

New Teachers at Tawas Area High

VICKI WOOD is the new home economics teacher at Tawas Area High School. A native of Kalamazoo, she graduated in December 1978 from Western Michigan University. She served as a substitute teacher at Kalamazoo last semester.—Tawas Herald Photo.

JERI LARKIN, new health and physical education instructor for girls at Tawas Area High School, is a recent graduate of Central Michigan University. This is her first experience as a teacher. She is a native of Mt. Morris.—Tawas Herald Photo.

MICHAEL McCARLEY, a native of Montrose, is the new auto shop teacher in the vocational educational program at Tawas Area High School. A graduate of Central Michigan University, he taught last year at Montrose.—Tawas Herald Photo.

Milkweed Pickers Wanted: Silk Is Needed for War

This fall, school children can help directly in winning the war and saving lives by picking milkweed pods for the light buoyant floss that must go into the making of life jackets and aviators' suits. Because the Japanese cut off the

Iosco Kids Picked Them in '44

Milk Weed Pods Go to War!

Iosco County youths were as patriotic as their counterparts in other sections of the country during World War II, collecting tons of scrap iron and aluminum, old tires, newspapers and even silk stockings to be sent off to factories for reprocessing into needed war materials.

One of the most unusual collection campaigns of the war saw youngsters picking what seemed to be a highly unlikely war material—milkweed pods—and Northern Michigan was in the forefront in this campaign.

"During the past week, anyone traveling about the county found the fences decorated with mesh bags by the dozens and containing some strange products," commented The Tawas Herald on September 29, 1944.

"Within the next couple of weeks, there will be several thousands of these sacks hanging on the fences, according to County School Comm. Russell A. Rollin."

School pupils were in the midst of a campaign to collect milkweed pods, the floss of which was used in the place of kapok in life jackets.

"School Commissioner Rollin states that a large number of sacks have already been distributed and that one school, the Plainfield District, plans to pick 1,000 sacks of milkweed pods before the season closes," stated the Herald's report.

When Singapore fell to the Japanese, rubber was not the only necessity for which the United States had depended upon from the Far East. Kapok, regarded as the best material for filling life preservers, came principally from Java.

Life jackets were essential to the nation's armed forces, large numbers being required to protect airmen and sailors during an all out war effort. There was a fair stockpile of kapok in this country at the start of the war, but it was not inexhaustible.

Before the nation's supply of this essential material was exhausted, however, a home-grown material was discovered which had promise to be even better than the Java product—milkweed floss. Besides having excellent buoyant properties for life jackets, it was soon to be used in flying suits to keep aviators warm.

In 1920, a young physician could not see much future in Russia so he fled to America, where he became a prospering physician in North Chicago, Illinois. While on a vacation in Michigan, he became interested in soil erosion and reasoned that a plant which thrust its root deeply into the soil would tend to hold that soil in place.

He reasoned, too, if that plant was a perennial, which year after year would grow from the same roots, so much the better. During further vacations in this state he observed that the common milkweed filled both requirements.

The milkweed was regarded by farmers as a pest. In trying to discover a commercial value for it so that farmers would plant the "weed" on soil subject

RUSSELL A. ROLLIN SR., retired county school superintendent, had over-all supervision of children during a wartime campaign to pick milkweed pods for the light,

buoyant floss used in the making of life jackets and aviators' suits. The milkweed plants and pods which he holds have no value today.—Tawas Herald Photo.

to erosion, the young physician studied the floss under a microscope and found that each tiny fibre was hollow, a tube of air enclosed in waterproof cellulose.

His buoyancy tests revealed that a pound of milkweed floss would sustain 50 pounds in water; naturally, he then thought of its use in life preservers.

Details for processing the milkweed pods were developed and a "gin" was built to separate the seed from the floss, along with methods of dehydration. By 1944, the bottom of the kapok stockpile was in sight, but America had a suitable substitute at hand.

By the first week of school in the fall of 1944, most teachers and pupils in the northeastern quarter of the United States had instructions on picking, drying and shipping pods, along with information on obtaining bags free of charge.

Boy scouts, girl scouts, 4-H Club leaders, county agricultural agents, war boards and local

soil conservation service offices were also furnished with full information.

Northern Michigan received the most attention for it was here that most milkweed grew in wild abundance.

"It is up to the boys and girls of every community to harvest all milkweed pods in their neighborhood so that not a single life will be lost for lack of buoyant life jackets," commented the Herald.

Buying of pods was handled at Petoskey by the Milkweed Floss Division of War Hemp Industries, Incorporated, a private corporation. (This same organization introduced the growing of marijuana to Michigan farms as a substitute for hemp used in the manufacture of rope.)

The Commodity Credit Corporation of the United States Department of Agriculture, assisted by the United States Soil Conservation Service, directed the program. The Petoskey office sent trucks out to pick up bags of pods.

To supply one pound of floss, school children had to collect 800 milkweed pods. Fifty-pound mesh onion bags were supplied pickers, each bag holding a bushel or from 600 to 800 pods. The open mesh permitted rapid drying.

Pickers were paid 15 cents per bag for the pods and the authorized organization in charge of the collection was allowed a small fee of five cents per bag for keeping the necessary records and drying the pods.

Extreme care of the pods after picking was necessary in order to insure the highest quality of floss. Bags were hung on fences, at least 12 inches from the ground, to get the full benefit of sun and wind within 24 hours of picking.

Dew, rain or snow were not injurious to the pods of bags

hung properly; after two weeks, the thoroughly dried bags were placed indoors to await pickup.

Floss of the milkweed plant is a very elusive substance. As the plant approaches seasonal maturity, leaves drop, the stem gradually ceases to function and, while the pods cling to the stem, there is a loss of moisture and pods shrivel until splitting, releasing floss and seed.

The Herald reported on September 28, 1944, that third and fourth graders in Tawas City School had gathered 30 bags of milkweed pods and that children "were glad to be of help to our soldiers in this way."

Before the milkweed pod collection campaign ended in the fall of 1944, Tawas City seventh graders had collected another 30 or more bags of milkweed pods for the war effort. Those bags were combined with those collected by other children of the county and the county school commissioner's goal was reached.

This unusual wartime program was not repeated in 1945, for "VE Day" and "VJ Day" brought an end to hostilities and the subsequent need for dried milkweed floss to fill life jackets and flying suits of military personnel.

Michigan's milkweed, which provided a unique bounty to the country during World War II, reverted to its "weed" status in peacetime, but its deep roots still cling tenaciously to the soil of northern portions of the state—perhaps awaiting the day when industry will rediscover that the tiny, natural hollow fibers encased in the pod have a valuable use equal to that found during wartime.

