## Check Hunting Camp Burglaries

Two hunting camp burglaries are under investigation by Iosco Sheriff's Department.

The hunting camp of Edward Davison Sr., East Tawas, located at the end of the old Martindale Road in Baldwin Township, was forced open on July 15. A bottle of liquor and a .22 caliber rifle were stolen.

Ralph Lixey, owner of Kickapoo Hunting Club, Section One, Baldwin Township, reported a burglary the same day.

Sheriff's officers are investigating the destruction by slashing of two tires on a car owned by Mrs. Perry Crocker at Midway Drive-In Restaurant, Tawas City.

## Old School Bell Stolen From TA Football Field

Officials of Tawas Area School reported Tuesday afternoon that an old school bell had been stolen from its concrete pedestal at the school's athletic field. No tire tracks were found near the scene.

The bell was taken some time since Friday and school officials are offering a reward for information leading to the arrest and conviction of those responsible.

Officials believed the bell was stolen for its value as an antique.

SCENIC SPLENDOR of the AuSable River was enjoyed by 27 members of Hale Boy Scout Troop during a 50-mile hike which started July 13 at Luzerne and ended Sunday. The boys and their leaders camped along Loud Dam Saturday night and enjoyed one of the most beautiful scenic spots along the river. Several of the boys are seated along the rim of the high banks in the top picture and are watching two canoes in the river far below. Leaders Gene Adams and James Slosser are shown at lower left with Scouts Bruce Bernard and James Bellville along the trail. Four boys seated in their tent at lower right are, from left, Jody Bissonnette, Brent Mann, Bruce Wilson (assistant scoutmaster) and Gary Baker. Meeting the group for a Saturday night chicken fry was Scoutmaster Richard Parkinson. Other leaders included James Ricker and Gene Spearman. # Council Hears Protests on Hill Top Rd. Closing

Following a public hearing Monday night, Tawas City Council tabled action on closing Hill Top Road from Grove Avenue to Elms Avenue in the Second Addition to the Elms.

A four to two roll call vote saw action deferred until the next council meeting. Voting in favor of the action were Aldermen Cecil Cabbie, Clark Tanner, Howard Hatton and Frank Ahonen. Opposing the tabling resolution were Aldermen Jack Lardie and Martin Wellna.

The closing of this 33-foot street had been requested earlier this year by Carl B. Babcock Jr., who stated in his petition that the road was not developed, that it was of an inadequate width, that it contained no public services and that he was the sole property owner affected. The city planning commission had no objection to the closing.

Five written and one verbal protests were received over the closing, including two from governmental units. In his presentation to the council, Babcock's attorney, Herbert Rutzler, cited a 1954 supreme court ruling to the effect that any objection from outside the city was not a valid one.

Otis Love, representing the Iosco County Road Commission, objected to vacation of the road for the reason "that such vacation would be contrary to the public interest presently and in the future, in that Hill Top Road is situated on a section line and would constitute an integral part of a proposed county road connecting the Townline Road with M-55 to be constructed in the future."

A letter from LaVerne Koepke, Tawas Township supervisor, stated that

the township board had unanimously opposed this vacating on July 12. "Hill Top joins the Tawas Township portion of the road known as Bischoff Road," stated the resolution. "The future plans for development of Tawas Township include completion of Bischoff Road from Townline Road to M-55."

Norman Hope, a resident of 1160 Grove Avenue, felt that the road should not be made a dead-end street. He said that homes to be built in the near future will put a lot more traffic on Grove and Elms avenues and he felt that the heavy traffic should come from Townline Road as was originally planned.

Arthur E. Povish, 464 West Elms Avenue, stated that the proposed closing "would be privacy for one, while more traffic would be added for the others surrounding, thus being no advantage to us."

Mr. and Mrs. Martin Wellna's letter stated that the closing would be contrary to the public interest and would solely benefit private rather than the public interest.

A verbal objection was voiced by Mr. and Mrs. Floyd Malecke of Saginaw, who are residents of the First Addition to the Elms. During discussion, Hatton said that it was a sad mistake for the city when the subdivision was originally accepted with a 33-foot street. He pointed out that a street of this narrow width was difficult to plow in winter months and that it was too narrow for seal coating.

He informed the council, however, that he would abstain from voting either way on the question because the petitioner was his nephew and

there would be a conflict of interest.

Alderman Wellna, who said that creating a dead-end street is wrong and that it would "penalize property owners in the entire area," offered a resolution to deny the petition. Hatton, serving as mayor pro tem in the absence of Mayor John St. James, believed that Wellna was out of order because of a conflict of interest. The Wellnas own property in Tawas Township adjacent to Hill Top Road.

A vote was then taken deferring action until the next council meeting.

