WORK WAS COMPLETED Tuesday on placing this concrete castle in the Tawas City Park. Designed and built by Gordon Clute of Tawas City, the castle is 22 feet high and weighs about four tons. It is the fourth item of playground equipment purchased this year by the city in cooperation with a state recreational grant. Three

other concrete units, which are equipped with slides, have proven to be a spectacular attraction for children. Revamping of the parking lot is the next step in improvements to the park and is scheduled during the current program.
