

Iosco Townships Adopt BOCA Code

Following adoption of resolutions two weeks ago requesting Iosco County to enforce terms of the state's new building code, two local units of government—Tawas City and Plainfield Township—have found themselves dangling alone under this arrangement.

Representatives of all other local units of government met last Thursday night at the East Tawas City Hall and decided not to have the state building code enforcement handled by the county. All units decided to adopt the BOCA building code of the Building Officials Conference of America with enforcement to be handled individually or by groups of units.

City Mgr. Reginald Bublitz told members of the Tawas City Council Monday night that he was surprised by this turn of events, as he was of the opinion earlier in October that most local units of government were going along with

county enforcement of the state code.

"When this was discussed at the October 9 session of the Iosco County Board of Commissioners, all representatives of local units of government present believed it would be best to have the county handle enforcement of the state code, rather than to duplicate services by hiring building, plumbing and electrical inspectors in each unit," said Bublitz.

Bublitz said he had been invited to attend the special meeting last Thursday night, but no action could have been taken by Tawas City as the council had already adopted its resolution. He said he had conferred with the city attorney on Monday.

The city manager is to appear Wednesday morning before the county board of commissioners to discuss the new development. It was the understanding of Bublitz that the county must establish an

enforcement agency, regardless of action by other units of government.

Each local unit of government has until Wednesday (today) to either adopt a building construction code or to request the county to enforce provisions of the state code.

According to Richter Lixey, president of the Iosco Townships Association, most townships adopted the BOCA code at special meetings called Monday night. The City of East Tawas adopted this code at its last meeting, as did Oscoda Township.

"It was the feeling of all representatives of local government attending Thursday night's special meeting that it would be best for the local units to enforce the BOCA code," said Lixey. "To go along with the county and have the state code enforced would mean just one more step toward taking local governmental control

away from townships," he said.

Lixey believed, too, that enforcement could be handled at less expense by local units than to have it combined in one central enforcement agency at the county level. He said that Baldwin Township, which he represents, has been invited to combine either with East Tawas or Oscoda Township in enforcement of the BOCA code. Baldwin Township probably will join East Tawas.

During discussion at the October session of the county commission, it was stated that the fee for inspection of construction of a new home would run as high as \$150, or higher. "This would be just another deterrent to construction," said Lixey. "I am sure the local units can handle the inspection at far less cost as there are retired building contractors who would qualify for state certification in nearly every local unit of government."

Lixey believed that plumbing and electrical inspectors could be utilized through a cooperative arrangement between the units.

"We just do not have that many building applications in this county to warrant a full time enforcement department," commented Lixey.

Bublitz said Tuesday morning that he had learned that some provisions of the BOCA code would have to be amended in order to meet state requirements.

Depending upon the city manager's discussion with county officials this morning, a special meeting of the city council may have to be called today to adopt the BOCA code.

Bublitz said that it has been suggested by township officials that Tawas City cooperate with Alabaster, Tawas and possibly Grant Townships in enforcement of the code, rather than to have the county handle the work.

TUESDAY was election day in Michigan and here in Iosco County some voters arrived at the polls carrying umbrellas. Each voter received a handful of ballots, including the general election ballot, constitutional amendment ballot, nonpartisan ballot and a special ballot to "peg" millage in this county. A turnout of 7,000 or more voters was expected, despite the rain.—Tawas Herald Photos.

East Tawas Gives Time Extension to Construction Co.

An extension of time of up to one year was granted Monday night by the East Tawas Council to Gregory Construction Company, Bay City, contractor for building a new high-rise apartment complex at the corner of Church and Bay Streets.

The project, long delayed during negotiations with the federal government after the construction contract had been let, is to be reviewed every three months by the council for approval of the extension.

When completed, the apartment complex will provide 41 low cost apartments for the elderly.

In other business, the council denied two building applications which violated terms of the city's zoning ordinance. Representatives of the DeShano Corporation were present at the meeting and requested permission to construct an apartment building on Jefferson Street north of Franklin Street. The property in question is adjacent to the city's proposed new recreational area and present zoning does not permit multiple housing units in that area. The second request denied was from

Robert Kendall, who requested permission to establish a real estate office in his home on Bay Street. The property is zoned residential.

It is expected that both requests will be taken to the zoning board of appeals.

It was reported that there is a good possibility that the city will receive a 50 percent matching grant from state recreational bond money for construction of a new park north of Franklin Street. Plans are to be submitted to the East Tawas Park Commission Thursday night.

Total cost of the proposed new park is estimated at \$160,000. The city's share would include installation of water and sewer facilities as well as actual park development.