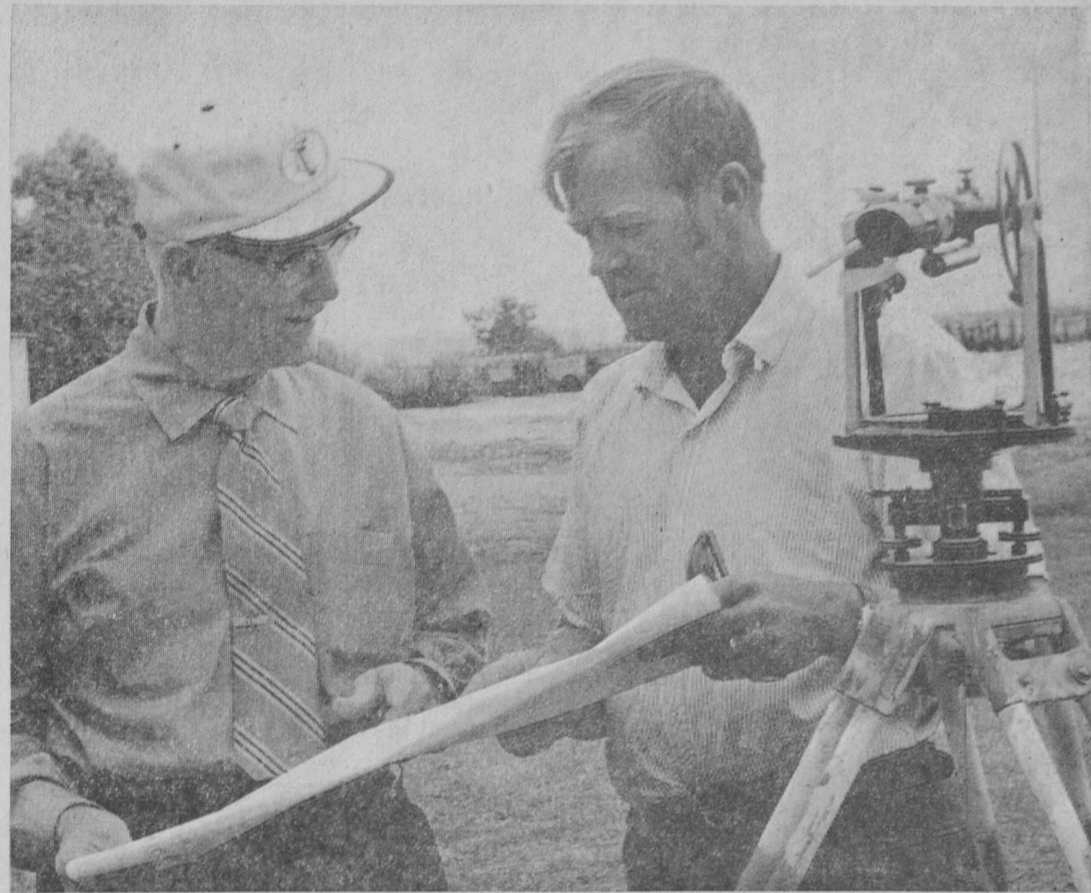

## Damage Suit Results From Dog Bite

A \$10,000 damage suit has been filed in Iosco Circuit Court against F. William Kerr, owner of the AuSable Inn, Oscoda.

Thelma Keyser of Bay City seeks damages for allegedly being attacked and bitten by the defendant's dog "without any fault or provocation by the plaintiff" on July 2.

The petition claims that the defendant was negligent for keeping a dog "with known vicious propensities in a place that is open to the public."

The plaintiff claims to have suffered grievous injuries to the leg, mental anguish and extensive medical expense.

DISCUSSING plans for revamping the parking lot at the Tawas City Park are Mayor John St. James, left, and Eugene Goss, surveyor for Edmands Engineering, Incorporated, Bay City, the city's engineering consultant.—Tawas Herald Photo.

## Parking Lot Revamped by Tawas City's Engineer

Engineering has started for revamping of the parking lot in the Tawas City Park as the third phase to complete a \$25,000 park expansion and development program.

Developed by the Tawas City Park Board, the final phase calls for purchase of two more concrete animals, plus grading and blacktopping of the parking lot.

The project cost would be an estimated \$7,300, of which the city's share would be \$1,500. The two additional animals would cost \$2,300 and work on the parking lot would cost an estimated \$5,000.

Del Myles, park board chairman, said that surveyors for Edmands Engineering, Incorporated, were here Friday to study revamping of the parking lot to use a portion of the property recently added to the park on the west end.

Myles said that present parking along the shore was to be removed in order to better utilize park facilities in the two sections.

He said that relocation of parking would reduce the hazard for children traveling between the two sections of the park, as well as to make better use of lake shore property.

A total of six concrete animals will eventually be located in the park. The first three animals, built by Gordon Clute of Tawas City, were moved to the park in June and have provided enjoyment for hundreds of children.

## Governor Has New Appointee

# 'Mike' Nunn Loses Commission Seat

Eastern Michigan lost its representation on the Michigan Department of State Highways Commission Friday when Gov. William G. Milliken appointed E. V. Erickson of Grand Haven to replace W. D. "Mike" Nunn of East Tawas on the commission.

Nunn, former East Tawas businessman, was one of the original members of the commission when it was formed in 1965, pursuant to the new constitution. Nunn had been reappointed in 1967 by Gov. George Romney.

In a letter to the Tawas City Council, Governor Milliken stated: "This was a very tough decision for a number of reasons, but I believe that if you had in your possession all of the factors which are available to me on this appointment, you would have followed a similar course."

The immediate reaction of city councilmen was that the state seems to be more interested in Western Michigan than Eastern Michigan. Councils from both Tawas City

and East Tawas endorsed Nunn for reappointment to the position.

## APW Bill Vetoed; Other Funds Eyed

A letter from Cong. Elford A. Cederberg notified the City of Tawas City last week that the Accelerated Public Works bill was vetoed and the veto was upheld by the senate.

The city had written the 10th district congressman to determine if this city's proposed sewer expansion program could be included under provision of this new legislation.

In his letter, Cederberg said that the emergency employment act which was recently passed by congress will provide the jobs which were the object of the public works legislation on a more immediate and longer lasting basis.

Cederberg asked city officials to provide him with some idea of the various areas which would require assistance.

"I can assure you that I would be most willing to look into the possibility of obtaining federal aid through existing government programs," he stated.

## Topical Fluoride Program Near

The summer topical fluoride program in Tawas area will begin Friday, July 23, at the Immaculate Heart of Mary School Building on US-23, Tawas City, according to Nellie Hancock, chairman of the Tawas Newcomers' topical fluoride committee.

Carol Horne, East Tawas, a senior dental hygiene student at Ferris State College, will clean the children's teeth and apply the fluoride solution.

Two hundred children have enrolled in the program which consists of four visits to the clinic. At the first visit, the teeth are cleaned and a solution of fluoride is applied directly to the surface of the teeth. Only the fluoride application is re-

peated at the three succeeding visits. This procedure has been shown to reduce tooth decay by about 40 percent, compared with the 60 to 65 percent reduction in cavities obtained with fluoridated water, she said.

According to the Michigan Department of Public Health dentists, who assisted in the development of the program and will supervise Miss Horne, the topical fluoride should not be considered a substitute for regular care of the teeth either at home or by the dentist. Although fluoride applications can help prevent cavities, it is still necessary for children to brush their teeth thoroughly, particularly after meals, avoid between-meal sweet snacks and visit their dentist regularly for professional care.