In the meantime, children still have fun breaking open ripe pods and scattering the floss-bearing seeds before the wind, insuring a never ending supply of milkweed.

WITH THEIR BAGS full of milkweed pods, these children were pictured by The Tawas Herald in 1944 while gathering on the steps of their school after a day of picking.

Established 1884

Editorial—

State Rep. Tom Alley of West Branch, who seems to be making a name for himself as one elected official who goes to great lengths to learn the wishes and needs of all of his constituents, was in Tawas City September 4 on the last leg of a rather unusual tour through his district.

Alley rode "shotgun" on a delivery truck operated by a West Branch soft drink bottling firm. His reason for the ride was to get first hand information from small store owners along the route, who have been affected by Michigan's ban on throw-away containers.

During a brief visit to the Herald office, Representative Alley said his trip through the backroads leading from West Branch to Tawas City clearly indicated that Michigan's bottle ban is working—anyone who has driven or jogged along area highways say the same thing—there has been a tremendous visible reduction in the volume of litter, broken glass and cans scattered along our roadsides.

Although official statistics are not in, another benefit of the "bottle bill" is the reduction in the amount of trash collected and disposed of in sanitary landfills, along with a dramatic savings in raw materials. Before the bottle bill, this state was well on the way to becoming smothered under huge piles of throwaway cans and bottles,

which are now being recycled because of the deposit provided by law.

Michigan's consumers have adapted to the minor inconvenience of returning empties to the store; bottlers and store owners have weathered the storm, too, but there still is a strong movement afoot by well organized special interest groups to overturn the ban.

Representative Alley said he understood the problem of small store owners and distributors, who must provide storage and handling facilities for the exchange of filled cans and bottles for empties. He said he was studying the possibility of centralized collection points to reduce this inconvenience and cost. He did not specify how those collection points were to be financed.

Public hearings on the impact of the bottle bill were held last week throughout the state—one being scheduled Friday at Alpena. It is still too early to learn the outcome of those hearings, but any watering down of or overturn of Michigan's bottle ban would definitely be a step backward and one which would certainly go against the grain of Michigan voters, who approved the bottle bill as a constitutional amendment.

The latter fact should be of paramount consideration by the Michigan Legislature during committee discussion on the impact of this state's bottle bill.

(Read Matthew 5:1-12)

"Truly, I say to you, unless you turn and become like children, you will never enter the kingdom of heaven." (Matthew 18:3 RSV)

A newspaper in my city publishes a daily article in which the writer talks about everyday occurrences. One of these I appreciated very much because it told about an occasion when a child taught a older lesson.

The writer said that on a certain day he took an elevator. A little girl about 10 years of age got on the elevator at the same time. She was going to the third floor and he was going to the 10th. Joking with the girl, he said, "I am going higher than you because I want to get closer to heaven."

"Why do you want to get closer to heaven?" she asked.

"In order to see God," he replied.

As the door of the elevator opened and the girl left, she said, "In order to see God you do not have to go up because God is in our heart."

Even a child can learn this lesson. God through the Holy Spirit lives in our heart. We need to feel His presence and in that way, we can more easily bear the difficulties of life and solve our problems.

PRAYER

O Lord, help us to feel Your presence in our hearts each moment of our lives. Amen.

THOUGHT FOR THE DAY
God is not up or out, but in—Jacyrá S. Fernandes Silva (Sao Paulo, Brazil)

Antique Doll Showing Was Big Success

Showing of the antique doll collection at the Iosco County Historical Museum in East Tawas was during the past three weeks was very successful, according to Harris Barkman, president of the Iosco County Historical Society. More than 1,000 persons visited the museum during the month of August, with almost all viewing the dolls. This was the greatest number of visitors in a month at the museum since it was opened.

Several other exhibits being planned for the near future include a display of several model ships. The society is awaiting confirmation from the Michigan State University Museum before dates can be named for the showing.

The museum will house a large collection of china soon and it is expected this exhibit will be there for permanent showing.

Other activities being planned will include county-wide interest. Further information will be published as the projects are formulated.

Iosco County Historical Museum at 405 West Bay Street, East Tawas, is open from 1:00-5:00 p. m. Thursdays through Saturdays.

IMPORTANT NEWS FOR BACKACHE SUFFERERS!

MOMENTUM® Tablets are 50% stronger than Doan's.

Before you take Doan's Pills for muscular backache, remember this: MOMENTUM Tablets are 50% stronger than Doan's. That means MOMENTUM gives you 50% more pain reliever per dose to relieve backache.

To reduce pain, soothe inflammation so muscles loosen—you can move more freely in minutes! There's no stronger backache medication you can buy without a prescription than MOMENTUM Tablets. Take only as directed.

Five-year-old Christina Cheske, who was among 138,000 youngsters beginning kindergarten classes this year, helps Anderson display the campaign poster which was distributed to 4,200 schools. Anderson, who was made an honorary safety patrol captain, urges parents and motorists to assume a direct responsibility for the safety of Michigan school children.

Know Your Michigan Law

By Attorney General FRANK J. KELLEY

the court of appeals decision may ask the supreme court to review that decision. If the supreme court believes the court of appeals judgment may be wrong or in conflict with other decisions, it may grant an appeal.

If an appeal is granted, each party will again file a brief in support of its position and the court will hear oral arguments. A written opinion is generally issued following the oral arguments and any of the seven justices may file a separate opinion.

Opinions published by the two courts provide guidance to trial courts as to cases they will hear in the future.

Appellate proceedings in the Michigan Supreme Court and Michigan Court of Appeals are two important aspects of the state's legal system. Yet, both usually function out of the public spotlight.

The Michigan Supreme Court consists of seven justices elected on a nonpartisan ballot. It has general supervisory responsibility for all other state courts and hears appeals from lower courts.

The court of appeals consists of 18 elected judges. It operates with three-judge panels to review decisions by trial courts.

A person dissatisfied with a trial court judgment has a constitutional right to file an appeal in the court of appeals within a certain number of days of the trial court judgment.

The appellant must provide the court with a transcript of trial proceedings, papers and exhibits and a written argument or brief which argues that the trial court's judgment was wrong.

After that brief has been filed, the other party has 40 days to file a brief with the court to persuade them that the lower court judgment was actually correct and should be upheld.

An oral argument will then be scheduled before the three-judge panel. The judges generally ask questions during the oral argument which bring up for discussion the most important aspects of the case.

Afterwards, reflecting on the argument and reviewing the briefs, the court issues an order affirming, reversing or modifying the lower court's judgment. A judge disagreeing with the majority decision may write a dissenting opinion.