Included in the project would be 600 feet of water and sewer, 2,000 feet of stabilized roads, two softball diamonds, two tennis courts, a comfort station, two shuffleboard courts, bicycle racks and parking. The council authorized the police department to purchase a new type of warning flasher for its new patrol car.

At an informal session following the regular meeting, W. C. Roach proposed that East Tawas and Tawas City jointly hire an assessor to handle property assessments for both cities. Roach, who presently serves as East Tawas' assessor and resigned recently as the assessor in Tawas City, said he was not interested in the job as assessing problems were becoming so complex that a full-time person was needed.

Roach said that increases in property values during the past four years required a full time assessor to correct tax rolls.

Two Vandalism Complaints Were Investigated by SP

Two complaints of vandalism and breaking and entering were investigated Thursday by Michigan State Police from East Tawas.

A chain saw was stolen from a camper truck at South Branch owned by James Heilig. A mail box owned by Mrs. J. A. Brugger, M-55, Tawas City, was damaged sometime during the night.

Council Approves Chamber Dues

Ending a long "holdout" on paying its 1974 dues to the Tawas Chamber of Commerce, Tawas City Council Monday night authorized payment of \$200.

Confusion over the city's annual check to the chamber of commerce resulted earlier this year over sponsorship of area events previously handled by the chamber of commerce.

In the past, the city shared the expense of fireworks displays on Independence Day with East Tawas and the chamber of commerce. Each city paid \$250 as its share of the fireworks, with the chamber of commerce matching that amount. In addition, a second contribution of \$150 was made annually by the city as its dues.

Earlier this year, the city contributed \$250 to TAPS as its share of the fireworks and later received a statement from the chamber of commerce requesting annual dues of \$400. The chamber's bill was tabled until a new per capita schedule was developed.

Roger McIntosh, a member of the chamber's board of directors, appeared Monday night before the council and asked the city to contribute \$200 for 1974, representing a payment of about 20 cents per capita.

McIntosh indicated that the chamber's board of directors planned to ask the city to pay dues of about double that amount next year.

In other business, representatives of Veterans of Foreign Wars No. 5678 presented checks of \$10 to the park fund and \$10 for tennis courts. Mrs. Ruth Gauthier explained that the money remained in a special bank account for an auxiliary promotion which had to be canceled several years ago. The money is being donated to a number of projects in the area.

Two requests for property transfers by Immaculate Heart of Mary Church are to be studied by the city attorney. The first request concerned purchase of three city lots north of the railroad tracks, presently being leased by the church for parking purposes. The second request concerned purchase of a parcel of land 100 by 300 feet to expand the church cemetery.

The city manager said he believed the property presently leased to the church for parking purposes was obtained by the city from the state as tax reverted land. He said this question had arisen several years ago and the city learned that it could not sell the property under state regulations. The matter was turned over to the city attorney for investigation. Expansion of the church

cemetery was referred to the Tawas City Cemetery Board, which is to meet Thursday night.

A request from Tawas Hospital for installation of a 6,500-lumen mercury vapor light on Court Street between M-55 and Maple Street was approved by the council. The light would help to illuminate the hospital's new parking lot as well as to improve driving conditions on the street.

Authorization was given to make application to the Michigan Department of State Highways for permission to install Christmas decorations along Lake Street (US-23).

Pay rate of Tuesday's election board was set at \$25 for regular workers and \$2.50 per hour for counters, the same rate as established last spring. Ten persons were required for the day shift and 12 persons counted ballots after the 8:00 p. m. closing time for the polls.

City Treas. Mary Byrd reported that \$127,365 had been collected in 1974 city taxes, representing 87 percent of the total assessment. She said this was approximately the same percentage collected last year at this time, but the total is \$9,000 higher due to an increase in property valuation.

The council authorized payment of 50 percent of the \$25,000 contract with Shoreline Construction Company for work on the city dock. The firm is now completing installation of steel sheeting on both sides of the dock. The city is awaiting a check for approximately \$15,000 from the Michigan Department of Natural Resources, representing the state's share of the project.

Presiding over the meeting due to the absence of Mayor John N. Brugger, who is vacationing in Florida, was Ald. James Lansky, mayor pro tem.

City Managers Meet Today

A meeting of Eastern Michigan city managers is being held Wednesday (today) by City Mgr. Reginald Bublitz of Tawas City. A workshop session is to be held in the morning at the city hall.

Bublitz said that area city managers hold these sessions regularly in order to discuss mutual problems concerning local governmental operation.

OK Temporary Repairs to Library; May Seek New Site

Temporary repairs are to be made to the furnace at the Tawas City Library, but city officials are to investigate the possibility of a new location.