## East Tawas Building Permits

Building applications approved at East Tawas during the past two weeks are as follows:

Robert H. Webster, 313 Lakewood Drive, reroof, \$300; Kenneth L. Kennedy, 151 Warren Avenue, storage shed, \$250; Claude J. Davis, 316 Wadsworth, replace garage door, \$150; Gordon Ellis, 622 Main Street, new siding, \$600; Emil Deprest, 1007 Wadsworth, tool shed, \$200.

Richard M. Lee, 612 East State, reside home, \$600; Eugene Curry, 10-13 Wadsworth, remodel, \$200; William D. Lyon, 1275 Tawas Point Road, addition to garage, \$500; Timothy D. Reedy, 218 Main, remodel, \$300; Douglas Jilbert, 705 Rainbow Trail, fireplace, \$750; James Daley, 610 West Washington, fence, \$50.

### GRACE EV. LUTHERAN CHURCH

EAST TAWAS

Announces and invites the community to participate in her Vacation Church School (VCS). It will be held the first two weeks in August (1st-15th) from 9:00-11:30 A. M. It will be available for children from Nursery age to the 6th grade.

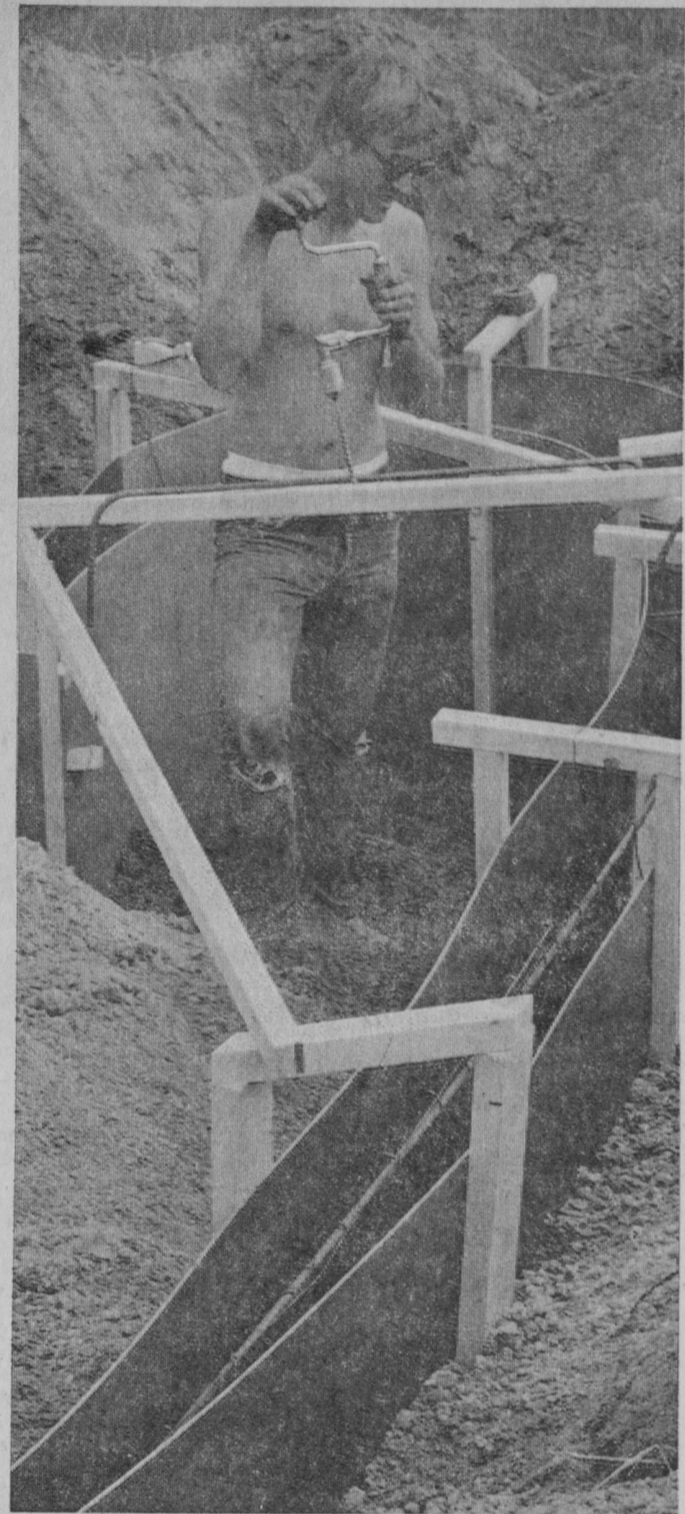

The course of study is concerned with the child and his experience with the chaotic world in which he lives. For the child of today must often feel that he lives in a world of fragments, with all kinds of sharp, angular experiences that do not make up a united whole. The child needs to feel that there is one world, a world which GOD Created and GOD Sustains.

The theme of the VCS courses therefore addresses itself to this need; for it is about the INTERDEPENDENCE OF LIFE IN GOD'S WORLD. It is hoped that the community may take advantage of this program. If you wish your child to participate please contact Grace parish by phone: FO 2-5371 and we will enroll your child.

We hope to see you then for VCS August 1st-15th at 9:00-11:30 A. M.

NORTHERN MICHIGAN UNIVERSITY'S art department at Marquette has temporarily replaced paint brushes with steel, lumber and cement. Carl Tuljus, Hale, along with other NMU art students, is helping to construct a 16-foot sculpture for Northern's art display and the coming of Artrain. The molds, part of which are shown here, have been buried near the Artrain site, filled with cement and left to dry, to be raised just prior to the opening of the program.—Northern Michigan University Photo.

## Pakistan Self-Help Projects

Community Development Foundation (CDF), an international voluntary agency headquartered in Norwalk, Connecticut, assisted tidal wave survivors in the restoration of the productivity of their land so that they once again can harvest rice as shown above.

East Pakistan survivors of last November's tidal wave have completed five community development self-help projects of their own choosing through the assistance of Community Development Foundation (CDF), an international voluntary agency headquartered in Norwalk, Conn.

The CDF Pakistan community counselor encouraged people suffering from incredible devastation to make plans to solve urgent problems that threatened their survival. To assist them in meeting these urgent needs CDF issued cash awards to honor individuals working on community development self-help projects.

