. Bring to boil, stirring constantly. Boil 1 minute, until thickened. Take from heat; blend in orange rind, lemon juice, margarine. Cool. Makes about 1 1/2 cups.

## WAKE UP TO A TEMPTING BREAKFAST

by Betty Stern  
Farm and Home Food Consultant

Let the wonderful flavor and aroma of bacon, pancakes, or yeast rolls coax breakfast-skippers into good habits. Nutritionists say one-fourth to one-third of our daily food intake should be at the morning meal.

To help you plan nutritious meals here are four basic breakfast patterns. Try them soon. We'll wager you'll enjoy more cheerful good mornings at your house.

**BREAKFAST MENU NO. 1**  
Baked Apple  
Cream of Wheat  
with Brown Sugar and Milk  
Toasted No-Knead Bread  
Butterfly Orange Muffins  
Coffee Milk

### DOUBLE DUTY NO-KNEAD BREAD

2 packages active dry yeast  
6 cups flour  
2 tablespoons sugar  
1 tablespoon salt  
1 cup milk  
1 cup water  
1/2 cup margarine  
2 eggs

In a large bowl, thoroughly mix 2 packages of undissolved active dry yeast with 2 cups flour, 2 tablespoons sugar and 1 tablespoon salt.

Heat over low heat until warm 1 cup milk, 1 cup water and 1/2 cup margarine. (Margarine need not melt.)

Add liquid mixture to dry mixture. Beat 2 minutes at medium speed of electric mixer, scraping bowl occasionally.

Add about 1/2 cup flour (or enough to make a thick batter), and 2 eggs. Beat on high speed for 2 minutes, scraping bowl occasionally.

Stir in additional flour (3/4 cups) and mix to a soft dough. Divide dough in half. Shape each half of dough into a loaf on a well-floured board. Place into 2 greased, 9x4x3-inch pans

and cover. Let rise in warm place until double in bulk, about 45 minutes to 1 hour. Bake at 350° for 1 hour.

### BUTTERFLY ORANGE MUFFINS

2 cups sifted flour  
3 tablespoons sugar  
1 tablespoon baking powder  
1 teaspoon salt  
1 egg, beaten  
1 cup milk  
3 tablespoons margarine  
1 tablespoon grated orange rind  
24 mandarin orange sections, drained

Sift together flour, sugar, baking powder and salt into mixing bowl. Blend together egg, milk, margarine and orange rind. Add liquid all at once to flour mixture, stirring only until flour is moistened. Fill greased muffin cups 3/4 full. Place 2 orange sections on each muffin in opposite directions to form butterfly design. Bake at 425° for 20-25 minutes or until golden brown.

**BREAKFAST MENU NO. 2**  
Chilled Orange Juice  
Cereal and Milk  
Bacon and Eggs Mornay  
Jam Filled Coffee Cake  
Coffee Milk

### JAM FILLED COFFEE CAKE

2 packages active dry yeast  
5 cups flour (about)  
1/2 cup sugar  
2 teaspoons salt  
1/4 cup water  
1 cup milk  
1/4 cup margarine  
2 eggs  
Fruit jam

In large bowl thoroughly mix 2 packages undissolved active dry yeast, 1 1/2 cups flour, 1/2 cup sugar, and 2 teaspoons salt.

Heat together in a saucepan 1/4 cup water, 1 cup milk and 1/4 cup margarine until warm. (Margarine need not melt.)

Add liquid mixture to dry mixture and beat for 2 minutes at medium speed of electric mixer, stirring occasionally.

Add about 1/2 cup flour, or enough flour to make a thick batter and 2 eggs. Beat on high speed for 2 minutes, scraping bowl occasionally.

Turn out on lightly floured board and knead until smooth and satiny. Place in greased bowl, cover and let rise until doubled (about 2 hours).

When light, punch down. Divide into 2 equal portions. Cover and let rest 10 minutes. Working with one portion of dough at a time, roll into a rectangular sheet about 10 inches long and 15 inches wide. Spread jam lengthwise over 1/2 the rolled dough. Cut the other half of the sheet of dough into an even number of strips 3/4-inch wide, cutting to the edge of the filling.

2 adjoining strips together, and lay twist over filling. Fasten ends of twisted strips by tucking them under edge of coffee cake. Place on greased baking sheet. Let rise until doubled (about 1 hour). Bake at 375° for 25-30 minutes. Yield: 2 coffee cakes.

### BACON AND EGGS MORNA Y (ovenbaked)

1 pound bacon  
8 eggs  
4 English muffins  
Margarine  
Mornay Sauce

Lay strips of bacon with fat edge of one overlapping lean of the next strip on rack in any shallow pan. Bake on top shelf of oven at 375° for about 25 minutes, until desired crispness. Drain on paper toweling. Set aside 16 slices and break remaining slices into crumbles. Meanwhile break eggs into a saucer, one at a time, and slip into well-greased cups of muffin pan. When bacon is nearly done, place eggs in oven and bake 6-7 minutes, then turn off oven and leave eggs in until set, about 5 minutes. Remove from pan immediately and keep warm. Split, toast and spread margarine on muffins. Cross two slices bacon on each muffin half, top with egg and pour Mornay Sauce over. Garnish with bacon crumbles.

### Mornay Sauce

4 tablespoons margarine  
4 tablespoons flour  
2 cups milk  
1/2 cup cream  
1/4 cup shredded Cheddar cheese  
1/2 teaspoon salt  
Few grains pepper

Melt margarine over low heat in a medium size saucepan. Blend in flour, stirring to keep smooth. Remove from heat and blend in milk and cream. Return to heat and cook until thickened, stirring constantly to keep smooth. Remove from heat and stir in cheese and seasonings. Serve hot.

### PANCAKES WITH VARIOUS TOPPINGS

2 cups pancake mix  
1 1/4 cups milk  
1 egg  
2 tablespoons melted margarine

Blend together pancake mix, milk, egg, and melted shortening. Bake on hot, lightly greased griddle; turn only once when tops appear bubbly and slightly dry at edges.

### Pancake Toppings

#### MAPLE-NUT:

Combine 1 cup brown sugar, 3/4 cup water and 1/2 teaspoon salt. Cook 5 minutes. Add 1/2 teaspoon maple flavoring and 1/2 cup chopped California walnuts. Serve hot over pancakes.

#### SAUCY ORANGE:

Blend together 1/2 cup margarine, 1/2 cup powdered sugar and grated rind and juice of 1 orange. Heat combined mixture and serve over pancakes.

### CHOCOLATE MORSEL OR WALNUT PANCAKES:

After spooning batter onto griddle, sprinkle tops immediately with semi-sweet chocolate morsels or chopped California walnuts. Chocolate Chip pancakes are good served for dessert with vanilla ice cream on top.

### BACON OR PORK SAUSAGE LINKS COOKED IN OVEN

Separate bacon slices; arrange slices on rack in shallow baking pan. (Jelly roll pan with cookie cooler over top works very well.) Bake in hot oven (400°F.) without turning until slices are well browned, about 10 minutes.

Separate sausage links; arrange on rack in shallow baking pan. Bake at 400°F. until done and browned, 20 to 30 minutes. Turn links after 15 minutes of baking.

**BREAKFAST MENU NO. 3**  
Half Grapefruit
