# "If you're unhappy with the phone company. I'll get you action."

### "It happens.

"Sometimes people have a legitimate complaint against the phone company.

"But too often they go to someone else for an answer. When I should be the first to hear about it.

"I'm a service representative at Michigan Bell, and if you need an answer for a service slip up, call me first.

"We have a new way to handle complaints and unusual service requests much faster. Now if you should ever have a question for the phone company, you don't have to contact someone else.

"To take care of these hang ups, Michigan Bell has set up 'Customer Service Action Teams' in its local business offices.

"These teams are here to make sure you get what you're used to getting: the tops in service from Michigan Bell. Even on those out-of-the-ordinary requests.

'Customer Service Action Teams' are made up of specially trained people.

"They know the best ways to track down misplaced orders. To answer uncommon questions. To process even the most complicated service requests.

"So if you ever have a misunderstanding with the phone company, call your service representative at the local Michigan Bell business office. If she can't solve your problem through her regular channels, she'll turn it over to her 'Customer Service Action Team'.

"Now, if you contact us first, you'll get faster action.'

To comfort you in your bereavement. We strive to lighten the burden for the bereaved in every way possible . . . through beautiful surroundings that bring tranquility.