The most immediate concern to Pakistan survivors was in the restoration of the productivity of their land, which would enable them to grow more food. One such project was the building of a dam over the Kalibari Canal by the villagers of Antali Thana. The dam, built with 5,334 mandays of volunteer service, prevents the pollution of their farm land by stopping the inflow of saline water onto approximately 450 acres of land now irrigated by 26 pumps.

Through their self-help efforts the villagers will now annually realize over 175,000 lbs. of rice for many years to come.

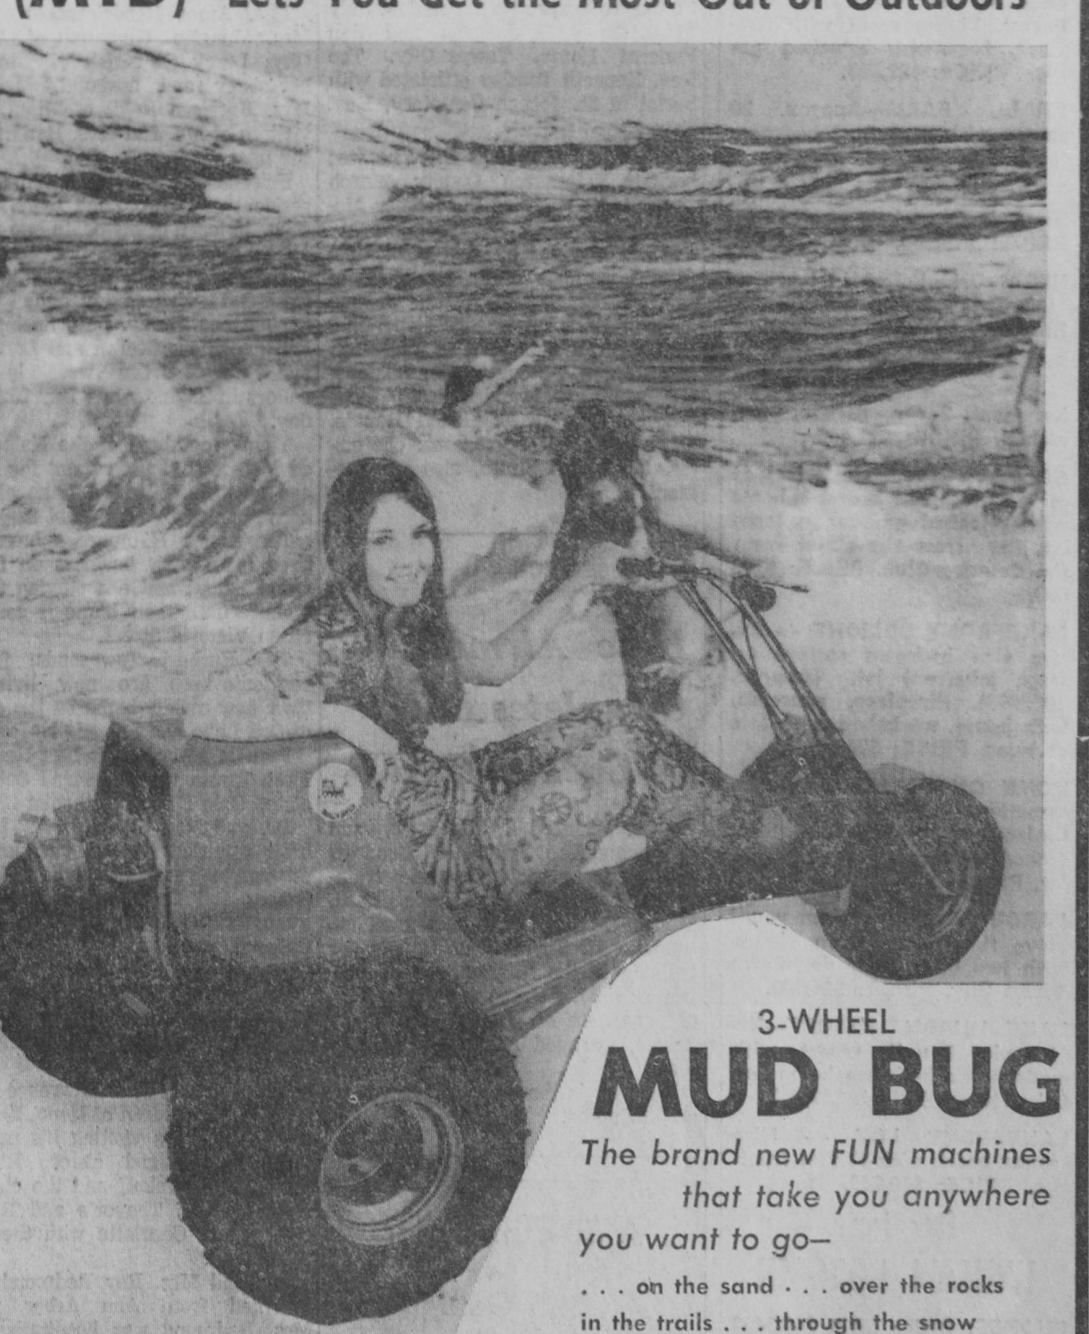

Two community development roads were constructed in Noakhali District and a third in Patuakhali District. All three serve as a means of transporting food commodities to the local markets. Also an embankment project was constructed in Bakargani District. This two mile long embankment will protect 10 square miles of agricultural land from flooding and overflow of the Megna River.

Survivors in these areas have completed 29,734 mandays of volunteer labor. Community contribution in labor and planning on all five projects was valued at \$12,587 and over \$53,000 in contributed land value. The five unique rehabilitation projects have benefited over 151,000 tidal wave victims.

Community Development Foundation assists communities in this country and overseas to initiate and carry out projects which meet local needs and utilize local resources and local volunteer labor.

Incorporated in 1959, the Foundation was granted consultative status to the United Nations in 1966 by the U.N. Economic and Social Council. The Foundation is a member of the American Council of Voluntary Agencies for Foreign Service and is registered with the U.S. State Department Advisory Committee on Voluntary Foreign Aid.

# Tawas City Lost Second NEM Game to Mikado, 3-2

A passed ball and a wild pitch allowed two runs to score in the eighth inning Sunday and Tawas City Indians went down to a 3-2 defeat at the hands of visiting Mikado.