City Mgr. Reginald Bublitz reported Monday night to the city council that a spokesman for the regional library indicated earlier in the day that present quarters for the branch of Iosco-Arenac Regional Library in the old Buch Building may no longer be suitable for library purposes.

Earlier this summer, the city attempted to correct a water seep-

age problem in the basement of the building. The basement is not used for library purposes, but it was said that the musty smell from dampness proved annoying to library patrons.

A furnace purchased by the city about 15 years ago is not operating properly and temporary repairs are to be made until such time as some decision can be reached by the city council concerning improvements to the building or a move to larger quarters. A ventilation system is to be installed in the basement.

Ald. Robert N. Rollin suggested that the city council study the possibility of renting larger quarters or the purchase of a modular building for a new library. He suggested the former Hatton property on Mathews Street, now owned by the city, as a possible location for a new library.

The city manager said that the council lacked funds at the present time to give serious consideration to construction of a new library, but believed that some long range plan could be developed to meet the library's needs.

Police Warn of Car-Deer Crash Danger

Area law enforcement agencies warned drivers this week of the continuing danger of car-deer accidents on highways. During the past week, 16 deer have been killed when struck by automobiles and the driver of one car involved sustained minor injuries.

Injured Thursday night was Barbara J. Brown, 26, Whittemore, who was westbound on M-55. A deer crossed the road in front of her vehicle and she swerved into the guard rail.

Two other personal injury accidents were investigated by the sheriff's department.

Laura Ori, Whittemore, was treated at Tawas Hospital Saturday following a crash on Whittemore Road. Officers said the brakes apparently locked on her vehicle, which skidded into a utility pole.

Three persons sustained minor injuries Wednesday in a crash on Fourth Street at Ninth Avenue in Tawas City. Injured was the driver, Randall W. Brueback, 17, and two passengers, Mark Kendall, 15, and Brian Kendall, 16, all of Tawas City.

A 14-year-old Tawas City girl, Kimberly J. Bergeron, was treated October 28 at Tawas Hospital after her bicycle struck a car which was turning off US-23 onto Mathews Street in Tawas City.

One Building Permit OK'd

One building application approved by the Tawas City Department of Public Works during the past week was issued to Roscoe Lee, 205 Third Avenue, install aluminum siding, \$800.

Fall Cleanup Thursday In Tawas City

Tawas City property owners are being urged by the city council to cooperate in a fall cleanup day scheduled for Thursday.

All discards and rubbish set out along streets are to be picked up by the city contractor and city crew on this day. The cleanup campaign lasts one day only and anything set out after Thursday will not be picked up.

City Mgr. Reginald Bublitz said Monday that the fall cleanup drive was started several years ago to aid residents in improving the appearance of property prior to the winter season. "Last year's drive was most successful and we are hoping for similar results this fall," said Bublitz.

Property owners are requested to set out rubbish one day in advance of the pickup in order to minimize the need for return trips by the collectors.

SOME HALLOWEEN PRANKSTERS went a little too far last Thursday night, as far as Barbier Motor Sales, Incorporated, is concerned. A customer left his vehicle in the East Tawas firm's

parking lot and it was pushed into the lake sometime during the night by persons unknown. A wrecker was used to remove the vehicle from the water.—Tawas Herald Photo.

Tips on Avoiding Criminals

By Bernard E. Nash

When people who have lived long enough to be called "senior citizens" have to live their lives in virtually constant fear, there's something drastically wrong.

That something is called "crime in the streets." While it is all very well to inveigh against it and make it an election campaign issue, it will take more than defiant declarations and political promises to deal realistically with the situation—and, at the same time, to eradicate some of the myths about crime which create unnecessary and unfounded fears in the minds of many citizens.

"Crime is a problem for everyone," notes Mary Herrick, 78, who broke her hip when thrown to the pavement while being robbed outside a Chicago bank. "But I think it's a greater one for old people because they're sitting ducks—they're less able to defend themselves."

Throughout history, criminals have preyed upon the weak and the elderly because they are usually least able to resist. Far-reaching social strategies that deal with the root causes of crime are essential and laudable, but these are long-term solutions. What is needed now are practical interim measures that prevent crimes from being committed by protecting the potential victims.

For example, the most common crime against the elderly is theft: Purse snatchings, pickpocketing, mugging or holding-up people on their way home from cashing their Social Security or welfare checks, and even stealing bags of groceries

from those who have to count every penny before they can plan a meal.

