"The new handbook explains in

detail how medicare hospital and medical insurances work," Carr said. "It tells what kinds of care medicare covers and how much medicare pays for each kind of care. It also tells what medicare does not cover." An index in the new handbook

will help people quickly locate information about a particular medicare subject, Carr noted.

Medicare helps pay the health care bills of people 65 or over, of disabled people who have been entitled to social security disability benefits for at least 24 consecutive months and of many people with chronic kidney disease.

Medicare is administered by the Social Security Administration, an agency of the United States Department of Health, Education and Welfare. The Bay City social security office is at 1009 North Madison. The phone number is 892-3554.