Until that time, the league-leaders enjoyed a slim 2-1 margin over Mikado. Chuck Petersen pitched the first seven innings and allowed only three hits and one run.

B. Morris went the distance for Mikado and scattered only eight hits. Tawas City scored its lone runs in the seventh inning when Mucha hit a leadoff triple. Busha walked. Sieloff was an infield out and H. Rollin struck out. Leslie singled home the first run and Krish scored Busha with a single.

Leslie came on to pitch the eighth and ninth innings. The visitors scored two runs on only one hit in the eighth inning to take the lead.

The locals threatened to tie the game in the last of the ninth when Sieloff and Blust hit back to back singles. A bunt by Leslie moved the runners along, but Morris fanned Krish and Pat Jordan to end the game.

Morris fanned 12 batters and Petersen struck out seven. Krish's two

singles topped the Tawas City batting attack.

## Powder Puff Derby Won by B. Grabow

Bob Kingen of West Branch, Darrell Broomline of Skidway Lake and Ed Muckenhaler of Turner were feature race winners in modified, stock and claimer's division, respectively, in Saturday night's racing card at Whittemore Speedway.

Powder puff trophies went to Brenda Grabow of Whittemore, first place; Alice Olar, Turner, second place; Carol McGathy, third place.

Event winners in the modified class were scattered among four drivers. John Gordon, AuGres, had the fastest qualifying time; besides winning the feature, Kingen won the first heat; the second heat went to Ron Troxell of Standish; Bob Fegan, Prescott, won the Australian pursuit.

Dale Zimmerman of West Branch recorded the fastest qualifying time in stock cars and won the first heat; Marty Musser, Alger, won the second heat; Charles Hayes, Tawas City, won the Australian pursuit.

Winners in the claimer's racing division were Jim Walker, Turner, first heat; Dale Bronson, Whittemore, second heat and Australian pursuit.

The annual midseason race is to be held this Saturday night at the speedway.

TAWAS JUNIOR BASEBALL LEAGUES completed another successful summer season last week with regular league play ending on Friday and all star games for the Knothole League and Pony League held Saturday afternoon and evening at East Tawas Athletic Field. These pictures were snapped during two games Thursday evening at the Tawas City fields, west of the elementary unit. The top picture shows an over-all view of one field. The picture at top left shows Johnny Riggs of the Braves swinging at the game's opening pitch. The picture at top right shows the Braves' dugout and players rooting for their side. Charles Smith is shown belting a homer in the picture at lower left and he crosses home plate below right. Two managers, Melvin Timreck and Randy Lanski, are checking over their lineup in the picture at center right.—Tawas Herald Photos.

All the women who attended Mini-College Day last week had a chance to take a test of their "executive ability." Unfortunately, we forgot to give them the answers. Just in case some of you readers were not at college day, I will repeat the questions here and give you the answers.

1. If you went to bed at 8 o'clock and set the alarm to get up at 9 o'clock in the morning, how many hours of sleep would this permit you to have?
2. Do they have of Fourth of July in England?
3. How many birthdays does the average man have?
4. Why can a man living in Winston-Salem not be buried west of the Mississippi River?
5. If you have only one match and enter a room where there is an oil lamp, an oil heater and some kindling wood, which would you light first?
6. Some months have 30 days and some have 31 days. How many have 28 days?
7. If a doctor gave you three pills and told you to take one every half hour, how long would they last?
8. If a man built a house with four sides to it, each with a southern exposure, and he looked out the window to see a bear wandering by, what color would the bear be?
9. How far can a dog walk into the woods?
10. What four words appear on every United States coin?
11. How many men on a baseball team? How many outs in an inning?
12. I have in my hand two United States coins which total 55 cents. One is not a nickel. What are the two coins?
13. A farmer had 17 sheep. All but nine died. How many did he have left?
14. Divide 30 by one-half. Add 10. What is the answer?
15. Two men played five games of checkers. Each won the same number of games. How can that be?
16. Take two apples from three apples and what do you have?
17. The archeologist who said he found a gold coin marked 45 B. C. was either lying or kidding. Why?
18. How many animals of each species did Moses take aboard the ark?
19. Is it legal in North Carolina for a man to marry his widow's sister?
20. Which side of the horse has the most hair?
21. If the father bull was in the barn and the baby bull was out eating grass, where was the mother bull?

- ANSWERS
1. One hour.
  2. Yes, there is a July 4 every-

where, but it is not always celebrated.

3. One, the rest are anniversaries of that day.
4. If he is living, he cannot be buried.
5. The match.
6. They all have 28 days.
7. One hour.
8. White. (To have four southern exposures, it must be at the North Pole.)
9. Halfway; then he is walking out of the woods.
10. In God We Trust.

Ogemaw Hills Ski Resort in Big Expansion

Sale of Ogemaw Hills Ski Park and plans for a \$3,000,000 development were announced last week by Ronald Bischoff, president of Brandenburg Valley, Incorporated, the new owner.

Located three miles northwest of West Branch, ski slopes are to be expanded, lodging is to be constructed to house over 100 guests, there will be a dining room, cocktail lounge, ski shop, snowmobile rental and clothing store.

An indoor swimming pool, gymnasium and sauna bath will be built to be used by resort guests throughout the year. Facilities are being arranged to host conventions and as a year around resort.

Now is the time to get those exhibits ready for the Iosco County Fair to be held July 28-31 at Hale.

The fair's premium list, distributed in late May by the fair board and as a special section of this newspaper, contains 13 different departments for entries.

Officials of the fair emphasize that this event is open to everyone in the county and more active participation by exhibitors is urged.

Superintendents of the various departments include: George Erickson, livestock; Adolph Siegrist, swine and sheep; Perry Shellenbarger, poultry; John Dooley, farm produce; Mrs. Gerald Ruckle, domestic arts; Mrs. Adele Brown, antiques; Mrs.

Louis Gilles, art, hobbies and handicraft; Val Samson and Adolph Siegrist, youth division; Elwood Ruckle, games and contests; Ann Strickler, flowers and plants; Mrs. Sherry Calvert, home economics; Robert Ruckle, superintendent of speed for harness racing.

The 1971 fair program begins Wednesday, July 28, with assembling of exhibits from 9:00 a. m. to 4:00 p. m. The big midway of Cooke Amusement Company opens at 1:00 p. m. for a four-day stand. Judging 4-H Club exhibits, except livestock, will be held at 7:00 p. m.