An increasing number of communities are currently experimenting with mobile check-cashing services that bring the bank closer to older peoples' homes on the days when Social Security checks arrive. Others are providing special escort services—either through police or private volunteer agencies—to accompany residents on regular check-cashing and occasional shopping trips. Some municipalities are intensifying police patrols in areas with large older populations.

Sen. Harrison A. Williams (D-N.J.) has introduced a bill called the Housing Security Act which, if passed, would help develop crime protection programs for residents of federally sponsored senior housing. The benefits could conceivably extend in time beyond the Federal housing projects to the greater community.

In the meantime, what can you and I do to protect ourselves and our neighbors against crime?

We can call upon our local governments to initiate innovative measures such as those described above. Perhaps even more importantly, we can work together to assist the police in guarding our homes and streets against violence and robbery. I am not suggesting vigilante-type patrols, but am referring instead to the old-fashioned custom of keeping a watchful eye on our neighborhoods and alerting the police if anything is wrong.

As individuals, we do not have to surrender our freedom of movement in order to place reasonable barriers between ourselves and those who might victimize us—whether violently as a mugger might, or through fraud as a con artist might. Advice on how to accomplish this is con-

tained in "Your Retirement Anti-Crime Guide" by Carol Powers. For a free copy, please write to the American Association of Retired Persons, 1909 K Street, N.W., Washington, D.C. 20006.

The key to personal crime prevention is making ourselves and our homes less tempting to criminals. We can do this by learning how criminals operate, and then not providing them with the opportunities they need.

For instance, the best deterrent against the common burglar is a firmly locked door. Despite everything you've heard about how no lock can keep out a determined thief (and, in fact, none can) a very large percentage of burglars wouldn't be in business if it weren't for the unintended kindness of people leaving their homes and apartments unlocked, thus making burglary easy.

At the same time, don't invite trouble by carrying your keys on a ring with an identification tag. "If you lose your keys," advises Miss Powers, "it's better to have them lost and gone forever than in the possession of somebody who now has the key to your front door, your address and telephone number."

When you're out, you can convince a would-be burglar you're still there by leaving a small light on and a radio playing.

Away from home, you might stop carrying a purse when traveling in areas you consider dangerous. Instead, place your money, keys and other essential valuables in an inside pocket. Again, you'll have eliminated temptation and opportunity—and that's the key to keeping yourself and your home safe.

(Mr. Nash is the executive director of the non-profit, non-partisan American Association of Retired Persons.)

Tire Slashings Investigated at Hale Last Week

Iosco Sheriff's Department investigated a series of complaints at Hale Friday and Saturday in which 14 tires were slashed on vehicles parked at two Hale service stations.

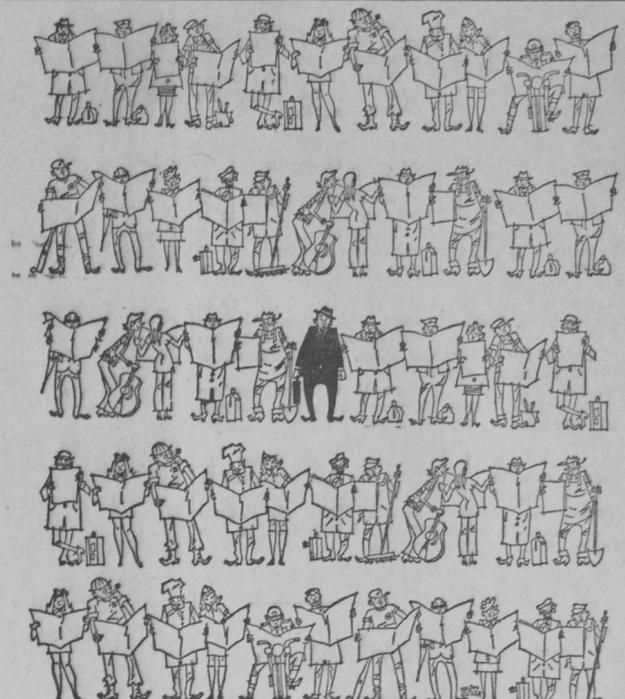

Owners of vehicles on which tires were slashed included Richard Kremer, 6160 Rollways Road, Hale; Joseph Egresirs, Long Lake; Lonnie Ryland, Hale; Ray Kesler, Hale; Charles Millard, Hale; Charles Rosebush, West Branch; Lyle Baldwin, Long Lake; Robert Ruckle, Hale; Douglas Powers, Hale; Vernon Kanger, Hale.

Halloween night complaints investigated by the sheriff's department included destruction of mail boxes at the residences of Gary Wood, Katherine Lang and Herbert Lacy, all of Tawas Township.