Highlights And Sidelights
State Funds Economic Development

GAYLORD — The Michigan Department of Commerce has agreed to consider a MEDIC (Michigan Economic Development Incentive Concept) proposal to fund a 14-county economic development program. The program would be operated by a professional staff, which would include an industrial development director, an assistant, a manpower liaison officer and a secretary.

The state would contribute 75 percent of the costs for the first year, 50 percent the second year, 25 percent the third year and the local group would be on its own thereafter. The plan is sponsored by the Northeast Michigan Economic Development Association (NEMEDA), organized about two years ago. Over-all budget of the proposal approaches \$100,000 a year,

sufficient to attract a professional industrial developer with a track record, clients and contacts. It is anticipated that the local share for the first year would be about \$37,000, including \$15,000 from the three colleges to help coordinate the manpower office and \$22,000 from cities, counties, industrial development corporations and financial institutions.

Roger H. Rehberg, Northeast Michigan director of the Upper Great Lakes Regional Commission, said the present NEMEDA program, staffed by himself along with his other duties, has considerable inquiries, "but is wholly inadequate when it comes to following up leads. The new MEDIC will be a complete program and will show dramatic results."

The new NEMEDA-MEDIC

will include membership from all who contribute. A new executive board of directors would be selected, one-third from the public sphere, the rest from business and industry.

"The whole area can forge ahead if we work together; divided, we will continue to have seven of the lowest income counties in the state," said Rehberg.

A task force selected by Robert Forsyth, Standish, president, include Ralph Western, East Tawas, member of the Tawas Area IDC; Bernard Olson, city manager, West Branch; Dr. Charles Corrigan, Mid-Michigan Community College, Harrison; Casey Cohen, director, Alpena Chamber of Commerce; Roy Spangler, Michigan State University extension agent, Roscommon.

Fewer Patents Issued to US Citizens

WASHINGTON, D. C.—Some 2,418 Michigan inventors made history in 1978 when they joined an exclusive club that includes

such famous persons as Abraham Lincoln, Mark Twain, Eli Whitney, George Westinghouse, Wilbur and Orville Wright and others whose inventions created new industries and provided millions of needed new jobs.

They became members of this elite group when the United States Patent and Trademark Office granted them patents for their inventions. The others, of course, were admitted to the club some time ago.

The total number of patents granted to Michigan residents last year was the seventh highest in the nation—one patent for each 3,800 residents of the state. California led the nation with

6,009 patents. United States inventors received a total of 44,150 patents, the equivalent of one to every 4,939 persons in the total population.

Virtually every major invention that has contributed to America's growth has been patented. The exclusive 17-year patent right has served to spur the innovation and creativity and provided a profit incentive to inventors. It also has helped pay for the time and money poured into the inventive process.

The nation's technological innovation is slowing, judging from the fact that Michigan was seventh in the nation in 1973 with 3,091 patents. The number dropped to 2,418 in 1978.

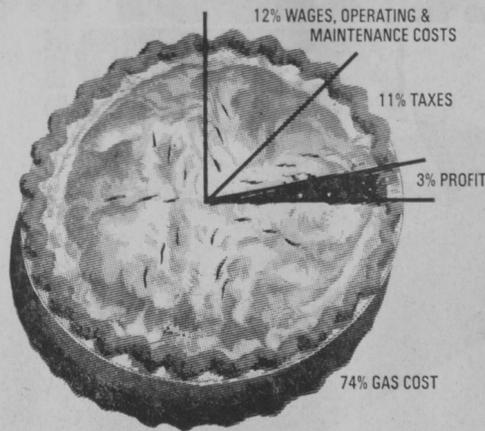

This drop in five years reflects an erosion of technological progress that is going on

throughout the nation. Donald W. Banner, United States Patents and Trademark commissioner, recently commented that "so far, we still lead the world in innovative technology: The laser, the transistor and a host of other innovations attest to this. But, it seems that technological innovation is slowing."

Banner said that in 1978, fewer patents were issued to United States residents while patents to non-nationals increased. "The share of United States patents obtained by foreign nations now stands at 37 percent, up from about 20 percent in 1964."

Foreigners are pooling their resources and a friendly relationship between industries and governments in other nations is reducing American competitiveness in the world marketplace.

Our piece of the pie isn't much to sink our teeth into.

It costs money to operate a business. Here's how Michigan Consolidated spends each dollar it receives from you:

A large portion—74 cents—pays our suppliers for the natural gas we purchase from them.

A healthy slice—12 cents—pays our employees and operating and maintenance costs. Eleven cents pays taxes, interest on borrowings and depreciation.

After all the bills are paid, Michigan Consolidated keeps only about 3 cents profit.

Our share of your natural gas dollar isn't very much, but it's vitally needed. It provides the return that investors require to finance new gas supplies and facilities. And these are necessary so we can continue to deliver the natural gas you need—now, and in the future.

If you'd like to learn more about natural gas costs, write for our free booklet "Nobody Likes Higher Gas Bills. Including Us." Michigan Consolidated Gas Company, Public Affairs Activity, One Woodward Avenue, Detroit, MI 48226.

Season Draws Near

Community Concert Membership Campaign Opens September 17

The membership campaign for the upcoming season of Community Concerts begins Monday, September 17, and will run through Saturday, September 22, it was announced today by William A. Graf, East Tawas, president of the Community Concert Association.

Said Graf, "As you can see from the talent displayed in our advertisement in this week's Tawas Herald, our fourth season of community concerts promises outstanding musical entertainment for this community."

Remove hard callus skin without cutting, scraping!

From feet, hands, elbows Doctors find that hard, thick calluses often can be softened and removed medically. The same ingredient doctors find so effective is available in DERMA+SOFT™ Medical Formula for Hard Callused Skin

The association president went on to point out that while talent costs have risen sharply, the board of directors has decided against any increase in membership dues this season. "We are holding the line," he said. "Individual memberships for the coming season will remain at last year's fees."

In anticipation of problems that could force an increase in membership dues next year, the Community Concert Association has established a plan to provide additional revenue to assure continued concert quality without increasing costs to the individual concert-goer. Business establishments and many civic-minded citizens will undoubtedly wish to participate in this plan which is explained in the Community Concert Association advertisement which appears adjoining this story.

"Campaign workers will be working hard next week," said Graf, "if they should miss contacting anyone, call me in East Tawas at 362-5371; Mary Aune, 739-9672, or Eleanor Gamble, 739-5322, Oscoda."