Thursday's program starts with judging of all 4-H livestock, except horses, at 9:00 a. m. Judging of open classes horses begins at 1:00 p. m. Thursday's program also opens three big days of harness racing.

Judging of 4-H horses opens Friday's program at 9:00 a. m.

Saturday, July 31, is the big day again for the 1971 fair with games and contests for all ages starting at 10:00 a. m. A parade will be held at 11:30 p. m.

Senior Citizens Enjoy Picnic

Ninety members of the Tawas Area Senior Citizens Club were present at the picnic luncheon in the East Tawas City Park Wednesday, July 14. Mrs. Nathan Sweeten was appointed secretary for the remainder of the year to fill the present vacancy. A report was given that the bake sale was a great success.

Next meeting will be held Wednesday, July 28, 12 o'clock noon, at the Oscoda Yacht Club.

Michigan Must Restore Driving Privileges---\$\$

The job of restoring the driving privileges of more than 12,000 Michigan motorists who are constitutionally suspended under the state's financial responsibility law has begun, it was announced by Sec. of State Richard H. Austin.

This does not include motorists who were found at fault and subsequently convicted in auto mishaps under Michigan's financial responsibility law, Austin explained.

At the same time, nearly \$210,000 in security deposits required by the law will be returned to hundreds of drivers.

Austin's action followed quickly on the heels of receipt of an opinion from Atty. Gen. Frank Kelley on the unconstitutionality of certain aspects of the Michigan financial responsibility law.

In addition to the restoration of driving privileges, Austin said the Michigan Department of State will erase from the records of more than 100,000 drivers any reference that they were suspended under the financial responsibility law.

Persons who have questions on any phase of the financial responsibility law may call 345-4300, extensions 336 or 238 in Detroit, or 373-2630 in Lansing, for clarification, Austin said.

Kelley's ruling was based upon a recent United States Supreme Court decision that overturned an unconstitutional portion of the financial responsibility law of Georgia, which is identical to the Michigan law.

Under that section of the law in both states, an uninsured motorist involved in an accident resulting in death, injury or \$200 damage or more must post a security deposit equal to the estimated damages, or submit an affidavit that all claims had been settled. If this requirement is not met within 60 days after an accident, the license of the uninsured motorist is suspended by the department of state.

The drivers who are to share in

the \$210,000 rebate met the security deposit requirement and were not suspended.

In the Georgia case, the supreme court held that a driver license could not be suspended without a finding of fault through due process of law.

Austin notes also that unless the legislature amends existing financial responsibility law, approximately \$100,000 of operating expenses will be wasted each year in view of the supreme court decision.

"Although the court has ruled that a driver license cannot be suspended or other action taken against a motorist until he has been judged at

fault in an accident," Austin commented, "the law still requires that any accident involving an uninsured motorist and resulting in death, injury or \$200 damage or more be reported by all drivers involved to the department of state."

"These reports now will serve no useful purpose, but they still must be filed by the department at an annual administrative cost of about \$100,000 unless the legislature acts."

The legislature now is considering House Bill 5283 that would eliminate the reporting provision of the financial responsibility law. The measure has passed the house and is in the senate commerce committee.

18-Year-Old Vote Termed Historic Moment in State

Sec. of State Richard H. Austin has praised ratification of the 28th amendment to the United States Constitution as an "historic moment" in our nation's history which opens the vote to a new and significant segment of our population.

Ohio became the 38th state to ratify the "vote at 18" amendment, fulfilling the two-thirds requirement for amending the constitution.

In effect, Austin explained, ratification of the amendment now permits young people between 18 and 21 years of age to vote in state and local elections. Previously, the United States Supreme Court had ruled that a congressionally-passed measure limiting voting by these persons only to federal elections.

"I have for a number of years been strongly in favor of granting the vote to citizens between 18 and 21 years of age," Austin said. "It has been difficult for me to accept the fact that an individual who must lay down his life in defense of our country and who is viewed as an

adult in the eyes of our courts could not participate in the election of our leaders and the formulation of our laws."

Austin called on all communities in the State of Michigan to "welcome these young voters into the mainstream of our political system. I urge every official in state government," Austin continued "especially city and township clerks, to carry out immediately the mandate of this new amendment and enter these citizens on our voting rolls as soon as possible."

"It is vital that our 18 to 21 year old citizens be encouraged to make use of their new responsibility at the first opportunity," Austin said. "If each of us moves quickly, we can demonstrate that democracy is capable of responding swiftly and effectively to the needs of our times."

High Point Drivers Not Always at Fault

It may not always be the high point violation driver who is involved in highway fatalities, a recent survey by the Michigan Department of State has revealed.

A limited study was conducted on Michigan's worst traffic fatality week-end of June 12-13 in which 31 persons lost their lives. It indicated that 27 of the 32 drivers involved had less than five violation points on their records.

Sec. of State Richard H. Austin said his department will continue to conduct such studies of fatalities to see if "there are patterns and to determine the types of drivers involved."

Of the 27 drivers below five points . . . no driver improvement actions taken because the initial driver improvement action, the warning letter, is sent out at the six-point level . . . 20 had no points on their records at the time of the accident.

And half of the 20 had never had a single point in their lives.

Thirteen drivers were in their first accident. Four were killed.

The same number, 13 drivers, were determined to have caused the accident they were involved in. The remaining 14 were not at fault.

The survey disclosed drinking and speed were major factors. Five drivers had been drinking. Six had been speeding.

Mathew Kienholz, Farm Appraiser, Died July 14

A retired government farm appraiser of 27 years, Mathew Kienholz of East Tawas, 81, passed away at his home Wednesday, July 14. Funeral services were held Saturday, July 17, at the Moffatt Funeral Home with the Rev. Kenneth Tousley officiating. Burial was in Veterans Cemetery, East Tawas.

Born in Big Stone County, Minnesota, July 30, 1889, he was a life member of F&AM in Scottville and a veteran of World War I.

He is survived by his wife, Lois; two sons, Doyle of Lansing and Karl of Ann Arbor; one daughter, Mrs. Donald (Barbara) Spencer of Poughkeepsie, New York; 12 grandchildren; one great grandchild; two sisters, Mrs. Elizabeth Agte and Mrs. Martha Dean, both of Tucson, Arizona.