The sheriff's department assisted East Tawas Police Department Thursday night in disbursing a large crowd of youngsters on Newman street. A 17-year-old boy was arrested for creating a disturbance.

Two breakings and enterings were investigated on October 29. Two sides of beef valued at \$354 were stolen at Kocher's Slaughter House, Hale. A padlock was pried off a refrigerator door. Two tires were reported stolen at Rainbow Service, Tawas City. Entry was made through a rear window.

Two vandalism complaints were investigated by officers. On October 28, two large plate glass windows were smashed at the Marathon Station in Tawas City. Large stones thrown through the windows also smashed two sections of glass in a showcase. On Wednesday, a rock was thrown through a large picture window at the Chester Wilson residence, Hale.

Federal Aid for Sewers Is Doubtful

An apparent change in the point system used to determine the state's priority list for 1976 federally funded sewage treatment projects was noted last week with receipt of the new list from the Michigan Water Resources Commission, Department of Natural Resources.

East Tawas' application, which had been 187th on the list last year, dropped to the 272nd position. When first submitted several years ago, East Tawas' application was 67th on the list.

The water resources commission's list published October 28 indicated that an application filed during the past year by the City of Tawas City was 83rd on the list.

Points are awarded each project according to a number of factors, including population, amount of discharge and quality of the sewage. Tawas City had a point total of 3,006, with a substantial amount received because the Tawas River is designated as a recreational stream. East Tawas had 2,082 points.

With 567 communities in the state submitting applications for funds and top priorities given to the southernmost tier of counties, it would appear that both communities would not qualify for a federally funded sewer project.

Hale Eagles Won

Final Game Of

Season, 34-25

Hale Eagles celebrated parents night by turning back visiting Hillman, 34-25, in Friday night's final game of the season. The Eagles had a record of three wins and six losses during the season.

First touchdown of the night came on a 39-yard pass play from Ron Cooper to Tyson Shellenbarger. Bill Bernard kicked the first of four point after touchdown conversions.

The next Hale touchdown came on a five-yard run by Dan Bernard. Cooper scored two straight touchdowns on three-yard runs,

while Dennis Myers picked up the final touchdown on a four-yard scamper.

Cooper led on offense with 152 yards in 24 carries. Myers had 87 yards in 16 carries and the total offensive effort accounted for 298 yards rushing and 75 yards by passing.

Steve Humphrey led the defense with seven solo tackles. Jeff Bain and Myers each had five tackles.

Quarterback Tray Pearsall sustained a leg fracture in the first half and is expected to miss the start of the basketball season.

CALL YOUR CHAMBER OF COMMERCE

A recent wave of telephone and personal solicitations for a variety of goods and services from out-of-town concerns has left numerous area residents and business people scratching their heads and fingering their empty wallets. Although some of these solicitations are perfectly legal, many of them have failed to comply with local ordinances designed to protect us all from sometimes questionable and shoddy practices. Such solicitations not only hurt the persons who directly paid money for the proffered goods or services, they also hurt our local community as a whole by contributing to the flow of large amounts of money out of this area . . . money which could be spent with local businesses to help local working people. In these times of economic distress our local communities need to retain every dollar they possibly can.

If you are approached by anyone unfamiliar to you, offering for sale something that even slightly raises your suspicions, before you buy, CHECK WITH YOUR CHAMBER OF COMMERCE.

Coloring Book Contest at Oscoda

Oscoda-AuSable Chamber of Commerce has donated 325 "Color Oscoda" coloring books to third grade students in the Oscoda, Cedar Lake, County Line and Glenie Elementary Schools for their use. To motivate students in selection of colors and neatness in their work, the chamber is offering prizes for the best job in coloring to the top three students entering their completed books for judging. An outside art group has been asked to do the judging.

Coloring must be accomplished by the child to whom the book is assigned (one to each child) and with wax crayons only. All other types of coloring agents used will be disqualified, as will those who have obviously had family assistance other than verbal encouragement.

All pages of the book must be completed and returned to the teacher on or before Friday, November 15. Winners will be announced to the students Monday, November 18, and awards made Tuesday, November 19.

First prize will be a \$25 savings bond donated by Oscoda State Savings Bank; second prize will be a \$10 gift certificate and third prize, a \$5 gift certificate, both donated by Willing Motel and Redwood Motor Lodge. Certificates will be acceptable at any retail store in the Oscoda-AuSable area.

12 Iosco Co. Students Get CMU Degrees

Twelve students from Iosco County were among 797 to be awarded degrees at Central Michigan University, Mt. Pleasant, at the end of the summer sessions in August.

In all, 436 students received bachelor degrees, 349 earned master degrees and 12 completed requirements for specialist degrees (30 semester hours beyond the master degree).