Laura Benson's Art is Featured

Laura Ostrem Benson is one of the new members of the Tawas Bay Artists and one of the more active painters in the group. She has studied art from high school through college, earning a bachelor degree in art and graduating from the University of South Dakota with a master degree. While at the university, she painted a large mural for the history department of steamboats on the Missouri River in Yankton, South Dakota. She worked for the Robinson Museum and painted a 240-square-foot mural background for the Sioux Indian exhibit.

Mrs. Benson has taught art in the schools of Lake View, Iowa, for two years. When her husband was stationed at Wurtsmith Air Force Base, she became interested in and joined the Tawas Bay Artists.

In her one woman show, Mrs. Benson will include watercolors, acrylics, pastels and oils. She enjoys painting local scenes, especially old structures. However, watercolors are her first love and she does them exceedingly well.

The art gallery will be open from 1:00 to 5:00 p.m. Friday and Saturday, September 14-15, for the showing of her fine art display. The public is invited to meet the artist and view her works.

GUARANTEED!

You'll never wax a car again!

Introducing **MODOMAC 44** a new concept in cleaning and protecting the finish of your vehicle aircraft, boat or recreational vehicle. It's an external treatment that's warranted to last!

MODOMAC 44 is a professional application not a wax job. It doesn't employ plastics. It doesn't require re-application for years and years. It doesn't smear or soften in heat. It won't streak, etch or oxidize aluminum surfaces. It won't craze or check in cold temperatures.

MODOMAC 44 is a tested proven treatment. Although new to this community it has been seven years in development in other parts of the United States. The process is derived from that used to clean and protect commercial surfaces to keep them shining with sparkle and free of damaging contaminants (induced by the constant use of cleaners during extensive heavy usage).

The chemical utilized in the process is a blend of silicon cleaners hardeners and sun screens formulated for easy cleaning. The result is a smooth characteristic that guards the surface, tending to make foreign materials slip off and not stick.

Available for any hard non porous surface the Modomac 44 treatment is not diminished by detergents. Yet it gives the finish a showroom new look for years restoring paint and eliminating the need for waxes chrome cleaners and compounds.

MODOMAC 44 has more features than other systems

- Available on cars boats airplanes trucks vans motorcycles recreational vehicles busses mobile homes etc
- Increases surface life preventing paint from fading or losing brilliance
- Lasts many times longer than conventional treatments
- Resists harsh detergents, yet can be washed and washed
- Seals out rain salt sun dirt water grease fuel spills bird droppings bug stains tree sap road tars
- Protects in extreme heat and cold
- Restores metal to new appearance prevents tarnish
- Removes oxidations prevents oxidizing
- Increases re-sale or trade-in value
- Encourages dirt to slide and blow off
- Keeps decals and lettering bright and clear

WHAT A WARRANTY! With a Modomac 44 treatment, you get a 4-YEAR protective surface control limited warranty on your new vehicle.

Your vehicle will retain its gloss and resistance or the Modomac 44 surface coating will be replaced at no charge.

Call today for information or an appointment **362-8531**

List Building Applications Approved in Iosco County

Building permits for the month of August in the county totaled \$704,269 for a collection fee of \$3,216, according to Edward Sterling, building inspector.

One hundred permits issued in the cities and townships included Alabaster: Joseph Theis, addition, \$8,000; John Schirmer, aluminum siding, \$2,300. AuSa-

ble: John L. Andrews, garage, \$3,520; Victoria Wightman, breezeway, \$700; Jack Hoyle, addition, \$12,500; Muriel J. Pasterz, siding, \$353; Dennis Bencz, modular residence with basement and garage, \$32,000; Gerald LeCureux, residence, \$25,000; Charles R. Robinson, addition to garage, \$800; John Chase, wire fence, \$58; Oscar

Riding, garage, \$3,072. Baldwin: Bruce Meyer, garage addition, \$1,000; Rodney Lorenzo, garage, \$5,000; Madelon Henderson, addition, \$2,250; J. B. McLaughlin, garage, \$5,000; George Boyke Jr., remodel and reroof residence, \$2,500; Della Moe, swimming pool, \$5,000; Tom Bohmier, garage, \$3,000; Rialta T. Smart, garage addition, \$2,800; Wallace Garvin, porch and slope roof, \$500; Dick Gierman, garage, \$3,250.

Grant: Roger Talaga, summer residence, \$19,000; Phillip Merrill, addition, \$2,000; Joseph Pichla, addition, \$2,000; Jerry Shook, addition, \$1,850; James Joynt, garage, \$3,800; Rupert Moulton, mobile home, \$6,000; Gerald DuFour, garage, \$3,300; Joseph Nemiesheski, addition and siding, \$2,835; Russell Bright, addition and ramp, \$3,280.

Oscoda: William Crowe, porch, \$2,000; Donald Roberts, garage, \$3,000; G. John McDonald, siding, \$800; Gary W. Cordell, residence, \$18,000; Carol L. Neil, siding, \$1,100; Richard Dean, addition, \$12,500; Hershel F. Lee, fence, \$50; Dr. R. W. Elliott, fence, \$300; Willard Blackburn, fence, \$421; Oscar DeVolder, garage, \$2,000; Sev-

en-Eleven Stores, convenience store, \$9,300; Jurl Tanner, garage, \$2,000; Alfred D. Riske, residence, \$20,000; Tony Peters, residence, \$16,000; Richard J. Rottman, mobile home, \$50; Larry Wren, repair and alter residence, \$5,000; Dr. Richard Elliott, addition, \$2,850; Norman Olmsted, addition, \$7,500; Bud Manderochio, garage, \$4,000; Judy Stranahan, mobile home, \$500; Sears Roebuck, chain link fence, \$735; Anita Gawne, residence with garage, \$37,000; Jan Thompson, addition, \$8,000;

John M. Walsh, lean to on shed, \$450; Bob's Breakfast Hut, sign, \$25; Robert Meyers, mobile home, \$150; Robert Hummell, addition, \$20,000; Fred Miller, basement, \$2,000; John Franko, garage door, \$100; Sherman D. Little, sign, \$50; Sherman D. Little, garage, \$2,000. Plainfield: Clayton E. Howard, storage building, \$500; Donald Brandt, residence, \$25,000; Jerome K. Albosta, garage, \$1,800; Theda Curtis, mobile home, \$5,000; Leland Ebersole, residence, \$24,000; Clyde Ran-

ger, garage, \$4,000; George Treglow, garage, \$5,000; Larry M. Shaum, residence, \$18,500; Clarence Castle, garage and breezeway, \$4,500; Harold Banister, alteration of office, \$2,000; Herbert Smith, pole building, \$9,208; Hubert Pierce, addition, \$1,800; Hale Elevator, grain storage and receiving pit, \$10,000; Gerald Corey, residence with garage, \$37,000; Hal C. Katterman, demolish service station, \$1,000; Carl Nagel, garage, \$3,000; Bernard Yoesting, residence, \$18,000; Charles Rei-