## Give Answers to Important SS Questions

Question: I understand that when a person accepts social security retirement benefits at 62 his benefit is reduced. But I heard recently that it goes back to the full amount at 65. Is that right?

Answer: No. If a person decides to retire at 62 and takes a reduced monthly benefit, the benefit amount will not change at 65. However, some people who retire at 62 later return to work. In that case, the benefit could be higher later.

Question: I receive monthly social security survivors benefits as a student. I work during the summer and part time during the school term. Will I lose any benefits because of this work?

Answer: If your total yearly earnings do not go over \$1,680, you will not lose any social security benefits. If your earnings exceed \$1,680 for the full year, you may lose some benefits. But you will still get full benefits for any month that your earnings are \$140 or less. You should call or visit any social security office immediately if you know that you will earn more than \$1,680 for the year.

Question: I own a small vending business, which I operate part time. Do I have to pay social security contributions on my earnings from the business?

Answer: You are required to pay social security contributions if your net earnings from the business are at least \$400 for the taxable year.

If you have a question about social security, contact the district office at 1009 North Madison Avenue, Bay City, Michigan 48706; telephone 883-9579. For your convenience, a social security representative will be at the Isoco County Building, Tawas City, every Thursday between the hours of 9:45 a. m. and 3:00 p. m.

## Plantation Owners Invited to Meeting

Plantation owners in Isoco, Ogemaw, Arenac, Oscoda and Alcona Counties are invited to attend a plantation management demonstration Friday, July 30, 9:00 a. m.

The demonstration and talks will begin at the Isoco County Soil District property located on National City Road, 1 $\frac{1}{2}$  miles east of Whittemore.

Dr. William E. Wallner, extension entomologist, will discuss plantation insect controls. Doctor Wallner will also outline current problems in control.

David Olson, county extension director, will demonstrate pine pruning and discuss cost sharing program.

The second stop will be at the Ivan O'Farrell plantation, northwest of Whittemore. Lester Bell, extension forester, will discuss management techniques on Christmas trees and demonstrate shearing trees.

This program is sponsored by the Michigan State University Cooperative Service Offices in Isoco, Ogemaw, Arenac, Oscoda and Alcona Counties.

## Richard Immers on Dean's List

## ...and be rich

"Riches". The riches of life come in many forms. There are riches, as we perhaps most commonly refer to the term, in money.

True, one does, through a systematic savings program, amass a certain amount of monetary riches. However, most of us will never be truly "money rich" regardless of what we do.

For example, peace of mind is riches in itself. The ability to pay an unexpectedly large bill. That is riches. Just the knowledge that whatever adversity might strike, you have the funds to meet that problem with cash of your own. Now, isn't that really what you and I would call riches?

How about you. Do you have a savings program? Here at Peoples State Bank, we have several savings plans from which to choose. Why not drop in? Be rich!

# 24th AuSable River Canoe Marathon is Slated July 30-31

More than 30 teams of two paddlers each are set for the 24th running of the World Championship AuSable River Canoe Marathon to be held July 30-31 on the mainstream of the famous AuSable River.

The 240-mile length of the non-stop race is the most grueling test of endurance for canoeists in the United States. Starting at 10:00 p. m., July 30, at Grayling on the upper reaches of the AuSable River, the marathon canoe racers will paddle through the night, guided by instinct, the currents and a small light on the

bow of their canoes until dawn. When the sun rises, leaders in the event will reach the first of five dams over which they must portage. Behind them is the six to eight miles per hour current. They now face four more long stretches of backwaters behind four more dams before a final nearsprint to the finish line at Oscoda mid-afternoon, July 31.

Entries are expected from 10 states including Ohio, Indiana, Illinois, Wisconsin, Minnesota, New York, Texas, Florida, Kentucky and Michigan. Other entries are anticipated from Canada. Last year's winners, Luc Robillard and Claude Corbin of Quebec, set a new record for the race with a time of 15 hours and 42 minutes. Second place finishers crossed the line only a few minutes later.

More than \$3,000 dollars in guaranteed prize money is offered for the professionals with trophies to top amateur teams. The marathon is sanctioned by the Michigan Canoe Racing Association with cooperation from the chambers of commerce in Grayling, Glennie, Alcona County, Oscoda-AuSable and the East Michigan Tourist Association.

# Circus Coming-- Needs No Censor

When the Fisher Brothers Circus appears in the Tawas Tuesday, July 27, under the sponsorship of the Tawas Chamber of Commerce, it will represent one of the very few show fields that has never had to be publicly censored. This is not to say that the circus world has never made mistakes or had to clean its house. Occasionally, censorship has been necessary, but it has always been self-imposed. The circus world has never waited for public disfavor before eliminating objectionable features, and circuses have never carried for very long any type of feature, regardless of whether it was a big money maker, if the "family trade" objected to it.

Therefore, when the family attends this fine, old-time, family circus, everything presented with the show will have a "G" rating, all the way from the midway attractions, including the animal side show, to the big top performance.

Another pleasant surprise will be the lack of extra added price for reserved seats; every seat is a ring-side seat and no charges are made for any choice seat inside the Fisher Brothers Circus Big Top.

The performance is a well-balanced entertainment designed for the "young-at-heart" of all ages. Featured are many well-trained human and animal performers in a pleasing one hour and 15 minute performance. There are accomplished aerialists, jugglers, acrobats and very funny