Area students earning degrees were Linda E. Lillibridge, bachelor of arts, and Stephen D. Mason, bachelor of science, both of Hale; Thomas A. Grant and Judith Ann King, master of arts degrees, both of Oscoda; Michael J. Glancy, bachelor of science in business administration, Kyle B. Hicks, bachelor of science, Donald E. Mick and Kathleen J. Miscisin, bachelor of science degrees in education, all from Tawas City; Julie A. Charters, bachelor of science, Robert P. Phelps, bachelor of science in business administration, Dolores J. Survant and Marjorie M. Freel, bachelor of science in education, all of Whittemore.

Commencement exercises are not held at CMU during the summer or fall, but August graduates are invited to participate in the mid-year commencement, to be held December 14.

STUDENTS of Tawas Area High School again displayed their artistic talents last week by decorating their store windows for Halloween. Windows at each business place cooperating in the program were decorated in a different colorful theme.—Tawas Herald Photos.

Environmental and Design Dept. Aids MSU-State Agencies

Michigan State University's human environment and design department offers students practical experience, while providing design services to the university, community and state agencies, businesses and individuals.

Last spring, the "interior design-contract" students redesigned a Lansing church. The students' project was to provide for improved lighting, increased seating capacity, permanent congregation seating, enlarged office space and redesign of the entire chancel and baptistery area.

Before beginning their project, students attended services so their design proposals would fit within the theological symbolism of the congregation. In addition, students met with members of the church board and talked to congregation members to learn their ideas.

Students were divided into design teams. At the end of the term, each team presented their design proposals to members of the church building committee. The committee reviewed the various projects and decided which proposal would be most appropriate.

The church, pleased with the students' work, made a contribution to a human environment and design department scholarship fund.

Another class worked with low-income families. These students help families make decorating changes they can afford.

Other classes have worked on projects for the university, such as redesigning the student lounge and designing a new library for the College of Human Ecology.

The class instructor and the department chairman decide who will receive help based on the following criteria: Is the proposed project appropriate for the class? Will the project provide educational experience for the students? Will the university be providing a service to the family or firm?

"We like to have our students involved in realistic design problem-solving situations," comments Dr. Robert Rice, department chairman. "We appreciate the opportunity to work with families and businesses. This not only is beneficial to our students, but also provides a service to the community."

Complaints Of Muddy Streets In Subdivisions

15 Years Ago—
November 4, 1959 — Muddy

streets in Huron Gardens and North Park Acres Subdivisions have caused complaints to the Tawas City Council by home owners. The council is withholding final payment to a sewer contractor, who was to return the streets to original condition after completing work on the mains.

Tentative approval for accepting a plat of the River-View Subdivision was given by the Tawas

City Council. The subdivision, owned by Herman Fahselt, contains 16 lots.

Members of the student council planning committee for the annual homecoming at Tawas Area High School are Barbara Mercer, Shirley Tarnosky, Joseph Czaika, Jeanette Werth, James Tarnosky, James Wilkuski and Peter Bolen.

Grand opening of Mooney's Ben Franklin Store at East Tawas is to be held November 5-7.

The board of supervisors has authorized the sheriff's department to exceed its budget by an additional \$3,000. The sheriff's department budget for 1960 is \$15,840 for wages and \$16,783 for departmental expense.

Raymond's Department Store is headquarters for Soo Wool hunting clothing.

25 Years Ago—
November 4, 1949—A five-man county board of education is being organized next week under terms of the 1949 state legislature. Each board of education in the county will have one elector.

Clyde Hunter is the new owner of Tawas Cab Service with 24-hour service.

Work was recently completed on the kindergarten and primary unit of the Tawas City Public School.

A resolution adopted by the county board of supervisors took note of the fact that Tawas City's three members are not paid mileage. The board voted to provide each Tawas City supervisor with one pair of shoes per session—April, July and October, and one pair of high top rubbers for the January session.

Members of the senior class on the honor roll at Tawas City Public School include Elaine Strauer, Jack Saunders, Doris Rakestraw, Mary Proper, Barbara Petrucci, Janice Parent, Geraldine McArdle, Joan Goedecke, Joyce Eckstein, Charlotte Eckstein, Alberta Buch, Stanley Brown and Shirley Boomer.

35 Years Ago—
November 3, 1939—Work of remodeling the H. C. Hennigar Company store building at East Tawas is nearly completed. Extensive improvements include a brick and plate glass front and an addition which enlarges the building to 98 feet in length. The building was originally built for Locke and Taylor in 1887, followed by F. F. French and H. N. Butler. H. C. Hennigar Company entered the store in 1927.