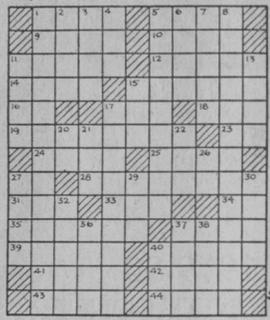

del, addition, \$3,500; Robert Alward, garage, \$4,000; John Boyce Jr., storage shed, \$650; Donald Arnold, garage, \$1,500; Charles Brunett, addition, \$500; Lester Burton, mobile home, \$16,000; Eugene Lueker, garage, \$2,000. Reno: Lloyd Dissmore, addition to mobile home, \$2,550; Leonard Barr, residence, \$44,000. City of Tawas City: Doyce Moe, addition, \$8,000; Chris King, garage, \$2,000; Stanley Polobino, garage, \$3,300; Pro-

vincial House, storage building, \$600; Photo Fast, photo kiosk, \$2,000; Austin Fisher, storage shed, \$60; John LeClair, remodel office, \$9,452; Max L. McComb, addition, \$3,800; Coyle's Restaurant, enclose porch, \$1,000; Dawn Donuts, remodel building for restaurant-bakery, \$50,000. City of Whittemore: Bernetta G. Bouchard, mobile home, \$2,000. Wilber: Leroy LaVigne, residence, \$40,000; Stanley Kubisak, garage and tool shed, \$2,000.

Tawas Braves Won Home Opener Over Mustangs, 27-6

Tawas Braves rolled to a 27-6 season opening victory Friday night over visiting Sanford-Meridian in a nonconference game. With three straight games on the road, Tawas fans will not get another chance to see the Braves on their home field until October 5.

Bryants Wilkie, senior halfback, set the pace for Tawas' easy win by rushing for 171 yards and scored three touch-

downs. Turning in an equally outstanding game was another senior halfback, Jim Gracik, who scored on a four-yard plunge and p'cked up 130 yards during the night.

Tawas struck early in the game after a fumble stalled its first drive on the Mustangs' 39-yard line. The visitors tried to pass against the Tawas defense and a bad snap on fourth down put them in trouble.

The Braves took over on the visitors' 37-yard line and Wilkie scored on the second play from scrimmage with six minutes, 15 seconds, remaining in the first quarter. John Brockenbrough kicked the first of his three extra points during the night.

Late in the first quarter, senior defensive back, Bill Rigg, intercepted a Mustang pass on Tawas' 32-yard line. From

there, Tawas scored in 12 plays with Wilkie plunging over from the four-yard line. Brockenbrough kicked a point after touchdown and Tawas held a 14-0 lead with seven minutes, 26 seconds, to go in the half.

The Mustangs' quarterback was sacked by Jeff Wojahn of Tawas to open the next series and the visitors tried two passes before punting out of trouble. Gracik and Wilkie combined their running talents for five plays and Wilkie scored after taking a pitchout from Quarterback Jay Grabow, the play covering 27 yards. Brockenbrough converted the PAT and Tawas held a 21-0 lead.

Before the half ended, Brian Norton, senior center, made a good stop on a defensive play but was so shaken that he had to leave the field for the rest of the night.

A fumble recovery by Joe Paitl, senior tackle, was wasted early in the third quarter as Tawas drove down field to the Mustangs' four-yard line, only to lose the ball on a fumble. Gracik did most of the running the next time Tawas got its hands on the ball and, in seven plays, he scored on a four-yard plunge with 11 minutes, seven seconds, remaining in the third quarter.

That touchdown ended the scoring for Tawas, but the Mustangs scored in the fourth period as Ron Fillmore connected with Kirk Shauger for a 24-yard scoring pass.

Tawas rolled up 327 yards total offense and had some good defensive play from Hugh Ho-facer, three solo tackles and four assists; Rigg, three solo tackles; Scott Klemish, two solo tackles and four assists.

The Braves play Friday at Boyne City in another nonconference game and are scheduled to meet Gladwin Friday, September 21, to open the North-eastern Michigan Conference schedule. The Flying Gs won Friday night over Beaverton, 8-3.

TA Junior Braves Lost First Game

Tawas Jun'or Braves lost to Sanford-Meridian, 14-12, in the season opener played Thursday night on the winner's home field.

The Junior Braves racked up 174 offensive yards during the night, 159 by rushing and 15 by passing. Tawas had eight first downs and had only one fumble. Two interceptions hurt the cause.

Kelly Moffatt scored in the first quarter for Tawas on a one-yard plunge while Curt Leslie scored in the second period on a 70-yard punt return.

Sam Walter scored for Sanford on a 60-yard run and Steve Walter scored on a 32-yard run. Dan Walter scored a two-point conversion to provide the winning margin.

Defensive standouts for Tawas include Dave Sterling, 12 tackles; Chris Jacobs, nine tackles; Tom Dunn, nine tackles; Jeff Douglas, eight tackles.

John Wiese was leading ground gainer for Tawas with 69 yards in 23 carries. Mark Tousley picked up 26 yards in 14 carries, Moffatt had 47 yards in 15 carries and Leslie had 17 yards in three carries.

shown in the photo, presented the band's first half time concert of the season.—Tawas Herald Photo.

JIM GRACIK turned in an impressive game Friday night for the Braves, scoring one touchdown and carrying the ball for 130

yards on 20 carries. The Braves opened the season on the right foot with a win over Sanford-Meridian.—Tawas Herald Photo.

BRYANT WILKE (40) was the big gun in Tawas' offensive attack Friday night, scoring three touchdowns and rushing for 171

yards. He is shown above following his blocker, Bill Rigg, on the way to his first touchdown.—Tawas Herald Photo.

Who says you need \$10,000 to earn big interest?

New:

FOUR-YEAR SAVINGS CERTIFICATES...a new way to earn even bigger interest on your savings, with a minimum deposit of only \$500. Mutual's new four-year Savings Certificate rate varies and is based on current U.S. Treasury yields. And you will earn a quarter percent more than all banks pay on these savings instruments. This is the highest rate Mutual has ever offered for less than a \$10,000 deposit. Check with Mutual for the current rate and check your savings in for more interest.

There's an interest penalty on early certificate withdrawals.