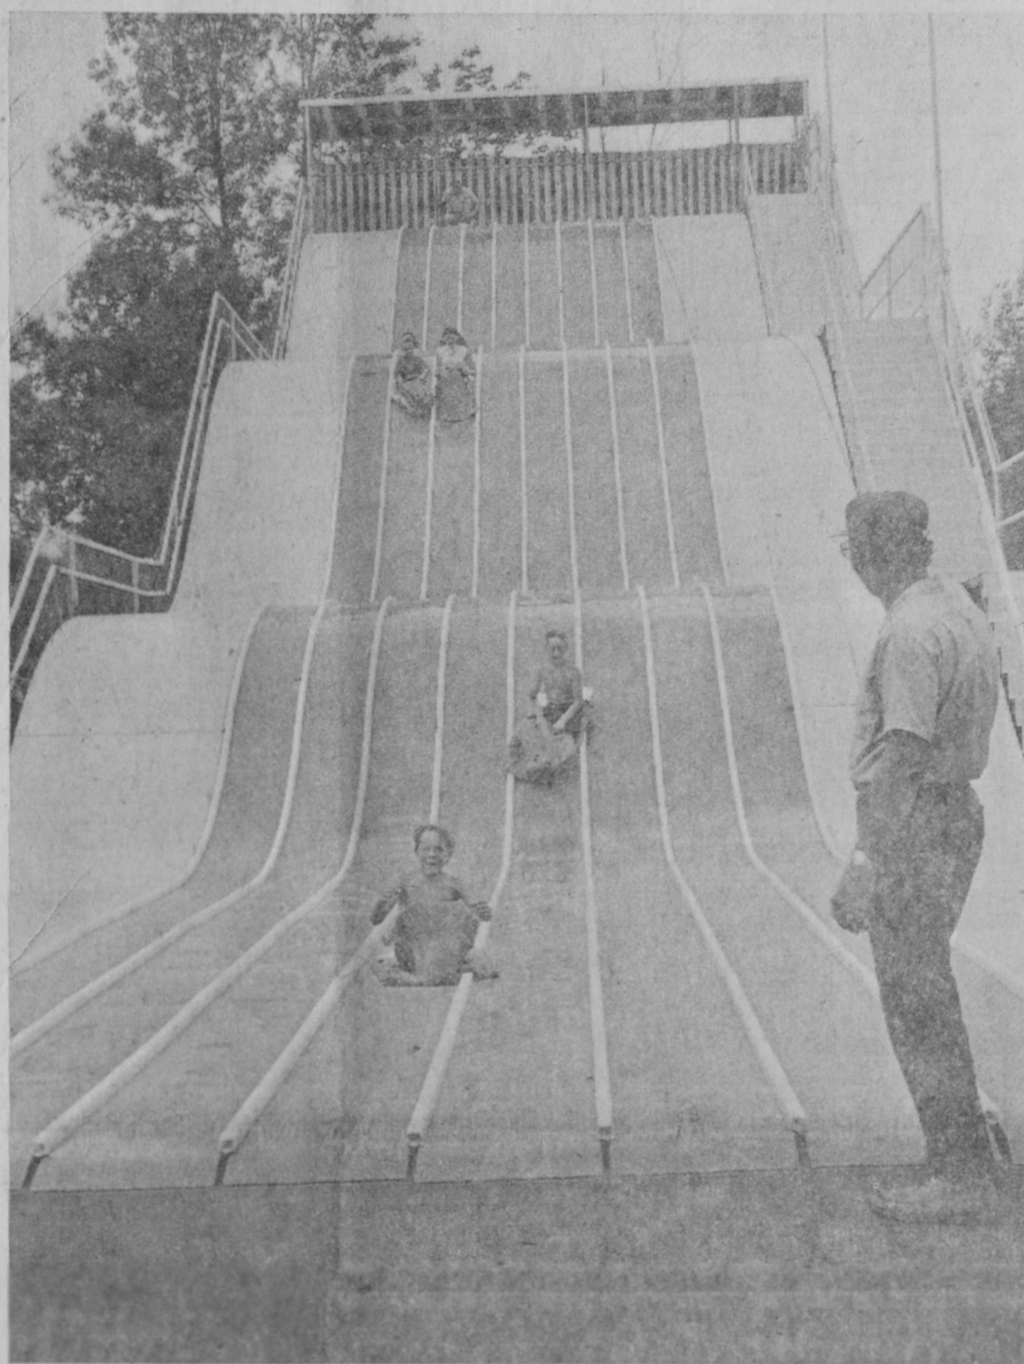

clowns. Animals include an elephant, dogs, ponies, a monkey and other exotica.

Everyone is urged to attend this "G" rated entertainment when it comes to town. Purchase of Fisher Brothers Circus tickets may be made at the chamber of commerce office. Everyone should come early so that they will miss nothing and remember, "Every child should see a circus at least once a year."

## Iosco Highways Escape Buckling

Heat-induced buckling of concrete pavements on state highways set an all-time record for a single month during June, the Michigan Department of State Highways reports.

According to a statewide survey, 1,387 "blowups" occurred on state

highways in June with the heaviest concentration (303) in the department's 11-county Grand Rapids District.

The four-county Detroit Metro District reported 270 and the nine-county Kalamazoo District in the southwest corner of the state reported 225.

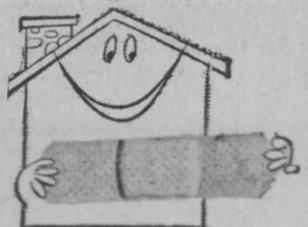

"We often go through an entire summer without any pavement blowups in the Upper Peninsula, but during June we had 50," Paul J. Marek, the department's engineer of maintenance, reported.

In the Lower Peninsula, the area that escaped with the fewest pavement blowups in June was the 12-county Alpena District in the northeastern part of the state, which includes Iosco County.

The accelerated rash of blowups was blamed on an unusually long heat wave near the end of June. Heat forces concrete pavement to expand and when two slabs of concrete push against each other at pavement joints, blowups or buckling occur when the pressure becomes too severe.

Highway department maintenance crews in many areas worked "around the clock" to make emergency repairs at all buckling sites where repairs were required. Permanent repairs will be made as work schedules allow.

## Freon Can Cause Heart Attack

Freon gas, commonly used as a propellant in aerosols, as an additive to solvents and as a coolant in refrigerators, can cause heart beat irregularities that may lead to death. Dr. Gerald M. Breneman, president of the Michigan Heart Association warned last week.

Among the products propelled by freon are antiseptics, air cleaners and fresheners, insecticides, paints, various polishes and hair sprays. "It is especially important that these sprays be used in a well-ventilated place and that persons with a heart disorder be extra careful to avoid breathing the gas," Doctor Breneman added. He is a cardiologist at Ford Hospital.

The American Heart Association says there are 110 documented cases of youngsters dying suddenly after sniffing airplane glue, aerosol sprays and fumes of certain solvents.