The American Legion will hold an Armistice Day Party November 11 at the Edgewater Inn.

German seizure of the 5,000-ton USS City of Flint bid fair to affect world commerce far more than all the 100-odd vessels which bombs and torpedoes have sent to the bottom since November 1. Carrying contraband to Britain, the Flint was seized by Germany in mid-Atlantic, taken first to Norway and then to Murmansk, Russia, where her American crew was reported safe. If Russia again offers haven to a neutral vessel seized by Germany, the Kremlin might well be asked to tell how she stands in 1939's war.

That a lunar voyage will be possible in the not too distant future is the belief of the British Interplanetary Society, which announces that designs are progressing for construction of a space ship in which scientists hope one day to be able to travel to the moon.

Effective today, the State of Michigan acquired title to more than two-million acres of tax delinquent land in Northern Michigan. Land involved has been delinquent for a long term of years and offered at least once at county tax sales. Only the poorest lands reverted to the state. Many parcels of land involved in the whole-sale transfer had reverted to the state in the four decades following 1893, when cutover lands which were then delinquent were made available to homesteaders by legislative enactment. The years which followed hold the sorry record of unsuccessful efforts to convert the bulk of the lands to agricultural or other private purposes.

Get SS Number for Holiday Jobs

Students, housewives and other people planning to get holiday jobs should apply soon for a social security number if they do not have one, according to John Carr, social security district manager, Bay City.

"Applications from people who do not recall having had a social security number before generally are screened against central files in Baltimore, Maryland, to make sure a second number is not issued to the same person," Carr said. "Screening takes time," he said, "so you should apply for your number at least several weeks before you need it for a job covered by social security."

People can get information about applying for a number by calling or writing any social security office.

Arrives For Duty At Eglin AFB

Sgt. Warren K. Malek, son of Mr. and Mrs. Victor Malek, Oscoda, has arrived for duty at Eglin Air Force Base, Florida.

Sergeant Malek, a communication specialist with a unit of the Air Defense Command, previously served at Selfridge Air National Guard Base.

He is a 1967 graduate of Oscoda Area High School.

When women surveyed said they 'shopped the advertising', they were almost universally referring to ads in the newspaper... the same advertising which saved them both time (prior sales information) and money (bargains and special coupons).

number is yours alone and remains the same for life," Carr said. "When you get a job covered by social security, be sure your employer copies your name and number correctly from your social security card to his records."

People applying for a social security number for the first time may be asked to prove their age, identity and citizenship, according to Carr.

"If you have lost your social se-

curity card," he said, "you can get a duplicate by contacting any social security office. You can get a duplicate faster if you can show the people there the stub that came with your original social security card."

The Bay City social security office is at 1009 North Madison. The phone number is 892-3554.

Last Game for 13 Seniors

Braves Defeat Carrollton to End Season With Eight Wins

Tawas fans may not have realized it, but they lingered in the stands just a bit longer than usual after the final whistle in Friday night's game—savoring the last moment of one of the most exciting football seasons in this school's history.

And not detracting one bit from the undefeated record of the Essexville Garber Dukes, in the hearts of their own fans, the Tawas Braves are champions of the NBC "Bridesmaids" to the Dukes for the second year in a row, only one game prevented the Braves from winning the 1974 NBC football championship.

The Braves finished their nine-game schedule Friday night by picking up their eighth win over Carrollton, 41-0, and looking like a sure fire championship squad. It was the sixth shutout victory for the Braves this season.

After suffering their only loss of the 1974 season two weeks ago in the NBC showdown battle with the Dukes, the Braves bounced right back and took charge early in the season-closer with the Cavaliers.

The first touchdown came with two minutes, 10 seconds remaining in the opening quarter. Prior to that, the Cavaliers had the ball twice and were forced to punt. In three running plays, Senior Halfback Mark Elliott moved the ball from the Tawas 25 to the Carrollton 35. Junior Halfback Mitch Lenczewski turned in a run to the 29, Elliott moved to the 26 and Senior Quarterback Mickey Haglund rolled to the 22. Those six plays set up the scoring play as Haglund passed to his favorite tar-

get, End Mike Mooney, who scampered from the eight-yard line into the endzone. Jim Lansky came on the field and booted Tawas into a 7-0 lead.

The Braves lost little time in showing they were to end the season in style. After the defense stopped the Cavaliers cold, Haglund ran a Cavalier punt to a touchdown. He received some outstanding blocking along the way, the last one to spring him into the clear being thrown by Junior Guard Don Reed. Lansky booted the PAT and Tawas had a 14-0 lead.