New:

CONTINUOUSLY COMPOUNDED SAVINGS ACCOUNTS... you will earn the best rate in town on a Statement Savings account when you save with Mutual. Our new 5.50% account pays you a big 5.73%. That's a quarter percent more than all banks pay on regular savings accounts. You don't have to be a big saver to earn big interest at Mutual Savings.

More:

EMERGENCY CASH — Available at over 4,500 locations.

FEE-FREE — Travelers checks and money orders.

SATURDAY SAVINGS — All our 22 convenient locations are open 'til noon each Saturday.

Isn't it time you got more for your savings dollar?

Stop in at any of Mutual's 22 convenient Mid-Michigan locations and get the clear savings picture. Mutual Savings pays a quarter percent more than all banks on four-year Savings Certificates and Statement Savings accounts.

ry Cholger spent the week-end visiting the Harold Cholger family.

Steven Hyzer returned to Grand Rapids on Monday after visiting Mrs. Cleona Hyzer on the week-end.

Last week-end, Mr. and Mrs. Kenneth O'Brien attended their nephew's wedding in Detroit.

Relatives gathered Thursday night at the Clarence Krueger home and helped him celebrate his birthday. Lunch was served with all good wishes.

Kenneth Sherman has returned home after spending a few days in Tawas Hospital. Get-well wishes are sent.

BACK-TO-SCHOOL CLOTHING FOR KIDS

(Part three of series)

Remember when little girls wore starched pinafores and matching tights to school each day and young boys looked like they were going to church, not school, in their white shirts, striped ties and dark blazers?

Well, parents with school-aged children already know that does not happen anymore. Today, most children wear jeans to school.

If planning to buy jeans for children to wear to school this fall, remember these tips suggested by Isabel Jones, clothing specialist, Michigan State University Cooperative Extension Service.

Since the price of jeans is rising even for young children, shopping wisely for well-constructed, easy-care jeans will save money in the long run.

Jeans are usually made of 100 percent cotton or a cotton/polyester blend. Regardless of fiber content, check to see that the fabric is firmly woven for durability. Loosely constructed, lighter weight fabrics will not hold up as well under rough wear.

Examine seams to make sure they are closely and evenly stitched. Seam allowances should be finished to prevent raveling. Flatfelled seams are commonly used to finish off jeans. With this finish, seams are sewn twice and completely enclose seam allowances on both the inside and outside of the pants. The double stitching is strong and long-lasting. If seams are not flatfelled, they should be overcast to prevent raveling.

Look for reinforcements on jeans. Thread bar tacks or rivets at places of stress (pocket corners, where belt loops are sewn to waistbands, zipper plackets) will help jeans last longer.

To keep their fit over time, jeans should be shrink-resistant. If the label does not say "no shrinkage" or "guaranteed not to shrink more than one or two percent," one cannot be assured that the jeans will not shrink. However, buying a large size and hoping it will shrink to fit the child is not a good idea because often jeans will not shrink

proportionately.

Remember to check the permanent care label attached to one of the seams for directions on how to maintain the jeans. Follow the care instructions carefully to preserve the dimensional stability of the pants.

Jeans are usually washed in warm water. Wash dark colored jeans with other dark clothes and pastel and white jeans with

regular wash. Use bleach in the wash cycle only if wanting the jeans bleached. Bleaching is not necessary to make blue jeans fade—this process occurs naturally.

Before washing and drying jeans made of cotton/polyester blends, turn them inside out. This will prevent pills of fiber from forming on the fabric as it moves about within the agit-

ing machine. Also, close zippers and snaps to prevent them from rubbing against other garments in the machines.

Tumble dry jeans on medium heat or the dryer's permanent press cycle and remove them promptly after the dryer stops. This will usually eliminate the need for ironing. If pressing is necessary, a steam iron will do the best job.

IN THE SERVICE—

Deployed in Great Lakes

Robert E. Reichard, navy hull maintenance technician third class, whose wife, Linda, is the daughter of the Joseph Clements of National City, recently departed for a deployment in the Great Lakes. He is a crewmember aboard the tank landing ship, USS Fairfax County, homeported in Norfolk, Virginia.

During the six-week cruise, the ship will be transporting a marine corps representative unit from the Second Marine Division, based at Camp Lejeune, North Carolina, around the Great Lakes. They will participate in the 20th anniversary celebration of the St. Lawrence Seaway and put on static displays of marine corps equipment in Clayton and Buffalo, New York; Erie, Pennsylvania; Cleveland, Ohio; Duluth, Minnesota, and Sault Ste. Marie, Marquette and Detroit. They will also be stopping in Montreal and Quebec City, Canada.

Reichard joined the navy in June 1976.

Participated in Naval Operation

William R. Rawling Jr., navy patternmaker third class, son of Mr. and Mrs. William R. Rawling, Oscoda, recently participated in the United States Sixth Fleet operation "National Week 79" in the Central Mediterranean Sea.

He is a crewmember aboard the ammunition ship, USS Mount Baker, homeported in Charleston, South Carolina.

The week-long exercise involved 20 ships and 200 aircraft. Almost 15,000 sailors and marines participated. "National Week" was designated to test naval warfare techniques and proficiency in a simulated multi-threat air, surface ship and submarine warfare environment.

A 1973 graduate of John Glenn High School, Bay City, Rawling joined the navy in February 1977.

PUBLIC NOTICE

REGULAR MEETING—TAWAS CITY COUNCIL
August 20, 1979

Meeting called to order at 7:30 PM at City Hall by Mayor Cholger.

Present: Keiser, Cotter, Landon, Rollin, Cholger.
Absent: Lansky, Hayes.
Others: Manager Thomas, Supt. Look.
Minutes of Special and Regular meetings of August 6 approved.

Parks and Recreation Board July 12 minutes accepted. Motion by Keiser seconded by Cotter that Knighthole League be reimbursed \$40.01 expended for barriers; carried.

Planning Commission July 19 minutes accepted.

Water Board July 9 minutes accepted.

Motion by Landon seconded by Cotter that Council not start any business after 10:00 PM; roll call vote: Yes, Keiser, Cotter, Landon; No, Rollin, Cholger; carried.

Florence Upson read a request to Council that City pay the cost incurred by a group of electors in filing a mandamus action against the City Clerk, dismissed at plaintiffs' request by the Circuit Court on August 10. Motion by Keiser seconded by Landon that the matter be tabled; roll call vote: unanimous yes.

Ralph Knop of Edmands Engineering, Inc. explained Step II procedure, and stated that the costs are nearly 100% grant-eligible, for 75% EPA, 5% State, and 20% local funding for design and planning for aerated lagoon, rehabilitation of existing sewers, user charge system, industrial cost recovery system and industrial waste pre-treatment program. Resolution offered by Rollin, supported by Cotter, as follows:

BE IT HEREBY RESOLVED, that the City Mayor and Clerk be authorized to sign an Engineering Agreement with Edmands Engineering, Inc. in the amount of \$217,000 for completion of Step II Work, in accordance with Federal Regulations for Sewage Treatment Works. **AND BE IT FURTHER RESOLVED**, that the City of Tawas City authorized the filing of an application for a Step II Grant, and that the City of Tawas City appoints the City Manager, as the Authorized Representative to make application for construction grants for wastewater treatment works, including all assurances contained herein; roll call vote, unanimous yes; resolution adopted.

Motion by Keiser seconded by Cotter that Ruth Armstrong be appointed to Parks & Recreation Board, term expiring March 31, 1981, as recommended by that Board; carried. Other names suggested for remaining vacancy referred to P & R Board for recommendation.

Motion by Landon seconded by Cotter that Keiser and Hayes be appointed to serve on committee with two Planning Commission members to develop a set of restrictive covenants to apply to City-owned Industrial Park land; carried.

Ordinance No. 195, to Provide for the Vacation, Discontinuance or Abolishing of Streets, Alleys or Public Grounds and to Establish the Procedure Therefor, adopted on motion by Cotter, supported by Landon; roll call vote, unanimous yes.

Resolution proposed by Keiser, seconded by Landon, that, whereas the City Council deems it advisable to vacate all that portion of Maple Street between German Street and Court Street, and all that portion of Spruce Street between Maple Street and a line between Lots 2 & 3 of Block 23 and Lots 8 & 9 of Block 16 of F. Scheffler & Co.'s Addition to Tawas City, reserving unto the City easements for utilities and an easement at the west end of Spruce Street sufficient to provide a cul-de-sac turnaround, Tuesday, September 4, 1979 at 7:30 PM be appointed as the time for hearing objections, at the City Hall, 508 W. Lake Street, and that objections shall be filed in writing with the City Clerk; roll call vote: Unanimous yes; adopted.

Resolution proposed by Landon, seconded by Rollin, that, whereas the City Council deems it advisable to vacate the alleys platted in Blocks 1 and 2 of Porterfield's Addition to Tawas City, reserving unto the City easements for utilities, Tuesday, September 4, 1979 at 7:30 PM be appointed as the time for hearing objections, at the City Hall, and that objections shall be filed in writing with the City Clerk; roll call vote: unanimous yes; adopted.

PUBLIC NOTICE

Manager directed to negotiate with abutting owner interested in vacation of Jefferson Street between River Street and Tawas River, with a view to replacing that City-owned property with another lot.

Motion by Landon seconded by Keiser that proposed Ordinance amending Zoning Ordinance No. 162 sections 1300.9, 1209, 1005, and 1205.2 be introduced and given first reading; carried.

Ordinance No. 196, Regulating Construction and Related Activity Within Public Rights of Way, adopted on motion by Landon, supported by Keiser; roll call vote: unanimous yes.

Motion by Cotter seconded by Landon that Council approve proposal of Dorchen & Serlin to prepare preliminary cost estimates for municipal center for a fee not to exceed \$1,200, and that Edmands Engineering be authorized to make a topographical survey of the proposed site; roll call vote: Yes, Keiser, Cotter, Landon; No, Rollin, Cholger; carried.

Motion by Rollin seconded by Landon that \$767 be appropriated from surplus and unappropriated funds for City's share of energy conservation grant work done at City Garage; roll call vote: unanimous yes.

Motion by Landon seconded by Cotter that City pay \$960 fee for City Attorney's defense of City Clerk in recent mandamus action; roll call vote: Yes, Keiser, Cotter, Landon; No, Rollin, Cholger; carried.

Next regular meeting rescheduled from Labor Day to Tuesday, September 4, on motion of Keiser seconded by Landon, carried.

On motion of Cotter seconded by Keiser, Mayor and Clerk are authorized to sign Cooperative Agreement with DNR for 75% State funding on pier completion, up to \$57,000 maximum by State, during State's next fiscal year; roll call vote: unanimous yes.

Manager authorized to negotiate for purchase of Lot 6, F. Scheffler & Co.'s Addition.

On recommendation of Manager, motion by Rollin seconded by Landon that water department begin immediately to send quarterly bills to one-third of the City each month; roll call vote: unanimous yes.

On motion by Keiser seconded by Rollin, Seventh Avenue between First and Second Streets is reinstated in the 1979 street blacktopping program, cost approximating \$4575 being appropriated from surplus and unappropriated funds to Local Streets Fund; roll call vote: unanimous yes.

Upon receipt of information comparing costs, motion by Landon seconded by Rollin that City enroll in Michigan Municipal League Workers Compensation Self-Insurance Fund; roll call vote: unanimous yes.

Tawas Bay Artists' letter received, thanking City for use of City Park and for financial support. Manager directed to write a letter of thanks to the Artists, commending them for sponsoring such a fine Art Show.

Letter from Tawas City Elementary School principal stated the school gym was not available for use at August 7 election.

Announcement that MML Annual Meeting will be September 12-14 in Dearborn.

Treasurer's report for July distributed, as well as listing of equipment rental rates allowed by Department of Transportation.

Manager explained fees charged for bringing appeals to Zoning Board of Appeals include costs of mailing, for which applicant is responsible, and proportionate share of mem-

SPECIAL MEETING—TAWAS CITY COUNCIL

August 22, 1979
Meeting called to order at 10:10 AM at County Commissioner's chambers, Iosco County Building, Tawas City, by Mayor pro tem Cotter.

Present: Cotter, Lansky, Hayes, Keiser. Absent: Landon, Rollin, Cholger. Others: Manager Thomas.

This meeting called for the purpose of holding a Public Hearing and considering a Proposed Project Plan for a Medical Arts Facility. No parties were present to voice any objections, nor were any communications in writing received with reference to the hearing.

Public Hearing closed at 10:20 AM.

Resolution Approving Project Plan of a Medical Arts Facility, City of Tawas City, offered by Keiser, supported by Hayes; roll call vote: yeas, Cotter, Lansky, Hayes, Keiser; nays, none. Resolution declared adopted. Full text of Resolution on file in Supplementary Book of Minutes, pages, 50-52.

Meeting adjourned.
LOWELL THOMAS, City Manager, Acting Clerk
37-1b

ORDINANCE NO. 197

AN ORDINANCE AMENDING ORDINANCE NO. 162, BY SUBSTITUTING THE FOLLOWING FOR ENUMERATED SECTIONS THEREOF.