Lansky's kickoff was touched by a Cavalier and Jim Petrach recovered the ball on the Carrollton 18. Three plays later, Elliott went 10 yards to a touchdown and Lansky booted the PAT to give Tawas a 21-0 lead with seven minutes, 12 seconds still remaining in the first half.

Tawas scored those two touchdowns in only one and one-half minutes and a third was to come shortly as Lansky recovered a Carrollton fumble on his own kickoff. The Braves lost two yards on the first play, but Elliott broke through the Cavalier defense on the second play and raced 35 yards to a touchdown. The kick by Lansky was again between the up-

rights and Tawas had a 28-0 lead.

The Braves were to score once more before the end of the first half as Mooney caught his second touchdown pass of the night from Haglund with 29 seconds remaining before intermission. Lansky's toe was off the mark on the kick from placement and the Braves had a 34-0 lead going into intermission.

Tawas fans had the chance to see some of the players who will be wearing the red and white next season as Coach Dick Look substituted freely during the second half. The Braves scored once more before the season was over. End Jeff Hemphill made a nice catch on a Haglund pass to move to the Carrollton 13, where Lenczewski went the final distance for his second touchdown of the night. Officials whistled Lansky's kick from placement dead before his toe sent the ball sailing between the uprights, due to an un-sportsmanlike penalty against the Cavaliers, but the Tawas place kicking sensation came right back to again split the goal posts to give Tawas a 41-0 lead.

The game marked the last time the red and white will be donned by the following seniors: Elliott, offensive halfback and defensive

linebacker; Haglund, offensive quarterback and defensive back; Lansky, offensive halfback and defensive middle guard; Randy Scales, offensive halfback and defensive "hatchet man;" John MacMurray, offensive center and defensive tackle; Denny Hughes, offensive guard and defensive linebacker; Doug Lippert, offensive guard and defensive end; Tim Schirmer, offensive and defensive tackle; Dave Gracik, offensive and defensive tackle; Mark Hintz, offensive and defensive tackle; Jim McArdle, offensive and defensive tackle; Hemphill, offensive and defensive end; Mooney, offensive end and defensive halfback.

Junior Braves Lost Final Game, 22-12

Tawas Junior Braves closed the 1974 football season Thursday night by losing to Carrollton, 22-12. The Junior Braves finished in fourth place in conference standings behind Oscoda, Gladwin and Carrollton.

Carrollton's three touchdowns came on passes, one in the first quarter, one in the third and one in the fourth quarter.

The Junior Braves scored two touchdowns in the third quarter. The first came on a 15-yard pass from Clare Earl to Jeff Tousley. The second came on an 85-yard kickoff return by Tousley.

The Junior Braves had a record of five wins, two losses and two ties. Two of the wins were against nonconference teams.

Winter Tourist Meeting Today

Oscoda Sportsmen Club announces a meeting of all interested persons, including businessmen and motel owners, who are in favor of developing a winter tourist business. The meeting will be held at the Oscoda Township Hall Wednesday (today), November 6, at 7:30 p. m.

The club strongly feels that this area has, for too long, been unable to offer the winter sportsman facilities comparable to those on the west side of the state.

This meeting is called in an effort to obtain in-put and support from the participants to activate a realistic program of winter sports which in turn would attract a share of the winter tourist business.

Any individual with an interest, however small, in the planned growth of winter sports and recreational activities in this area is urged to attend.

National Mail Referendum On Wool Payment

Any Michigan wool or lamb producer who has not received a referendum ballot and an explanation of the proposed new agreement covering wool payment deductions for product promotional purposes may pick them up at the county Agricultural Stabilization and Conservation Service office, according to John Ori, chairman of the Iosco County ASCS committee.

The mail referendum is being conducted nationwide by the United States Department of Agriculture to determine if wool and lamb producers want USDA to continue to make deductions from wool payments for use by the American Sheep Producers Council for advertising and sales promotion programs for wool and lamb.

To be counted, ballots must be mailed or delivered in person to the county ASCS office before 4:30 p. m. Friday, November 15. Anyone who has owned sheep six months old or older for at least 30 consecutive days during 1973 is eligible to vote.

"Ballots have been mailed to all producers in the county known to be eligible to vote," Ori said. "Anyone who feels he or she is eligible to vote and who has not received a ballot should check with the county ASCS office as soon as possible."

"The role of the agriculture department in this matter is to conduct a fair and impartial referendum, via secret ballot. Every effort is being made to see that all eligible voters are informed and receive a ballot. As with all USDA activities, the referendum is being conducted without regard to race, color, sex, religion or national origin of participants," Ori added.