THE CITY OF TAWAS CITY ORDAINS THAT:

Subsection 9 of Section 1300 of Article XIII is amended to read:

9. Fences and Walls
Fences and wall may occupy a required rear or side yard, except that such fences may not exceed 4 feet in height, provided, however, that such fences may be built to a height of 8 feet where such property abuts a commercial or industrial zone; nor shall any fence include or be comprised of electrified or barbed wire.

IT IS FURTHER ORDAINED THAT:

The introductory paragraph to Section 1209, Article XII, is amended to read:

Wherever in this Ordinance a greenbelt or planting is required, it shall be planted prior to issuance of a certificate of occupancy and shall thereafter be reasonably maintained with permanent plant materials to provide a screen to abutting properties. Suitable materials equal in characteristics to the plant materials listed with the spacing as required shall be provided.

IT IS FURTHER ORDAINED THAT:

Section 1005, Article X, is amended to read:

The parking area shall be provided with a bituminous or concrete surface and shall be graded and drained as to dispose of all surface water accumulated within the area. The parking area shall be surfaced within one (1) year of occupancy of the use it is to serve if it is for a new use, and within six (6) months of the effective date of rezoning for P-1 Vehicular Parking use if the parking area is to serve an existing use or uses.

IT IS FURTHER ORDAINED THAT:

Subsection 2, Section 1205, Article XII, is amended to read:
2. Adequate ingress and egress to the parking lot by means of clearly limited and defined drives shall be provided for all vehicles. All parking lots and drives located in B-1, B-2, I, IP and RC Districts shall be surfaced in a manner equivalent to that which is provided for the parking areas under Article X, Section 1005.

ADOPTED IN ACCORD WITH SECTION 4.9 of the City

SOME FUN!

"I DREAMED SOMEONE DOWN HERE CALLED ME!"

PUBLIC NOTICE

Charter; to be published in the Tawas Herald September 12, 1979; effective date, September 14, 1979.

HERBERT W. CHOLGER
Mayor
RACHEL SUE MCCREADY
City Clerk

I hereby certify that the foregoing is a true and complete copy of Ordinance No. 197, duly adopted by the City Council of the City of Tawas City at a Regular Meeting held on September 4, 1979, and that public notice of said meeting was given pursuant to statute. I further certify that Councilman Hayes moved adoption of said ordinance and that Councilman Landon supported said motion. I further certify that the following members voted for adoption of said ordinance: Landon, Rollin, Cholger, Lansky, Hayes, Keiser; that no members voted against adoption of said ordinance; and that Councilman Cotter was absent from said meeting. I further certify that said ordinance has been recorded in the Ordinance Book of the City, and that recording has been authenticated by the signatures of the Mayor and City Clerk.

RACHEL SUE MCCREADY
City Clerk 37-1b

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the conditions of a certain mortgage made the 28th day of July, 1975, by Jan M. MacMillan, a single woman; as mortgagor, to the United States of America, as mortgagee, and recorded on July 28, 1975, in the Office of the Register of Deeds for Iosco County, Michigan in Liber 241 of Mortgages on pages 200-203; on which mortgage there is claimed to be due and unpaid at the date of this Notice Twenty One Thousand Eight Hundred Four and 60/100 Dollars (\$21,804.60) principal and One Thousand Three Hundred Twenty Two and 68/100 Dollars (\$1,322.68) interest; no suit or proceeding at law or in equity having been instituted to recover the debt, or any part of the debt, secured by said mortgage, and the power of sale contained in said mortgage having become operative by reason of such default;

NOW, THEREFORE, Notice is Hereby Given that on October 31, 1979, at 10 o'clock in the forenoon at the East Door of the County Building in Tawas City, Michigan, that being the place for holding the Circuit Court for the County of Iosco, there will be offered for sale and sold to the highest bidder, at public sale, for the purpose of satisfying the amounts due and unpaid upon said mortgage, together with the legal costs and charges of sale provided by law and in said mortgage, the lands and premises in said mortgage mentioned and described, as follows, to-wit:

That property located in Iosco County, in the State of Michigan. Lot No. 67 of Weir Pines

Eagle Offense Bogged in Opener, Shut Out by Alcona

Unable to get an offense rolling, Hale Area Eagles lost their home opener Friday night to visiting Alcona, 18-0.

The Eagles put together only 90 offensive yards, 47 by rushing and 43 by passing and Alcona Tigers rang up 210 offensive yards.

"We had three costly mistakes which hurt us on defense, but our offensive line just did not come through for us," said Coach Vern Reed II. He expects his charges to show some improvement this Friday night when the Eagles play host to the Whittemore-Prescott Cardinals.

The Eagle defense held Alcona on the first series, but a key defensive mistake on a punt led to the first touchdown as Kurt Shirwood scored from nine yards out.

Shirwood scored again in the second period when his touchdown run was set up on a 40-yard pass.

The visitors' third score came in the third period when Keith Krutcher scored from four

yards out after a reverse put the ball within striking distance on the previous play.

The Eagles were led by Dan Dear on defense with four tackles and six assists. Tom Lesneski turned in two tackles and nine assists, Ken Weyant had two tackles and eight assists, Jeff Dillon had one tackle and

eight assists and Mark Turnbull had two tackles and six assists. Dear and Glen Bell each recovered a fumble.

Bell was leading ground gainer with 29 yards in nine carries while Scott McDonald was next with 21 yards in six carries. Tom Sanders had 15 yards in two carries.

TA Linkmen Split Decisions

Tawas Area High School golf team split the decision in two games played last week. The Braves lost to Gladwin September 4 and then defeated Standish-Sterling on Thursday.

The junior varsity also split its two matches, losing to Gladwin and winning from Standish-Sterling.

Scores posted by the varsity against Standish-Sterling included Mark Jurczyk, 45; Jim Huck, 42; Tom Schriber, 39; Jim Palmer, 49; Kraig Moffatt, 45.

Against Gladwin, Tawas scores included Jurczyk, 38;

Huck, 41; Palmer, 43; Schriber, 40; Moffatt, 45.

Junior varsity scores against Standish-Sterling included Keith Harris, 49; Jim Alexander, 52; Pat Kaems, 51; Eric Groff, 49; Chris Patrell, 56. In the match against Gladwin, Tawas scores were Patrell, 58; Harris, 43; Alexander, 46; Groff, 51; Kaems, 50.

Tawas varsity lost to Gladwin, 206-207, and won over Standish-Sterling, 220-267. The junior varsity defeated Standish-Sterling, 257-312, and lost to Gladwin, 248-229.
